Subject: FTC TSR Regulations

I am writing in response to National "DO NOT CALL" Registry amendment.

I strongly believe that this law is a violation of our First Amendment rights.

"That Congress shall make no law abridging the freedom of speech, or of the press, or the right of the people peaceably to assemble and consult for their common good, and to petition the government for a redress of grievances."

By making legislation that closes one of our main super highways of communication, you are essentially cutting off an arm of our industry's force. Not only will you be putting thousands of people out of jobs, but disconnecting business' way of sales.

I am currently employed in a decent sized call center, and find it ridiculous that there is a law up for approval that is almost a duplicate of the current state DNC legislation.

Most call centers make a honest business from telemarketing work that follow the guidelines that are currently in place. This new law will punish those who legitimately follow "the rules."

A tougher set of DNC rules would simplify the problem, and make both consumer and business parties happy. The current law that is up for approval is unwanted and unnecessary.

In May of 2003 please vote against the new TSR amedment.

Thank you very much for your time,
Jenna Smith
