

To Whom it May Concern:

My name is Nellie Lewis and I am the wife of Eddy Lewis. We are an African American family with three daughters. Two of them live with us and one daughter is away at college but she lives at home when she is not in school. Eddy is in the automotive business and I am in the aircraft assembly industry. We went to UHP in 1994, inquiring about buying a home. We started going to classes & learning how to become homeowners. UHP helped us to start preparing for our home. We were so amazed at the things that we didn't know, and being in the United Housing Program has taught us a lot. We were able to start saving & with the help of UHP we were able to move in. I don't think that we could have become homeowners without the assistance of UHP. Owning your home is "the American dream" and I think that this dream can come true for a lot of families if given the opportunity, and the assistance that is needed (and I strongly emphasize "needed") to become good & decent homeowners. In becoming a homeowner, I have learned also that there are a lot of things that

over, that would really appreciate the help
of others, so this is important to give back to
others what another has given to you. So
in giving back, we try to help families get
into their homes by contributing our time in any
volunteer work that is needed, as well as social
for parties (block parties, Xmas, 4th of July etc.)
So therefore, I strongly urge you to please
continue to assist families so that they too,
may have the "American Dream" come true for them.

Thank You
Sincerely,

Mr. + Mrs. Eddy & Chelcie Lewis
