MEMORANDUM FOR: SUPPLY PRC MEMBERS

SUBJECT: Approved DLMS Change 53, Revision to DLMS Supplement (DS) 869F,
Requisition Follow-up (Supply)

This change to the DoD 4000.25-M, Defense Logistics Management System
(DLMS), reflects an administrative change to the DS 869F, required to correct an error in
the Supplement. A corresponding change to the Federal IC is required prior to
implementation of this revision. The DS will be posted to the DLMSO web site
(http://www.dla.mil/j-6/dlmso/ICs/Default.htm) immediately upon coordination/approval from
the DoD Logistics Functional Working Group, the DoD Electronic Data Interchange
Standards Management Committee (EDISMC), and the Federal EDI Standards
Management Coordinating Committee (FESMCC).

Addressees may direct questions to the DLMSO points of contact, Ms. Ellen Hilert,
Co-Chair, Supply Process Review Committee, 703-767-0676, DSN 427-0676, or
email: ellen_hilert@hq.dla.mil or Ms. Vermella Savage, DoD MILSTRIP System
Administrator, 703-767-0674, DSN 427-0674, or e-mail: vermella_savage@hq.dla.mil.
Others must contact their Service or Agency designated representative.

JAMES A. JOHNSON
Director
Defense Logistics Management
Standards Office

Approved DLMS Change 53
Revision to DLMS Supplement (DS)
869F, Requisition Follow-up

1. ORIGINATOR:

Sponsor: Supply Process Review Committee, Ellen Hilert, Co-Chair, DLA J673, Defense Logistics Management Standards Office (DLMSO), 703-767-0676 (DSN 427), ellen_hilert@hq.dla.mil

2. FUNCTIONAL AREA: Supply

3. REQUESTED CHANGE:

a.   Title: Revision to DS 869F, Requisition Follow-up

b.   Description of Change: This change modifies the DS to remove an incorrect data requirement that may cause valid requisition follow-up transactions to fail.

c.   Procedures: Revise DLMS Supplements as indicated.

#	Location	Revision	Reason	Federal IC
1	2/QTY/80	Remove "must use" designation at segment level.	The IC/DS incorrectly indicates that the QTY is a "must use" segment. This is not the intent and is not consistent with the notes. By intent, the QTY is not required for the HL address loop, which is the first iteration of the HL.	Remove "must use" designation. Requires a Federal IC change prior to DS update.

d.   Alternatives: None identified.

4.   REASON FOR CHANGE: The QTY segment is not required when the hierarchical loop relates address information.   However, the guidance inadvertently assigns a "must use" designation for the segment level indicating it is always required.

5.   ADVANTAGES AND DISADVANTAGES:

a.   Advantages: Supports DLMS implementation.

b.   Disadvantages: None identified.

6. **IMPACT:**

   a. **Publications.** Corresponding Federal IC.

   b. DAAS DLMS/DLSS conversion maps will be updated as required.
