а	Bon Secour NWR	Green energy project to replace HVAC systems, windows, doors, insulation, light fixtures, water heaters, and	R4GL
a	bon secoul num	appliances	NHOL
		Repair Storm Damaged Pine Beach Trail	R4GK
	Daphne, Alabama ES Field Office	Restore Longleaf Pine Ecosystem on Private Lands Under America's Longleaf Partnership Initiative	R4ED
	Wheeler NWR	Rehabilitate clogged White Springs dewatering unit water distribution system.	R4BM
		Rehabilitate the Deteriorated White Springs Dike Road.	R4KM
		Restore and Enhance Habitat Management Capabilities in White Springs Dewatering Unit by Providing Effective Water	R4ML
		Level Management	
	Alaska Maritime NWR	Remove Tank Adak Triplex 146C	R7GB
		Replace HAZMAT Building Adak	R7JE
		Replace Heating Oil Tank Adak Fourplex 145A	R7GA
		Replace Heating Oil Tank Adak Fourplex 145D	R7GC
		Replace Heating Oil Tank at Adak Triplex 146A	R7GE
		Restore habitats for nesting seabirds on isolated oceanic islands (via contract or temporary hires)	R7MA
	Alaska Peninsula NWR	Quarters #1(Naknek) Install Vertical Wind Turbine	R7CK
		Quarters #2(Naknek) Install Vertical Wind Turbine	R7CL
		Headquarters & Quarters #5(HQ Duplex) Install Vertical Wind Turbine	R7CA
	Anchorage Fish and Wildlife Field Office	Early detection and eradication of Spotted Knapweed at the 10 known sites in Southcentral Alaska .	R7FA
		Early detection and rapid response to eradicate invasive plants across Alaska	R7EA
		Fish Passage Restoration on Little Su Tributary	R7EB
		Invasive Plant Control in Girdwood Wetlands	R7FB
		NFHAP WNTI FY09 - NFPP - Fish Passage Restoration on Eccles Creek at Whitshed Road, Cordova, Alaska - Replace 3	R7TA
		damaged culverts to restore access to salmon and coastal cutthroat habitat	
		NFPP - Fish Passage Restoration on Cottonwood Creek at Engstrom Road, Mat-Su Valley, Alaska - Replace damaged	R7TB
		culvert to restore access to 1.5 miles and 50 acres of salmon spawning and rearing habitats NFPP/NFHAP - MatSu FHP - Fish Passage Restoration on Wasilla Creek at Grantham Drive (Barrier # CC047), Alaska -	R7UA
		Replace damaged culvert to restore fish access to 30 miles of spawning and rearing habitat	R/UA
		Replace damaged current to restore han decess to so miles of spawning and rearing habitate	
		Salmon Rearing Habitat Restoration in Lynwood Park	R7FC
		Ship Creek Streambank Restoration	R7FD
	Arctic NWR	Remove Wrecked Aircraft, Drums & Trash South Slope	R7MB
		Replace Avgas Fuel Tank at Galbraith Lake	R7GF
	Dillingham Administrative Site	Rehabilitate Four-Plex	R7GV
	Fairbanks Fish and Wildlife Field Office	Smallwood Creek Park Wetlands Restoration	R7EC
	Galena Administrative Site	Rehabilitate Float Dock & Retaining Wall Behind Qtrs #3	R7GW
	Innoko NWR	Reconstruct Residence Foundation (FAA House B-2)	R7GZ
		Reconstruct Residence Foundation (FAA House B-4)	R7GX
		Reconstruct Residence Utilities (FAA House B-4)	R7GY
	Izembek NWR	Bunkhouse Install Vertical Wind Turbine	R7CB
		Headquarters Install Vertical Wind Turbine	R7CC
		Quarters #1 Install Vertical Wind Turbine	R7CD
		Quarters #2 Install Vertical Wind Turbine	R7CE
		Quarters #3 Install Vertical Wind Turbine	R7CF
		Quarters #4 Install Vertical Wind Turbine	R7CG
	Kanuti NWR	Install renewable energy components in bunkhouse at Bettles	R7LB
		Install renewable energy components in residence at Bettles	R7LA
	Kenai Fish and Wildlife Field Office	Protect sensitive dune and tidal wetland habitat at the mouth of the Kenai river in Alaska.	R7EE
		Reed Canary Grass Eradication and Re-vegetation Project	R7ED
	Kenai NWR	Provide Solar Powered Panel for Water Pump - Skilak Wildlife Recreation Area	R7HG
		Rehabilitate Big Indian Creek Cabin	R7HD
		Rehabilitate Caribou Island Cabin	R7HB
		Rehabilitate Doroshin Bay Cabin	R7HC
		Rehabilitate Waysides and Spurs at Rainbow Lake	R7BE
		Repair HQ/Shop/Bunkhouse Security Gates	R7HE
		Replace Flammable Materials Storage Building	R7HA
		Skilak Mechanical & Prescribed Fire Vegetation Treatment	R7MD
		Visitor Center Replace HVAC System & Controls	R7BD
	King Salmon AS	Rehabilitate Floors (Q154)	R7HP
	-	Rehabilitate Floors and Cabinets (Q26)	R7HW
		Replace Flooring in Quarters 146	R7HR
		Replace Floors and Cabinets (Q27)	R7HX
		Replace kitchen cabinets and counter tops in Residence 28	R7HM
		Replace kitchen cabinets and counter tops in Residence 29	R7HN
		Replace wood decks Quarters 26	R7HL
		Replace wood decks Quarters 27	R7HH
		Replace wood decks Quarters 28	R7HK
	Kodiak Office	Repair Headquarter's Office Road System & Parking Lots	R7JA

ate	Lipit/Eacility	Pocoupry Act Projects (by EM/S Linit/Easility)	Droice
	Unit/Facility	Recovery Act Projects (by FWS Unit/Facility)	Projec
		Replace Main/Shop Exhaust System	R7HY
	Kata kan Administration City	Replace the Four Spring-Track Doors to Maintenance Shop Building	R7JB
	Kotzebue Administrative Site	Rehabilitate Residence #480 Entry Way	R7JC
		Rehabilitate Residence Foundation #480	R7BF
	McGrath Administrative Site	Renovate Snow House Utility Room	R7BG
	Togiak NWR	Replace Hot Water Heater at Hangar with Solar Powered Model	R7JD
	Yukon Delta NWR	Replace Old Chevak HQ Building	R7LC
zona	Alchesay NFH	Energy Efficiency - replace lights; increase insulation; install programmable thermostats; caulk, seal, and weatherstrip	R2PE
		leaks; replace windows; and replace appliances.	
		Rehabilitate A bank racewayssandblast and epoxy	R2PC
		Rehabilitate B bank racewayssandblast and epoxy	R2PD
		Rehabilitate Electrical System of Aboveground Fuel Tanks	R2PA
		Rehabilitate the electrical system of the paint and oil storage building	R2PB
		Replace asphalt pavement and water lines at tank house & A bank raceways	R2PF
	Arizona FWCO	Gila Trout Restoration in the Pinalen Mountain Streams: Ash, Frye, and Marijilda Creeks	R2UA
	Buenos Aires NWR	Conduct cultural resource surveys and habitat improvements, consisting of aeration, brush piles, native plantings,	R2MB
		erosion control measures, and new watering sites to provide habitat for masked bobwhite quail following release	
		from captive breeding facilities.	
	Cibola NWR	Renewable Energy - Solar Photovoltaic projects on buildings	R2CD
	Havasu NWR	Construct water diversion and delivery system for Topock Marsh (lift pumps and pipelines) to better manage listed	R2MC
		species and improve efficiency of water used from the Colorado River	0205
	Imperial NWR	Renewable Energy - Solar Photovoltaic projects on buildings	R2CE
	San Bernardino NWR	Replace approximately 11 miles of deteriorated fencing.	R2GY
	Williams Creek NFH	Install a chain-link apron barrier around the fence perimeter and install bird netting across the pond	R2QQ
		Energy Efficiency - replace lights; increase insulation; install programmable thermostats; caulk, seal, and weatherstrip	R2QT
		leaks; replace windows; and replace appliances. Rehabilitate B bank racewaysconstruction phase	R2QP
			R2QP
		Rehabilitate E Bank Raceways	
		Repair flume & install safety fence	R2RE
		Rehab D bank raceways	R2RJ
		Rehab A bank racewaysconstruction phase	R2RK
	Willow Beach NFH	Energy Efficiency - replace lights; increase insulation; install programmable thermostats; caulk, seal, and weatherstrip	R2QW
		leaks; replace windows; and replace appliances. Install a 2.5 KW PV solar system to assist in reducing the high cost of power for the facility.	R2QX
		Rehab Hatchery and Shop - reinforce masonry and roof to meet seismic requirements	R2QU
		Replace the Electrical System at Raceways A3 to A10	R2QV
		Replace the Electrical System at Naceways AS to ATO	NZQV
		Replace the Sentic Line with PVC	R2OV
		Replace the Septic Line with PVC	R2QY
ansas	Bald Knob NWR	Replace the Septic Line with PVC Construct new Visitor Contact Station	R2QY R4LA

tate	Unit/Facility	Recovery Act Projects (by FWS Unit/Facility)	Project
		Strawberry Creek Riparian Restoration Project	R8FA
	California-Nevada Fish Health Center	Install insulation in Admin bldg and laboratory	R8PA
		Install shade awnings and reflective film on windows	R8PC
		Replace HVAC Unit	R8PB
	Carlsbad Fish and Wildlife Office	Catalina Island Coastal and Maritime Habitat Restoration	R8FD
	Don Edwards San Francisco Bay NWR	Administrative Office Remodel	R8LA
		Replace 2025-foot Mayhews Unit boundary fence at SF Bay NWR	R8GC
	Humboldt Bay NWR	Rehabilitate the White Slough Tidegate	R8GD
	Kern NWR	Rehabilitate Water Control Structure at Kern NWR	R8GF
		Repair office flooring, electrical and tile at Kern NWR Headquarters	R8GE
	Lower Klamath NWR	Rehabilitate 2.8-mile Unit 10B, 11A2 Admin Road at Lower Klamath NWR	R8GM
		Replace deteriorated water control structure 9B-1H at Lower Klamath NWR	R8GH
		Replace nonfunctional water control structure 3B-4H and 30 feet of pipe at Lower Klamath NWR	R8GJ
		Replace nonfunctional water control structure 3B-5H and 30 feet of pipe at Lower Klamath NWR	R8GK
		Replace water control structure 4C-3H and 40 feet of pipe at Lower Klamath NWR	R8GL
	Merced NWR	Repair Deadman Creek Canal at Merced NWR	R8GN
	Modoc NWR	Replace maintenance shop	R8BA
		Replace quarters	R8GP
	Red Bluff FWO	Big Bear Flats stream habitat restoration to benefit the endangered Shasta crayfish, Willow Flycatcher and Pacific	R8EB
		fisher.	
	Sacramento FWO	Cloverdale Ranch Restoration	R8FE
	Sacramento NWR	Demolish and Replace seismically unsafe shop bldg	R8GV
	Sacramento River NWR	Replace 7,200 square foot storage building	R8GW
	Salinas River NWR	Repair 4,500-foot boundary fence and Salinas River entrance gate	R8GX
	San Diego Bay NWR	Provide an adequate base of operations for staff and volunteers, and an orientation point for visitors by constructing	R8AA
		an energy efficient Headquarters/Administrative/Visitor Building using a standard floor plan design to gain cost	
		efficiencies	
	San Diego NWR	Repair drainage channels parallel to Millar Ranch Road, San Diego NWR	R8BD
		Replace 2.25 miles of fencing and boundary signage at San Diego NWR Complex	R8BC
	San Luis NWR	Avoid costly lease expenses and provide an adequate base of operations for staff and volunteers, and an orientation point for visitors by constructing an energy efficient Headquarters/Visitor Building using a standard floor plan design to gain cost efficiencies.	R8AF
		Rehabilitate 2-mile A-canal extension gravel road at San Luis NWR	R8GY
	Stone Lakes NWR	Construct 4,000 foot concrete trail	R8LB
	Tehama-Colusa Fish Facility	Install exterior drainage alongside Admin building	R8RA
		Install ventilators in Warehouse Roof	R8PH
		Repair of damaged exterior building walls	R8PF
		Replace aging garage roll-up doors with insulated doors	R8PJ
		Replace aging inefficient A/C	R8PK
		Replace aging, inefficient modular trailer office space with modern, energy efficient office space	R8PG
	Tule Lake NWR	Walking Wetlands Restoration	R8MA
	Ventura FWO	Barrier removal in Central California to benefit threatened steelhead and Coho salmon.	R8FF
	Yreka FWO	Middle Klamath River Tributary Fish Passage	R8TC
orado	Alamosa NWR	Rehabilitate / Retrofit Office Heating System with Geothermal System and Install Photovoltaic and Wind Turbine	R6GD
		Systems.	DCC:
		Replace non-functional New Ditch Dam to enhance water management capability for wetlands and marshes on the refuge.	R6GA
		retuge. Replace Storage Building	R6BA
		Replace Storage Building	R6GB
		Replace Storage Building	R6GC
	Arapaho NWR	Rehabilitate Hackley Tract 4-Strand Interior Fence	R6GE
	Baca NWR	Rehabilitate / Retrofit Office Heating System with Geothermal System and Install Photovoltaic and Wind Turbine	R6GH
		Systems.	noun
		Replace East Baca Boundary Fence	R6GG
	Browns Park NWR	Replace 4 Pumps and Pump sites	R6BC
	Colorado River Fish Recovery Program-GJ	Hire private contractor to remove Hartland Diversion dam on the Gunnison R, CO for 20 mi of 3 spp habitats.	R6TA
		Hire private contractor to remove Hartland Diversion dam on the Gunnison R, CO for 20 mi of 3 spp habitats.	R6UA
	Hotchkiss NFH	Install New Weatherport Cover Over New Raceways	R6RA
		Replace effluent ponds with new raceways, re-line settling ponds	R6PG
	Monte Vista NWR	Rehabilitate / Retrofit Office Heating System with Geothermal System and Install Photovoltaic and Wind Turbine Systems	R6HM
	Rocky Mountain Arsenal NWR	Provide an adequate base of operations for staff and volunteers, and an orientation point for visitors by constructing an energy efficient Visitor Building using a standard floor plan design to gain cost efficiencies. Over half of cost to	R6AA
		come from collaborative effort with DOD.	
		Replace 9TH Avenue & First Creek Crossing Replace Section 10 Chain Link Fence	R6JB R6BJ

State	Unit/Facility	Project Information Recovery Act Projects (by FWS Unit/Facility)	Project
Connecticut	Stewart B McKinney NWR	Construct pedestrian railings on three island walkways along the seawall	Project R5HB
onnecticut	·		
elaware	Bombay Hook NWR	Rehabilitate Foot Trail-Phase II (cc)	R5GC
Florida	Arthur R. Marshall Loxahatchee NWR	Rehabilitate Damaged Maintenance Shop	R4GC
		Rehabilitate the fuel depot which has a missing emergency cutoff switch for the fuel pumps.	R4GB
		Remove invasive animals and vegetation and replace it with native vegetation using State and County money in partnership with the Federal funds (via contract or temporary hires).	R4MA
		Repair damaged, leaking windows and faulty GFI outlet at Quarters 6.	R4GD
	Chassahowitzka NWR	Repair Damaged Pole Barn	R4GV
		Repair weathered 5-acre whooping crane pen observation blind and associated facilities	R4GU
	Florida Panther NWR	Restore pine uplands and wet prairie habitats by removing invasive cabbage palms on 1,900 acres	R4MC
	Jacksonville, Florida ES Field Office	Florida Sandhills Longleaf Pine Restoration/Enhancement on Private Lands	R4EE
	Lower Suwannee NWR	Install solar photovoltaic array system on the Refuge Maintenance Shop and replace HVAC system. Rehabilitate Worn Graveled Maintenance Yard Parking Area	R4CA R4HM
		Repair Worn and Replace Missing Boundary Signs	R4HL
	Merritt Island NWR	Construct a small administrative office based on the Refuge standard small office design.	R4LC
		Rehabilitate eroded and overgrown T-10-J dike.	R4HP
		Restore Habitat for Endangered Scrub Jay	R4MD
		Restore Habitat for Endangered Scrub Jay, Phase 2	R4ME
	National Key Deer Refuge	Contract to inventory and monitor plant and animal populations critical to ensuring the biological integrity of the	R4MF
		Florida Keys National Wildlife Refuge Complex. Replace worn/deteriorated bulk fuel tanks (two 1000 gal tanks - gasoline) at Administrative/Operations facility	R4HV

State	Unit/Facility	Recovery Act Projects (by FWS Unit/Facility)	Project
West Virginia	National Conservation Training Center	Install a solar water heating system at the campus laundry which washes linens for the Center's 226 dorm rooms. This improvement would substantially reduce energy costs incurred by the laundries current oil-fired water heating system. This improvement would also contribute towards a LEED EB innovation client.	R9VF
		Install lighting occupancy sensors in campus public facilities such as restrooms and classrooms. Improvement will contribute to LEED EB certification and reduce energy consumption.	R9VJ
		Install water efficient and air-dry fixtures in the Center's two dozen public restroom facilities to reduce energy and water consumption.	R9VD
		Obtain LEED EB Certification, upgrade existing building systems to reduce energy consumption, construct onsite sustainable energy systems.	R9VA
		Reconstruct existing HVAC systems to reduce fuel oil and electrical consumption and allow for more efficient monitoring and controlling of the Center's numerous HVAC systems across the 400,000 s.f. campus.	R9VC
		Replace 10 year old kitchen equipment with more energy efficient Energy Star kitchen equipment. Replace 226 guest room toilets with low-flow water efficient toilets. New toilets will reduce water use in dormitories	R9VH R9VE
		by 25%. Replace Central Plant Cooling Tower/Systems with new high efficiency Central Plant systems and fiberglass structures.	R9VB
		Improvements will reduce energy consumption and improve water quality.	1070

		Employ 30 YCC enrollees at 20 urban field stations	R3NA

Project Information			
tate	Unit/Facility	Recovery Act Projects (by FWS Unit/Facility)	Project #
		Employ other temporary hires (STEP) at 40 urban field stations over 2 years	R4NB
		Employ 50 YCC enrollees at 20 Field stations	R6NC
		Employ 6 Conservation Interns at 12 urban field stations	R3NC
		Employ 6 SCA interns at 8 rural field stations	R2NB
		Employ 8 other temporary hires at 12 rural field stations	R2NC
		Employ 9 SCA interns at 8 urban field stations	R2NE
		Energy Audits for 80 Stations	R4KH
		Implement Energy Efficiency - Tier I	R5GY
		Implement Energy Efficiency - Tier II	R5GZ
		Install motion detectors in rooms with periodic/less traffic and programmable thermostats.	R4RD
		Install photovoltaic systems	R8CA
		Perform Energy Audits	R8GQ
		Rehabilitate / Retrofit Office Heating System with Geothermal System and Install Photovoltaic and Wind Turbine	R6JA
		Systems	110571
		Rehabilitate Offices by installing Prebuilt Tornado Shelters for stations in the tornado area (7 total)	R6HY
		Replace inefficient HVACs & Water heaters	R8GR
		Replace inefficient pumps & freezers	R8GT
		Restore Native Ecosystems' Function to Benefit Federal Threatened and Endangered Species and Neotropical	R2EB
		Migrants and Improve Water Quality	
		Rural - Employ 2 AmeriCorps Students at 2 field stations and 1 STEP student at 1 field station for an avg. of 11 months	R1NE
		per student.	
		Rural - Employ 30 YCC enrollees at 6 field stations	R7NA
		Rural - Employ 35 YCC enrollees at 3 field stations for two seasons	R1ND
		Rural - Employ 45 temporary hires at 14 field stations	R7NC
		Rural - Employ 9 SCA interns at 5 field stations	R7NB
		SCA Urban	R8NC
		STEP	R8ND
		Urban - Employ 5 AmeriCorps Students at 5 field stations for an avg. of 11 months per student.	R1NC
		Urban - Employ 5 SCA interns at 1 field station	R1NB
		Urban - Employ 50 YCC enrollees at 6 field stations for two seasons.	R1NA
		YCC Non-Urban	R8NB
		YCC Urban	R8NA
	Texas and Oklahoma	Bottomland hardwood reforestation of converted agricultural land in Texas and Oklahoma to benefit Louisiana Black	R2EE
		Bear and contribute to carbon sequestration efforts.
