846 Inventory Inquiry/Advice

Functional Group=

Purpose: This Draft Standard for Trial Use contains the format and establishes the data contents of the Inventory Inquiry/Advice Transaction Set (846) for use within the context of an Electronic Data Interchange (EDI) environment. The transaction set can be used in the following ways: (1) for a seller of goods and services to provide inventory information to a prospective purchaser, with no obligation to the purchaser to acquire these goods or services; (2) for a representative of a seller of goods and services to supply inventory information to that seller; (3) for one location to supply another location with inventory information; and (4) for an inquiry as to the availability of inventory with no obligation on the seller of goods and services to reserve that inventory.

Federal Note:

1. Inventory Control Point/owners and storage activities use this transaction set to convey changes in the disposition category of material.

2. Use one occurrence of this transaction set to transmit a single or multiple transactions.

3. DoD logistics users should refer to the Defense Logistics Management System (DLMS) Supplement to the Federal Implementation Convention (IC) available at URL: www.dla.mil/j-6/dlmso. The DLMS Supplement provides specific business rules, conditions, and authorized codes necessary for appropriate use of this IC within the DLMS.

DLMS Note:

1. The Disposition Category Update transaction is used between the DLA Disposition Services Inventory Control Point (ICP) and the DLA Disposition Services Field Offices to communicate a change in Disposition Category. The Disposition Category Update transaction may be sent from the DLA Disposition Services ICP to the DLA Disposition Services Field Office; or from the field office to the ICP. The Disposition Category Update Response transaction is sent from the field office to the Disposition Services ICP. This transaction represents a DLMS enhancement in its entirety. There are no DLSS equivalent transactions.

2. Users operating under the Defense Logistics Management System (DLMS) must reference the Unit of Issue and Purchase Unit Conversion Table, Transportation Mode of Shipment Conversion Table and Accounting Classification Appendix which can be found on the DLA Logistics Management Standards Office Web site at www.dla.mil/j-6/dlmso.

3. This DLMS Supplement 846C contains data associated with a DLMS enhancement authorized for implementation by DLA Disposition Services. This data should be adopted during, or subsequent, to modernization when applicable to the DLA Disposition Services business process.

4. This transaction may be used to provide Unique Item Identifier (UII) information. Refer to the Unique Identification (UID) web at URL: www.acq.osd.mil/dpap/sitemap.html for DoD policy and business rules.

5. This revision to the DLMS Supplement incorporates Proposed DLMS Change (PDC) and Approved DLMS Change (ADC) listed. PDCs/ADCs are available from the DLA Logistics Management Standards Office Web site: www.dla.mil/j-6/dlmso/elibrary/Changes/processchanges.asp

- ADC 412, Intra-DLA Change - Establish New DLMS Supplement 846C, DLA Disposition Category Update Transaction and Procedures for use by DLA Disposition Services Under Reutilization Business Integration (RBI) (Supply)

- ADC 1013, Intra-DLA Change: Disposal Turn In Document (DTID) Number Suffixing for DLMS 846C and DLMS 846R for use by DLA Disposition Services Under Reutilization Business Integration (RBI)

- ADC 1019, Small Arms/Light Weapons (SA/LW) Local Stock Number (LSN) Assignment for use by DLA Disposition Services in DLMS 527R, 846C, 846R, and 947I, under RBI. (Supply)

Notes:

2/3900L The REF loop conveys serial number, lot number, and inventory data.

2/3900 The REF loop conveys serial number, lot number, and inventory data.

3/0100 Number of line items (CTT01) is the accumulation of number of LIN segments. If used, hash total (CTT02) is the sum of the values of the quantities (QTY02) of each QTY segment.

ST Transaction Set Header

Pos: 0100	Max: 1
Heading - M	landatory
Loop: N/A	Elements: 3

User Option (Usage): Must use

Purpose: To indicate the start of a transaction set and to assign a control number

Semantics:

- 1. The transaction set identifier (ST01) is used by the translation routines of the interchange partners to select the appropriate transaction set definition (e.g., 810 selects the Invoice Transaction Set).
- 2. The implementation convention reference (ST03) is used by the translation routines of the interchange partners to select the appropriate implementation convention to match the transaction set definition.

<u>Ref</u>	<u>ld</u>	Element Name	Req	Туре	<u>Min/Max</u>	<u>Usage</u>	<u>Rep</u>

BIA Beginning Segment for Inventory Inquiry/Advice

User Option (Usage): Must use

Purpose: To indicate the beginning of an Inventory Inquiry/Advice Transaction Set

Semantics:

- 1. BIA03 identifies the number of the inquiry/advice that is transferred.
- 2. BIA04 identifies the date of the inquiry/advice that is transferred.
- 3. BIA05 identifies the time of the inquiry/advice that is transferred.

Element Summary:

requirements.

ADC 412, 1013 and 1019 DLM 4000.25 Element Name <u>Ref</u> ld Req <u>Type</u> Min/Max <u>Usage</u> Rep BIA04 373 DT 8/8 Date Μ Must use 1 **Description:** Date expressed as CCYYMMDD where CC represents the first two digits of the calendar year Federal Note: This date is the date of transaction set preparation and corresponds to the Universal Time Coordinate (UTC). 337 0 BIA05 Time TM 4/8 Used 1 Description: Time expressed in 24-hour clock time as follows: HHMM, or HHMMSS, or HHMMSSD, or HHMMSSDD, where H = hours (00-23), M = minutes (00-59), S = integer seconds (00-59) and DD = decimal seconds; decimal seconds are expressed as follows: D = tenths (0-9) and DD = hundredths (00-99) Federal Note: 1. Express the originating activity's time of transaction set preparation in UTC. 2. Express time in a six-position (HHMMSS) format. BIA06 306 0 ID 1/2 **Action Code** Used 1 Description: Code indicating type of action Federal Note: Use any code. DLMS Note: Action codes are only used with Disposition Category Update Response transactions (BIA02 code 09). In DLMS, only the following codes are authorized. Code Name 2 Change (Update)

DLMS Note:

Use in conjunction with BIA02 code 09 only. DLA Disposition Services Field Office uses to notify the Disposition Services ICP that the proposed Disposition Category Code DS-Disposal will be overturned with a Disposition Category Code SL-Sales.

CF Confirm

DLMS Note:

Use in conjunction with BIA02 code 09 only. DLA Disposition Services Field Office uses to confirm the Disposition Category Code DS-Disposal assigned to the DTID by the Disposition Services ICP.

DE Deny

DLMS Note:

Use in conjunction with BIA02 code 09 only. DLA Disposition Services Field Office uses to deny the Disposition Category Code DS-Disposal assigned to the DTID by the Disposition Services ICP.

User Option (Usage): Used

Name

Purpose: To identify a party by type of organization, name, and code

Syntax Rules:

N1

- 1. R0203 At least one of N102 or N103 is required.
- 2. P0304 If either N103 or N104 is present, then the other is required.

Comments:

- 1. This segment, used alone, provides the most efficient method of providing organizational identification. To obtain this efficiency the "ID Code" (N104) must provide a key to the table maintained by the transaction processing party.
- 2. N105 and N106 further define the type of entity in N101.

Federal Note:

Must use the 1/N1/0800 loop to identify the organization originating the transaction set.

Semantics:

1. LIN01 is the line item identification

Comments:

- 1. See the Data Dictionary for a complete list of IDs.
- 2. LIN02 through LIN31 provide for fifteen different product/service IDs for each item. For example: Case, Color, Drawing No., U.P.C. No., ISBN No., Model No., or SKU.

<u>Ref</u>	<u>ld</u>	Elem	ent Name	<u>Req</u>	Type	<u>Min/Max</u>	<u>Usage</u>	<u>Rep</u>

Description: Identifying number for a product or service

MEA Measurements Pos: 0400 Detail - Optional Loop: LIN Elements: 3

User Option (Usage): Used

Purpose: To specify physical measurements or counts, including dimensions, tolerances, variances, and weights(See Figures Appendix for example of use of C001)

Syntax Rules:

- 1. R03050608 At least one of MEA03, MEA05, MEA06 or MEA08 is required.
- 2. C0504 If MEA05 is present, then MEA04 is required.
- 3. C0604 If MEA06 is present, then MEA04 is required.
- 4. L07030506 If MEA07 is present, then at least one of MEA03, MEA05 or MEA06 is required.
- 5. E0803 Only one of MEA08 or MEA03 may be present.

Semantics:

1. MEA04 defines the unit of measure for MEA03, MEA05, and MEA06.

Comments:

1. When citing dimensional tolerances, any measurement requiring a sign (+ or -), or any measurement where a positive (+) value cannot be assumed, use MEA05 as the negative (-) value and MEA06 as the positive (+) value.

DLMS note:

Must use two iterations with Commercial Venture (CV) processing to provide a Commercial Venture Count Mechanism. The CV Count Mechanism is made up of 2 fields: the consecutive delivery order count and the maximum delivery number (e.g., for CV count 1001 of 2000: 1001 is the consecutive delivery order count; 2000 is the maximum delivery number)

CTP Pricing Information

Pos: 1100	Max: 25
Detail -	Optional
Loop: LIN	Elements: 2

User Option (Usage): Used

Purpose: To specify pricing information

Syntax Rules:

- 1. P0405 If either CTP04 or CTP05 is present, then the other is required.
- 2. C0607 If CTP06 is present, then CTP07 is required.
- 3. C0902 If CTP09 is present, then CTP02 is required.
- 4. C1002 If CTP10 is present, then CTP02 is required.
- 5. C1103 If CTP11 is present, then CTP03 is required.

Semantics:

- 1. CTP07 is a multiplier factor to arrive at a final discounted price. A multiplier of .90 would be the factor if a 10% discount is given.
- 2. CTP08 is the rebate amount.

Comments:

- 1. See Figures Appendix for an example detailing the use of CTP03 and CTP04.
- 2. See Figures Appendix for an example detailing the use of CTP03, CTP04 and CTP07.

DE Signal Code

DLMS Note:

Code Name

This field is only used when the DLA Disposition Services ICP is updating the Disposition Category Code to DS-Disposal or SL-Sales. This field is required for the DLA Disposition Services Field Office to create an internal MRO transaction.

DF Media and Status Code

DLMS Note:

This field is only used when the DLA Disposition Services ICP is updating the Disposition Category Code to DS Disposal or SL Sales. This field is required for the DLA Disposition Services Field Office to create an internal MRO transaction.

FD Demilitarization Code

DLMS Note:

DRN 0167

DCR Disposition Category Change Reason Code

DLMS Note:

1. DLA Disposition Services uses to identify the Disposition Category Change Reject Reason Code. Codes to be published by DRMS Instruction (DRMS-I) 4160.14.

2. At this time a local code DCR is established for use in 846C, version 4030. A data maintenance action has been submitted for establishment of 'DCR - Disposition Category Change Reject Reason Code' in a future version.

DCS Disposition Sub-Category Code

DLMS Note:

1. DLA Disposition Services uses the Disposition Sub-Category Code to indicate how DLA Disposition Services ICP shall process a release order based on the sub-category code passed. Disposition Sub-Category Codes authorized for use in this transaction are: CV and SV. The code value will be conveyed in LQ02, where LQ01 conveys DCS. Explanations for the codes are as follows:

- CV Commercial Venture
- SV Scrap Venture

2. At this time a local code DCS is established for use in 846C, version 4030. A data maintenance action has been submitted for establishment of 'DCS Disposition Sub-Category Code' in a future version.

DCT Disposition Category Code

DLMS Note:

1. DLA Disposition Services uses the Disposition Category Code to indicate the current method of asset disposition assigned to a Disposal Turn In Document (DTID). Disposition Category Codes are: DS, RJ, RS, RU, and SL. The code value will be conveyed in LQ02, where LQ01 conveys DCT. Explanation for the codes are as follows:

- DS Disposal
- RU Reutilization
- RJ Reject
- RS Research
- SL Sales

2. At this time a local code DCT is established for use in 846C, version 4030. A data maintenance action has been submitted for establishment of 'DCT - Disposition Category Code' in a future version.

DMI Demilitarization Integrity Code

DLMS Note:

1. Authorized DLMS enhancement for use by DLA Disposition Services.

2. At this time a local code DMI is established for use in 846C, version 4030. A data maintenance action has been submitted for establishment of 'DMI Demilitarization Integrity Code' in a future version.

DSI Disposition Services Indicator

DLMS Note:

1. The following Disposition Services Indicator is authorized for use in the Disposition Category Update transaction: CIF. CIF = Disposition Services Container Issued in Full. The indicator will be conveyed in LQ02, where LQ01 conveys DSI. Refer to ADC 412.

2. At this time a local code DSI is established for use in 846C, version 4030. A data maintenance action has been submitted for establishment of 'DSI Disposition Services Indicator' in a future version.
