Homeland Security
(DHS)

ICSJWG Spring 2010 Conference

Conference Agenda

- Opening remarks
- Overview of the National Cybersecurity and Communications Integration Center (NCCIC)
- 1st Day – Subgroup Briefings, GCC/SCC Meetings
- 2nd Day – Presentations in three tracks: Case Studies, Technology, Policy & Standards
- 3rd Day – Control Systems Cyber Security Training

Critical Infrastructure Partnership Advisory Council

- Established by the Department of Homeland Security to facilitate effective coordination between Federal State, Local, Territorial and Tribal governments and Private Sector infrastructure protection programs.
- The CIPAC represents a partnership between government and critical infrastructure/key resource (CIKR) owners and operators and provides a forum in which they can engage in a broad spectrum of activities to support and coordinate critical infrastructure protection.
- CIPAC activities in the NIPP partnership framework are exempt from the requirements of the Federal Advisory Committee Act. This enables meaningful dialogue on key critical infrastructure protection issues and agreement on mutual action between Government and owners/operators.

GCC/SCC Meetings

- Function
- Who should attend?
- Activities for other conference participants

ICSJWG Achievements

- Subgroup Progress
- Increased Participation
- Improving Communications

Way Ahead

- Periodic Subgroup Meetings
- Subgroup Products
- Fall 2010 Conference
