

MILVAX IBC Continuing Education Credits

The Military Vaccine Agency has coordinated Continuing Education credits for a number of the training courses available from Immunization University. We are working to expand the amount and types of CE credits offered.

Continuing Education for Nurses

The Navy Medicine Professional Development Center (NMPDC) Continuing Nursing Education (CNE) Department is accredited by the American Nurses Credentialing Center's Commission on Accreditation to provide continuing education for registered nurses and licensed practical nurses.

Continuing Education for Emergency Medical Technicians (EMTs)

The Air Education and Training Command, the U.S. Army EMS Programs Management Office, and Navy Medicine Professional Development Center are accredited to approve EMT CEUs.

All presenters of the Immunization Basic Course have indicated that they have had no significant financial relationships with a commercial entity whose products/services are related to their topic subject matter.

Our Commitment to Standards of Quality and to Excellence

Immunization core knowledge is complex, and ongoing vaccination training is necessary.

What is the Military Vaccines (MILVAX) Agency Immunization Basic Course?

The MILVAX Immunization Basic Course (IBC) is a one day, eight hour course designed to train personnel in the essential elements of a safe and effective immunization program using DoD regulations, Advisory Committee on Immunization Practices (ACIP) guidelines and Centers for Disease Control and Prevention (CDC) recommendations for immunization practice.

Mission and Objectives:

The mission of the Immunization Basic Course is to train personnel in the essential components of a safe and effective immunization program, and to establish quality standards for vaccine administration.

The training objectives for the course are to:

- Identify the eight military immunization standards of practice and illustrate their use in daily clinic operations
- Differentiate the various DoD immunization program requirements
- Demonstrate immunization administration techniques
- Discuss staff training and competency improvement plans

Who should attend?

Participants should be medical personnel involved in immunization clinic management or the administration of vaccines, including Physician Assistants, Nurses, LPNs, medics, healthcare specialists, immunization technicians and corpsman.

**Sample Agenda**

IBC

0800-0815	Introductions
