CEMENT IN SEPTEMBER 2012

This report provides monthly data on the shipments of cement to final customers and the production of clinker in the United States from January 2011 through the current month.¹ Data on the imports of cement and clinker for the current month are also provided.

Total shipments of portland and blended cement in the United States and Puerto Rico for September 2012 were about 7.0 million metric tons (Mt). This was slightly less than shipments in September 2011 (tables 2A and 2B). Shipments for the year through September were 59.6 Mt, up by about 10%. The leading producing States in September were Texas, Missouri, California, Michigan, and Florida, in descending order (table 1A), and accounted for about 42% of total output. The leading consuming States (Texas, California, Florida, Ohio, and Illinois, in descending order) received about 35% of the September total shipments (tables 2A and 2B).

Clinker production totaled about 6.0 Mt in September, about 3% more than output in September 2011 (table 4). Production for the year through September was 49.9 Mt, up by about 9%.

¹Footnoted revisions to the historical data are those received since the publication of the previous month's edition of this report. Data for the current month may contain revisions (not indicated by footnotes) received since the publication of the preliminary edition of the current month's report.

The leading clinker-producing States in September were Texas, California, Missouri, Florida, and Alabama, in descending order.

Masonry cement shipments in September of about 163,000 metric tons (t) were only slightly higher than those of September 2011 (table 2C). Shipments for the year through September were 1.47 Mt, up by about 5%. The leading consuming States were, in descending order, Florida, Texas, California, Tennessee, and North Carolina; these received 46% of September's total shipments.

Tables 5, 6, and 7 contain import data from the U.S. Census Bureau; however, data for clinker imports into the Seattle and the Detroit customs districts do not include material trucked in from Canada on an informal entry basis. September 2012 imports of cement and clinker of about 676,000 t were 31% more than those in September 2011. Imports for the year through September were 5.23 Mt, up by about 10%.

An e-mail notification will be sent to MI-CEMENT list service subscribers when new publications or data releases become available. For more information, refer to USGS Minerals Information Publication List Services at: <http://minerals.usgs.gov/minerals/pubs/listservices.html>.

-- Zero.

¹Data are unrounded but are believed to be accurate to no more than three significant digits.

²Includes imported cement and cement manufactured from imported clinker.

³Blended cement defined per ASTM standard C595.

⁴Includes U.S. possessions and territories.

⁵Data may not add to totals shown because of independent rounding.
