* Recent mammogram is defined as having had a mammogram within the past 2 years and is based on CDC's Behavioral Risk Factor Surveillance System (BRFSS) data, 2000.

† Exact 95% confidence intervals were calculated by using SAS and SUDAAN and were weighted to the age, sex, and racial distribution of the state's adult population in 2000 according to the sampling design.

~ Statistic could not be calculated; for BRFSS estimate of mammography screening, percent and confidence intervals were not calculated if there were 20 or fewer respondents.
