CEMENT IN MARCH 2012

This report provides monthly data on the shipments of cement to final customers and the production of clinker in the United States from January 2011 through the current month.¹ Data on the imports of cement and clinker for the current month are also provided.

Total shipments of portland and blended cement in the United States and Puerto Rico for March 2012 were nearly 6.0 million metric tons (Mt). This was 11% higher than shipments in March 2011 (tables 2A and 2B). Shipments for the year through March were 15.2 Mt, up by about 20%. The leading producing States in March were Texas, California, Missouri, Florida, and Pennsylvania, in descending order (table 1A), and accounted for nearly 47% of total output. The leading consuming States (Texas, California, Florida, Pennsylvania, and New York, in descending order) received about 40% of the March total shipments (tables 2A and 2B).

Clinker production totaled 5.3 Mt in March, about 7% higher than output in March 2011 (table 4). Production for the year

¹Footnoted revisions to the historical data are those received since the publication of the previous month's edition of this report. Data for the current month may contain revisions (not indicated by footnotes) received since the publication of the preliminary edition of the current month's report.

through March was 13.7 Mt, up by almost 16%. The leading clinker-producing States in March were Texas, Missouri, California, Alabama, and Florida, in descending order.

Masonry cement shipments in March of about 159,000 metric tons (t) were about 3% lower than in March 2011 (table 2C). Shipments for the year through March were 424,000 t, up by almost 10%. The leading consuming States, in descending order, were Texas, Florida, California, Georgia, and Tennessee; these received about 55% of March's total shipments.

Tables 5, 6, and 7 contain import data from the U.S. Census Bureau. Data for clinker imports into the Seattle and possibly the Detroit customs districts are likely incomplete owing to some shipments arriving overland from Canada on an informal entry basis. March 2012 imports of cement and clinker of about 429,000 t were about 6% higher than those in March 2011. Imports for the year through March were 1.09 Mt, up by almost 14%.

An e-mail notification will be sent to MI-CEMENT list service subscribers when new publications or data releases become available. For more information, refer to USGS Minerals Information Publication List Services at: <http://minerals.usgs.gov/minerals/pubs/listservices.html>.

-- Zero.

¹Includes white cement and clinker.

²Value = c.i.f. (cost, insurance, and freight).

³Data for the Seattle and Detroit districts for imports from Canada are believed to be underrepresented with respect to clinker.

⁴Material from China into Great Falls, MT, is believed to be from Canada.
