Instructions for Undergraduate Institution Certification Form NIH 2762-3

Exceptional Financial Need Status Identification of Individuals from Disadvantaged Backgrounds (Scholarship applicants must be from disadvantaged backgrounds)

A student from a disadvantaged background is one who comes from a family with an annual adjusted gross income below a level based on low-income thresholds according to family size, as published by the U.S. Bureau of the Census, adjusted annually for changes in the Consumer Price Index, and adjusted by the Secretary, DHHS, for use in all health professions programs.

Qualification of EFN Status. Applicants who qualify as having EFN status must provide the Financial Aid Director of their undergraduate institution total financial information, including: parent's income and spouse's income (if applicable), regardless of the student's taxable status, and must be of EFN, as defined by the Secretary, DHHS, (see above). The Financial Aid Director must certify this information and the institution's certification of an applicant's EFN status must be included with the UGSP application package.

The Secretary, DHHS, will periodically publish these low-income levels in the Federal Register. (Please see the table below for the most recent determination of low-income levels). If family income for the most recent calendar year is less than the income level indicated on the chart below for the appropriate family size, students fulfill the definition of an individual having exceptional financial need (EFN). Students certified as being of EFN are considered to be from disadvantaged backgrounds.
