

discussion of the above-cited ministerial errors and the Department's analysis, see Memorandum to Richard W.

Moreland, dated April 26, 2000. We are amending the final determination of the antidumping duty investigation of PSF

from Korea to correct these ministerial errors. The revised final weighted-average dumping margins are as follows:

Exporter/manufacturer	Original weighted-average margin percentage	Revised weighted-average margin percentage
Samyang Corporation	0.14	0.14
Sam Young Synthetics Co.	(*)	(*)
Geum Poong Corporation	7.96	7.91
All Others	14.10	14.10
	11.38	11.35

* de minimis.

For Taiwan, we published *Notice of Final Determination of Sales at Less Than Fair Value: Certain Polyester Staple Fiber from Taiwan* 65 FR 16877 (March 30, 2000) and *Notice of Amended Final Determination of Sales at Less Than Fair Value: Certain Polyester Staple Fiber from Taiwan* 65 FR 24678 (April 27, 2000).

Antidumping Duty Orders

On May 15, 2000, in accordance with section 735(d) of the Act, the U.S. International Trade Commission ("ITC") notified the Department that an industry in the United States is "materially injured," within the meaning of section 735(b)(1)(A) of the Act, by reason of less-than-fair-value imports of PSF from Korea and Taiwan. In its final determination, however, the ITC determined that two domestic like products exist for merchandise covered by the Department's investigation: (1) low-melt PSF and (2) all other types of PSF not specifically excluded. The ITC determined pursuant to section 735(b)(1) that a domestic industry in the United States is not materially injured or threatened with material injury by reason of imports of low-melt PSF from Korea and Taiwan. Accordingly, the scope of these antidumping duty orders has been amended from that used in the investigations to exclude low-melt PSF.

Sam Young and Geum Poong, the two respondents included in the Korea order, did not make sales of low-melt PSF during the period of investigation. Therefore, it was not necessary to recalculate the margins to exclude sales of low-melt PSF for these Korean respondents. However, we recalculated, for purposes of the Taiwan order, the estimated dumping margins for both respondents in Taiwan by excluding sales of low-melt PSF from our analysis. The revised estimated dumping margins for Taiwan are found below.

The Department will direct the U.S. Customs Service to assess, upon further advice by the Department, antidumping duties equal to the amount by which the normal value of the subject merchandise

exceeds the export price or constructed export price of the subject merchandise for all relevant entries of PSF from Korea and Taiwan, except for subject merchandise produced in Korea and imported from Samyang, which received a *de minimis* final margin. With respect to Korea, all bonds may be released and entries by Samyang may be liquidated without regard to antidumping duties.

For all other manufacturers/exporters from Korea, antidumping duties will be assessed on all unliquidated entries of PSF, excluding low-melt PSF, entered, or withdrawn from warehouse, for consumption on or after November 8, 1999, the date of publication of the Department's preliminary determination in the **Federal Register** (64 FR 60776). For all other manufacturers/exporters in Taiwan other than Nan Ya Plastics Corporation, Ltd., antidumping duties will be assessed on all unliquidated entries of PSF, excluding low-melt PSF, entered, or withdrawn from warehouse, for consumption on or after March 30, 2000, the date of publication of the Department's final determination in the **Federal Register** (64 FR 60771). For Nan Ya Plastics Corporation, Ltd., antidumping duties will be assessed on all unliquidated entries of PSF from Taiwan, excluding low-melt PSF, entered, or withdrawn from warehouse, for consumption on or after April 27, 2000, the date of publication of the Department's amended final determination in the **Federal Register** (65 FR 24678). Furthermore, we will instruct Customs to refund all cash deposits, or bonds posted, for entries of subject merchandise from Korea imported from Samyang Corporation and for entries of low-melt PSF from both Taiwan and Korea.

On or after the date of publication of this notice in the **Federal Register**, Customs officers must require, at the same time as importers would normally deposit estimated duties, cash deposits for the subject merchandise equal to the

weighted-average antidumping duty margins as noted below:

Exporter/manufacturer	Revised weighted-average margin percentage
Republic of Korea	
Samyang Corporation	Excluded
Sam Young Synthetics Co.	7.91
Geum Poong Corporation	14.10
All Others	11.35
Taiwan	
Far Eastern Corporation	11.50
Nan Ya Plastics Corporation, Ltd	3.79
All Others	7.31

This notice constitutes the antidumping duty orders with respect to PSF from Korea and Taiwan, pursuant to section 735(a) of the Act. Interested parties may contact the Central Records Unit, Room B-099 of the Main Commerce Building for copies of an updated list of antidumping duty orders currently in effect.

These orders are published in accordance with sections 736(a) and 19 CFR 351.211.

Dated: May 18, 2000.
