Stakeholders' View of SwA Resources

- Like the Process View, we will be adding another "view" to the CRIC based on stakeholders. This view will allow visitors to view resources based on their role in the Software Development Life Cycle (SDLC).

Management

Software Testing/ Quality Assurance

Software Design/ Development

Stakeholders' View of SwA Resources

Acquisition/ Procurement

Education/ Training

- We've identified five stakeholder categories.
  - Management
  - Software Testing/Quality Assurance
  - Software Design/Development
  - Acquisition/Procurement
  - Education/Training
- Within these categories, we further expanded the stakeholders and provided descriptions to aid visitors in identifying where they may fit.
