Section A — Direct Ownership in this Foreign Affiliate

- **Equity interest** is the U.S. Reporter's direct ownership in the total equity (voting and nonvoting) of the affiliate. Examples of nonvoting equity include nonvoting stock and a limited partner's interest in a partnership.
- **Voting interest** is the U.S. Reporter's direct ownership in just the voting equity of the affiliate. Examples of voting equity include voting stock and a general partner's interest in a partnership. Thus, a U.S. Reporter could have a 100 percent direct voting interest in an affiliate but own less than 100 percent of the affiliate's total equity.
- Enter percent of ownership based on total voting stock, as applicable, if an incorporated affiliate, or an equivalent interest if an unincorporated affiliate.

Major activity of foreign affiliate

18 What is the one activity below that best describes the major activity of the foreign affiliate? — Mark (X) one.

Note — For an inactive affiliate, select the activity based on its last active period; for "start-ups," select the intended activity.

- 1028 **1** Producer of goods
- 2** Seller of goods the foreign affiliate does not produce
- 3** Producer or distributor of information
- 4** Provider of services
- 5** Other – Specify

--

19 What is the MAJOR product or service involved in this activity? If a product, briefly state what is done to it, i.e., whether it is mined, manufactured, sold at wholesale, packaged, transported, etc. (For example, "Manufacture widgets to sell at wholesale.")

1029

Industry classification of foreign affiliate (based on sales or gross operating revenues)

- Report in columns (1) and (2) respectively, the 4-digit International Surveys Industry (ISI) code(s) and the sales associated with each code.
- For a full explanation of each code, see the **Guide to Industry Classifications for International Surveys, 2007**.
- For an **inactive** foreign affiliate, enter an ISI code based on its last active period.
- Holding companies** (ISI code 5512) must show total income. To be considered a holding company, income from equity investments must be more than 50 percent of total income. In addition, normally at least 50 percent of total assets must consist of investments in affiliates. ISI code 5512 (holding company) is an invalid classification if more than 50 percent of income generated, or expected to be generated, by an affiliate is from non-holding company activities.
- Dealers in financial instruments and finance, insurance, and real estate companies see **Special Instructions** on page 14.*

Part II — Financial and Operating Data of Majority-Owned Foreign Affiliate

Section A — Number of Employees and Employee Compensation

- **Report the number of employees** on the payroll at the end of FY 2011 including part-time employees, but excluding temporary and contract employees not included on your payroll records. A count taken at some other date during the reporting period may be given provided it is a reasonable estimate of employees on the payroll at the end of FY 2011. If the number of employees at the end of FY 2011 (or when the count was taken) was unusually high or low due to temporary factors (e.g., a strike), enter the number of employees that reflects normal operations. If the number of employees fluctuates widely during the year due to seasonal business variations, report the average number of employees on the payroll during FY 2011. Base such an average on the number of employees on the payroll at the end of each pay period, month or quarter. If precise figures are not available, give your best estimate.
- **Report employee compensation** expenditures made by an employer in connection with the employment of workers, including cash payments, payments in-kind, and employer expenditures for employee benefit plans including those required by statute. Base compensation data on payroll records. Report compensation which relates to activities that occurred during the reporting period regardless of whether the activities were charged as an expense on the income statement, charged to inventories, or capitalized. **DO NOT** include data related to activities of a prior period, such as those capitalized or charged to inventories in prior periods. **DO NOT** include compensation of contract workers not carried on the payroll of this affiliate. Total employee compensation consists of **wages and salaries** of employees and employer expenditures for all **employee benefit plans**.
 - **Wages and salaries** include gross earnings of all employees before deduction of employees' payroll withholding taxes, social insurance contributions, group insurance premiums, union dues, etc. Include time and piece-rate payments, cost of living adjustments, overtime pay and shift differentials, bonuses, profit-sharing amounts, stock-based compensation, and commissions. Exclude commissions paid to independent personnel who are not employees. Include direct payments by employers for vacations, sick leave, severance (redundancy) pay, etc. Exclude payments made by, or on behalf of, benefit funds rather than by the employer. Include employer contributions to benefit funds. Include in-kind payments, valued at their costs, that are clearly and primarily of benefit to the employees as consumers. Do not include expenditures that benefit employers as well as employees, such as expenditures for plant facilities, employee training programs, and reimbursement of business expenses.
 - **Employee benefit plans** include employer expenditures for all employee benefit plans including those mandated by government statute, those resulting from collective bargaining contracts and those that are voluntary. Include Social Security and other retirement plans, life and disability insurance, guaranteed sick pay programs, workers' compensation insurance, medical insurance, family allowances, unemployment insurance, severance pay funds, etc. Also, include deferred post-employment and post-retirement expenses per FASB ASC 715 (FAS 106). If plans are financed jointly by the employer and the employee, include only the contributions of the employer.

	2105	1	Number of employees
29 What is the foreign affiliate's total number of employees?			

	2110	1	\$ Bil. Mil. Thous. Dols.
30 What is the foreign affiliate's total employee compensation expenditure? — Report, for all employees, the sum of wages and salaries and employee benefit plans			000

31 If total employee compensation expenditure in 30 is zero, is the compensation on the payroll of another foreign affiliate?

2111 1 Yes

2111 2 No — Explain why compensation is zero.

Section B — Technology

Affiliate ID

• **Research and development (R&D) expenditures** in **32** pertains only to R&D **performed** by the foreign affiliate, including R&D performed by the affiliate for others (including the U.S. Reporter or its other foreign affiliates) under contract. (Exclude the cost of any R&D funded by the affiliate but performed by others, such as the affiliate's allocated share of R&D performed by the U.S. Reporter (report such R&D on Form BE-11A, **51**).

- R&D includes the following:
 - The planned, systematic pursuit of new knowledge or understanding toward general application (**basic research**);
 - The acquisition of knowledge or understanding to meet a specific, recognized need (**applied research**); and
 - The application of knowledge or understanding toward the production or improvement of a product, service, process, or method (**development**).

Basic research is the pursuit of new scientific knowledge or understanding that does not have specific immediate commercial objectives, although it may be in fields of present or potential commercial interest.

Applied research applies the findings of basic research or other existing knowledge toward discovering new scientific knowledge that has specific commercial objectives with respect to new products, services, processes, or methods.

Development is the systematic use of the knowledge or understanding gained from research or practical experience directed toward the production or significant improvement of useful products, services, processes, or methods, including the design and development of prototypes, materials, devices, and systems.

- R&D includes the activities described above, whether assigned to separate organizational units of the company or conducted by company laboratories and technical groups that are not a part of a separate R&D organization.
- Include all costs incurred in performing R&D. Include wages, salaries, and related costs; materials and supplies consumed; R&D depreciation, amortization, cost of computer software used in R&D activities; utilities, such as telephone, telex, electricity, water, and gas; travel costs and professional dues; property taxes and other taxes (except income taxes) incurred on account of the R&D organization or the facilities they use; insurance expenses; maintenance and repair, including maintenance of buildings and grounds; company overhead including: personnel, accounting, procurement and inventory, and salaries of research executives not on the payroll of the R&D organization.
- Exclude expenditures for quality control; routine product testing; market research; sales promotion, sales service, and other nontechnological activities; routine technical services; research in the social sciences or psychology; geological and geophysical exploration activities, and advertising programs to promote or demonstrate new products or processes.
- Exclude capital expenditures, expenditures for tests and evaluations once a prototype becomes a production model, patent expenses, and income taxes and interest.

74 Taxes (other than income and payroll taxes) and nontax payments (other than production royalty payments)?						000

- Report all such taxes and nontax payments whether or not included in revenues or expenses in the income statement. Include amounts paid or accrued for the year, net of refunds or credits, to foreign governments, their subdivisions and agencies for:
 - Sales, value added, consumption, and excise taxes collected by the affiliate on goods and services that the affiliate sold;
 - Property and other taxes on the value of assets and capital;
 - Any remaining taxes (other than income and payroll taxes); and
 - Import and export duties, license fees, fines, penalties, and all other payments or accruals of nontax liabilities (other than production royalty payments for natural resources).

Section D — Distribution of Sales or Gross Operating Revenues

- Report gross operating revenues or gross sales minus returns, allowances, and discounts. Exclude sales or consumption taxes levied directly on the consumer. Exclude net value-added and excise taxes levied on manufacturers, wholesalers, and retailers. Include revenues generated during the year from the operations of a discontinued business segment, but exclude gains or losses from disposals of discontinued operations. Report such gains or losses in **45**.
- Finance and leasing companies with ISI codes 5221, 5223, 5224, 5229, 5231, 5238, 5252, or 5331 report interest income as sales and investment income.
- Insurance companies with ISI codes 5243 or 5249 report gross investment income as sales. *Also see **Special Instructions**, B.2.a., d., and e., page 14.*
- Distribute sales or gross operating revenues among three categories — sales of goods, sales of services, and investment income. See **Additional Instructions** on page 14 at the back of this form.
- For the purpose of this distribution, "goods" are normally economic outputs that are tangible and "services" are normally economic outputs that are intangible.
- When a sale consists of both goods and services and cannot be unbundled (i.e., the goods and services are not separately billed), classify the sales as goods or services based on whichever accounts for a majority of the value. Give best estimates if actual figures are not available.

- Include expenditures for items leased from others (including land) under **capital leases**. Also include the expenditure for the capitalized value of timber, mineral, and similar rights leased by the foreign affiliate from others. Exclude items the foreign affiliate has sold under a capital lease.
- Exclude from expenditures all changes in PP&E, resulting from a **change in the entity** (i.e., due to mergers, acquisitions, divestitures, etc.) or **accounting principles** during FY 2011.
- **For foreign affiliates engaged in exploring for, or developing, natural resources**, include exploration and development expenditures made during FY 2011 that were capitalized, including capitalized expenditures to acquire or lease mineral rights. Do not include adjustments for expenditures charged against income in prior years but subsequently capitalized during FY 2011.
- **Insurance companies** should include expenditures WHEREVER CLASSIFIED IN THE BALANCE SHEET (i.e., include expenditures that have been classified in "other noncurrent assets").

Section G — Insurance Industry Activities — Premiums earned and losses incurred

- Report premiums earned and losses incurred for insurance related activities covered by ISI codes 5243 (Insurance carriers, except life insurance carriers) and 5249 (Life insurance carriers).

88 Of the total sales and gross operating revenues reported in **28**, column 2, were any of the sales or revenues generated by insurance related activities covered by ISI codes 5243 or 5249?

2113 ¹ **1** Yes — Answer **89** and **90**

¹ **2** No — Skip to **91**

What are the foreign affiliate's values for:

89 Premiums earned? — Report premiums, gross of commissions, included in revenue during the reporting year. Calculate as direct premiums written (including renewals) net of cancellations, plus reinsurance premiums assumed, minus reinsurance premiums ceded, plus unearned premiums at the beginning of the year, minus unearned premiums at the end of the year. Exclude all annuity premiums. Also exclude premiums and policy fees related to universal and adjustable life, variable and interest-sensitive life, and variable-universal life policies. 2114 ¹ \$ Bil. Mil. Thous. Dols. 000

90 Losses incurred? — Report losses incurred for the insurance products covered by **89**. Exclude loss adjustment expenses and losses that relate to annuities. Also exclude losses related to universal and adjustable life, variable and interest-sensitive life, and variable-universal life policies. 2115 ¹ 000

- For property and casualty insurance, calculate as net losses paid during the reporting year, minus net unpaid losses at the beginning of the year, plus net unpaid losses at the end of the year. In the calculation of net losses, include losses on reinsurance assumed from other companies and exclude losses on reinsurance ceded to other companies. Unpaid losses include both case reserves and losses incurred but not reported.
- For life insurance, losses reflect policy claims on reinsurance assumed or on primary insurance sold, minus losses recovered from reinsurance ceded, adjusted for changes in claims due, unpaid, and in the course of settlement.

See *Instruction Booklet, Part V.*

Affiliate ID	
---------------------	--

IMPORTANT NOTES

Report U.S. exports of goods to and U.S. imports of goods from the foreign affiliate in FY 2011. Report all goods that physically left or entered the U.S. customs area. Report data on a "shipped" basis, i.e., on the basis of when and to (or by) whom the goods were shipped. This is the same basis as official U.S. trade statistics to which these data will be compared. Do **not** record a U.S. import or export if the goods did not physically enter or leave (i.e., were not physically shipped to or from) the United States, even if they were charged to the foreign affiliate by, or charged by the foreign affiliate to, a U.S. person.

Foreign affiliates normally keep their accounting records on a "charged" basis, i.e., on the basis of when and to (or by) whom the goods were charged. The "charged" basis may be used if there is no material difference between it and the "shipped" basis. If there is a material difference, the "shipped" basis must be used or adjustments made to the data on a "charged" basis to approximate a "shipped" basis. The data should include goods only; they should **exclude** services.

Capital goods — Include capital goods but exclude the value of ships, planes, railroad rolling stock, and trucks that were temporarily outside the United States transporting people or goods.

Consigned goods — Include consigned goods in the trade figures when shipped or received, even though they are not normally recorded as sales or purchases, or entered into intercompany accounts when initially consigned.

In-transit goods — Exclude from exports and imports the value of goods that are in-transit. In-transit goods are goods that are not processed or consumed by residents in the intermediate country(ies) through which they transit; the in-transit goods enter that country(ies) only because that country(ies) is along the shipping lines between the exporting and importing countries. In-transit imports are goods en route from one foreign country to another via the United States (such as from Canada to Mexico via the United States), and in-transit exports are goods en route from one part of the United States to another part via a foreign country (such as from Alaska to Washington State via Canada).

Packaged general use computer software — Include exports and imports of packaged general use computer software. Value such exports and imports at the full transaction value, i.e., the market value of the media on which the software is recorded and the value of the information contained on the media. Do not include exports and imports of customized software designed to meet the needs of a specific user. This type of software is considered a service and should not be included as trade in goods. Also do not include negotiated leasing fees for software that is to be used on networks.

Natural gas, electricity, and water — Report **ONLY** the product value of natural gas, electricity, and water that you produce or sell at wholesale as exports and imports of goods. **DO NOT** report the service value (transmission and distribution).

93 On what basis were the trade data in the section prepared? — Mark (X) one.

- 4172 ¹ 1 "Shipped" basis.
- ¹ 2 "Charged" basis without adjustments, because there is no material difference between the "charged" and "shipped" bases.
- ¹ 3 "Charged" basis with adjustments to correct for material differences between the "charged" and "shipped" bases.

2011 ANNUAL SURVEY OF U.S. DIRECT INVESTMENT ABROAD FORM BE-11B — ADDITIONAL INSTRUCTIONS BY ITEM

Part IV, Section D — Distribution of Sales or Gross Operating Revenues

76 — 79

Disaggregate the total sales or gross operating revenues into sales of goods, sales of services, and investment income.

77 Sales of goods — Goods are normally economic outputs that are tangible. Report as sales of goods:

- Mass produced media, including exposed film, video tapes, DVDs, audio tapes, and CDs.
- Books. NOTE: Book publishers — To the extent feasible, report as sales of services all revenues associated with the design, editing, and marketing activities necessary for producing and distributing books that you both publish and sell. If you cannot unbundle (i.e., separate) these revenues from the value of the books you sell, then report your total sales as sales of goods or services based on the activity that accounts for a majority of the value.
- Energy trading activities where you take title to the goods. NOTE: If you act in the capacity of a broker or agent to facilitate the sale of goods and you do not take title to the goods, report your revenue (i.e., commissions) as sale of services in 78.
- Magazines and periodicals sold in retail stores. NOTE: Report subscription sales as sales of services in 78.
- Packaged general use computer software.
- Structures sold by businesses in real estate.
- Revenues earned from building structures by businesses in construction.
- Electricity, natural gas, and water. NOTE: Revenues derived from transmitting and/or distributing these goods, as opposed to revenues derived from the sale of the actual product, should to the extent feasible, be reported as sales of services in 78.

78 Sales of services — Services are normally economic outputs that are intangible. Report as sales of services:

- Advertising revenue.
- Commissions and fees earned by companies engaged in finance and real estate activities.
- Mass produced audiovisual media that are delivered electronically, including film, music, manuscripts, or other digital content.

- Premiums earned by companies engaged in insurance activities. NOTE: Calculate as direct premiums written (including renewals) net of cancellations, plus reinsurance premiums assumed, minus reinsurance premiums ceded, plus unearned premiums at the beginning of the year, minus unearned premiums at the end of the year.
- Commissions earned by agents or brokers (i.e., wholesalers) who act on behalf of buyers and sellers in the wholesale distribution of goods. NOTE: Agents or brokers do not take title to the goods being sold.
- Magazines and periodicals sold through subscriptions. NOTE: Report magazines and periodicals sold through retail stores, as sales of goods in 77.
- Newspapers.
- Pipeline transportation.
- Software downloaded from the Internet, electronic mail, an Extranet, an Electronic Data Interchange network, or some other online system.
- Computer systems design and related services.
- Negotiated licensing fees for software to be used on networks. Licensing fees associated with rights to reproduce or distribute software.
- Electricity transmission and distribution, natural gas distribution, and water distribution.

Report the source of real estate rental income in columns 2 through 7 based on the location of the property.

79 Investment income — Report dividends and interest generated by finance and insurance activities as investment income. NOTE: Report commissions and fees as sales of services in 78.

Finance or insurance companies that include investment income in gross operating revenues should report the source of such investment income in columns 2 through 7 based on the location of the issuer of the financial instrument whether publicly issued or privately placed. If the location of the issuer is unknown, then substitute the nationality of the issuer. If both the location and nationality of the issuer are unknown, and an intermediary (e.g., trustee, custodian, or nominee) is used to manage the investment (financial instrument or real estate) use the country of location of the intermediary.

Special Instructions for Dealers in Financial Instruments, Finance Companies, Insurance Companies, and Real Estate Companies

A. Certain gains (losses) for (1) dealers in financial instruments and finance and insurance companies, and (2) real estate companies.

1. Dealers in financial instruments (including securities, currencies, derivatives, and other financial instruments) and finance and insurance companies — Include in 45:

- impairment losses as defined by FASB ASC 320 (FAS 115),
- realized gains and losses on trading or dealing,
- unrealized gains or losses, due to changes in the valuation of financial instruments, that flow through the income statement, and
- goodwill impairment as defined by FASB ASC 350 (FAS 142).

EXCLUDE from 45, unrealized gains or losses due to changes in the valuation of financial instruments that are taken to other comprehensive income. Reflect such changes in 66 (all other components of accumulated other comprehensive income (loss)).

EXCLUDE from 45, income from explicit fees and commissions. Include income from these fees and commissions as operating revenue in 28 and 42 and as sales of services in 78.

2. Real estate companies — Include in 45:

- impairment losses as defined by FASB ASC 360 (FAS 144), and
- goodwill impairment as defined by FASB ASC 350 (FAS 142).

EXCLUDE the income earned and expenses incurred from the sale of real estate you own. Such income should be reported as operating revenue in 28, 42, and 76 and as sales of goods in 77. Such expenses, including the net book value of the real estate sold, should be reported as cost of goods sold in 48. Do not net the expenses against the revenues.

B. Special instructions for insurance companies

1. When there is a difference between the financial and operating data reported to the stockholders and the data reported in the annual statement to an insurance department, prepare the BE-11 on the same basis as the annual report to the stockholders.

Valuation should be according to normal commercial accounting procedures, not at rates promulgated by national insurance departments, e.g., include assets not acceptable for inclusion in the annual statement to an insurance department, such as: 1. non-trusteed or free account assets, and 2. nonadmitted assets, including furniture and equipment, agents' debit balances, and all receivables deemed to be collectible. Include mandatory securities valuation reserves that are appropriations of retained earnings in the owners' equity section of the balance sheet, not in the liability section.

2. Instructions for reporting specific items

a. Sales or gross operating revenues, excluding sales taxes (42) — Include items such as earned premiums, annuity considerations, gross investment income, and items of a similar nature. Exclude income from equity investments in unconsolidated business enterprises that is to be reported in 43 and exclude certain gains or losses that are to be reported in 45.

b. Certain gains (losses) (45) — See **Special Instructions, A.1.**

c. Cost of goods sold or services rendered and selling, general, and administrative expenses (48) — Include costs relating to sales or gross operating revenues, such as policy losses incurred, death benefits, matured endowments, other policy benefits, increases in liabilities for future policy benefits, and other underwriting expenses.

d. Sales of services (78 , column 1) — Include premium income and income from other services, if any. See **Additional Instructions for Part IV, Section D, 78**, above.

e. Investment income (79 , column 1) — Report that portion of sales or gross operating revenues that is investment income. However, report any gains or losses on investments, in accordance with **Special Instructions, A.1.** See **Additional Instructions for Part IV, Section D, 79**, above to determine the location of the transactor of investment income.
