Steel Import Monitor Tutorial

Practical Navigation of the
Import Monitor

Tutorial Overview

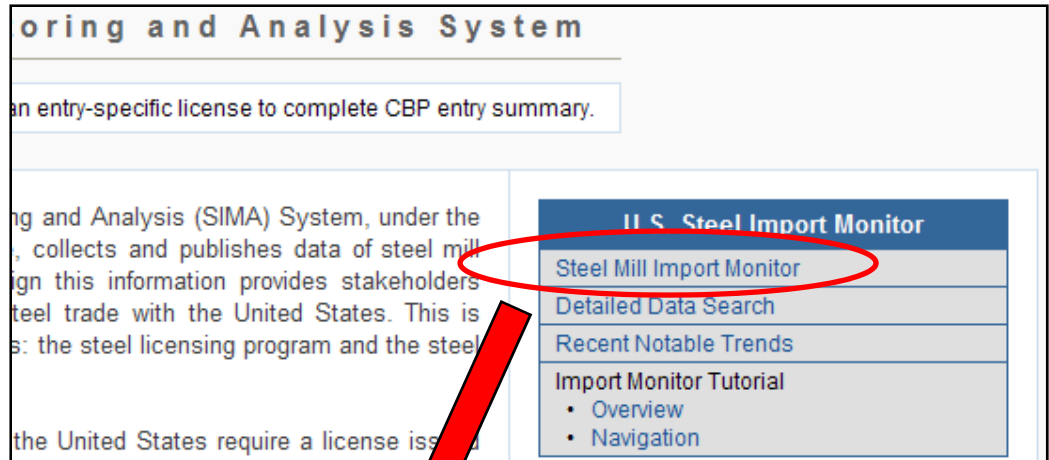

This Tutorial will cover:

- **Navigating tables**
- **Navigating graphs**
- **Using the search function**
- **Other SIMA monitors**

Navigating the Monitor

To access the Import Monitor, click on the link located on the SIMA home page.

This brings up the 15 month product view table for all steel mill products, showing detail for country of origin.

Additional Information

- Frequently Asked Questions
- Track Import Licensing Statistics

The Steel Import Monitoring and Analysis (SIMA) System, under the Department of Commerce, collects and publishes data of steel mill product imports. By design this information provides stakeholders valuable information on steel trade with the United States. This is achieved through two tools: the steel licensing program and the steel import monitor.

All steel mill imports into the United States require a license issued by the SIMA office. The SIMA Licensing System is an on-line automatic system for users to register, apply for, and receive licenses in a quick and timely manner. This on-line system allows importers to process imports with minimal effort and added efficiency.

In addition to managing the licensing system, SIMA publishes near real-time aggregate data on steel mill imports into the United States. These data incorporate information collected from steel license applications and publicly released Census data. The data are displayed in tables and graphs for users to analyze various levels and changes in steel trade involving the United States. Additionally, SIMA provides data on US steel mill exports, as well as imports and exports of select downstream steel products.

3. Measurement:

Open Graph

Using the Search Function – Tables

The ‘search for tables’ option uses 5 variables to locate a table: Monitor, Table Type, Country OR Category, Frequency, and Measurement.

The Monitor variable lets you select from 3 SIMA monitors. The Import Monitor is the first option, labeled here as “Steel Mill Products.”

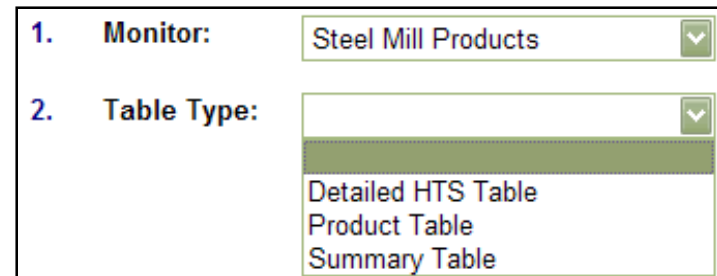

PLEASE SELECT

1. Monitor:

Steel Mill Products
Downstream Products
Exports - Steel Mill Products

A screenshot of a web form titled "PLEASE SELECT". It shows a dropdown menu for the "1. Monitor:" field. The menu is open, showing three options: "Steel Mill Products", "Downstream Products", and "Exports - Steel Mill Products". A blue arrow points from the text "labeled here as 'Steel Mill Products.'" to the first option in the dropdown.

The Table Type variable lets you choose from one of the 3 data views: Detailed HTS, Product, or Summary.

1. Monitor: Steel Mill Products

2. Table Type:

Detailed HTS Table
Product Table
Summary Table

A screenshot of a web form titled "PLEASE SELECT". It shows two dropdown menus. The first is labeled "1. Monitor:" and has "Steel Mill Products" selected. The second is labeled "2. Table Type:" and is open, showing three options: "Detailed HTS Table", "Product Table", and "Summary Table".

Using the Search Function – Tables

The Table Type corresponds to the primary data views available in the Monitor.

'Product Table' brings up 15 month product and country view tables.

Using the Search Function – Tables

The Country OR Category option allows you to select either country of origin or product category from a drop-down menu.

PLEASE SELECT

1. Monitor:

2. Table Type:

3. Country OR Category:

(Please select ONLY a Country OR a Category)

3. Country

- ALGERIA
- ARGENTINA
- AUSTRALIA
- AUSTRIA
- BAHAMAS
- BAHRAIN
- BELARUS
- BELGIUM
- BRAZIL
- BULGARIA
- CANADA
- CHILE

Using the Search Function – Tables

Note: the selections available in the Category drop-down menu change depending on the Table Type selected.

1. Monitor:

2. Table Type:

Detailed HTS Table
Product Table
Summary Table

OR Category:

All Steel Mill Products
All Carbon and Alloy Products
All Stainless Products
Flat Products -- C & A
Long Products -- C & A
Pipe and Tube -- C & A
Semi-Finished -- C & A
Flat Products -- S
Long Products -- S
Pipe and Tube -- S
Semi-Finished -- S

OR Category:

720610
720690
720711
720712
720719
720720

Selecting 'Detailed HTS Table' brings up a list of 6 digit HTS codes.

OR Category:

All Steel Mill Products
All Carbon and Alloy Products
All Stainless Products
Bars-Cold Finished -- C & A
Bars-Cold Finished -- S
Bars-Hot rolled -- C & A

Selecting 'Product Table' brings up a list of steel mill product groups.

Selecting 'Summary Table' brings up a list of aggregate product groups.

Using the Search Function – Tables

The Frequency variable gives you the option to search for either monthly or annual data.

4. Frequency:

Monthly Data
Annual Data

The Measurement variable allows you to choose from 3 units of measurement: volume, value, and average unit value.

5. Measurement:

Volume (Metric Tons)
Value (\$)
Average Unit Value (\$/mt)

Note: the Frequency and Measurement variables are not available for HTS view tables, as those automatically report only volume and average unit value for the most recent 4 months. When selecting 'Detailed HTS View', these two variables are set to 'Default'.

1. Monitor:

2. Table Type:

3. Country:

(Please select ONLY a Country OR a Category)

4. Frequency:

5. Measurement:

Using the Search Function – Tables

Note: Tables will open in a new window. Make sure to enable pop-ups from “ia.ita.doc.gov” in your pop-up blocker settings.

Other SIMA Monitors

Steel Import Monitoring and Analysis System

Imports of Steel Mill products need an entry-specific license to complete CBP entry summary.

The Steel Import Monitoring and Analysis (SIMA) System, under the Department of Commerce, collects and publishes data of steel mill product imports. By design this information provides stakeholders valuable information on steel trade with the United States. This is achieved through two tools: the steel licensing program and the steel import monitor.

All steel mill imports into the United States require a license issued by the SIMA office. The SIMA Licensing System is an on-line automatic system for users to register, apply for, and receive licenses in a quick and timely manner. This on-line system allows importers to process imports with minimal effort and added efficiency.

In addition to managing the licensing system, SIMA publishes near real-time aggregate data on steel mill imports into the United States. These data incorporate information collected from steel license applications and publicly released Census data. The data are displayed in tables and graphs for users to analyze various levels and changes in steel trade involving the United States. Additionally, SIMA provides data on US steel mill exports, as well as imports and exports of select downstream steel products.

U.S. Steel Import Monitor
