Manuscript Submission Overview

The Submission Overview describes the submission process and what you will need to submit your manuscript.

Overview of the manuscript submission process

Set up manuscript

Provide bibliographic information, grant or project information, and all manuscript files.

Approve PDF Receipt

Review a PDF version of your manuscript to ensure that we received all of the content.

Approve web version

Review and approve the web version of your manuscript for use in PubMed Central.

[Cancel Submission](#)

Links with a **question mark** next to them are help links. You will find these throughout the system to help guide you through the process. Click on the text open the dialog box for an explanation.

Before you get started

You need to have all of these on hand to send a manuscript to NIH:

journal name

[What if my journal is not a PubMed journal?](#)

manuscript title

grant numbers

manuscript files

[Which files should I include?](#)

[What file types can I use?](#)

[Continue](#)

Review of NIHMS submission statement

Submission Statement

Manuscript Title: NIHMS Test Submission
Accepted for Publication in: Nanotechnology

Note: The language of this page will vary according to your funding agency.

I am an author of this manuscript, and I am providing it to the National Institutes of Health (NIH) to make publicly available in PubMed Central **12 months** after its official date of publication in the journal.

I confirm that:

Publication and Copyright Agreements — In any agreements that I have made with the journal, I have retained the right to deposit *this version* of the manuscript with PMC, so that it may be appropriately tagged and made available to the public on the PMC web site; or, I otherwise am legally authorized to deposit this manuscript for the purposes described.

Confidentiality — The manuscript may contain confidential information that must not be publicly disclosed prior to publication of the paper in the named journal.

Peer Review — The version I am depositing has been peer reviewed and accepted for publication and includes all modifications resulting from the peer review process.

Funding — The manuscript is the result of research supported, in whole or in part, by direct costs funded by NIH.
