## **DOCTORS AND MEDICAL SERVICES – BAVARIA**

The U.S. Consulate General Munich, Germany, assumes no responsibility or liability for the professional ability or reputation of, or the quality of services provided by, the following persons or clinics. Inclusion on this list is in no way an endorsement by the Department of State or the U.S. Consulate. Names are listed alphabetically, and the order in which they appear has no other significance. The information in the list on professional credentials, areas of expertise and language ability are provided directly by the physicians. You may receive additional information about individuals by contacting the local medical association (or its equivalent) or the local licensing authorities.

### **NOTE:**

Medical service in Germany is of a high standard. Charges for private patients can be approximately the same as those assessed in the United States but vary from physician to physician. University professors are likely to charge higher fees than other doctors on the list. These fees, however, in view of the physicians' standing in the medical community are not considered excessive.

Tourists should be prepared to pay in cash when they visit a doctor. For hospital admittance, except in emergency cases, a deposit is usually required to cover a five day stay.

All cities, town and rural areas in Bavaria will have University, City or County Hospitals. You will generally find physicians with basic English knowledge.

Any hotel manager will assist you, in case of illness, in finding appropriate doctors or medical care.

As a general rule, patients are admitted into hospitals through their physicians, except in emergencies.

## **Contents**
