

WARNING!

Say No to CO!

- Protect yourself and your family from carbon monoxide poisoning (CO) when using gasoline powered tools and pressure washers. (See other side for tips on protection.)
- You cannot see or smell CO, but it can kill you or make you sick
- CO poisoning can occur in minutes.
- Install a battery operated CO detector in your home, near the bedrooms.

*Recommendations from the
Centers for Disease Control and
Prevention*

Say No to CO!

(CO, carbon monoxide, is a poisonous gas)

BE SAFE:

- ✓ NEVER use gasoline-powered tools inside homes, garages, carports, basements, or other enclosed spaces.
- ✓ Keep pressure washer engines outside and away from doors, windows, and vents during use.
- ✓ Read product directions for other safety tips.
- ✓ Look for symptoms of CO poisoning:

Headache

Confusion

Fatigue

Seizures

Dizziness

Loss of consciousness

Nausea/vomiting

Get out of the house and seek medical help immediately if you or family members have these symptoms!
