Request an Account: Basic Registration

DS Logon offers two account types: basic and premium. A basic account is established online. Basic accounts, however, provide limited access to your personal information as well as the numerous applications available to premium account holders. A basic account may be upgraded to a premium account by completing the proofing process (either in person or remotely).

Please note that the appearance of the screens shown here may vary based on the manner in which DS Logon is accessed; the procedure, however, remains the same.

From the DS Logon tab, click Request an Account. The Registration Wizard appears displaying the question Do you have a Common Access Card (CAC) with accessible card reader?
