

The 50th National

# JUNIOR SCIENCE AND HUMANITIES SYMPOSIUM

May 2 - 6, 2012 • Bethesda, MD

**A LEGACY OF INNOVATION...  
SHAPING AMERICA'S FUTURE**

The Junior Science and Humanities Symposium (JSHS) is a national research competition that promotes research and experimentation in science, engineering and mathematics at the high school level. The program is designed to inform, encourage and support future scientists and engineers.

## Professionalism

By interacting with practicing scientists and engineers, you will gain insightful knowledge and other opportunities that will enrich your outlook beyond high school to higher education.

## Credibility

At JSHS, you will be able to develop critical thinking skills, write a credible scientific paper and deliver presentations.

## Scholarships

Competing in the JSHS gives you the opportunity to earn scholarships locally and nationally from universities based on your original research paper.

**[www.jshs.org](http://www.jshs.org)**

**JSHS is jointly sponsored by  
the Army, Navy and Air Force.**
