Finding Tables

Nonemployer Statistics tables can be accessed directly at:

http://factfinder2.census.gov/bkmk/navigation/1.0/en/d program:NES

Alternatively, the tables can be accessed using the following path:

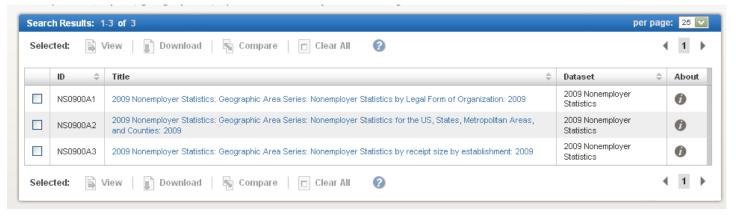

- 1. Go to http://factfinder2.census.gov/
- 2. Select "Topics" from the menu on the left.

3. Select "Program", then "Nonemployer Statistics".

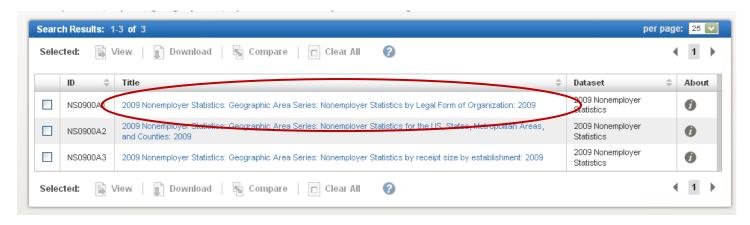

4. The Search Results are now narrowed down to all Nonemployer Statistics tables.

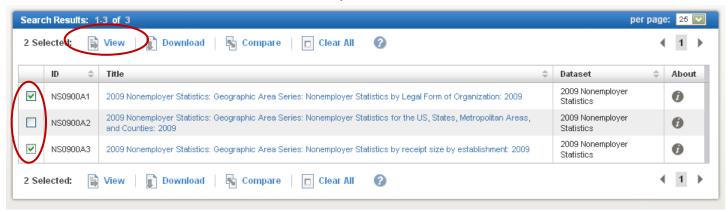

Opening Tables

To open a table, simply click on the hyperlinked table title.

To open multiple tables:

1. Check off the checkboxes next to the tables you would like to view, then click the "View" button.

2. The first table opens. To view the next table, click the right-arrow on the top right corner.

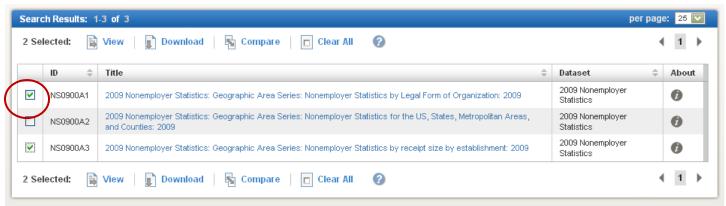

Adding Geographies to a Table

When no geographies are added to your selections, most tables open up by default with the highest level of geography in that table, typically the United States.

To add other geographies, such as states, counties, and metropolitan and micropolitan areas:

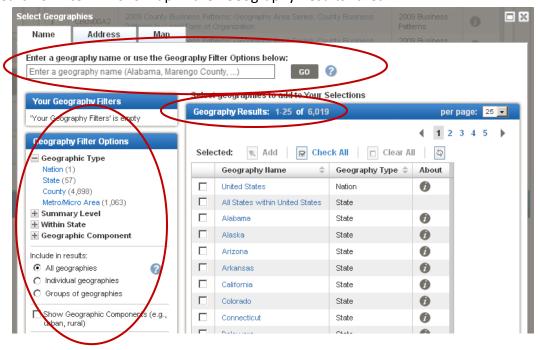

1. Check off the checkbox next to the table(s) you would like to view.

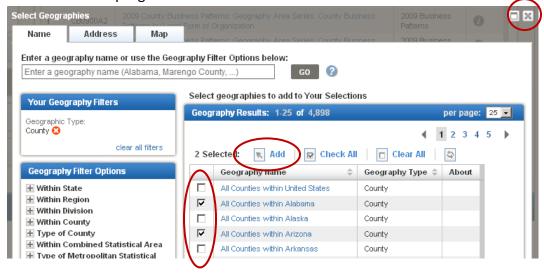

2. Select the "Geographies" button on the left-hand side.

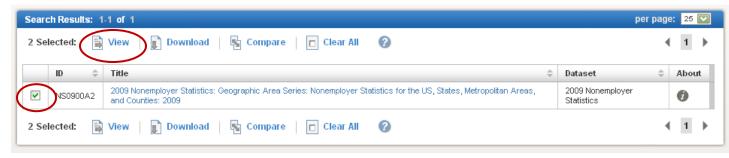

3. The "Select Geographies" menu displays. This menu contains all the geographies that are available for the table(s) you checked off. You can search for a geography by name using the search box, or use the "Geography Filter Options" to find geographies by their type or by state. The available geographies for your search or filter will show up in the "Geography Results" area.

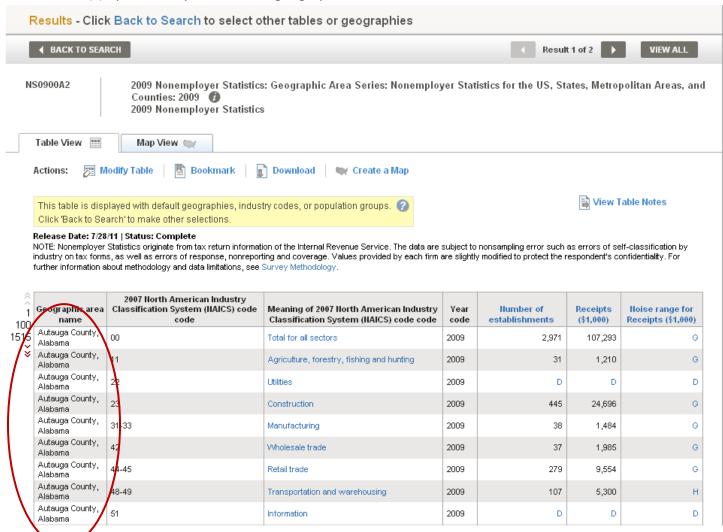

4. To add geographies to your table(s), check off the check boxes next to the geography names in the "Geography Results" area, and click the "Add" button. When you are done adding geographies, click the "X" button on the top-right corner.

5. Check off the table(s) you want to view, and click "View".

6. The table(s) opens with your selected geographies.

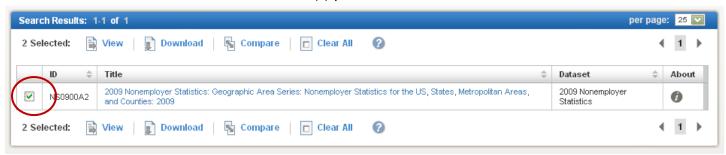

Adding Industries to a Table

When no industries are added to your selections, most tables open up by default with the highest level of industries in that table, typically the sector or 2-digit North American Industry Classification System (NAICS) code level.

To add more industry detail:

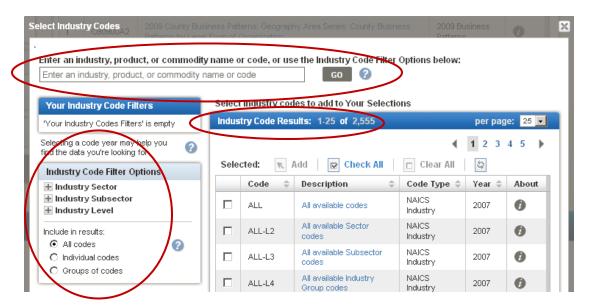

1. Check off the checkbox next to the table(s) you would like to view.

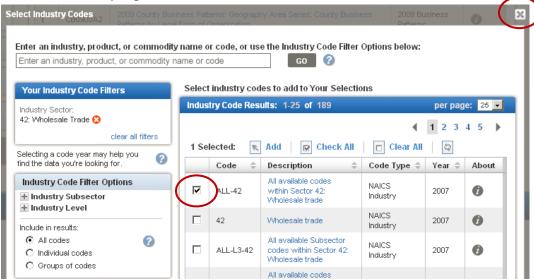

2. Select the "Industry Codes" button on the left-hand side.

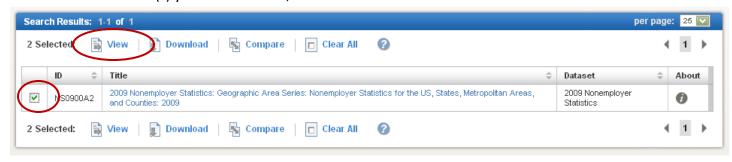

3. The "Select Industry Codes" menu displays. This menu contains all the NAICS industries that are available for the table(s) you checked off. You can search for an industry by name using the search box, or use the "Industry Code Filter Options" to find industries by their sector or by their level in the NAICS hierarchy. The available industries for your search or filter will show up in the "Industry Code Results" area.

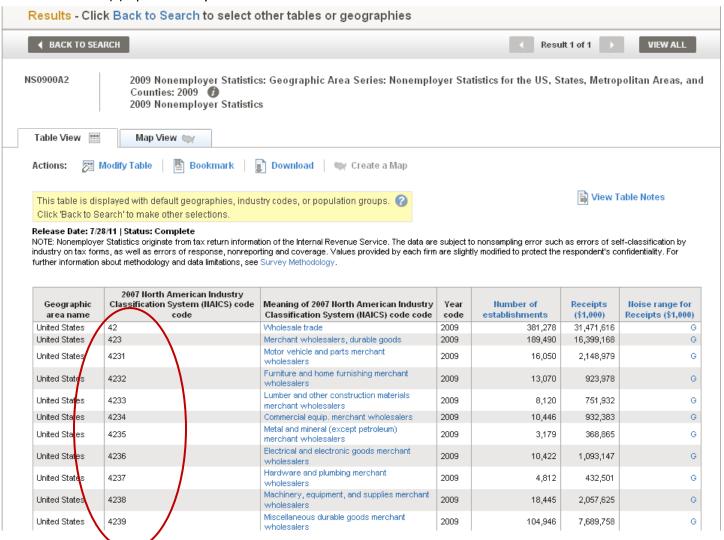

4. To add industries to your table(s), check off the check boxes next to the industry names in the "Industry Code Results" area, and click the "Add" button. When you are done adding industries, click the "X" button on the top-right corner.

5. Check off the table(s) you want to view, and click "View".

6. The table(s) opens with your selected industries.

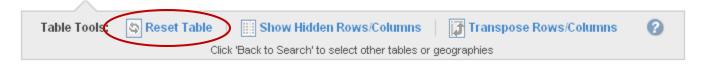

Modifying a Table

Once you have opened a table, you are able to modify it several different ways. To begin modifying a table, click the "Modify Table" button.

To return the table to its original state, click the "Reset Table" button.

Showing, Hiding, and Moving Columns

Most tables contain columns that are hidden from the default view. These columns typically contain geography and other control fields. To view these columns, click the "Show Hidden Rows/Columns" button.

To hide a particular column, uncheck the box beneath the column's display label.

To move a column to the left or right, click the left or right arrows beneath the column's display label.

Transpose Rows/Columns

In the new American FactFinder, you have the ability to transpose, or interchange the order of, rows and columns. To transpose rows and column, click the "Transpose Rows/Columns" button.

Sorting and Filtering Rows

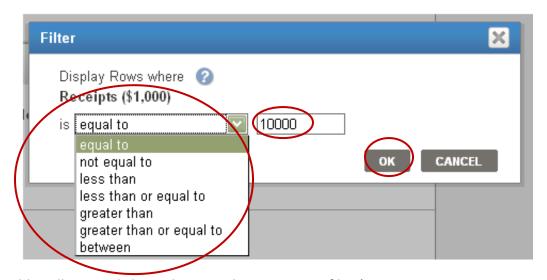

To sort rows in ascending or descending order, click the "up" (for ascending) or "down" (for descending) arrow beneath the column's display label.

To filter rows based a data value, click the filter button beneath the column's display label.

The "Filter" menu displays. Select an operator (e.g., "greater than", "less than"), enter a value, and click "OK".

The resulting table will now only have the rows that meet your filter's criteria.

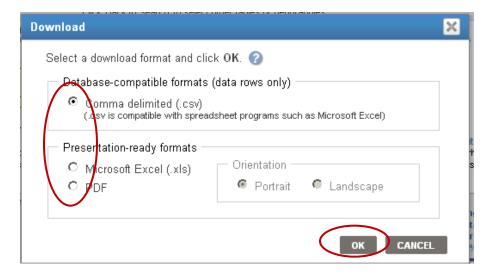

Downloading and Bookmarking Tables

Downloading

To download a table, click the "Download" button.

The "Download" menu appears. Select database-compatible (.csv) format, or presentation-ready formats (.xls or .pdf) and click "OK".

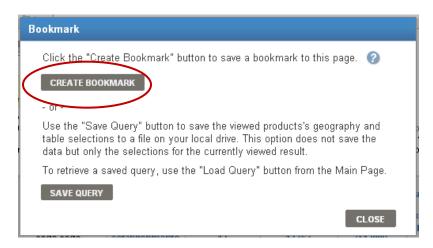

The table can now be used off-line and opened in spreadsheet, database, or PDF-viewing software.

Bookmarking

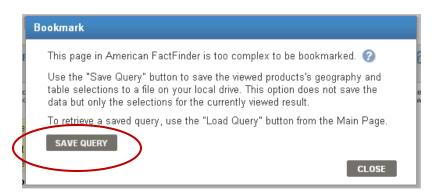

To bookmark a table, click the "Bookmark" button.

If the table has not been modified and contains a limited number of geographies and/or industries, you can create a bookmark by saving it into your browser's bookmarks.

If the table has been modified or contains too many geographies and/or industries, you will need to save a query file onto your computer.

The query file maintains all your selections and modifications for the table. To retrieve the table, you can upload the query file by clicking the "Load Query" button on the left-hand side of http://factfinder2.census.gov.
