Collection Summary

Title: Gerry Mulligan Collection

Span Dates: circa 1940-1994

Call No.: ML31.M85

Creator: Mulligan, Gerry

Extent: Approximately 200,000 items ; 160 containers ; 80.0 linear feet

Language: Material in English

Repository: Music Division, Library of Congress, Washington, D.C.

Abstract: Gerry Mulligan (1927-1996) was an American jazz saxophonist, composer, arranger, and bandleader. The collection chiefly consists of scores, sketches, lead sheets, and instrumental parts for original compositions by Mulligan as well as for works by other composers. In many instances, there are multiple versions of Mulligan's best-known works. These music materials include manuscripts, holograph manuscripts, printed items, and reproductions. In addition, the collection includes a small amount of photographs, awards, clippings, programs, realia, song lists for different concerts or projects, and other miscellaneous materials.

Scope and Content Note

The manuscripts in the Gerry Mulligan Collection were processed in a manner that complements the arrangement of the original Gerry Mulligan Music Library.

Mulligan divided his library into sections that reflected specific musical groupings or projects. His categories included: music written for albums; lead sheets and sketches; concert jazz band arrangements and parts; miscellaneous arrangements for different size bands (12 or more/less musicians); small band; symphonic arrangements; song lists for different concerts or projects; and tentet arrangements and parts.

In this finding aid, titles are arranged alphabetically in the container list. Those that appeared in multiple categories in Mulligan's library are consolidated under a single heading for ease of navigation. All titles are original Gerry Mulligan compositions and arrangements unless noted. An index of arrangers found within the collection is provided at the end.

In addition, the collection includes a small amount of photographs, awards, clippings, programs, realia, song lists for different concerts or projects, and other miscellaneous materials.
