# eRA Commons Release Notes Version 2.12.2.7

## **General Enhancements**

# Performance This release of Commons will to the Status commons. The

This release of Commons will improve performance by implementing changes to the **Status** screens. The eAdditions functionality will also be introduced.

## Internet Assisted Review (IAR)

After an application has been received (either electronically from Grants.gov, or on paper), Division of Receipt & Referral staff in the Center for Scientific Review will often receive additional material from the applicant, that either clarifies or supplements information found on the original application. Although they are under no obligation to do so, Scientific Review Administrators will often deem it appropriate for application reviewers to have access to this information. As a result, the additional material is accepted and made available to reviewers.

The Center for Scientific Review will have the ability to store and distribute additional post-submission material, via a set of system enhancements collectively known as "Electronic Additions for Review" (eAdditions). eAdditions will be available in the Grant Folder.

To view eAdditions:

1. Click on the Internet Assisted Review tab to access the List of Meetings screen.

**NOTE:** See the eAdditions Users' Guide for more information.

## Status – Principal Investigators

Upon clicking on the **Status** menu option, Principal Investigators will be taken to a landing page with two hyperlinks:

- <u>Recent/Pending eSubmissions</u>
- List of Applications/Grants

## Grants.gov Tracking Number Search

The **Status** screen allows for a search based on the Grants.gov tracking number.

**NOTE:** Only Grants.gov tracking numbers that correspond with the PI's applications will be returned on the hitlist.

Figure 14: Status Screen (STA4056)

A Grants.gov tracking number must be entered. If a Grants.gov tracking number is not entered in the **Grants.gov Tracking Number** field, the PI will receive the following error:

"Grants.gov Tracking Number is required."

Figure 36: Show All Prior Errors Hyperlink (STA4054)

Errors and warnings (ordered by Grants.gov tracking number) will be displayed in a new window.

Figure 37: Errors/Warnings for Prior Failed eSubmissions

## Status – Assistants & PI Delegates

ASSTs and PI Delegates will have the same functionality as PIs with the enhanced **Status** option.

**NOTE:** The Grants.gov tracking number entered is searching only within the scope of the PI to whom the ASST is a delegate. Therefore, it is possible that a valid Grants.gov tracking number is entered, but is not returned in a query because it is not associated with that PI.

**NOTE:** When moving between the **Status** screens, the PI field defaults back to the first PI's name.

## Status – NCAAs

IPF

Users with the NCAA role must now provide an IPF code on the **Status** screen.

Figure 38: IPF Field (STA4022)
