Breast Case # **Primarv Data Item Name Preferred Answer** Rationale Single tumor No Is this a multiple primary? Yes/No **Breast 1 Primary 1** Histologic Type 8500/3 Dermal lymphatic invasion is not coded as Infiltrating duct inflammatory carcinoma. Inflammatory carcinoma is coded under staging (CS Extension) carcinoma Single tumor No Is this a multiple primary? Yes/No **Breast 2** 8201/2 Intraductal, NOS and a specific intraductal carcinoma **Primary 1** Histologic Type identified by the word "pattern" in Table 1 Duct carcinoma in situ. cribriform type Lobular and duct tumors in same breast are a single No Is this a multiple primary? Yes/No primary **Breast 3** Primary 1 Histologic Type 8522/3 Assign the combination code to duct and lobular Infiltrating duct and lobular carcinoma Multiple duct carcinomas in same breast are a single No Is this a multiple primary? Yes/No primary. Use Multiplicity Counter to document the Breast 4 number of tumors abstracted as a single primary Histologic Type 8500/3 **Primary 1** Single histology present Infiltrating duct carcinoma Tumors in the right breast and tumors in the left breast Yes Is this a multiple primary? Yes/No are multiple primaries **Breast 5** Histologic Type, Left Left Breast - Single histology present Primarv 1 8520/3 Lobular carcinoma 8520/2 Right Breast - Single histology present Primary 2 Histologic Type, **Right** Lobular carcinoma in situ Yes Tumors in the right breast and tumors in the left breast Is this a multiple primary? Yes/No are multiple primaries **Breast 6** Primary 1 Histologic Type, **Right** 8522/3 Right Breast - Combination of invasive duct and Infiltrating duct and invasive lobular carcinoma

Answers and Rationale

Breast Case # **Primary Data Item Name Preferred Answer** Rationale lobular carcinoma Primary 2 Histologic Type, Left 8522/3 Left Breast - Combination of invasive duct and Infiltrating duct and invasive lobular carcinoma lobular carcinoma Single tumor No Is this a multiple primary? Yes/No **Breast 7** Primary 1 Histologic Type 8520/3 Code the histology of the invasive component Lobular carcinoma Single tumor No Is this a multiple primary? Yes/No **Breast 8** Primary 1 Histologic Type 8500/3 Code the histology of the invasive component Infiltrating duct carcinoma Tumors in the same breast with ICD-O-3 histology Yes Is this a multiple primary? Yes/No codes different at the first (xxxx), second (xxxx), or **Breast 9** third (xxxx) number are multiple primaries Histologic Type Single histology present Primary 1 8480/3 Mucinous/colloid carcinoma Histologic Type Single histology present **Primary 2** 8500/3 Infiltrating duct carcinoma No All foci of carcinoma are in the same breast and all are Is this a multiple primary? Yes/No duct carcinoma **Breast 10** Histologic Type 8500/3 Primary 1 Single histology present Infiltrating duct carcinoma
