# Risk-Based Capital Reporting for Institutions Subject to the Advanced Capital Adequacy Framework—FFIEC 101

Report at the close of business September 30, 2010 (20100930)  
(AAXX 9999)

This report is required by law: 12 U.S.C. 161 (National banks), 12 U.S.C. 324 and 12 U.S.C. 1844(c) (State member banks and BHCs

respectively), 12 U.S.C. 1817 (Insured state nonmember commercial and savings banks), and 12 U.S.C. 1464 (Savings associations).

The FFIEC 101 is to be prepared in accordance with Federal regulatory authority instructions. The report must be signed by a senior officer of the reporting entity who can attest that the risk estimates and other information submitted in this report meet the requirements set forth in 72 Fed. Reg. 69288 (“the final rule” that implements the advanced approaches for determining risk-based capital for credit and operational risk) and the FFIEC 101 reporting instructions. The senior officer may be the chief financial officer, the chief risk officer, or equivalent senior officer.

To fulfill the signature and attestation requirement for the FFIEC 101 for this report date, attach the bank’s completed signature page (or a photocopy or a computer-generated version of this page) to the hard-copy records of the data file submitted electronically that the bank must place in its files.

The appearance of the bank’s hard-copy record of the submitted data file need not match exactly the appearance of the FFIEC’s sample report forms, but should show the caption of each reported item and the reported amounts.

I, the undersigned senior officer of the named bank, bank holding company, or savings association attest that the FFIEC 101 report for this report date have been prepared in conformance with the instructions issued by the Federal regulatory authority and that the reported risk estimates meet the requirements set forth in the final rule to the best of my knowledge and belief.

<sup>1</sup> Cells in line 16 are calculated, except for Column O.

<sup>2</sup> Not calculated from previous column entries.

<sup>3</sup> LTV values should be calculated using only first lien exposures. Where LTV information is available for all accounts, the sum of EADs reported in columns J through N for a given PD range should equal the amount reported in column E for that same PD range. Otherwise, the sum of EADs reported in columns J through N for a given PD range will be less than the EAD reported in column E for that same PD range. 6/08

<sup>1</sup> Cells in line 16 are calculated, except for Column O.

<sup>2</sup> Not calculated from previous column entries.

<sup>3</sup> LTV values should be calculated by combining junior liens applicable to amounts on this schedule with prior lien amounts. Where LTV information is available for all accounts, the sum of EADs reported in columns J through N for a given PD range should equal the amount reported in column E for that same PD range. Otherwise, the sum of EADs reported in columns J through N for a given PD range will be less than the EAD reported in column E for that same PD range.
