   b.   **Originator:** Supply PRC, Chair: Ellen Hilert, DLA DLMSO/J-6251, Defense Logistics Management Standards Office (DLMSO), 703-767-0676 (DSN 427), ellen.hilert@dla.mil

## 3.  REQUESTED CHANGE:

   a.   **Title:**  Administrative Revision to DS 4030 856S, Shipment Status

   b.   **Description of Change:**   This administrative update opens the ST03 data element in the 4030 856S and adds clarification notes.

   c.   **Procedures:  Revise the 4030 856S as follows:**

| Item | Location | Revision | Reason | Federal IC |
|------|----------|----------|--------|------------|
| 1. | 1/ST03/0100 | Open Data Element ST03 and add DLMS note:<br><br>**Implementation Convention Reference**<br>**DLMS Note:**  *Use to indicate this transmission uses the 856S Federal IC and the 856S DLMS Supplement.  Enter the DLMS Supplement: 004030F856S0SA00.* | Administrative update – This is standard usage for version 4030 and higher where this capability to identify the Implementation Convention or other guidance was first introduced to the X12 standard.   This feature is intended to support future application where different users may be at different levels of implementation and this data element will identify the specific DLMS Supplement used to create the transaction. | Update required |
| 2. | 1/BSN02/0200 | Add DLMS note:<br><br>**Shipment Identification**<br>**Federal Note:**  Use code "ZZ" for this data element to satisfy X12 syntax requirements.<br>**DLMS Note:**  *The ZZ filler differentiates this Shipment Status format from the Advanced Shipment Notice format associated with Wide Area Workflow, as both use BSN06* | To ensure that users know how to distinguish between multiple 856 formats because duplicate Transaction Type Codes were implemented for different applications and the ST03 (above) is not always available. | No update required |

| | | *Qualifier AS, Shipment Advice.* | | |

   **b.    Disadvantages:**  None

**6.    IMPACT:  Publication(s):**  DoD 4000.25-M , DLMS; Federal IC 4030 856S and the corresponding DS. Applicable revisions will be submitted to the EDISMC/Logistics Functional Work Group for coordination/approval.
