**97.022 FLOOD INSURANCE**

**FEDERAL AGENCY:**

Department of Homeland Security

**AUTHORIZATION:**

The National Flood Insurance Act of 1968, 42 U.S.C. 4001 et seq. authorized the National Flood Insurance Program (NFIP), Title 13, Public Law 90-448, 44CFR U.S.C Subchapter B.

**OBJECTIVES:**

To enable personal and business property owners and renters to purchase flood insurance coverage for buildings and/or contents in low-to-moderate flood risk areas, as well as in high-risk flood zones to reduce taxpayer provided federal disaster assistance and to promote wise floodplain management practices in the Nation's high-risk flood zones.

**TYPES OF ASSISTANCE:**

INSURANCE

**USES AND USE RESTRICTIONS:**

The maximum limits of flood insurance coverage for a building and/or personal property, eligible building types, and more detailed additional flood insurance information is contained in the Flood Insurance Manual available online at <http://www.fema.gov/business/nfip/manual.shtm>. In a Regular Program Community the residential building limit is \$250,000 and non-residential building limit is \$500,000. The residential contents limit is \$100,000 and the non-residential contents limit is \$500,000. Lower limits apply to a limited

number of Emergency Program buildings and buildings in Alaska, Guam, Hawaii and U.S. Virgin Islands and are listed in the Flood Insurance Manual. The Flood Disaster Protection Act of 1973, as amended by the Flood Insurance Reform Act of 1994, requires flood insurance purchased as a condition of any form of Federal or federally-related financial assistance, including Federal grants, disaster assistance, SBA low-interest disaster assistance loans, and mortgage loans from federally regulated lending institutions and FHA, Farm Credit Administration, VA or guaranteed mortgages secured by buildings in high-risk flood zones, which are called the Special Flood Hazard Areas (SFHAs). Communities having one or more identified SFHAs must enter into the NFIP within 1 year of the official identification of the SFHAs or be denied Federal financial assistance for acquisition or construction purposes within those areas. Federally regulated conventional sources (i.e., banks, savings and loan associations, or similar lending institutions) are permitted to make conventional loans secured by improved real estate or Manufactured Housing located or to be located in SFHAs of a nonparticipating community which has been formally identified as flood-prone for more than 1 year, but Federal disaster assistance for acquisition or construction purposes will not be available in the event of flood or flood-related property damage. The conventional lender is statutorily required to notify the borrower, before making a loan in such an area, that Federal flood insurance and disaster assistance will not be available to the property. The Coastal Barrier Improvement Act of 1990 amended the Coastal Barrier Resources Act of 1982 by greatly enlarging the acreage included in the designated coastal barrier resources system unit. The 1990 Act also added "otherwise protected areas." "Otherwise protected areas" are defined as an undeveloped coastal barrier within the boundaries of an area established under Federal, State, or local law, or held by a qualified organization, primarily for wildlife refuge, sanctuary, recreational or natural resource conservation purposes. The 1982 Act prohibits the sale of new flood insurance on or after October 1, 1983 for new construction or substantial improvements of structures located on any coastal barrier with the Coastal Barrier Resources System designated by this Act. The 1990 Act prohibits the sale of new flood insurance on or after November 16, 1990 for new construction or substantial improvements of structures located on any new coastal barrier within the Coastal Barrier Resources System designated or modified by this Act. It also prohibits the sale of new flood insurance on or after November 16, 1991 for new construction or substantial improvements of structures located in an otherwise protected area that are not used in a manner consistent with the purpose of the otherwise protected area. Subsequent pieces of legislation have added or deleted areas. Also, the Secretary of the Interior is authorized to make technical revisions and modifications to the boundaries of such units as may be necessary.

**Applicant Eligibility:**

Federal flood insurance can be made available in any community (a State or political subdivision thereof with authority to adopt and enforce floodplain management measures for the areas within its jurisdiction) that adopts and enforces floodplain management measures consistent with the National Flood Insurance Program regulations.

**Beneficiary Eligibility:**

Residential and business property owners, renters and state owned property.

**Credentials/Documentation:**

Same as Applicant Eligibility. This program is excluded from coverage under OMB Circular No. A-87.

**Preapplication Coordination:**

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

**Application Procedures:**

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. Community officials must submit an NFIP eligibility application form, which is available from the FEMA, together with: copies of adopted floodplain management measures meeting the minimum standards of 44 CFR Section 60.3(a), 60.3(b), 60.3(c), 60.3(d), and/or 60.3(e), as appropriate for the type of flood hazards identified; a list of any incorporated communities within the applicant's boundaries; and estimates of population and, by kind, of buildings

situated in the known flood-prone areas of the community. Such Applications should be submitted to the Mitigation Directorate, FEMA, Washington, DC 20472.

**Award Procedure:**

FEMA reviews the application and if complete, designates the community as participating. The community is informed of its admission, and notice is published in the Federal Register. Residents and property owners may then purchase flood insurance through any property insurance agent or broker.

**Deadlines:**

Contact the headquarters or regional office, as appropriate, for application deadlines.

**Range of Approval/Disapproval Time:**

For complete applications, a maximum of 10 working days is allowed for review and notification.

Communities with one or more identified special flood hazard areas must enter the program within 1 year after the identification of those areas or else prohibitions against Federally related financial assistance for acquisition or construction purposes in identified special flood hazard areas take force. Once the community does qualify, after the prescribed date, these prohibitions are removed. Adequate floodplain management measures must be in effect within 6 months of the date that the special flood hazard area is identified and within 6 months of the date flood water surface elevations are provided.

**Appeals:**

Communities are allowed to appeal flood-prone identification and are also given an opportunity to appeal proposed flood elevation determinations for new construction and substantial improvement of existing structures in the special flood hazard areas. Notice of the proposed elevations is published in the Federal Register and is sent directly to the local governments. Following notification to the local government, the notice of proposed flood elevation determinations is published twice during a 10-day period in a prominent newspaper. The local community and its individual residents then have 90 days following the second newspaper notice to submit any scientific or technical data that tend to negate or contradict FEMA's findings. If a conflict in data exists and cannot be resolved at the community level, the community consolidates all individual appeals for review by FEMA. FEMA shall resolve the appeals by consultation with officials of the local government, or by submission of conflicting data to an independent scientific body, or by administrative hearings.

**Renewals:**

Further, if a State does not have the necessary expertise and capability to conduct CAP-SSSE activities, the Region and State must develop a remedial plan. If the necessary expertise and capability does not develop in accordance with the remedial plan, the following year's CAP-SSSE funding may be reduced or withheld. For complete information on Uses and Restrictions, refer to program guidance. Applicants must be a qualified State that intends to provide technical assistance to NFIP communities. Refer to program guidance for complete information on applicant eligibility.

**Applicant Eligibility:**

FEMA's ten Regional Offices will provide each State Governor's Office with the grant application package. The Cooperative Agreement is only available to that state or territorial agency so designated by the Governor, as the state or territorial National Flood Insurance Program State Coordinating Agency. The CAP-SSSE is administered through the Mitigation Division of each FEMA Regional Office. FEMA's Regional Offices will contact eligible States to negotiate a mutually acceptable grant agreement. Funding is made available when the grant agreement is negotiated and agreed upon. Continued participation in the CAP-SSSE is dependent upon completing activities described in the grant agreement. The SSSE is designed to utilize the floodplain management capabilities of individual States in a cost effective cooperative agreement with FEMA. A State's participation in the SSSE is voluntary and is contingent upon need and skill level capability.

**Beneficiary Eligibility:**

The direct beneficiary of the CAP-SSSE is the individual State receiving financial assistance. In addition, participating NFIP communities and local governments which receive flood plain management and flood loss reduction assistance provided by the State are also (indirect) beneficiaries as a consequence of the services they receive.

**Credentials/Documentation:**

A State's participation in the CAP-SSSE is voluntary and is contingent upon need and skill level capability as determined by FEMA. In addition, applicant states are required to provide any relevant documentation contained in the grant agreement package provided by FEMA. OMB Circular No. A-87 applies to this program.

**AUTHORIZATION:**

Stewart B. McKinney Homeless Assistance Act of 1987, as amended, Title 3, Section 301, Public Law 100-77, 42 U.S.C 11331-11346.

**OBJECTIVES:**

Program funds support the National Preparedness Goal (NPG) by complementing actions undertaken to achieve an all-of-Nation preparedness approach that optimizes the use of available resources. When a disaster strikes, it is often the poor or those with economic vulnerabilities who suffer the most. By providing emergency economic assistance that keeps people off the streets, from being evicted from their homes, or with groceries to prevent hunger, the EFSP prepares a population that could otherwise be even more adversely impacted by a disaster situation and mitigates potential burdens imposed on recovery efforts to assist such people.

**TYPES OF ASSISTANCE:**

Project Grants

**USES AND USE RESTRICTIONS:**

Food and related expenses (such as transporting food/food preparation and serving equipment); mass shelter; other shelter (such as hotels and motels); and rent/mortgage and/or utility assistance limited to one month. For a complete listing on eligible and ineligible costs under this program, refer to the current Phase (fiscal year): Responsibilities and Requirements document, issued by the Emergency Food and Shelter Program National Board.

For additional details on the NPG, please refer to <http://www.fema.gov/pdf/prepared/npg.pdf>. Emergency Food and Shelter National Board Program (EFSP) funds cannot be used for: security deposits of any kind, cash payments of any kind, lobbying efforts, salaries (except as administrative allowance and limited to that total allowance of 2 percent of total

award where provided by Local Boards), purchases or improvements of an individual's private property, telephone costs, repairs to government-owned or profit-making facilities and any payments for services not incurred. For a complete listing on eligible and ineligible costs under this program, refer to the Responsibilities and Requirements Manual of the current Phase (fiscal year) issued by the Emergency Food and Shelter Program National Board.

**Applicant Eligibility:**

Since funds are initially distributed to jurisdictions based on either a National Board formula or recommendations from State Set-Aside Committees, there is no application process for jurisdictions. All jurisdictions are considered within the National Board formula and all jurisdictions in an individual State may be considered by the State Set-Aside Committee for either initial or additional (if the jurisdiction had previously been selected by the National Board) funding.

At the local level, following award notification by the National Board to the jurisdiction, a Local Board is formed. The Local Board then advertises the availability of the funds to local nonprofit agencies and governments. The Local Board must conduct a local application process for agencies to apply for funding. The Local Board selects which local nonprofit and governmental organizations are to receive funding and submits their selections via a Local Board Plan to the National Board.

**Beneficiary Eligibility:**

The law directs that the Local Boards, which manage the program at the local level, shall "determine which private nonprofit organizations or public organizations of the local government in the individual locality shall receive grants to act as service providers." The range of participant groups on the Local Boards include the affiliates of the National Board membership which consists of American Red Cross, Catholic Charities USA, The Jewish Federations of North America, National Council of Churches of Christ in the USA, The Salvation Army, and United Way Worldwide, with a local government representative replacing FEMA. Also participating are thousands of independent nonprofits (such as Community Action Agencies and Food Banks and food pantries) which provide food and/or shelter services. Due to the broad category of people in need of such emergency services, the providers can include specialized groups such as domestic violence shelters, Native American organizations, and organizations providing food or shelter to: AIDS patients, handicapped individuals, the elderly, homeless veterans, non-wards of the State teenage runaways, and many other groups with emergency food and shelter needs. As noted earlier, the decisions on selections are made through the consensus of the Local Board as they have assessed their community's most urgent needs. It is important that such agencies use these funds to supplement, not replace, their current efforts. This program is intended to supplement ongoing programs and allow them to extend and expand upon their existing services.

**Credentials/Documentation:**

The program employs a Local Recipient Organization Certification Form. This form certifies an applicant's status (i.e., that it is a nonprofit or government agency capable of delivering eligible services) and that it will abide by the program guidelines (both on eligible spending and reporting requests), and comply with other fiscal and program rules so stipulated. This program is excluded from coverage under OMB Circular No. A-87.

**Preapplication Coordination:**

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

**Application Procedures:**

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. There is no application process for local jurisdictions since the award notification to local jurisdictions is based on either a National Board formula or recommendations from State Set-Aside Committees. The local jurisdiction (i.e., Local Board) must conduct a local application process for local agencies to apply for funding.

**Award Procedure:**

At the local level, following award notification by the National Board, a Local Board is formed. The Local Board then advertises the availability of the funds

to local nonprofit agencies and governments. The Local Board must conduct a local application process for agencies to apply for funding. The Local Board selects which agencies are to receive funding and submits their selections via a Local Board Plan to the National Board. The National Board confirms all pertinent information has been submitted and disburses funds directly to the awarded local agencies.

**Deadlines:**

**Range of Approval/Disapproval Time:**

**Appeals:**

Refer to the Phase 30 (fiscal year 2012) Responsibilities and Requirements Manual issued by the Emergency Food and Shelter Program National Board for information on the appeal process. ## **97.039 HAZARD MITIGATION GRANT**

(HMGP)

### **FEDERAL AGENCY:**

Department of Homeland Security

### **AUTHORIZATION:**

Robert T. Stafford Disaster Relief and Emergency Assistance Act, Section 404, 42 U.S.C 5170c.

### **OBJECTIVES:**

To provide funding support to states, tribes, territories, communities, and other eligible applicants to implement mitigation planning and hazard mitigation measures that are cost effective and which substantially reduce the risk of future damage, hardship, loss or suffering in any area affected by a major disaster.

This program also conforms to the definitions of the term Mitigation as defined in the National Preparedness Goal (NPG), in that this program supports those capabilities that are necessary to reduce loss of life and property by lessening the impact of disasters. Mitigation capabilities include, but are not limited to, community-wide risk reduction projects; efforts to improve the resilience of critical infrastructure and key resource lifelines; risk reduction for specific vulnerabilities from natural hazards; and initiatives to reduce future risks after a disaster has occurred.

### **TYPES OF ASSISTANCE:**

PROJECT GRANTS

### **USES AND USE RESTRICTIONS:**

Assistance can be used for eligible activities including structural hazard controls or protection projects; construction activities that will result in reduction of hazards; retrofitting of facilities; acquisition of real property, relocation, demolition of structures; elevation of residential structures; minor flood reduction projects; structural retrofitting of existing structures; safe room construction; initial implementation of vegetation management programs; elevation or dry flood-proofing of non-residential structures; initial training of building officials and other professionals to facilitate the implementation of newly adopted State or local mitigation standards and codes, and mitigation planning actions. Projects must meet all eligibility criteria including cost-effectiveness; compliance with environmental and historic preservation laws and regulations and other program requirements.

Please see the HMA program guidance for more detailed information. Grantees that meet planning requirements published as a result of the Disaster Mitigation Act of 2000 may receive an increased percentage (20 percent of the value of all other disaster assistance grants) of HMGP funds if, at the time of the declaration of a major disaster they have in effect an approved Enhanced State Mitigation Plan. Grantees that have a current, approved Standard Mitigation Plan are eligible to receive up to 15% of the value of all other disaster assistance grants.

### **Beneficiary Eligibility:**

States and communities.

Rather than require applicants to submit a separate pre-application in order for FEMA and the State to identify the need for assistance, FEMA will employ the administrative and Mitigation plans in this manner. When States submit plans for review and indicate their intention to apply for assistance to implement one or more projects described in it, FEMA will use the plan to identify a need for funding assistance, and to discourage applications that are unlikely to be funded. An environmental impact statement is required for this program. An

environmental impact assessment is required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

EMPG**

**FEDERAL AGENCY:**

Department of Homeland Security

**AUTHORIZATION:**

Section 662 of the Post-Katrina Emergency Management Reform Act of 2006 (PKEMRA) (Public Law 109-295), as amended by section 201 of the Implementing Recommendations of the 9/11 Commission Act of 2007 (hereafter 9/11 Act) (Public Law 110-53); and the Robert T. Stafford Disaster Relief and Emergency Assistance Act, (Public Law 93-288), as amended, 42 U.S.C. 5121-5207, sections 201, 611(j) and 613; 42 U.S.C. 5131, 5196(j), and 5196b, respectively; specifically, the National Flood Insurance Act of 1968 (42 U.S.C. 4001 et seq.), the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7701 et seq.), and Reorganization Plan No. 3 of 1978 (5 U.S.C. App.).

**OBJECTIVES:**

The EMPG Program provides resources to assist state, local, tribal and territorial governments in preparing for all hazards, as authorized by the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended (42 U.S.C. 5121 et seq.). Title VI of the Stafford Act authorizes FEMA to make grants for the purpose of providing a system of emergency preparedness for the protection of life and property in the United States from hazards and to vest responsibility for emergency preparedness jointly in the federal government and the states and their political subdivisions. The intent of the FY 2012 EMPG is to provide grant funding to assist state emergency management agencies in obtaining the resources required to support the National Preparedness Goals (NPGs) associated mission areas and core capabilities. The federal government, through the EMPG Program, provides necessary direction, coordination, and guidance, and provides necessary assistance, as authorized in this title so that a comprehensive emergency preparedness system exists for all hazards. The FY 2012 EMPG Program plays an important role in the implementation of Presidential Policy Directive 8 (PPD-8) by supporting the development and sustainment of core capabilities. Core capabilities are essential for the execution of each of the five mission areas outlined in the NPG. The development and sustainment of these core capabilities are not exclusive to any single level of government or organization, but rather require the combined effort of the whole community. The FY 2012 EMPG Program supports all core capabilities in the Prevention, Protection, Mitigation, Response, and Recovery mission areas based on allowable costs. Examples of tangible outcomes from the EMPG Program include building and sustaining emergency management capabilities through:

- Building and Sustaining core capabilities
- Approved Emergency Plans
- Completion of Threat and Hazard Identification Risk Assessment (THIRA)
- Development and maintenance of multi-year training and exercise plans (TEPs)
- Targeted Training and verification of personnel capability
- Whole Community approach to security and emergency management

For more detailed guidance on the EMPG Program please refer to the FY 2012 Funding Opportunity Announcement (FOA).

Fiscal Year 2011: Program funds were used to develop plans, conduct training and exercises to validate plans, procure equipment, and hire personnel to help in managing and administering the grant funds. The priority for FY2011 was advancing Whole Community Security and Emergency Management. As the country experiences threats of terrorist attacks (foreign and domestic) and natural disasters, communities are challenged to develop collective, local abilities to withstand the potential impacts of these events, respond quickly, and recover in a way that sustains or improves the communitys overall well-being. Achieving this collective capacity calls for innovative approaches across the community, including emergency management to build up existing practices, institutions, and organizations that help make local communities successful, and that can leverage this infrastructure if and when an incident occurs. The Fire Management Assistance Grant Program, authorized by the Stafford Act and amended by the Disaster Mitigation Act of 2000, provides for the mitigation, management and control of fires that threaten such destruction as would constitute a major disaster.

**Applicant Eligibility:**

State governments and Indian tribal governments are eligible for fire management assistance grants. The State or Indian tribal government may be the Grantee. The Grantee is the government to which a grant is awarded, and is accountable for the use of funds provided.

**Beneficiary Eligibility:**

The State Government and/or Indian tribal government, acting as the Grantee, is the government to which the grant is awarded and which is accountable for the use of the funds provided. Other State entities, Indian tribal governments and local governments are eligible to apply for subgrants.

**Credentials/Documentation:**

Costs will be determined in accordance with FEMA Regulations, 44 CFR Part 204. Grant awards will be determined in accordance with OMB Circulars No. A-87 and No. A-102 for State and local governments. OMB Circular No. A-87 applies to this program.

**Preapplication Coordination:**

A FEMA-State Agreement and/or Indian tribal Agreement for the Fire Management Assistance Grant Program (the agreement) is signed by the Governor/Indian tribal government and the Regional Administrator at the beginning of the calendar year or after a State's first fire management assistance grant declaration in a calendar year. The agreement is amended for subsequent approvals of assistance for the remainder of the year. This agreement outlines the level of fire management assistance to be provided for all fires declared during the calendar year, and contains the necessary terms and conditions for requesting and receiving assistance. An environmental impact statement is

required for this program. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

**Application Procedures:**

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. A State Governor, or Governor's Authorized Representative, may request a fire management assistance declaration through the FEMA Regional Administrator. To expedite the request, the State may submit a telephone request to the Regional Administrator, promptly followed by a confirming message or letter. The FEMA Regional Administrator will render a decision on the State's request and notify the State and FEMA Headquarters of this decision. This decision may be relayed by telephone, to be followed by a written determination.

**Award Procedure:**

Requests for fire management assistance declarations must be submitted while a fire is burning uncontrolled and threatens such destruction as would constitute a major disaster. The State should submit its grant application within nine (9) months of the declaration. Upon receipt of a written request from the State, the Regional Administrator may grant an extension for up to three (3) months.

**Deadlines:**

Contact the headquarters or regional office, as appropriate, for application deadlines.

**Range of Approval/Disapproval Time:**

From 1 hour to 72 hours.

**Appeals:**

States have the recourse to two types of appeals under the Fire Management Assistance Grant Program. Under the first type of appeal, a Governor, Governor's Authorized Representative, may appeal a denial of its request for a fire management assistance declaration. The State should submit this one-time request for reconsideration in writing, with additional information, to the Deputy Associate Administrator of the Response and Recovery Directorate through the Regional Administrator. The appeal must be submitted within 30 days of the date of the letter denying the State's request. The Deputy Associate Administrator will render the final determination on this type of appeal within 90 days of receipt of the appeal or receipt of the additional information requested. The Deputy Associate Administrator may extend the 30-day period provided that the Governor, or the Governor's Authorized Representative, submits a written request for a time extension within the 30-day period. The Deputy Associate Administrator will evaluate the need for an extension based on the reasons cited in the request and either approve or deny the request for an extension. Under the second type of appeal, an applicant or subgrantee may appeal any determination FEMA makes under an approved fire management assistance declaration through a two level appeal process. Appellants must file appeals within 60 days after receipt of a notice of the action that is being appealed. The Grantee will review and forward appeals from an applicant or subgrantee, with a written recommendation, to the Regional Administrator within 60 days of receipt. The Regional Administrator will render a determination on first appeals for fire management assistance grant-related decisions within 90 days following receipt of the appeal or requested additional information. In the event the Regional Administrator denies the appeal, the applicant may submit a second-level appeal to the Assistant Administrator of the Disaster Assistance Directorate. Within 90 days following receipt of a second appeal, the Assistant Administrator, will notify the grantee in writing of the disposition of the appeal or of the need for additional information. If the decision is to grant the appeal, the Regional Administrator will take appropriate implementing action. The decision of the Assistant Administrator at the second appeal level shall be the final administrative decision of FEMA.

**Renewals:**

None.

**Formula and Matching Requirements:**

Statutory formulas are not applicable to this program.

Matching Requirements: Fire Management Assistance Grants may be available to States on a 75 percent Federal/25 percent nonfederal cost-sharing basis when we determine that the State's application demonstrates either of the following: total eligible costs for the declared fire meet or exceed the individual fire cost threshold or total costs of all declared and non-declared fires in a given

calendar year meet the cumulative fire cost threshold. The individual fire cost threshold for a State for FY 2010 is the greater of \$100,000 or five percent x \$1.29 x state population. The cumulative fire cost threshold for a State FY 2010 is the greater of \$500,000 or three times the five percent x \$1.29 x State population. Both formulas are adjusted annually for inflation using the Consumer Price Index for All Urban Consumers published annually by the Department of Labor.

MOE requirements are not applicable to this program.

**Length and Time Phasing of Assistance:**

The time interval during which a declared fire occurs is the incident period. Generally costs must be incurred during the incident period to be considered eligible. Pre-positioning of resources may be approved for Federal funding up to a maximum of 21 days before a declared fire. Mobilization and demobilization also occur outside the incident period and are eligible for Federal funding. Temporary repair work must be completed within 30 days of the close of the incident period for the declared fire. See the following for information on how assistance is awarded/released: Payment based on Project need.

**Reports:**

Within 90 days of the Performance Period expiration date, the State must submit a Financial Status Report (FEMA Form 425 ) which reports all costs incurred within the incident period and all administrative costs incurred within the performance period. The performance period, defined on the SF-424, may be 9 months from the close of the incident period and may be extended for an additional 3 months by the Regional Administrator. During the performance period the Grantee will submit the subgrants, which document eligible costs; FEMA will review the eligibility of costs, and process, obligate, and close- out the grant. Refer to program guidance. Refer to program guidance. Refer to program guidance. Refer to program guidance.

**Audits:**

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. These audits are due to the cognizant Federal agency, submitted through the Federal Audit Clearinghouse, not later than 9 months after the end of the grantees fiscal year.

**Records:**

Grant records shall be retained for a period of 3 years from the day the recipient submits its final expenditure report. If any litigation, claim, negotiation, audit, or other action involving the records has been started before the expiration of the 3-year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later. **97.056 PORT SECURITY GRANT PROGRAM**

PSGP

**FEDERAL AGENCY:**

Department of Homeland Security

**AUTHORIZATION:**

Section 102 of the Maritime Transportation Security Act of 2002, as amended Public Law 107-295.

**OBJECTIVES:**

The FY 2012 PSGP plays an important role in the implementation of Presidential Policy Directive 8 (PPD-8) by supporting the development and sustainment of core capabilities. Core capabilities are essential for the execution of each of the five mission areas outlined in the National Preparedness Goal (NPG). The development and sustainment of these core capabilities are not exclusive to any single level of government or organization, but rather require the combined effort of the whole community. The FY 2012 PSGP supports all core capabilities in the Prevention, Protection, Mitigation, Response, and Recovery mission areas based on allowable costs. Grantees under FY 2012 PSGP are encouraged to build and sustain core capabilities through activities such as:

Enhancing Maritime Domain Awareness (MDA)

Enhancing Improvised Explosive Device (IED) and Chemical, Biological, Radiological, Nuclear, Explosive (CBRNE) prevention, protection, response and supporting recovery capabilities

Port Resilience and Recovery Capabilities

Training and Exercises

Transportation Worker Identification Credential (TWIC) Implementation.

**TYPES OF ASSISTANCE:**

Cooperative Agreements

**USES AND USE RESTRICTIONS:**

The Port Security Grant Program (PSGP) is one of the Department of Homeland Security's (DHS) FY 2012 grant programs which directly support transportation infrastructure security activities. The PSGP is one tool in the comprehensive set of measures authorized by Congress and implemented by the Administration to strengthen the Nation's critical infrastructure against risks associated with potential terrorist attacks. The vast majority of U.S. critical infrastructure is owned and/or operated by State, local, and private sector partners. The PSGP funds available to these entities are intended to support increased port-wide risk management; enhanced domain awareness; training and exercises; expansion of port recovery and resiliency capabilities; and further capabilities to prevent, detect, respond to, and recover from attacks involving improvised explosive devices (IEDs) and other non-conventional weapons; and competitively award grant funding to assist ports in obtaining the resources required to support the NPGs associated mission areas and core capabilities. PSGP grant recipients and sub-recipients may only use PSGP grant funds for the purpose set forth in the grant, and must be consistent with the statutory authority for the award. Grant funds may not be used for matching funds for other Federal grants/cooperative agreements, lobbying, or intervention in Federal regulatory or adjudicatory proceedings. In addition, Federal funds may not be used to sue the Federal government or any other government entity. Pre-award costs are allowable only with the written consent of DHS and if they are included in the award agreement. Federal employees are prohibited from serving in any capacity (paid or unpaid) on any proposal submitted under this program. Federal employees may not receive funds under this award. In FY 2012, the total amount of funds distributed under this grant program will be \$97,500,000. The FY 2012 PSGP funds will be allocated based on the funding priorities outlined in FY 2012 PSGP Funding Opportunity Announcement (FOA).

**Applicant Eligibility:**

Pursuant to the Maritime Transportation Security Act of 2002 (MTSA), the Department of Homeland Security established a risk based grant program to support port and maritime security. Funding is directed towards the implementation of Area Maritime Security Plans (AMSPs) and Facility Security Plans (FSPs) among port authorities, facility operators, and State and local government agencies that are required to provide port security services. In administering the grant program, national, economic, energy, and strategic defense concerns based upon the most current risk assessments available shall be taken into account. By law, the Department of Homeland Security must direct these funds to the Nation's highest risk ports. To comply with this requirement, the PSGP covers a total of 145 ports identified as critical. Based upon USCG recommendations, these ports are aggregated into 90 discrete port funding areas. As described below, All Other Port Areas covered by an AMSP are eligible to apply for grant funds from a PSGP funding pool created for that purpose. Within the PSGP, the following entities are specifically encouraged to apply:

Owners or operators of federally regulated terminals, facilities, U.S. inspected passenger vessels or ferries as defined in the MTSA and Title 33 of the Code of Federal Regulations (CFR) Parts 101, 104, 105, and 106.

Members of an Area Maritime Security Committee, per 33 CFR Part 103, who are recognized as such by the Captain of the Port (COPT) and are required to provide port security services. Specifically, eligible applicants include port authorities, port police, local law enforcement agencies, port and local fire departments, and facility fire brigades that have jurisdictional authority to respond to incidents in the port.

As a condition of eligibility, all PSGP applicants are required to be fully compliant with relevant Maritime Security Regulations (33 CFR Parts 101-106). Any open or outstanding Notice of Violation (NOV), as of the grant application submission deadline date, which has been issued to an applicant, and the applicant has (1) failed to pay within 45 days of receipt; (2) failed to decline the NOV within 45 days of receipt (in which case a finding of default will be entered by the Coast Guard in accordance with 33 CFR 1.07-11(f)(2)); or (3) the applicant has appealed the NOV as provided for in 33 CFR 1.07-70 and is in receipt of a final appeal decision from Commandant, U.S. Coast Guard, as described in 33 CFR 1.07-75, and has failed to come into compliance with the final adjudication within the timelines noted therein, will not be allowed to make application for a Port Security Grant. COTP will verify security compliance eligibility during the field review process.

**Beneficiary Eligibility:**

Critical national seaports and terminals.

**Credentials/Documentation:**

No Credentials or documentation are required. OMB Circular No. A-87 applies to this program.

The program title listed in the CFDA is Port Security Grant Program. The CFDA number is 97.056. Dun and Bradstreet Data Universal Numbering System (DUNS) Number. The applicant must provide a DUNS number with their application. This number is a required field within <http://www.grants.gov> and for CCR. Organizations should verify that they have a DUNS number, or take the steps necessary to obtain one, as soon as possible. Applicants can receive a DUNS number at no cost by calling the dedicated toll-free DUNS Number request line at (866) 705-5711. Valid CCR. The application process also involves an updated and current registration by the applicant, which must be confirmed at <http://www.ccr.gov>.

#### **Award Procedure:**

Initial Screening. FEMA will conduct an initial review of all FY 2012 PSGP applications to ensure each application is complete. All complete applications will be grouped by port area and provided to the applicable COTP for further review. Field Review. Field-level reviews will be managed by the applicable COTP in coordination with the Director of the U.S. Department of Transportation's Maritime Administrations Gateway Office and appropriate personnel from the AMSC, to include Federal, State, and local agencies, as identified by the COTP. To support coordination of and regionalization of security grant application projects with State and Urban Area homeland security strategies, as well as other State and local security plans, AMSC members representing State and local agencies should coordinate the results with the applicable State administrative agency or agencies and State homeland security advisor(s). Field reviews for all Groups occur immediately following the initial screening. Each specific project is scored for compliance with criteria enumerated in the previous section. The purpose of the COTP Review is to identify a prioritized list of eligible maritime security risk mitigation projects for funding within the area of responsibility (AOR), for all Groups within the AOR. The COTP will use the COTP Field Review Form to review all projects. This form may seek the following information:

A total score for each proposal received with each port being ranked from

highest to lowest in terms of their contributions to regional risk reduction and cost effectiveness;

A specific notation if other entities within the port region have similar capabilities;

A specific notation as to whether there is a need for redundant capability.

After completing field reviews, COTPs will submit the field review project scores and prioritized lists through the appropriate route to FEMA who will begin coordination of the national review process.

#### **Formula and Matching Requirements:**

This program has no statutory formula.

Matching Requirements: Cash and in-kind matches must consist of eligible costs (i.e. purchase price of allowable contracts, equipment). A cash match includes cash spent for project-related costs while an in-kind match includes the valuation of in-kind services. In-kind matches may not be used to meet matching requirements for any other Federal grant program (e.g. FY 2012 funds are used to purchase a mobile command center from a vendor, the vendor contributes or donates communications equipment associated with the mobile command center, the value of the donated equipment may be considered as an in-kind match for the PSGP award only). Please see 44 CFR 13.24 for further details regarding the cost match requirement. See FEMA Grant Programs Directorate (GPD) Information Bulletin (IB) 376, dated January 4, 2012 for further information on the PSGP cost match waiver process (<http://www.fema.gov/pdf/government/grant/bulletins/info376.pdf>).

The following match requirements apply for the FY 2012 PSGP (including ferry systems):

Public Sector. Public sector applicants must provide a non-Federal match (cash or in-kind) supporting at least 25 percent of the total project cost for each proposed project.

Private Sector. Private sector applicants must provide a non-Federal match (cash or in-kind) supporting at least 50 percent of the total project cost for each proposed project.

Exceptions. There is no matching requirement for grant awards where the total award is \$25,000 or less (with the exception of national and/or regional corporations submitting eleven (11) or more projects throughout their system(s)). If the Secretary of Homeland Security determines that a proposed project merits support and cannot be undertaken without a higher rate of Federal support, the Secretary may approve grants with a matching requirement other than that specified above in accordance with 46 U.S.C. 70107(c)(2)(B).

Cost match requirements must be included in applicants Detailed Budgets. Public and private entities are encouraged to work together to meet the cost match requirements. While applications must demonstrate the cost match, applicants are reminded that the cost match does not have to be provided up-front and that they have up to the full 24 month award period to provide the cost match funding. The non-Federal share can be cash or in-kind, with the exception of construction activities, which must be a cash-match (hard). Cost match waivers may be granted only if the Secretary of DHS determines that (1) a proposed project merits support in light of the overall grant purpose and mission goals; and (2) the Secretary of DHS determines that the meritorious project cannot be undertaken without a higher rate of Federal support. This program does not have MOE requirements.

**Length and Time Phasing of Assistance:**

The period of performance is 24 months. For more information, refer to the FY2012 PSGP FOA. Awards are subject to the Cash Management Improvement Act for payment and/or reimbursement of expenditures. See the following for information on how assistance is awarded/released: Grantees must accept their grant awards no later than 90 days from the award date. The grantee shall notify the awarding agency of its intent to accept and proceed with work under the award, or provide a written notice of intent to decline. Funds will remain on hold until the grantee accepts the award through official correspondence, e.g., written, electronic signature, signed letter or fax to GPD, and all other conditions of award have been satisfied, or the award is otherwise rescinded. Failure to accept the grant award within the 90 day timeframe may result in a loss of funds.

**Reports:**

Exercise Evaluation and Improvement. Exercises implemented with grant funds should evaluate performance of the capabilities required to respond to the exercise scenario. Guidance related to exercise evaluation and the implementation of improvements is defined in the Homeland Security Exercise and Evaluation Program located at <https://hseep.dhs.gov>. Federal Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future awards and fund draw downs may be withheld if these reports are delinquent. The final FFR is due 90 days after the end date of the performance period. FFRs must be filed electronically through PARS.

Grant Close-Out Process. Within 90 days after the end of the period of performance, or after a Grant Adjustment Notice (GAN) has been issued to close out a grant, whichever comes first, grantees must submit a final FFR and final progress report detailing all accomplishments throughout the period of performance. After these reports have been reviewed and approved by FEMA, a close-out notice will be completed to close out the grant. The notice will indicate the period of performance as closed, list any remaining funds that will be deobligated, and address the requirement of maintaining the grant records for three years from the date of the final FFR. The grantee is responsible for returning any funds that have been drawn down but remain as unliquidated on grantee financial records. Performance Progress Report (SF-PPR). Awardees are responsible for providing updated performance reports using the SF-PPR (OMB Approval Number 0970-0334) on a semi-annual basis. The SF-PPR is due within 30 days after the end of the reporting period (July 30 for the reporting period of January 1 through June 30; and January 30 for the reporting period of July 1 through December 31). The SF-PPR can be accessed online at [http://www.na.fs.fed.us/fap/SF-PPR\\_Cover%20Sheet.pdf](http://www.na.fs.fed.us/fap/SF-PPR_Cover%20Sheet.pdf). Federal Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future awards and fund draw downs may be withheld if these reports are delinquent. The final FFR is due 90 days after the end date of the performance period. FFRs must be filed electronically through PARS.

Grant Close-Out Process. Within 90 days after the end of the period of performance, or after a Grant Adjustment Notice (GAN) has been issued to close out a grant, whichever comes first, grantees must submit a final FFR and final progress report detailing all accomplishments throughout the period of performance. After these reports have been reviewed and approved by FEMA, a close-out notice will be completed to close out the grant. The notice will

indicate the period of performance as closed, list any remaining funds that will be deobligated, and address the requirement of maintaining the grant records for three years from the date of the final FFR. The grantee is responsible for returning any funds that have been drawn down but remain as unliquidated on grantee financial records. Grant recipients will be monitored periodically by FEMA staff, both programmatically and financially, to ensure that the project goals, objectives, performance requirements, timelines, milestone completion, budgets, and other related program criteria are being met. Monitoring may be accomplished through either a desk-based review or on-site monitoring visits, or both. Monitoring will involve the review and analysis of the financial, programmatic, performance, compliance and administrative processes, policies, activities, and other attributes of each Federal assistance award and will identify areas where technical assistance, corrective actions and other support may be needed.

**Audits:**

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

**Records:**

Grant records shall be retained for a period of 3 years from the day the recipient submits its final expenditure report. If any litigation, claim, negotiation, audit, or other action involving the records has been started before the expiration of the 3-year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later. Grant records include financial and program/progress reports, support documents, statistical records, and other documents that support the activity and/or expenditure of the recipient or sub-recipient under the award.

**CRITERIA FOR SELECTING PROPOSALS:**

Following the field review, a National Review Panel (NRP), comprised of subject matter experts drawn from DHS and the Department of Transportation (DOT), will convene and conduct a national level review. The purpose of the National Review is to identify a final, prioritized list of eligible projects for funding. The NRP will conduct an initial review of the prioritized project listings for each port area submitted by the USCGs COTP to ensure that the proposed projects will accomplish intended risk mitigation goals. The NRP will validate and normalize the Field Review COTP Project Priority List and provide a master list of prioritized projects by port area. A risk-based analysis will then be applied to the National Review Panels prioritized list for each port area in all groups. This analysis considers the following factors to produce a comprehensive national priority ranking of port security proposals:

Relationship of the project to one or more of the national port security priorities

Relationship of the project to the local port security priorities  
COTP ranking (based on each COTPs prioritized list of projects)

Risk level of the port area in which the project would be located (based on a comprehensive risk analysis performed by DHS)

The NRP will be asked to evaluate and validate the consolidated and ranked project list and submit their recommendations to FEMA. The NRP may request additional information or clarification from applicants. Applicants receiving requests from the NRP will have 30 days from the date of the request to respond. FEMA will have the final approval authority on all projects.

Funds will not be made available for obligation, expenditure, or drawdown until the applicants budget and budget narrative have been approved by FEMA.

The applicant must provide a detailed budget for the funds requested. The detailed budget must be submitted with the grant application as a file attachment within ND Grants. The budget must be complete, reasonable, and cost-effective in relation to the proposed project. The budget should provide the basis of computation of all project-related costs, any appropriate narrative, and a detailed justification of M&A costs.

CEP has been actively engaged with UTSA CIAS exercise events as attendee (Observer/Player) for most exercises. Fiscal Year 2012: UTSA CIAS is currently engaged with the state of Nevada for Phase 1 exercise support. There are two named communities involved and to date, one community has completed exercise one. UTSA CIAS has engaged Delaware for Phase 2, which primarily consists of training and guidance by UTSA CIAS. Fiscal Year 2013: No Current Data Available.

**97.067 HOMELAND SECURITY GRANT PROGRAM**

HSGP and THSGP

**FEDERAL AGENCY:**

Department of Homeland Security

**AUTHORIZATION:**

The Homeland Security Act of 2002, Public Law 107-296; Implementing Recommendations of 9/11 Commission Act of 2007, Public Law 110-53.

**OBJECTIVES:**

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goals (NPGs) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.

Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of

high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.

Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

The FY 2012 HSGP and THSGP play an important role in the implementation of Presidential Policy Directive 8 (PPD-8) by supporting the development and sustainment of core capabilities. Core capabilities are essential for the execution of each of the five mission areas outlined in the NPG. The development and sustainment of these core capabilities are not exclusive to any single level of government or organization, but rather require the combined effort of the whole community. The FY 2012 HSGP supports all core capabilities in the Prevention, Protection, Mitigation, Response, and Recovery mission areas based on allowable costs. Examples of tangible outcomes from FY 2012 HSGP and THSGP include building and sustaining core capabilities through:

- Planning
- Maintenance and Sustainment
- Maturation and Enhancement of State and Major Urban Area Fusion Centers (HSGP only)
- Building Law Enforcement Terrorism Prevention Capabilities
- Threat and Hazard Identification and Risk Assessment (THIRA)
- Whole Community Approach to Security and Emergency Management
- Typing of Equipment and Training.

**TYPES OF ASSISTANCE:**

FORMULA GRANTS

**USES AND USE RESTRICTIONS:**

DHS grant funds may only be used for the purpose set forth in the grant, and must be consistent with the statutory authority for the award. Grant funds may not be used for matching funds for other Federal grants/cooperative agreements, lobbying, or intervention in Federal regulatory or adjudicatory proceedings. In addition, Federal funds may not be used to sue the Federal government or any other government entity. Pre-award costs are allowable only with the written consent of DHS and if they are included in the award agreement. Although no longer funded as discrete grant programs, all activities and costs allowed under the FY 2010 Buffer Zone Protection Program (BZPP), FY 2010 Interoperable Emergency Communications Grant Program (IECGP), FY 2011 Citizen Corps Program (CCP), FY 2011 Drivers License Security Grant Program (DLSGP), and FY 2011 Metropolitan Medical Response System (MMRS) grant program are allowable and encouraged activities and costs under the FY 2012 HSGP. For additional information on allowable activities under the aforementioned grant programs, please refer to

<http://www.fema.gov/government/grant/nondisaster.shtm>.

Federal employees are prohibited from serving in any capacity (paid or unpaid) on any proposal submitted under this program. Federal employees may not receive funds under this award. There may be limitations on the use of HSGP and THSGP funds for the following categories of costs:

- Management and Administration
- Planning
- Organization
- Equipment
- Training
- Exercises
- Maintenance and Sustainment
- Critical Emergency Supplies
- Construction and Renovation

For additional details on restrictions on the use of funds, please refer to the FY 2012 HSGP and THSGP Funding Opportunity Announcement.

THSGP grantees may only fund investments that were included in the FY 2012 Investment Justifications (IJs) that were submitted to FEMA and evaluated through the peer review process. SHSP and UASI Pass-Through Requirements: Awards made to the SAA for HSGP carry additional pass-through requirements. Pass-through is defined as an obligation on the part of the States to make funds available to local units of government, combinations of local

units, or other specific groups or organizations. The States pass-through requirement must be met within 45 days of the award date for the HSGP. Four requirements must be met to pass-through grant funds:

There must be some action to establish a firm commitment on the part of the awarding entity.

The action must be unconditional on the part of the awarding entity (i.e., no contingencies for availability of SAA funds).

There must be documentary evidence of the commitment.

The award terms must be communicated to the official grantee.

The SAA must obligate at least 80 percent (80%) of the funds awarded under SHSP and UASI to local units of government within 45 days of receipt of the funds. For Puerto Rico, the SAA must also obligate at least 80 percent (80%) of the funds to local units of government within 45 days of receipt of the funds. No pass-through requirements will be applied to the District of Columbia, Guam, American Samoa, the U.S. Virgin Islands, and the Commonwealth of the Northern Mariana Islands. Any UASI funds retained by the SAA must be used to directly support the designated Urban Areas in the State. Under SHSP, the State may retain more than 20 percent (20%) of SHSP funding for expenditure made by the State on behalf of the local unit of government. This may occur only with the written consent of the local unit of government, with the written consent specifying the amount of funds to be retained and the intended use of funds. If a written consent agreement is already in place from previous fiscal years, FEMA will continue to recognize it for FY 2012. If any modifications to the existing agreement are necessary to reflect new initiatives, States should contact their assigned FEMA Program Analyst. If UASI funds are used by the SAA in support of the Urban Area, the SAA must, as part of the up to 10 Investments, propose an Investment describing how UASI funds will be used by the SAA to directly support the Urban Area. OPSG Funds: The recipient is prohibited from obligating or expending funds provided through this award until each unique and specific county level or equivalent Operational Order/Fragmentary Operations Order with an embedded estimated operational budget has been reviewed and approved through an official e-mail notice issued by FEMA removing this special programmatic condition. Funds Transfer Restriction: The recipient is prohibited from transferring funds between programs (SHSP, UASI, and OPSG). Grantees are allowed to submit an Investment/project where funds come from multiple funding sources (i.e., SHSP/UASI); however, grantees are not allowed to divert funding from one program to another due to the risk-based funding allocations, which were made at the discretion of DHS. FY 2012 OPSG funds will be allocated based on risk-based prioritization using a U.S. Customs and Border Protection (CBP) Sector-specific border risk methodology to include, but not limited to: threat, vulnerability, miles of border, and other border-specific law enforcement intelligence, as well as feasibility of FY 2012 Operation Orders to designated localities within the United States border States and territories. Eligible sub-recipients under the FY 2012 OPSG are local units of government at the county level and federally-recognized tribal governments in the States bordering Canada (including Alaska), States bordering Mexico, and States and territories with international water borders. The SAA is the only entity eligible to apply to FEMA for FY 2012 OPSG funds on behalf of the county or similar level of government and federally-recognized tribal governments. Eligible States and territories without a county or similar level of government structure are authorized to accept applications on behalf of the alternative unit of local government. SAAs in this situation must advise FEMA in writing as to their intent. Note: Not all applicants are guaranteed to receive funding under the FY 2012 OPSG. FY 2012 THSGP funds will be allocated based on two factors: Eligibility, as defined in 9/11 Act and self-certified by applicant, and Effectiveness: the score of the applicants THSGP Investment Justification (as determined through a peer review process). With respect to the effectiveness criteria, THSGP IJs will be evaluated through a peer review process for completeness, adherence to programmatic guidelines and the anticipated effectiveness of the proposed Investment(s). Only the information included in the IJ will be scored in the review process. As part of the FY 2012 THSGP scoring process, applicants who have not received funding in prior years will receive five (5) points in addition to the peer reviewers average score for each Investment submitted as part of their IJ.

#### **Applicant Eligibility:**

All 56 States and territories are eligible to apply for SHSP funds. For those States and territories that are eligible for UASI and/or OPSG funds, the SAA is

the only entity eligible to submit applications to FEMA on behalf of UASI and OPSG applicants. National Incident Management System (NIMS)

#### **Implementation**

In accordance with Homeland Security Presidential Directive (HSPD)-5, Management of Domestic Incidents, the adoption of NIMS is a requirement to receive Federal preparedness assistance, through grants, contracts, and other activities. Prior to allocation of any Federal preparedness awards in FY 2012, grantee must ensure compliance and/or alignment with FY 2011 NIMS implementation plan. The list of objectives against which progress and achievement are assessed and reported can be found at <http://www.fema.gov/emergency/nims/ImplementationGuidanceStakeholders.htm#item2>. The primary grantee/administrator of FY 2012 HSGP and THSGP award funds is responsible for determining if sub-awardees have demonstrated sufficient progress in NIMS implementation to disburse awards.

#### **Beneficiary Eligibility:**

THSGP: Native American Tribal Government (Federally recognized)  
HSGP: State and local governments

THSGP: In order to be eligible to receive THSGP funding, grantees must be considered directly eligible Tribes. Per the 9/11 Act, the term directly eligible Tribe means

(B) a consortium of Indian Tribes, if each Tribe satisfies the requirements of subparagraph (A).

In summary, eligible Tribes must meet the requirements set forth in (A) (i), and (A) (ii), and (A) (iv). Tribes must also meet one of the requirements set forth in (A) (iii); either (A) (iii) (a), or (A) (iii) (b), or (A) (iii) (c), or (A) (iii) (d).

Finally, (B) may also be satisfied, if each Tribe satisfies the requirements of subparagraph (A).

In FY 2012, applicants must self-certify as to whether they meet the eligibility requirements. Self-certification will be provided on the THSGP Eligibility Certification Form as part of Application Investment Justification. Any questions regarding an applicants proximity to a Critical Infrastructure and Key Structures (CI/KR) site, as described in the eligibility criteria, may be directed to the State Administrative Agency (SAA). Any additional questions regarding the overall self-certification of eligibility process may be directed to the Centralized Scheduling and Information Desk (CSID). CSID can be reached by phone at (800) 368-6498 or by e-mail at [askcsid@dhs.gov](mailto:askcsid@dhs.gov), Monday through Friday, 9:00 a.m. 5:30 p.m. EST.

#### **Credentials/Documentation:**

Investment Justification (SHSP and UASI). As part of the FY 2012 HSGP application process for SHSP and UASI funds, applicants must develop a formal IJ that addresses each Investment being proposed for funding. The IJ must demonstrate how proposed projects address gaps and deficiencies in delivering one or more core capabilities outlined in the NPG and must also describe engagement with and/or impacts on the general population, to include children and individuals with disabilities such as those with access and functional needs. The IJ must demonstrate the ability to provide enhancements consistent with the purpose of the program and guidance provided by FEMA. Instructions for SHSP:

Applicants may propose up to 10 Investments within their IJ to describe the

activities they would like to implement with SHSP funds.

Of the up to 10 Investments, applicants are required to propose at least one Investment to provide funding support to the States primary fusion center, as designated by the Governor. Grantees must coordinate with the fusion center when developing a fusion center Investment prior to submission.

#### Instructions for UASI:

Urban Areas may propose up to 10 Investments within their IJ to describe the activities they would like to implement with UASI funds.

If applicable, of the up to 10 Investments, Urban Areas are required to propose at least one Investment in support of a DHS-recognized fusion center within the Urban Area. Grantees must coordinate with the fusion center when developing a fusion center Investment prior to submission.

If UASI funds are used by the SAA in support of the Urban Area, the SAA must, as part of the up to 10 Investments, propose an Investment describing how UASI funds will be used by the SAA to directly support the Urban Area. For specific instructions on completing and submitting Investments, please refer to the FY 2012 HSGP Funding Opportunity Announcement. Operations Order and Detailed Budget Summary (OPSG). As part of the FY 2012 OPSG application process, each eligible local unit of government at the county level or federally-recognized tribal government must develop their Operations Order in coordination with State and Federal law enforcement agencies, to include, but not limited to CBP/BP. Operations Orders that are developed at the county level should be inclusive of city, county, tribal, and other local law enforcement agencies that are eligible to participate in OPSG operational activities, and the Operations Order should address this in the Executive Summary. The details should include the names of the agencies, the points of contact, and the individual funding requests. All applications must be coordinated through the CBP sector office and that BP will forward application to the SAA for review. OMB Circular No. A-87 applies to this program.

#### Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

#### Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Application deadline and other information are contained in the FY 2012 HSGP and THSGP FOA. Applying for FY 2012 HSGP and THSGP funds require a two-step process. Step One: initial submission to determine eligibility and Step Two: full application. Applicants are encouraged to initiate Step One immediately after the FOA is published but no later than April 27, 2012. This involves submitting a complete Standard Form 424 to Grants.gov. Successful completion of this step is necessary for FEMA to determine eligibility of the applicant. Late submissions of Step One to Grants.gov could result in applicants missing the application deadline in Step Two. Once FEMA has determined an applicant to be eligible, applicants can proceed to Step Two which involves submitting the full application package via the Non Disaster (ND) Grants system. The submission deadline for the full application package is May 4, 2012. For additional information and program-specific application requirements, refer to the FY 2012 HSGP and THSGP Funding Opportunity Announcement.

#### Award Procedure:

In FY 2012, the total amount of funds distributed under this grant program will be \$830,976,000. The specific information regarding funding allocations for the three HSGP programs are detailed below:  
SHSP Allocations: FY 2012 SHSP funds will be allocated based on three factors: minimum amounts as legislatively mandated, DHS risk methodology, and anticipated effectiveness based on the strength of the Investment Justification (IJ). Each State and territory will receive a minimum allocation under SHSP using the thresholds established in the 9/11 Act. All 50 States, the District of Columbia, and Puerto Rico will receive 0.35 percent of the total funds allocated for grants under Section 2003 and Section 2004 of the Homeland Security Act of 2002, as amended by the 9/11 Act, for SHSP. Four territories (American Samoa, Guam, the Northern Mariana Islands, and the U.S. Virgin Islands) will receive a minimum allocation of 0.08 percent of the total

funds allocated for grants under Section 2003 and 2004 of the Homeland Security Act of 2002, as amended by the 9/11 Act, for SHSP. UASI Allocations: FY 2012 UASI funds will be allocated based on DHS risk methodology and anticipated effectiveness based on the strength of the IJ. Eligible candidates for the FY 2012 UASI program have been determined through an analysis of relative risk of terrorism faced by the 100 most populous metropolitan statistical areas in the United States, in accordance with the 9/11 Act. LETPA Allocations: Per the Homeland Security Act of 2002 (Public Law 107296), title XX, 2006, as amended by the 9/11 Act, title I, 101, August 3, 2007, 121 Stat. 280, 6 U.S.C. 607, States are required to ensure that at least 25 percent (25%) of the combined HSGP funds allocated under SHSP and UASI are dedicated towards law enforcement terrorism prevention activities linked to one or more core capabilities within the NPG. The LETPA allocation can be from SHSP, UASI or both. OPSG Allocations: FY 2012 OPSG funds will be allocated based on risk-based prioritization using a U.S. Customs and Border Protection (CBP) Sector-specific border risk methodology to include, but not limited to: threat, vulnerability, miles of border, and other border-specific law enforcement intelligence, as well as feasibility of FY 2012 Operation Orders to designated localities within the United States border States and territories. Eligible sub-recipients under the FY 2012 OPSG are local units of government at the county level and federally-recognized tribal governments in the States bordering Canada (including Alaska), States bordering Mexico, and States and territories with international water borders. The SAA is the only entity eligible to apply to FEMA for FY 2012 OPSG funds on behalf of the county or similar level of government and federally-recognized tribal governments. Eligible States and territories without a county or similar level of government structure are authorized to accept applications on behalf of the alternative unit of local government. SAAs in this situation must advise FEMA in writing as to their intent. Note: Not all applicants are guaranteed to receive funding under the FY 2012 OPSG.

FY 2012 THSGP funds will be allocated based on two factors: Eligibility, as defined in 9/11 Act and self-certified by applicant, and Effectiveness: the score of the applicants THSGP Investment Justification (as determined through a peer review process). With respect to the effectiveness criteria, THSGP IJs will be evaluated through a peer review process for completeness, adherence to programmatic guidelines and the anticipated effectiveness of the proposed Investment(s). Only the information included in the IJ will be scored in the review process. As part of the FY 2012 THSGP scoring process, applicants who have not received funding in prior years will receive five (5) points in addition to the peer reviewers average score for each Investment submitted as part of their IJ.

The following process will be used to make awards under the THSGP:

Applicants will self-certify as to Tribal eligibility per the 9/11 Act;  
FEMA will verify compliance with all administrative and eligibility criteria identified in the application kit, to include the required submission of an IJ by the established due dates;

Eligible applications will be reviewed and scored through a peer review process to analyze the anticipated effectiveness of proposed Investments; and

FEMA will use the results of the peer review effectiveness scores to make recommendations for funding to the Secretary of Homeland Security.

#### Deadlines:

Feb 17, 2012 to May 04, 2012 Application Start Date: 02/17/2012  
Application Submission Deadline Date: 05/04/2012 at 11:59:59 PM EDT  
Anticipated Funding Selection Date: 06/29/2012  
Anticipated Award Date: 09/30/2012.

#### Range of Approval/Disapproval Time:

Refer to FY 2012 HSGP and THSGP Funding Opportunity Announcement. Anticipated Funding Selection Date is 06/29/2012. FY 2012 SHSP and UASI are non-competitive programs. Funds for FY 2012 OPSG will be allocated competitively. This includes the use of risk-based prioritization using CBP Sector-specific border risk to include, but not limited to: threat, vulnerability, miles of border, and other border-specific law enforcement intelligence. Each applicants final funding allocation will be determined by using a combination of the results of the risk analysis and feasibility of the Operations Orders. The following process will be used to make awards under FY 2012 THSGP:

Applicants will self-certify as to tribal eligibility per the 9/11 Act;  
FEMA will verify compliance with all administrative and eligibility criteria identified in the application kit, to include the required submission of an IJ by

the established due dates;

Eligible applications will be reviewed and scored through a peer review process to analyze the anticipated effectiveness of proposed Investments; and

FEMA will use the results of the peer review effectiveness scores to make recommendations for funding to the Secretary of Homeland Security.

**Formula and Matching Requirements:**

Statutory Formula: FY 2012 SHSP funds will be allocated based on three factors: minimum amounts as legislatively mandated, DHS risk methodology, and anticipated effectiveness based on the strength of the Investment Justification (IJ). Each State and territory will receive a minimum allocation under SHSP using the thresholds established in the 9/11 Act. All 50 States, the District of Columbia, and Puerto Rico will receive 0.35 percent of the total funds allocated for grants under Section 2003 and Section 2004 of the Homeland Security Act of 2002, as amended by the 9/11 Act, for SHSP. This program has no matching requirements. None.

This program does not have MOE requirements.

**Length and Time Phasing of Assistance:**

The Period of Performance is 24 months. For more information, refer to the FY 2012 HSGP and THSGP Funding Opportunity Announcement. Awards are subject to the Cash Management Act for payment and/or reimbursement of expenditures.

The period of performance outlined above support the effort to expedite the outlay of grant funding and provide economic stimulus. Agencies should request waivers sparingly, and they will be granted only due to compelling legal, policy, or operational challenges. For example, tribal grantees may request waivers from the deadlines outlined above for discretionary grant funds where adjusting the timeline for spending will constitute a verifiable legal breach of contract by the grantee with vendors or sub-recipients, or where a specific statute or regulation mandates an environmental review that cannot be completed within this timeframe or where other exceptional circumstances warrant a discrete waiver. See the following for information on how assistance is awarded/released: Based on project need.

**Reports:**

All successful applicants for all DHS grant and cooperative agreements are required to comply with DHS Standard Administrative Terms and Conditions available within Section 6.1.1 of

<http://www.dhs.gov/xlibrary/assets/cfo-financial-management-policy-manual.pdf>. Federal Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425).

A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future awards and fund draw downs may be withheld if these reports are delinquent. The final FFR is due 90 days after the end date of the performance period. FFRs must be filed electronically through PARS.

Initial Strategy Implementation Plan (ISIP). Following the award of grant funds, awardees will be responsible for reporting planned expenditures of the newly awarded grant funds to meet the pass-through requirement. The applicable SAAs are responsible for completing and submitting the ISIP online.

The ISIP is due within 45 days of the award date.

Grant Close-Out Process. Within 90 days after the end of the period of performance, or after a Grant Adjustment Notice (GAN) has been issued to close out a grant, whichever comes first, grantees must submit a final FFR and final progress report detailing all accomplishments throughout the period of performance. After these reports have been reviewed and approved by FEMA, a close-out notice will be completed to close out the grant. The notice will indicate the period of performance as closed, list any remaining funds that will be deobligated, and address the requirement of maintaining the grant records for three years from the date of the final FFR. The grantee is responsible for

returning any funds that have been drawn down but remain as unliquidated on grantee financial records. Performance Progress Report (SF-PPR). Awardees are responsible for providing updated performance reports using the SF-PPR (OMB Approval Number 0970-0334) on a semi-annual basis. The SF-PPR is due within 30 days after the end of the reporting period (July 30 for the reporting period of January 1 through June 30; and January 30 for the reporting period of July 1 through December 31). Grantees should submit the SF-PPR as an attachment to the Non Disaster (ND) Grants system. The SF-PPR can be accessed online at [http://www.na.fs.fed.us/fap/SF-PPR\\_Cover%20Sheet.pdf](http://www.na.fs.fed.us/fap/SF-PPR_Cover%20Sheet.pdf). Grantees will be required to report on progress towards implementing plans described in their application. Additionally, for HSGP, as part of the SF-PPR, grantees will be required to report on progress towards implementing the following performance measures:

All grantees, as part of programmatic monitoring, will be required to describe how expenditures first support maintenance and sustainment of current NPG core capabilities. For additional information on maintenance and sustainment, please see Appendix B FY 2012 HSGP Program Specific Priorities

For SHSP and UASI, grantees that maintain an emergency operations plan (EOP) are required to submit a Plan Analysis Tool annually and are required to include bi-annual updates on percentage of completion of CPG 101 v.2 compliance (for additional information, see <http://www.fema.gov/prepared/plan.shtm>)

For SHSP and UASI, grantees will report the number of people trained in a given capability to support a reported number of defined resource typed teams (e.g., 63 responders were trained in structural collapse to support 23 Type 2 USAR Teams).

For SHSP and UASI, grantees will report the total number of a defined type of resource and capabilities built utilizing the resources of this grant.

For SHSP and UASI, grantees will report what equipment was purchased and what typed capability it supports.

For SHSP and UASI, fusion centers will report on the achievement of capabilities and compliance with measurement requirements within the Maturation and Enhancement of State and Major Urban Area Fusion Centers priority through the annual Fusion Center Assessment Program managed by DHS Office of Intelligence and Analysis (I&A) and reported to FEMA.

For SHSP and UASI, grantees will submit a certification indicating the number of personnel involved in the Nationwide Suspicious Activity Reporting (SAR) Initiative (NSI) as well as the number of personnel who have completed the required training.

For SHSP and UASI, grantees should establish a planning body and demonstrate that the membership and activities reflect the whole community. State Preparedness Report (SPR) Submittal. Section 652(c) of the Post-Katrina Emergency Management Reform Act of 2006 (Public Law 109-295), 6 U.S.C. 752(c), requires any State that receives Federal preparedness assistance to submit an SPR to FEMA. States submitted the most recent State Preparedness Report in December 2011, which meets this requirement in order to receive funding under the FY 2012 HSGP. Biannual Strategy Implementation Reports (BSIR). Grantees are responsible for completing and submitting the BSIR reports as a complement to the SF-PPR. The BSIR is due within 30 days after the end of the reporting period (July 30 for the reporting period of January 1 through June 30; and January 30 for the reporting period of July 1 through December 31). Updated obligations and expenditure information must be provided within the BSIR to show progress made toward meeting strategic goals and objectives. The first BSIR is not due until at least six months after the award notice has been received by the grantee. Federal Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future awards and fund draw downs may be withheld if these reports are delinquent. The final FFR is due 90 days after the end date of the performance period. FFRs must be filed electronically through PARS.

Initial Strategy Implementation Plan (ISIP). Following the award of HSGP grant funds, awardees will be responsible for reporting planned expenditures of the newly awarded grant funds to meet the pass-through requirement. The applicable SAAs are responsible for completing and submitting the ISIP online. The ISIP is due within 45 days of the award date.

Grant Close-Out Process. Within 90 days after the end of the period of performance, or after a Grant Adjustment Notice (GAN) has been issued to

close out a grant, whichever comes first, grantees must submit a final FFR and final progress report detailing all accomplishments throughout the period of performance. After these reports have been reviewed and approved by FEMA, a close-out notice will be completed to close out the grant. The notice will indicate the period of performance as closed, list any remaining funds that will be deobligated, and address the requirement of maintaining the grant records for three years from the date of the final FFR. The grantee is responsible for returning any funds that have been drawn down but remain as unliquidated on grantee financial records.

For more information, please see the FY 2012 HSGP and THSGP Funding Opportunity Announcement. Grant recipients will be monitored periodically by FEMA staff, both programmatically and financially, to ensure that the project goals, objectives, performance requirements, timelines, milestone completion, budgets, and other related program criteria are being met. Monitoring may be accomplished through either a desk-based review or on-site monitoring visits, or both. Monitoring will involve the review and analysis of the financial, programmatic, performance, compliance and administrative processes, policies, activities, and other attributes of each Federal assistance award and will identify areas where technical assistance, corrective actions and other support may be needed. Exercise Evaluation and Improvement. Exercises implemented with grant funds should evaluate performance of the capabilities required to respond to the exercise scenario. Guidance related to exercise evaluation and the implementation of improvements is defined in the Homeland Security Exercise and Evaluation Program located at <https://hseep.dhs.gov>.

#### **Audits:**

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. These audits are due to the cognizant Federal agency, submitted through the Federal Audit Clearinghouse, not later than 9 months after the end of the grantees fiscal year.

#### **Records:**

Grant records include financial and program/progress reports, support documents, statistical records, and other documents that support the activity and/or expenditure of the recipient or sub-recipient under the award.

Fiscal Year 2011: HSGP:  
As part of the FY 2011 HSGP, DHS-FEMA identified three overarching priorities for SHSP and UASI:

Advancing Whole Community Security and Emergency Management  
Building Prevention and Protection Capabilities  
Maturation and Enhancement of State and Major Urban Area Fusion Centers

#### **THSGP:**

FY 2011 THSGP is one tool among a comprehensive set of measures authorized by Congress and implemented by the Administration to help strengthen the Nation against risks associated with potential terrorist attacks. DHS and FEMA leadership have identified one priority which grantees are encouraged to consider when developing their FY 2011 Preparedness Grant Program plans. This priority is advancing Whole Community Security and Emergency Management. As the country experiences threats of terrorist attacks (foreign and domestic) and natural disasters, communities are challenged to develop collective, local abilities to withstand the potential impacts of these events, respond quickly, and recover in a way that sustains or improves the community's overall well-being. Achieving this collective capacity calls for innovative approaches across the community, including emergency management to build up existing practices, institutions, and organizations that help make local communities successful, and that can leverage this infrastructure if and when an incident occurs. Core capabilities are essential for the execution of each of the five mission areas, however, they are not exclusive to any single level of government or organization but rather require the combined effort of the whole community. The FY 2012 HSGP supports efforts to build and sustain core capabilities in the Prevention, Protection, Mitigation, Response, and Recovery mission areas based on allowable costs. Examples of tangible outcomes from FY 2012 HSGP include building and sustaining core capabilities through:

- Planning
- Maintenance and Sustainment
- Maturation and Enhancement of State and Major Urban Area Fusion Centers
- Building Law Enforcement Terrorism Prevention Capabilities
- Threat and Hazard Identification and Risk Assessment (THIRA)
- Whole Community Approach to Security and Emergency Management
- Typing of Equipment and Training. Fiscal Year 2013: No Current Data Available

#### **CRITERIA FOR SELECTING PROPOSALS:**

FY 2012 SHSP and UASI are non-competitive programs. For additional information on FY 2012 SHSP and UASI allocations, refer to the FY 2012 HSGP Funding Opportunity Announcement. Funds for FY 2012 OPSG will be allocated competitively. This includes the use of risk-based prioritization using

CBP Sector-specific border risk to include, but not limited to: threat, vulnerability, miles of border, and other border-specific law enforcement intelligence. Each applicants final funding allocation will be determined by using a combination of the results of the risk analysis and feasibility of the Operations Orders. In order to be eligible to receive THSGP funding, grantees must be considered directly eligible Tribes. Per the 9/11 Act, the term directly eligible Tribe means

(A) any Indian Tribe

(i) that is located in the continental United States;

(ii) that operates a law enforcement or emergency response agency with the capacity to respond to calls for law enforcement or emergency services;

(iii)

a. that is located on or near (50 miles) an international border or a coastline bordering an ocean (including the Gulf of Mexico) or international waters (excluding shoreline border around the Great Lakes);

b. that is located within 10 miles of a system or asset included on the prioritized critical infrastructure list established under section 210E(a)(2) [please refer to section 1001 of the 9/11 Act] or has such a system or asset within its territory;

c. that is located within or contiguous to one of the 50 most populous metropolitan statistical areas in the United States; or

d. the jurisdiction of which includes not less than 1,000 square miles of Indian country, as that term is defined in section 1151 of title 18, United States Code; and

(iv) that certifies to the Secretary that a State has not provided funds under section 2003 [UASI] or 2004 [SHSP] to the Indian Tribe or consortium of Indian Tribes for the purpose for which direct funding is sought; and

(B) a consortium of Indian Tribes, if each Tribe satisfies the requirements of subparagraph (A).

In summary, eligible Tribes must meet the requirements set forth in (A) (i), and (A) (ii), and (A) (iv). Tribes must also meet one of the requirements set forth in (A) (iii); either (A) (iii) (a), or (A) (iii) (b), or (A) (iii) (c), or (A) (iii) (d). Finally, (B) may also be satisfied, if each Tribe satisfies the requirements of subparagraph (A).

In FY 2012, applicants must self-certify as to whether they meet the eligibility requirements. Self-certification will be provided on the THSGP Eligibility Certification Form as part of Application Investment Justification. Any questions regarding an applicants proximity to a Critical Infrastructure and Key Structures (CI/KR) site, as described in the eligibility criteria, may be directed to the State Administrative Agency (SAA). Any additional questions regarding the overall self-certification of eligibility process may be directed to the CSID.

**97.075 RAIL AND TRANSIT SECURITY GRANT PROGRAM**

TSGP/IPR

**FEDERAL AGENCY:**

Department of Homeland Security

**AUTHORIZATION:**

Implementing Recommendations of the 9/11 Commission Act of 2007, Section 1406, Public Law 110-53.

**OBJECTIVES:**

The FY 2012 TSGP and IPR Program play an important role in the

implementation of Presidential Policy Directive 8 (PPD-8) by supporting the development and sustainment of core capabilities. Core capabilities are essential for the execution of each of the five mission areas outlined in the National Preparedness Goal (NPG). The development and sustainment of these core capabilities are not exclusive to any single level of government or organization, but rather require the combined effort of the whole community. The FY 2012 TSGP and IPR Program support all core capabilities in the Prevention, Protection, Mitigation, Response, and Recovery mission areas based on allowable costs. Examples of tangible outcomes from the TSGP and IPR Program include building and sustaining emergency management capabilities through operational activities, operational packages (OPacks), Top Transit Asset List (TTAL) remediation; protection of high risk/high consequence underwater and underground rail assets; planning; use of visible, unpredictable deterrence; emergency preparedness drills and exercises; public awareness and preparedness campaigns; and protection of other high risk, high consequences areas or systems that have been identified through system wide risk assessments.

**TYPES OF ASSISTANCE:****PROJECT GRANTS****USES AND USE RESTRICTIONS:**

The TSGP and IPR Program are two of the Department of Homeland Security's FY 2012 grant programs which directly support transportation infrastructure security activities. These grant programs are part of a comprehensive set of measures authorized by Congress and implemented by the Department of Homeland Security to strengthen the Nation's critical infrastructure against risks associated with potential terrorist attacks. TSGP provides funds to the Nation's High-Threat Urban Areas for enhancement of security measures at critical transit infrastructure including bus, ferry, and rail systems. The intent of the FY 2012 TSGP is to competitively award grant funding to assist transit systems in obtaining the resources required to support the NPGs associated mission areas and core capabilities. IPR Program provides funds to Amtrak to develop security enhancements for eligible intercity passenger rail operations. The intent of the FY 2012 IPR is to grant funding to assist the Amtrak rail system in obtaining the resources required to support the NPGs associated mission areas and core capabilities. DHS grant funds may only be used for the purpose set forth in the grant, and must be consistent with the statutory authority for the award. Grant funds may not be used for matching funds for other Federal grants/cooperative agreements, lobbying, or intervention in Federal regulatory or adjudicatory proceedings. In addition, Federal funds may not be used to sue the Federal government or any other government entity. Pre-award costs are allowable only with the written consent of DHS and if they are included in the award agreement. Federal employees are prohibited from serving in any capacity (paid or unpaid) on any proposal submitted under this program. Federal employees may not receive funds under this award. In accordance with Homeland Security Presidential Directive (HSPD)-5, Management of Domestic Incidents, the adoption of NIMS is a requirement to receive Federal preparedness assistance, through grants, contracts, and other activities. Federal FY 2011 NIMS implementation must be considered prior to allocation of any Federal preparedness awards in FY 2012. The list of objectives against which progress and achievement are assessed and reported can be found at <http://www.fema.gov/emergency/nims/ImplementationGuidanceStakeholders.htm#item2>. The primary grantee/administrator of FY 2012 TSGP award funds is responsible for determining if sub-awardees have demonstrated sufficient progress in NIMS implementation to disburse awards. Yes, in TSGP. Refer to the FY2012 TSGP FOA for more information.

**Applicant Eligibility:**

Agencies eligible for FY 2012 TSGP are determined based upon daily unlinked passenger trips (ridership) and transit systems that serve historically eligible Urban Area Security Initiative (UASI) jurisdictions. Certain ferry systems are eligible to participate in the FY 2012 TSGP and receive funds. However, any ferry system electing to participate and receive funds under the FY 2012 TSGP will not be eligible to participate under the FY 2012 Port Security Grant Program (PSGP) and will not be considered for funding under the FY 2012 PSGP. Likewise, any ferry system that participates in the PSGP will not be eligible for funding under the TSGP. The 9/11 Act requires that high risk public transportation agencies, including those that receive grant funding, must

develop a security plan based on a security assessment. Additionally, the legislation directs that grant funds be used to address items in the security assessment or the security plan. In order to be eligible for the FY 2012 TSGP, transit agencies must have developed and/or updated their security plan, which must be based on a security assessment such as the Baseline Assessment and Security Enhancement (BASE) performed by Transportation Security Inspectors-Surface from the Transportation Security Administration (TSA), within the last three years. A copy of the Security Plan and security assessment must be available for DHS review upon request. Entities providing transit security (e.g., city/county police department, transit agency's own police department) for a transit agency must approve the security plan. The signature of a responsible official from the agency's transit security provider serves as this approval. If there is more than one provider in the core service area, all transit security providers must review and concur with the plan. Associated documentation of this approval must be provided to DHS upon request. In addition, the agency's transit security provider is encouraged to review the Investment Justifications (IJ) prior to submission. Each Regional Transit Security Working Group (RTSWG) is required to develop and update at least every three years a Regional Transit Security Strategy (RTSS). As the owners and/or operators of infrastructure that is vital to the well being of the States and Urban Areas they serve, it is imperative that transit systems be incorporated into regional preparedness planning efforts. A copy of the Security Plan or security assessment must be available for DHS review upon request. The National Passenger Railroad Corporation (Amtrak) is the only entity eligible to apply for funding under FY 2012 IPR Program. For more information, refer to the FY2012 TSGP and IPR Program FOAs., National Incident Management System (NIMS) Implementation. In accordance with Homeland Security Presidential Directive (HSPD)-5, Management of Domestic Incidents, the adoption of NIMS is a requirement to receive Federal preparedness assistance, through grants, contracts, and other activities. Prior to allocation of any Federal preparedness awards in FY 2012, grantee must ensure compliance and/or alignment with FY 2011 NIMS implementation plan. The list of objectives against which progress and achievement are assessed and reported can be found at <http://www.fema.gov/emergency/nims/ImplementationGuidanceStakeholders.shtm#item2>. The primary grantee/administrator of FY 2012 TSGP and IPR Program award funds is responsible for determining if sub-awardees have demonstrated sufficient progress in NIMS implementation to disburse awards.

A copy of the Security Plan and security assessment must be available for DHS review upon request. OMB Circular No. A-87 applies to this program.

**Preapplication Coordination:**

Yes for TSGP. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

#### **Length and Time Phasing of Assistance:**

The period of performance for TSGP is 48 months. The period of performance for the IPR Program is 24 months. Refer to FY2012 TSGP or IPR Program FOA for more information. Awards are subject to the Cash Management Improvement Act for payment and/or reimbursement of expenditures.

Projected Award Start Date(s): 09/30/2012

Projected Award End Date(s): 09/30/2014

Period of Performance: 24 months

The periods of performance outlined above support the effort to expedite the outlay of grant funding and provide economic stimulus. The grantee should request waivers sparingly, and they will be granted only due to compelling legal, policy, or operational challenges. For example, the grantee may request waivers from the deadlines outlined above for discretionary grant funds where adjusting the timeline for spending will constitute a verifiable legal breach of contract by the grantee with vendors or sub-recipients, or where a specific statute or regulation mandates an environmental review that cannot be completed within this timeframe or where other exceptional circumstances warrant a discrete waiver. See the following for information on how assistance is awarded/released: Grantees must accept their grant awards no later than 90 days from the award date. The grantee shall notify the awarding agency of its intent to accept and proceed with work under the award, or provide a written notice of intent to decline. Funds will remain on hold until the grantee accepts the award through official correspondence, e.g., written, electronic signature, signed letter or fax to GPD, and all other conditions of award have been satisfied, or the award is otherwise rescinded. Failure to accept the grant award within the 90 day timeframe may result in a loss of funds.

#### **Reports:**

Performance Progress Report (SF-PPR). Awardees are responsible for providing updated performance reports using the SF-PPR (OMB Approval Number 0970-0334) on a semi-annual basis. The SF-PPR is due within 30 days after the end of the reporting period (July 30 for the reporting period of January 1 through June 30; and January 30 for the reporting period of July 1 through December 31). Grantees should submit the SF-PPR as an attachment to the Non Disaster (ND) Grants system. The SF-PPR can be accessed online at [http://www.na.fs.fed.us/fap/SF-PPR\\_Cover%20Sheet.pdf](http://www.na.fs.fed.us/fap/SF-PPR_Cover%20Sheet.pdf).

Exercise Evaluation and Improvement. Exercises implemented with grant funds should evaluate performance of the capabilities required to respond to the exercise scenario. Guidance related to exercise evaluation and the implementation of improvements is defined in the Homeland Security Exercise and Evaluation Program located at <https://hseep.dhs.gov>.

Monitoring. Grant recipients will be monitored periodically by FEMA staff, both programmatically and financially, to ensure that the project goals, objectives, performance requirements, timelines, milestone completion, budgets, and other related program criteria are being met.

Monitoring may be accomplished through either a desk-based review or on-site monitoring visits, or both. Monitoring will involve the review and analysis of

the financial, programmatic, performance, compliance and administrative processes, policies, activities, and other attributes of each Federal assistance award and will identify areas where technical assistance, corrective actions and other support may be needed. Federal Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future awards and fund draw downs may be withheld if these reports are delinquent. The final FFR is due 90 days after the end date of the performance period. FFRs must be filed electronically through PARS.

**Grant Close-Out Process.** Within 90 days after the end of the period of performance, or after a Grant Adjustment Notice (GAN) has been issued to close out a grant, whichever comes first, grantees must submit a final FFR and final progress report detailing all accomplishments throughout the period of performance. After these reports have been reviewed and approved by FEMA, a close-out notice will be completed to close out the grant. The notice will indicate the period of performance as closed, list any remaining funds that will be deobligated, and address the requirement of maintaining the grant records for three years from the date of the final FFR. The grantee is responsible for returning any funds that have been drawn down but remain as unliquidated on grantee financial records. TSGP and IPR Program awardees are responsible for providing updated performance reports using the SF-PPR (OMB Approval Number 0970-0334) on a semi-annual basis. The SF-PPR is due within 30 days after the end of the reporting period (July 30 for the reporting period of January 1 through June 30; and January 30 for the reporting period of July 1 through December 31). The SF-PPR can be accessed online at [http://www.na.fs.fed.us/fap/SF-PPR\\_Cover%20Sheet.pdf](http://www.na.fs.fed.us/fap/SF-PPR_Cover%20Sheet.pdf). Federal Financial Report (FFR) required quarterly. After these reports have been reviewed and approved by FEMA, a close-out notice will be completed to close out the grant. The notice will indicate the period of performance as closed, list any remaining funds that will be deobligated, and address the requirement of maintaining the grant records for three years from the date of the final FFR. Monitoring may be accomplished through either a desk-based review or on-site monitoring visits, or both. Monitoring will involve the review and analysis of the financial, programmatic, performance, compliance and administrative processes, policies, activities, and other attributes of each Federal assistance award and will identify areas where technical assistance, corrective actions and other support may be needed.

Fiscal Year 2011: The FY 2011 TSGP focused on operational deterrence activities and the remediation of critical transit infrastructure due to their effectiveness in reducing risk to transit systems. It also considered funding for Multi-User High-Density Key Infrastructure Protection, Single-User High-Density Key Infrastructure Protection, Key Operating Asset Protection, and Other Mitigation Activities.

The TSGP and IPR Program are an important part of the Administrations larger, coordinated effort to strengthen homeland security preparedness, including the security of Americas critical infrastructure. The programs implemented objectives addressed in a series of post-9/11 laws, strategy documents, plans, Executive Orders, and Homeland Security Presidential Directives. Of particular significance is the National Preparedness Guidelines and its associated work products, including the National Infrastructure Protection Plan (NIPP) and its transportation sector-specific plans and Executive Order 13416 (Strengthening Surface Transportation Security). The National Preparedness Guidelines is an all-hazards vision regarding the Nations four core preparedness objectives: to prevent, protect against, respond to, and recover from terrorist attacks and catastrophic natural disasters. **CRITERIA FOR SELECTING PROPOSALS:**

TSGP grantees must comply with all administrative requirements described herein including the submission of IJs, budgets, and other application materials as required. Having met all administrative requirements, the application will be scored based on a methodology that will ensure consistent and accurate evaluations of projects and proposals.

The following process will be used to make awards for the program:

DHS will verify compliance with each of the administrative and eligibility criteria identified in the application kit.

The Department will calculate a total score to aid with funding selections. The total score will consist of four individual parts: an agency-based risk score, a score associated with an applications alignment to the funding priority areas, a score based on project risk mitigation, and the degree of regional collaboration.

Eligible applications will be reviewed by a panel to determine the risk mitigation and regional collaboration scores. This panel will consist of Federal officials from multiple government agencies that will review each application and score it based on the following criteria: cost effectiveness, feasibility, timelines, and sustainability without additional Federal funds.

FEMA and TSA will make recommendations for funding to the Secretary of Homeland Security based on the funding priorities and scoring methodology.

For IPR Program, based on previously cited statutory authorities, DHS has elected to enter into a cooperative agreement with Amtrak. The nature of the Federal involvement in the execution of this program may include joint participation in a project. Other examples of prospective substantial Federal involvement include the following:

Collaboration, participation, and/or intervention in any activity covered by the cooperative agreement

Approval from DHS prior to the selection of a new project or commencement of the next phase of an approved project

Authority for DHS to halt an activity if detailed performance specifications are not met

Authority for DHS to direct or redirect the scope of work of a project based on new circumstances

Authority for DHS to create a working group of key Federal and private sector stakeholders to provide guidance and coordination for transit security activities

Funds for both programs will not be made available for obligation, expenditure, or drawdown until the applicants budget and budget narrative have been approved by FEMA. The applicant must provide a detailed budget for the funds requested. The detailed budget must be submitted with the grant application as a file attachment within <http://www.grants.gov>. The budget must be complete,

reasonable, and cost-effective in relation to the proposed project. The budget should provide the basis of computation of all project-related costs, any appropriate narrative, and a detailed justification of Management and Administration (M&A) costs.

**FEDERAL AGENCY:**

Department of Homeland Security

**AUTHORIZATION:**

Department of Homeland Security Appropriations Act, 2010 (Public Law 111-83) and the Homeland Security Act of 2002 (6 U.S.C. Section 101 et seq.).

**OBJECTIVES:**

**TYPES OF ASSISTANCE:**

PROJECT GRANTS

**USES AND USE RESTRICTIONS:**

BZPP grant awards will be administered by the respective State Administrative Agency (SAA) and may be used for planning, equipment, and management of protective actions relating to the program objectives. The SAA will allocate program funds to the jurisdiction(s) responsible for the safety and security of the communities in which CI/KR sites are located. For additional information concerning BZPP grant award uses and restrictions, please refer to the program solicitation guidance. All BZPP sites have been selected prior to the grant announcement based on the risk of the individual sites themselves. Therefore, FY 2010 BZPP funding allocated to any given state or territory is entirely a function of the number, type and character of pre-identified higher-risk sites within their respective jurisdictions; there are no discretionary sites. Refer to program guidance. Refer to program guidance. Refer to program guidance.

**Applicant Eligibility:**

States, as defined in the Homeland Security Act of 2002, means "any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and any possession of the United States." The State's SAA is the only agency eligible to apply for BZPP grant funds and is responsible for obligating BZPP grant awards to the responsible jurisdiction(s) that have authority over the identified CIKR sites. The term "responsible jurisdiction" as used in the BZPP program guidance and application kit, refers to the primary agency (i.e. State, local, or tribal entity or unit of government), that has authority over the DHS identified CIKR facility and its buffer zone surrounding the facility.

**Beneficiary Eligibility:**

State and local governmental jurisdiction(s) responsible for the CI/KR sites.

**97.114 EMERGENCY FOOD AND SHELTER NATIONAL BOARD PROGRAM (ARRA)**

ARRA Emergency Food and Shelter National Board Program

**FEDERAL AGENCY:**

Department of Homeland Security

**AUTHORIZATION:**

Stewart B. McKinney Homeless Assistance Act of 1987, as amended, Title III, Sections 301-316, Public Law 100-77, as amended, 42 U.S.C. 11331-11346; Public Law 111-5 American Recovery and Reinvestment Act of 2009.

**OBJECTIVES:**

To supplement and expand ongoing efforts to provide shelter, food, and supportive services for needy families and individuals. To strengthen efforts to create more effective and innovative local programs by providing supplemental funding for them. To conduct minimum rehabilitation of existing mass shelter

or mass feeding facilities, but only to the extent necessary to make facilities safe, sanitary and bring them into compliance with local building codes.

**TYPES OF ASSISTANCE:**

Project Grants

**USES AND USE RESTRICTIONS:**

Food and related expenses (such as transporting food/food preparation and serving equipment); mass shelter; other shelter (such as hotels and motels); and rent/mortgage and/or utility assistance limited to one (1) month; and limited repairs to feeding and sheltering facilities. Emergency Food and Shelter National Board Program funds cannot be used for: rental security, deposits of any kind, cash payments of any kind, lobbying efforts, salaries (except as administrative allowance and limited to that total allowance of 2 percent of total award), purchases or improvements of an individual's private property, telephone costs, repairs to government-owned or profit-making facilities and any payments for services not incurred. For a complete listing on eligible and ineligible costs under this program, refer to the current Phase (fiscal year) manual: Responsibilities and Requirements, issued by the Emergency Food and Shelter National Board.

**Applicant Eligibility:**

Refer to program guidance.

**Beneficiary Eligibility:**

The law directs that the Local Boards, which manage the program at the local level, shall "determine which private nonprofit organizations or public organizations of the local government in the individual locality shall receive grants to act as service providers." The range of participant groups on the Local Boards include the affiliates of the National Board membership which consists of American Red Cross, Catholic Charities USA, National Council of Churches of Christ in the U.S.A., The Jewish Federations of North America, The Salvation Army, and United Way Worldwide, with a local government representative replacing FEMA. Also participating are independent nonprofits (such as Community Action Agencies and Food Banks and food pantries) which provide food and/or shelter services. Due to the broad category of people in need of such emergency services, the providers can include specialized groups such as domestic violence shelters, Native American organizations, and organizations providing food or shelter to: AIDS patients, handicapped individuals, the elderly, homeless veterans, non-wards of the State teenage runaways, and many other groups with emergency food and shelter needs. As noted earlier, the decisions on selections are made through the consensus of the Local Board as they have assessed their community's most urgent needs. It is important that such agencies use these funds to supplement, not replace, their current efforts. This program is intended to supplement ongoing programs and allow them to extend and expand upon their existing services.

**Credentials/Documentation:**

The program employs a Local Recipient Organization Certification Form. This form certifies an applicant's status (i.e., that it is a nonprofit or government agency capable of delivering eligible services) that it will abide by the program guidelines (both on eligible spending and reporting requests), and comply with other fiscal and program rules so stipulated. This program is excluded from coverage under OMB Circular No. A-87.

**Preapplication Coordination:**

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

**Application Procedures:**

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. There is no application process for local jurisdictions since the award notifications to local jurisdictions are based on either a National Board formula or recommendations from State Set-Aside Committees.

**Award Procedure:**

Local Board plans are submitted to the National Board and reviewed by the National Board program.

**Deadlines:**

Contact the headquarters or regional office, as appropriate, for application

deadlines.

**Range of Approval/Disapproval Time:**

Not Applicable.

**Appeals:**

Refer to the Emergency Food and Shelter National Board Program, "Phase 27: Responsibilities and Requirements" document for information on the appeal process. Those cases that cannot be handled locally should be referred to the National Board giving details on action that has been taken up to that point. Any allegations regarding fraud or the misuse of funds should be referred directly to the DHS Office of Inspector General.

**Renewals:**

Each phase (fiscal year) is a new program.

**Formula and Matching Requirements:**

See the following for information on how assistance is awarded/released: Payment based on Project need. See the following for information on how assistance is awarded/released: No information provided.

**Reports:**

Local Boards are expected to monitor the expenditure of funds in their respective jurisdictions. It is for that reason that requests for second checks (all awards are divided into two payments) must be authorized by the Local Boards. Along with the request for the second payment, the National Board receives an interim report on eligible spending during that phase. A Final Report also must be filed by each LRO with its Local Board. The Local Board then compiles all the Final Reports within its jurisdiction and submits them (along with any requested documentation) to the National Board. Failure of an LRO to file a Final Report will result in its award being held in escrow the succeeding year. Recovery funding reports will be submitted in the prescribed format within 10 days after the end of each calendar quarter, beginning July 10, 2009. These reports will include the following data elements, as prescribed by the Public Law 111-5, Section 1512 and OMB Memorandum M-09-10: (1) The total amount of recovery funds received from that agency; (2) The amount of recovery funds received that were obligated and expended to projects or activities. This reporting will also include unobligated Allotment balances to facilitate reconciliations. (3) A detailed list of all projects or activities for which recovery funds were obligated and expended, including--(A) The name of the project or activity; (B) A description of the project or activity; (C) An evaluation of the completion status of the project or activity; (D) An estimate of the number of jobs created and the number of jobs retained by the project or activity (Not Applicable to Emergency Food and Shelter); and (E) For infrastructure investments made by State and local governments, the purpose, total cost, and rationale of the agency for funding the infrastructure investment with funds made available under this Act, and name of the person to contact at the agency if there are concerns with the infrastructure investment (Not Applicable to Emergency Food and Shelter). (4) Detailed information on any subcontracts or subgrants awarded by the recipient to include the data elements required to comply with the Federal Funding Accountability and Transparency Act of 2006 (Public Law 109-282), allowing aggregate reporting on awards below \$25,000 or to individuals, as prescribed by the Director of OMB. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

**Records:**

Local Boards are required to remain in operation until all program and audit requirements of the National Board have been satisfied. Grant records shall be retained for a period of 3 years from the day the recipient submits its final expenditure report. If any litigation, claim, negotiation, audit, or other action involving the records has been started before the expiration of the 3-year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later. **Length and Time Phasing of Assistance:**

The NSSE Grant Program is a cost-reimbursement program; requests for reimbursement must be submitted to FEMA no later than 120 days after the NSSE or 30 days before the end of the fiscal year, whichever date occurs first. Period of Performance: The period of performance of this grant is 90 days, defined as the 60 days prior to and the 30 days after the NSSE. See the following for information on how assistance is awarded/released: As part of the FY 2012 NSSE Grant application process, each eligible State and local government scheduled to host an NSSE and applying for NSSE grant funds must develop a Budget Detail Worksheet. Based on FEMA's initial review of the Standard Form 424, FEMA will determine whether an application should proceed further and the applicant will be notified to complete their submission by fulfilling additional application requirements (e.g., budget, Investment Justification, Work Plan, etc.).

**Reports:**

No program reports are required. No cash reports are required. Performance Progress Report (SF-PPR). Awardees are responsible for providing updated performance reports using the SF-PPR (OMB Approval Number 0970-0334) on a semi-annual basis. The SF-PPR is due within 30 days after the end of the reporting period (July 30 for the reporting period of January 1 through June 30; and January 30 for the reporting period of July 1 through December 31). The SF-PPR can be accessed online at [http://www.na.fs.fed.us/fap/SF-PPR\\_Cover%20Sheet.pdf](http://www.na.fs.fed.us/fap/SF-PPR_Cover%20Sheet.pdf). Grantees will be required to report on progress towards implementing plans described in their application. State Preparedness Report (SPR) Submittal. Section 652(c) of the Post-Katrina Emergency Management Reform Act of 2006 (Public Law 109-295), 6 U.S.C. 752(c), requires any State that receives Federal preparedness assistance to submit an SPR to FEMA. States that submitted the most recent SPR in December 2011, would meet this requirement to receive funding under the FY 2012 NSSE. Biannual Strategy Implementation Reports (BSIR). Grantees are responsible for completing and submitting the BSIR reports, as a complement to the Quarterly Progress Report (programmatic performance report/SF-PPR). The BSIR is due within 30 days after the end of the reporting period (July 30 for the reporting period of January 1 through June 30; and January 30 for the reporting period of July 1 through December 31). Updated obligations and expenditure information must be provided within the BSIR to show progress made toward meeting strategic goals and objectives. The first BSIR is not due until at least six months after the award notice has been received by the grantee. Federal Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future awards and fund draw downs may be withheld if these reports are delinquent. The final FFR is due 90 days after the end date of the performance period. FFRs must be filed electronically through the Payment and Reporting System (PARS.)

Grant Close-Out Process. Within 90 days after the end of the period of performance, grantees must submit a final FFR and final progress report detailing all accomplishments throughout the period of performance. After these reports have been reviewed and approved by FEMA, a close-out notice will be completed to close out the grant. The notice will indicate the period of performance as closed, list any remaining funds that will be deobligated, and

address the requirement of maintaining the grant records for three years from the date of the final FFR. The grantee is responsible for returning any funds that have been drawn down but remain as unliquidated on grantee financial records. Monitoring. Grant recipients will be monitored periodically by FEMA staff, both programmatically and financially, to ensure that the project goals, objectives, performance requirements, timelines, milestone completion, budgets, and other related program criteria are being met. Monitoring may be accomplished through a desk-based review, on-site monitoring visits, or both. Monitoring will involve the review and analysis of the financial, programmatic, performance, compliance and administrative processes, policies, activities, and other attributes of each Federal assistance award and will identify areas where technical assistance, corrective actions and other support may be needed.

Implement a Nuclear Forensics Undergraduate Scholarship Program to provide outreach to the academic community, facilitate experiential learning in nuclear forensics-related research areas, and feed students into the Nuclear Forensics Graduate Fellowship Program.

Implement a Nuclear Forensics Graduate Fellowship Program to encourage students to pursue advanced degrees in radiochemistry and other nuclear forensics-related disciplines, encourage universities to invest in these types of programs, facilitate experiential learning in nuclear forensics-related research areas, and feed students into post-doctoral/permanent staff positions in nuclear forensics at the national laboratories or federal agencies.

Implement a Nuclear Forensics Education Award Program to support universities interested in developing and maintaining academic programs in nuclear forensics-related disciplines.

Implement a Nuclear Forensics Junior Faculty Award Program to provide universities with an incentive to recruit, promote, and retain highly qualified personnel to teach within nuclear forensics-related degree programs and contribute to associated research projects at universities.

**97.131 EMERGENCY MANAGEMENT BASELINE ASSESSMENTS GRANT (EMBAG)**

EMBAG

**FEDERAL AGENCY:**

Department of Homeland Security

**AUTHORIZATION:**

Homeland Security Act of 2002, as amended, 6 U.S.C. 313(b)(2)(B); 314(a)(10); and 314 (a)(11) , 6 U.S.C 313.

**OBJECTIVES:**

This program is designed to assess the shortfalls in interagency cooperation and continuity of government. The Federal government has found that all state governments may not consistently involve all relevant state agencies in prevention, protection, mitigation, response, and recovery planning and in continuity of government. For example, not all states integrate health departments and transportation departments in planning for emergencies. This program is designed to remedy such shortfalls. In addition, this program can assess for continuity of operations what needs to be done to protect essential facilities, records, equipment, and other assets, as well as achieve a timely and orderly recovery from an emergency in order to resume full service to customers and residents of the community. In planning for continuation of the government in the face of an emergency, several other critical elements will be evaluated by this program such as the effect of a steep reduction in staff levels as staff members assist their own families and how to mitigate or plan for such a reduction. Also, the governments at the state level are evaluated to assure that

orders of succession and delegations of authority have been prepared.

The program should provide peer-validated assessments using nationally recognized emergency management program standards and provide a system for accreditation in meeting those standards. Finally, the program should provide an internet tool allowing states, territories, tribal nations, local jurisdictions, and higher education institutions to use national standards for their own self-assessments.

**National Preparedness Goal (NPG):**

The NPG defines success as A secure and resilient Nation with the capabilities required across the whole community to prevent, protect against, mitigate, respond to, and recover from the threats and hazards that pose the greatest risk.

This program improves emergency management by pairing whole community partners with state governments to assess existing plans and practices against peer-established, nationally recognized standards. Specifically, the program will assess the extent of States consistency in involving relevant organizations and partners in all mission areas: prevention, protection, mitigation, response, and recovery, as well as in continuity of government.

Nationally recognized emergency management program standards strongly emphasize the importance of planning. Planning is one of only three Core Capabilities in the NPG that span all mission areas. The application of nationally recognized emergency management planning standards to assess state emergency management programs will contribute to the overall assessment of national preparedness as reported annually in the National Preparedness Report and will provide valuable feedback to stakeholders that will strengthen state programs.

For additional details on the NPG, please refer to:  
<http://www.fema.gov/pdf/prepared/npd.pdf>.

# Appendix I: Programs Requiring Executive Order 12372 Review

This appendix lists programs requiring Executive Order 12372 review. Executive Order 12372 "Intergovernmental Review of Federal Programs," structures the Federal government's system of consultation with State and local governments on its decisions involving grants, other forms of financial assistance, and direct development. Under E.O. 12372, States, in consultation with their local governments, design their own review processes and select those Federal financial assistance and direct development activities they wish to review.

Since October 1, 1983 most States have acted to establish a review and comment system in response to E.O. 12372. In such cases, applicants for grants will need to meet the requirements of the intergovernmental consultation process established by a particular State and its local governments before Federal agencies take action on an application.

For more information on the process a particular State requires to be followed, an applicant should contact the office or official designated as the single point of contact in his or her State. Consult the individual program description in the Catalog to determine whether the programs under which he/she plans to apply is subject to E.O. 12372. Consult the Federal agency's application package for instructions on State notification.

# Appendix III: Budget Functional Code Appendix

## FINANCIAL INFORMATION

Account Identification - This 11-digit budget code identifies the account from which a program is funded as expressed in the Appendix to the Federal Budget. For identification code 75-0350-0-1-551, the first two digits represent the Federal agency code, and the third through sixth digits identify the appropriation (or fund) basic account symbol assigned by the Treasury Department. Where two or more accounts with different Treasury basic account symbols are included in a consolidated program, 99 will be the third and fourth digits, the fifth digit will be the fund type and the sixth digit will reflect the sequence of consolidated programs for that fund type within the agency. The seventh digit identifies the timing of transmittal of budget estimates:

- 0: Regular budget schedules
- 1: Supplemental appropriation
- 2: Legislative proposal, not subject to PAYGO
- 3: Appropriations language to be transmitted later
- 4: Legislative proposal, subject to PAYGO
- 5: Recission proposal
- 6: Adjustments to 1996 continuing resolution levels

The eighth digit identifies the type of government fund involved:

1: General fund - General Fund Appropriation Accounts - Accounts established to record amounts appropriated by law to be expended for the general support of the Government.

General Fund Receipt Accounts - Accounts credited with all receipts that are not earmarked by law for a specific purpose.

2: Special fund - Special Fund Appropriation Accounts - Accounts established to record appropriated amounts of special fund receipts to be expended for special programs in accordance with specific provisions of law. Special Fund Receipt Accounts - Accounts credited with receipts from specific sources that are earmarked by law for a specific purpose.

3: Public Enterprise Fund Accounts - Funds authorized by Congress to be credited with receipts primarily from the public, that are generated by, and earmarked to finance, a continuing cycle of business-type operations.

4: Intragovernmental Revolving or Management Fund Intragovernmental Fund Accounts - Accounts established to facilitate financing transactions within and between Federal agencies. These funds may be classified as intragovernmental revolving funds or management funds. Intragovernmental Revolving Fund Accounts - Funds authorized by law to carry out a cycle of intragovernmental business-type operations. These funds are credited with offsetting collections from other agencies and accounts.

7: Trust Fund (non-revolving) - Trust funds are established to account for the receipt and expenditure of monies by the Government for carrying out specific purposes and programs in accordance with the terms of a statute that designates the fund as a trust fund (such as the Highway Trust Fund) or for carrying out the stipulations of a trust agreement (such as any of several trust funds for gifts and donations for specific purposes). In a trust non-revolving fund, the receipts designated for the trust fund are in a separate account.

8: Trust Fund (revolving) - In a trust revolving fund, the fund is credited with collections earmarked by law to carry out a cycle of business-type operations.

9: For use when account consolidations cross fund types. The last three digits represent the functional classification (code) used in the latest Federal Budget document, unless noted otherwise by the Office of Management and Budget. In cases where a program is split between two or more subfunctions: (a) if all subfunctions are in the same major function, the code is the same as for the major function; or (b) if two or more major functions are involved the digits '999' are used. (Example: 75-1361-0-1-550)

Listed below are major functions and subfunctions as used in the budget document to show allocations of budget authority and outlays according to end purposes without regard to agency jurisdiction. The central nature of each major function is identified and defined. Catalog programs are listed following each applicable subfunction (or major function). Note that some subfunctions are not applicable to Catalog programs.

The alphabet(s) in parentheses following the program title, shows the type(s) of assistance available through that program. The alphabet codes with accompanying types of assistance are as follows:

- A: Formula Grants
- B: Project Grants
- C: Direct Payments for Specified Use
- D: Direct Payments with Unrestricted Use
- E: Direct Loans
- F: Guaranteed/Insured Loans
- G: Insurance
- H: Sale, Exchange, or Donation of Property and Goods
- I: Use of Property, Facilities, and Equipment
- J: Provision of Specialized Services
- K: Advisory Services and Counseling
- L: Dissemination of Technical Information
- M: Training
- N: Investigation of Complaints
- O: Federal Employment

## **(650) SOCIAL SECURITY**

Social Security is composed of the Federal Old\_Age and Survivors Insurance and Federal Disability Insurance trust funds and general funds payments to those funds, all offsetting receipts by those trust funds, except those classified in subfunction 903 - interest received by off-budget trust funds.

### **(651) Social Security**

This includes the Old Age and Survivors Insurance (OASI) and Disability Insurance (DI) trust funds and related intergovernmental payments and off\_setting collections.

## **(700) VETERANS BENEFITS AND SERVICES**

This function consists of programs providing benefits and services, the eligibility for which is related to prior military service but the financing of which is not an integral part of the costs of national defense. It includes veterans service-connected compensation; veterans non-service connected pensions; and veterans readjustment benefits, housing, and medical care programs. As a normal rule, the outlays in this function are similar to those in the broader

general purpose functions (such as income security or health) but are restricted to veterans, their dependents, and their survivors. Earned rights of career military personnel that are a cost of the defense budget (such as military retired pay or medical care) are excluded from this function. The subfunctions of this function are so structured that they are readily additive to analogous major functions for the general population.

## **(750) ADMINISTRATION OF JUSTICE**

This function includes those programs designed to provide judicial services, police protection, law enforcement (including civil rights), rehabilitation, and incarceration of criminals, and promotion of the general maintenance of domestic order. It includes the provision of court appointed counsel or other legal services to individuals. This function excludes the costs of the legislative branch, the narrow-purpose police or guard activities providing protection to Federal property, or activities which are an integral part of a broader function (such as postal inspectors, tax collection agents, and Park Service Rangers). The costs of National Guard personnel who are called upon occasionally to provide general public safety protection and military police costs are included under the national defense function rather than in this function.

# APPENDIX V: SOURCES OF ADDITIONAL INFORMATION

---

Additional information concerning Federal programs and services is available from the sources listed below. The information in this Appendix is in addition to that supplied in Appendix IV (Regional and Local Office Addresses) however; they are not the offices to which an applicant applies for an assistance program. If a potential applicant or information seeker is not certain which agency to contact, there are two types of organizations set up to help: The Federal Information Center Program and the Federal Executive Boards.

## FEDERAL CITIZEN INFORMATION CENTER PROGRAM

The Federal Citizen Information Center Program (FCIC) is a focal point for information about the Federal government. The FCIC assists people who have questions about Federal agencies, services, and programs, but do not know where to turn for an answer. FCIC information specialists either answer an inquirer's question directly, or perform the necessary research to locate and refer the inquirer to the expert best able to help. Telephone users may call the FCIC toll-free on (800) 688-9889 workdays between 9 a.m. and 8 p.m., Eastern Time. TTY users may call toll-free to the FCIC from anywhere in the U.S. by dialing (800) 326-2996.

## FEDERAL EXECUTIVE BOARDS

Federal Executive Boards (FEBs) are composed of heads of Federal field offices in the metropolitan area. The FEBs were established to improve internal Federal management practices, provide a central focus for Federal participation in civic affairs in major metropolitan centers of Federal activity, serve as a means for disseminating information within the Federal government and for promoting discussion of Federal policies and activities of importance to all Federal executives in the field. The FEBs carry out their functions under the supervision of the Office of Personnel Management (OPM). Federal Executive Associations, and Councils, have been locally organized in over 80 other metropolitan areas to perform functions similar to the Federal Executive Boards but on a lesser scale of organization and activity. For further information, contact the Assistant for Field Operations, Office of Personnel Management, Room 5524, 1900 E Street, NW., Washington, DC 20415-0001. Telephone: (202) 6061001.

#### **REFERENCE SOURCES**

##### **The Budget of the United States Government**

The Budget of the United States Government sets forth the President's comprehensive financial plan and indicates the President's priorities for the Federal government.

Information on programs by function, agency, and account, and detailed budget estimates is located in the Budget. Federal programs listed in the Catalog may be identified by the 11-digit budget account identification code listed in the Budget. These codes also appear in the Financial Information section of each Catalog program. A complete explanation of the identification code is provided in Appendix III of the Catalog (the Budget Functional Code Appendix). The Budget may be purchased from the Government Printing Office in the Washington, DC area and the U.S. Government bookstores listed in this Appendix.

##### **The Code of Federal Regulations**

The Code of Federal Regulations (CFR) is a codification of the general and permanent rules published in the Federal Register by executive departments and agencies of the Federal government. It includes all statutory regulations of Federal agencies, and is divided into 50 titles, which represent broad subject areas of Federal regulations (e.g., Housing and Urban Development, Public Health, Public Welfare, or Transportation). Each title is divided into chapters, which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas. The number preceding the CFR citation is the title or volume number. The CFR is kept up-to-date by the individual issues of the Federal Register; these two publications must be used together to determine the latest version of any given rule. Individual volumes of the CFR are revised at least once each calendar year and issued on a staggered quarterly basis. The CFR thus serves as a convenient reference for the citizen desiring a comprehensive source for general and permanent Federal regulations.

A General index to the entire Code of Federal Regulations, the CFR Index, is revised as of July 1 each year. The numerical Finding Aids, a cumulative list of CFR Sections affected is published monthly and is cumulated for 12 months, keyed to the revision dates of the various CFR volumes.

The Code of Federal Regulations is available in Federal depository libraries and most major libraries or Federal bookstores. Individual copies may be purchased from the Government Printing Office.

##### **The Federal Register**

The Federal Register, published daily, is the medium for making available to the public Federal agency regulations and other legal documents of the Executive Branch. These documents cover a wide range of government activities. Here, government requirements are published which involve environmental protection, consumer product safety, food and drug standards, occupational health and safety, and many more areas of concern to the public.

The Federal Register includes proposed changes in regulated areas. Each proposed change published carries an invitation for any citizen or group to participate in the consideration of the proposed regulation through the submission of written data, views, or arguments, and sometimes by oral presentations. Through the publication of proposed rules and notices of public meetings, citizens are given the opportunity to be informed about and participate in the workings of their government.

The Federal Register is also a vehicle for the announcement of newly authorized and/or funded programs, notifications of funding availability, (NOFAs), program application deadlines, and other important program information. The Federal Register Index is based on a consolidation of entries appearing in the issues of the Federal Register together with broad references. It is published monthly and is cumulative for 12 months. The Federal Register and the Federal Register Index are available in Federal depository libraries and most major libraries or Federal bookstores. Additional Federal Register resources include, the Statistical Abstract of the United States; Weekly Compilation of Presidential Documents; The Federal Register: What It Is and How To Use It. All Federal Register publications may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

# APPENDIX VI: DEVELOPING AND WRITING GRANT PROPOSALS

---

## PART ONE: DEVELOPING A GRANT PROPOSAL

### Preparation

A successful grant proposal is one that is well-prepared, thoughtfully planned, and concisely packaged. The potential applicant should become familiar with all of the pertinent program criteria related to the Catalog program from which assistance is sought. Refer to the information contact person listed in the Catalog program description before developing a proposal to obtain information such as whether funding is available, when applicable deadlines occur, and the process used by the grantor agency for accepting applications. Applicants should remember that the basic requirements, application forms, information and procedures vary with the Federal agency making the grant award. Individuals without prior grant proposal writing experience may find it useful to attend a grantsmanship workshop. A workshop can amplify the basic information presented here. Applicants interested in additional readings on grantsmanship and proposal development should consult the references listed at the end of this section and explore other library resources.

### INITIAL PROPOSAL DEVELOPMENT

#### Developing Ideas for the Proposal

When developing an idea for a proposal it is important to determine if the idea has been considered in the applicant's locality or State. A careful check should be made with legislators and area government agencies and related public and private agencies which may currently have grant awards or contracts to do similar work. If a similar program already exists, the applicant may need to reconsider submitting the proposed project, particularly if duplication of effort is perceived. If significant differences or improvements in the proposed project's goals can be clearly established, it may be worthwhile to pursue Federal assistance.

#### Community Support

Community support for most proposals is essential. Once proposal summary is developed, look for individuals or groups representing academic, political, professional, and lay organizations which may be willing to support the proposal in writing. The type and caliber of community support is critical in the initial and subsequent review phases. Numerous letters of support can be persuasive to a grantor agency. Do not overlook support from local government agencies and public officials. Letters of endorsement detailing exact areas of project sanction and commitment are often requested as part of a proposal to a Federal agency. Several months may be required to develop letters of endorsement since something of value (e.g., buildings, staff, services) is sometimes negotiated between the parties involved.

Many agencies require, in writing, affiliation agreements (a mutual agreement to share services between agencies) and building space commitments prior to either grant approval or award. A useful method of generating community support may be to hold meetings with the top decision makers in the community who would be concerned with the subject matter of the proposal. The forum for discussion may include a query into the merits of the proposal, development of a contract of support for the proposal, to generate data in support of the proposal, or development of a strategy to create proposal support from a large number of community groups.

#### Identification of a Funding Resource

A review of the Objectives and Uses and Use Restrictions sections of the Catalog program description can point out which programs might provide funding for an idea. Do not overlook the related programs as potential resources. Both the applicant and the grantor agency should have the same interests, intentions, and needs if a proposal is to be considered an acceptable candidate for funding.

Once a potential grantor agency is identified, call the contact telephone number identified in Information Contacts and ask for a grant application kit. Later, get to know some of the grantor agency personnel. Ask for suggestions, criticisms, and advice about the proposed project. In many cases, the more agency personnel know about the proposal, the better the chance of support and of an eventual favorable decision. Sometimes it is useful to send the proposal summary to a specific agency official in a separate cover letter, and ask for review and comment at the earliest possible convenience. Always check with the Federal agency to determine its preference if this approach is under consideration. If the review is unfavorable and differences cannot be resolved, ask the examining agency (official) to suggest another department or agency which may be interested in the proposal. A personal visit to the agency's regional office or headquarters is also important. A visit not only establishes face-to-face contact, but also may bring out some essential details about the proposal or help secure literature and references from the agency's library.

Federal agencies are required to report funding information as funds are approved, increased or decreased among projects within a given State depending on the type of required reporting. Also, consider reviewing the Federal Budget for the current and budget fiscal years to determine proposed dollar amounts for particular budget functions.

The applicant should carefully study the eligibility requirements for each Federal program under consideration (see the Applicant Eligibility section of the Catalog program description). The applicant may learn that he or she is required to provide services otherwise unintended such as a service to particular client groups, or involvement of specific institutions. It may necessitate the modification of the original concept in order for the project to be eligible for funding. Questions about eligibility should be discussed with the appropriate program officer.

Deadlines for submitting applications are often not negotiable. They are usually associated with strict timetables for agency review. Some programs have more than one application deadline during the fiscal year. Applicants should plan proposal development around the established deadlines.

#### Getting Organized to Write the Proposal

Throughout the proposal writing stage keep a notebook handy to write down ideas. Periodically, try to connect ideas by reviewing the notebook. Never throw away written ideas during the grant writing stage. Maintain a file labeled "Ideas" or by some other convenient title and review the ideas from time to time. The file should be easily accessible. The gathering of documents such as articles of incorporation, tax exemption certificates, and bylaws should be completed, if possible, before the writing begins.

### REVIEW

#### Criticism

At some point, perhaps after the first or second draft is completed, seek out a neutral third party to review the proposal working draft for continuity, clarity and reasoning. Ask for constructive criticism at this point, rather than wait for the Federal grantor agency to volunteer this information during the review cycle. For example, has the writer made unsupported assumptions or used jargon or excessive language in the proposal?

#### Signature

Most proposals are made to institutions rather than individuals. Often signatures of chief administrative officials are required. Check to make sure they are included in the proposal where appropriate.

#### Neatness

Proposals should be typed, collated, copied, and packaged correctly and neatly (according to agency instructions, if any). Each package should be inspected to ensure uniformity from cover to cover. Binding may require either clamps or

hard covers. Check with the Federal agency to determine its preference. A neat, organized, and attractive proposal package can leave a positive impression with the reader about the proposal contents.

### **Mailing**

A cover letter should always accompany a proposal. Standard U.S. Postal Service requirements apply unless otherwise indicated by the Federal agency. Make sure there is enough time for the proposals to reach their destinations. Otherwise, special arrangements may be necessary. Always coordinate such arrangements with the Federal grantor agency project office (the agency which will ultimately have the responsibility for the project), the grant office (the agency which will coordinate the grant review), and the contract office (the agency responsible for disbursement and grant award notices), if necessary.

## **PART TWO: WRITING THE GRANT PROPOSAL**

### **The Basic Components of a Proposal**

There are eight basic components to creating a solid proposal package: (1) the proposal summary; (2) introduction of organization; (3) the problem statement (or needs assessment); (4) project objectives; (5) project methods or design; (6) project evaluation; (7) future funding; and (8) the project budget. The following will provide an overview of these components.

### **The Proposal Summary: Outline of Project Goals**

The proposal summary outlines the proposed project and should appear at the beginning of the proposal. It could be in the form of a cover letter or a separate page, but should definitely be brief --no longer than two or three paragraphs. The summary would be most useful if it were prepared after the proposal has been developed in order to encompass all the key summary points necessary to communicate the objectives of the project. It is this document that becomes the cornerstone of your proposal, and the initial impression it gives will be critical to the success of your venture. In many cases, the summary will be the first part of the proposal package seen by agency officials and very possibly could be the only part of the package that is carefully reviewed before the decision is made to consider the project any further.

The applicant must select a fundable project which can be supported in view of the local need. Alternatives, in the absence of Federal support, should be pointed out. The influence of the project both during and after the project period should be explained. The consequences of the project as a result of funding should be highlighted.

### **Introduction: Presenting a Credible Applicant or Organization**

The applicant should gather data about its organization from all available sources. Most proposals require a description of an applicant's organization to describe its past and present operations. Some features to consider are:

- A brief biography of board members and key staff members.
- The organization's goals, philosophy, track record with other grantors, and any success stories.
- The data should be relevant to the goals of the Federal grantor agency and should establish the applicant's credibility.

### **The Problem Statement: Stating the Purpose at Hand**

The problem statement (or needs assessment) is a key element of a proposal that makes a clear, concise, and well-supported statement of the problem to be addressed. The best way to collect information about the problem is to conduct and document both a formal and informal needs assessment for a program in the target or service area. The information provided should be both factual and directly related to the problem addressed by the proposal. Areas to document are:

- The purpose for developing the proposal.
- The beneficiaries -- who are they and how will they benefit.
- The social and economic costs to be affected.
- The nature of the problem (provide as much hard evidence as possible).

- How the applicant organization came to realize the problem exists, and what is currently being done about the problem.
- The remaining alternatives available when funding has been exhausted. Explain what will happen to the project and the impending implications.
- Most importantly, the specific manner through which problems might be solved. Review the resources needed, considering how they will be used and to what end.

There is a considerable body of literature on the exact assessment techniques to be used. Any local, regional, or State government planning office, or local university offering course work in planning and evaluation techniques should be able to provide excellent background references. Types of data that may be collected include: historical, geographic, quantitative, factual, statistical, and philosophical information, as well as studies completed by colleges, and literature searches from public or university libraries. Local colleges or universities which have a department or section related to the proposal topic may help determine if there is interest in developing a student or faculty project to conduct a needs assessment. It may be helpful to include examples of the findings for highlighting in the proposal.

### **Project Objectives: Goals and Desired Outcome**

Program objectives refer to specific activities in a proposal. It is necessary to identify all objectives related to the goals to be reached, and the methods to be employed to achieve the stated objectives. Consider quantities or things measurable and refer to a problem statement and the outcome of proposed activities when developing a well-stated objective. The figures used should be verifiable. Remember, if the proposal is funded, the stated objectives will probably be used to evaluate program progress, so be realistic. There is literature available to help identify and write program objectives.

### **Program Methods and Program Design: A Plan of Action**

The program design refers to how the project is expected to work and solve the stated problem. Sketch out the following:

- The activities to occur along with the related resources and staff needed to operate the project (inputs).
- A flow chart of the organizational features of the project. Describe how the parts interrelate, where personnel will be needed, and what they are expected to do. Identify the kinds of facilities, transportation, and support services required (throughputs).
- Explain what will be achieved through 1 and 2 above (outputs); i.e., plan for measurable results. Project staff may be required to produce evidence of program performance through an examination of stated objectives during either a site visit by the Federal grantor agency and or grant reviews which may involve peer review committees.
- It may be useful to devise a diagram of the program design. For example, draw a three column block. Each column is headed by one of the parts (inputs, throughputs and outputs), and on the left (next to the first column) specific program features should be identified (i.e., implementation, staffing, procurement, and systems development). In the grid, specify something about the program design, for example, assume the first column is labeled inputs and the first row is labeled staff. On the grid one might specify under inputs five nurses to operate a child care unit. The throughput might be to maintain charts, counsel the children, and set up a daily routine; outputs might be to discharge 25 healthy children per week. This type of procedure will help to conceptualize both the scope and detail of the project.
- Wherever possible, justify in the narrative the course of action taken. The most economical method should be used that does not compromise or sacrifice project quality. The financial expenses associated with performance of the project will later become points of negotiation with the Federal program staff. If everything is not carefully justified in writing in the proposal, after negotiation with the Federal grantor agencies, the approved project may resemble less of the original concept. Carefully consider the pressures of the proposed implementation, that is, the time and money needed to acquire each part of the plan. A Program Evaluation and Review Technique (PERT) chart could be useful and supportive in justifying some proposals.
- Highlight the innovative features of the proposal which could be considered distinct from other proposals under consideration.

- Whenever possible, use appendices to provide details, supplementary data, references, and information requiring in-depth analysis. These types of data, although supportive of the proposal, if included in the body of the design, could detract from its readability. Appendices provide the proposal reader with immediate access to details if and when clarification of an idea, sequence or conclusion is required. Time tables, work plans, schedules, activities, methodologies, legal papers, personal vitae, letters of support, and endorsements are examples of appendices.

#### **Evaluation: Product and Process Analysis**

The evaluation component is two-fold: (1) product evaluation; and (2) process evaluation. Product evaluation addresses results that can be attributed to the project, as well as the extent to which the project has satisfied its desired objectives. Process evaluation addresses how the project was conducted, in terms of consistency with the stated plan of action and the effectiveness of the various activities within the plan.

Most Federal agencies now require some form of program evaluation among grantees. The requirements of the proposed project should be explored carefully. Evaluations may be conducted by an internal staff member, an evaluation firm or both. The applicant should state the amount of time needed to evaluate, how the feedback will be distributed among the proposed staff, and a schedule for review and comment for this type of communication. Evaluation designs may start at the beginning, middle or end of a project, but the applicant should specify a start-up time. It is practical to submit an evaluation design at the start of a project for two reasons:

- Convincing evaluations require the collection of appropriate data before and during program operations; and,
- If the evaluation design cannot be prepared at the outset then a critical review of the program design may be advisable.

Even if the evaluation design has to be revised as the project progresses, it is much easier and cheaper to modify a good design. If the problem is not well defined and carefully analyzed for cause and effect relationships then a good evaluation design may be difficult to achieve. Sometimes a pilot study is needed to begin the identification of facts and relationships. Often a thorough literature search may be sufficient.

Evaluation requires both coordination and agreement among program decision makers (if known). Above all, the Federal grantor agency's requirements should be highlighted in the evaluation design. Also, Federal grantor agencies may require specific evaluation techniques such as designated data formats (an existing information collection system) or they may offer financial inducements for voluntary participation in a national evaluation study. The applicant should ask specifically about these points. Also, consult the Criteria For Selecting Proposals section of the Catalog program description to determine the exact evaluation methods to be required for the program if funded.

#### **Future Funding: Long-Term Project Planning**

Describe a plan for continuation beyond the grant period, and/or the availability of other resources necessary to implement the grant. Discuss maintenance and future program funding if program is for construction activity. Account for other needed expenditures if program includes purchase of equipment.

#### **The Proposal Budget: Planning the Budget**

Funding levels in Federal assistance programs change yearly. It is useful to review the appropriations over the past several years to try to project future funding levels (see Financial Information section of the Catalog program description).

However, it is safer to never anticipate that the income from the grant will be the sole support for the project. This consideration should be given to the overall budget requirements, and in particular, to budget line items most subject to inflationary pressures. Restraint is important in determining inflationary cost projections (avoid padding budget line items), but attempt to anticipate possible future increases.

Some vulnerable budget areas are: utilities, rental of buildings and equipment, salary increases, food, telephones, insurance, and transportation. Budget adjustments are sometimes made after the grant award, but this can be a lengthy process. Be certain that implementation, continuation and phase-down costs can be met. Consider costs associated with leases, evaluation systems, hard/soft match requirements, audits, development, implementation and maintenance of information and accounting systems, and other long-term financial commitments.

A well-prepared budget justifies all expenses and is consistent with the proposal narrative. Some areas in need of an evaluation for consistency are: (1) the salaries in the proposal in relation to those of the applicant organization should be similar; (2) if new staff persons are being hired, additional space and equipment should be considered, as necessary; (3) if the budget calls for an equipment purchase, it should be the type allowed by the grantor agency; (4) if additional space is rented, the increase in insurance should be supported; (5) if an indirect cost rate applies to the proposal, the division between direct and indirect costs should not be in conflict, and the aggregate budget totals should refer directly to the approved formula; and (6) if matching costs are required, the contributions to the matching fund should be taken out of the budget unless otherwise specified in the application instructions.

It is very important to become familiar with Government-wide circular requirements. The Catalog identifies in the program description section (as information is provided from the agencies) the particular circulars applicable to a Federal program, and summarizes coordination of Executive Order 12372, "Intergovernmental Review of Programs" requirements in Appendix I. The applicant should thoroughly review the appropriate circulars since they are essential in determining items such as cost principles and conforming with Government guidelines for Federal domestic assistance.

# Appendix VII: Historical Profile of Catalog Programs

The following list shows all programs printed in the Catalog of Federal Domestic Assistance beginning with the 1965 edition and the subsequent action taken related to that program. For the years 1965, 1967, and 1969 the programs did not have numbers. They were identified only by their titles. Therefore, the first part of each agency listing shows programs by their title if they were in existence before 1970. The program numbering system was instituted in 1970. The first line shows the number and title of the program when it was added to the Catalog. The second and subsequent lines show the year the program was added and any additional transactions, e.g., title changes, transfers, deletes, consolidations, agency reorganizations, number changes, etc., that may have followed. The alphabet B or U that follows a given year, indicates the transaction was made either in the basic (B) or the update (U) publication of the Catalog. In some instances, there is also a U1 and U2 behind the year. The U1 and U2 are the first and second updates respectively, published that year.
