**Comments:**

National Aeronautics and Space Administration (NASA) is very proud to be one of only three of the top seven federal agencies to have exceeded its FY-11 Small Business goals by awarding approximately \$2.5 billion dollars directly to small businesses. NASA awarded an additional \$65 million dollars directly to small business when compared to FY-10, despite a \$1.7 billion dollar decrease in procurement dollars available for small business awards from FY-10. This increase demonstrates NASA's strong commitment to the agency's small business program. NASA also exceeded our FY-11 SDB goal; however, the agency was unable to achieve our goals for Women Owned Small Businesses (WOSB), Service-Disabled Veteran-Owned Small Businesses (SDVOSB), and HUBZone small businesses in FY-11. In an effort to make improvements in the goals NASA was unable to achieve in FY-11, we have implemented several new initiatives to reach out to these groups in an effort to improve our achievements in these areas. The initiatives that NASA put in place in the previous two years have strengthened the small business program, which raised NASA's overall grade to "B", after receiving a grade of "C" in both FY-09 and FY-10.
