Farm Storage Facility Loan Program
1-FSFL (Revision 1)

Amendment 7

Approved by: Acting Deputy Administrator, Farm Programs

Amendment Transmittal

A Reasons for Amendment

Subparagraph 24 C has been amended to increase the additional security requirement from \$50,000 to \$100,000. STC's may set a more restrictive Statewide policy for determining if additional security is required for FSFL's exceeding \$50,000. The new additional security policy increase from \$50,000 to \$100,000 may apply to FSFL's **approved** before August 28, 2012. FSFL's **must** be re-reviewed and approved by the approving official.

Subparagraph 24 L has been amended to provide updated additional security examples.

Subparagraph 28 B has been amended to provide an updated partial disbursement example.

Subparagraph 52 A, item 12 has been amended to provide that FSA-850 is required to document whether the facility site is located in a flood hazard area.

Subparagraph 52 B has been amended to provide that County Offices are **required** to use CCC-195 as a reminder of the most frequently "erred" determinations when completing FSFL's.

Subparagraph 52 D has been amended to update CCC-195, items 12 G and 13 A instructions.

Subparagraph 69 G has been amended to provide new flood insurance policy.

Subparagraph 115 A has been amended to provide that the approving authority shall determine if FSFL is less than \$100,000 whether the structure has resale value.

Subparagraph 115 C has been amended to provide that an FSA employee with FLP loan approval authority **must** provide a written and signed recommendation for the applicant's FSFL approval.

Subparagraph 127 B has been amended to provide that if a partial disbursement is requested and the FSFL principal of the partial is \$100,000 or less, the instructions for finalizing FSFL's not secured by real estate may be followed.

Amendment Transmittal (Continued)

A Reasons for Amendment (Continued)

Subparagraph 130 B has been amended to provide that CCC-297 is not required when the producer increases the downpayment from 15 percent to 20 percent. In most cases, CCC will have a mortgage on the underlying real estate.

Subparagraph 135 A has been amended to:

- clarify that if all required documentation to disburse FSFL is received in the County Office and date-stamped **before** the FSFL expiration date, FSFL may be disbursed
- provide that a new FSFL expiration date must be notated on CCC-185, item 14 C.

Subparagraph 163 A has been amended to provide that County Offices shall perform collateral checks where the full annual installment payment is not made within 15 calendar days after the installment due date.

Subparagraph 353 D has been added to provide the approval process for partial and final disbursements.

Subparagraph 380 C has been amended to reference 64-FI, subparagraph 65 K when processing refunds for final annual installments that result in overpayment.

Exhibit 15 has been amended to remove the reference to FEMA 81-93 that has been replaced by FSA-850.

Exhibit 34 has been amended to clarify that NRRS code:

- “XXFSFL” **must** be used to record a final annual installment repayment when a refund is **not** owed to the producer
- “XXFSFLMR” **must** be used to record the final annual installment repayment and a refund **is** owed to the producer
- “XXFSFLAME” **must** be used when terminating agreements.

Exhibit 36 has been amended to update the applicable repayment processing paragraph reference and provide notes to further clarify when NRRS codes “XXFSFL” and “XXFSFLMR” must be used.

2 FSFLP Information

A Administering FSFLP

[7 CFR 1436.2] FSFLP will be:

- administered under the general supervision of DAFP
- carried out in the field by STC's, COC's, and FSA employees.

B Restrictions

STC's and COC's, and representatives and employees thereof, do **not** have the authority to modify or waive any of the provisions of this handbook unless authorized by DAFP.

C STC Actions

STC will:

- take any action required by this handbook that has not been taken by COC
- correct, or require COC to correct, an action taken by COC that is not according to this handbook
- require COC to withhold taking any action that is not according to this handbook.

STC may:

- approve CCC-185's up to the maximum approval amount
- establish additional limits for COC approval
- establish maximum per bushel or per unit of measure limits for net cost.

D Determinations

No provision or delegation to STC or COC shall preclude the CCC Executive Vice President, or a designee, or the FSA Administrator, or a designee, from:

- determining any question arising under FSFLP
- reversing or modifying any determination made by STC or COC.

2 **FSFLP Information (Continued)**

E Waivers

DAFP may authorize STC's and COC's to waive or modify deadlines and other FSFLP requirements in cases where lateness or failure to meet other FSFLP requirements does not adversely affect the FSFL operation. STC's and COC's without authority to act may prepare a request for waiver to the applicable FSFLP requirement according to paragraph 301.

F FSFL Approval Authority

The authority to approve all FSFL forms, **except** CCC-185, and documents prepared according to this handbook may be redelegated in writing by:

- COC to CED, **except** CCC-185's and applications in which CED has a monetary interest
- CED to Federal and non-Federal County Office employees, **except** CCC-185's and applications in which the person approving has a monetary interest.

COC or STC is the approval authority for CCC-185. STC can redelegate CCC-185 approval authority to SED only.

Use the following table for exceptions.

IF the FSFL applicant is...	THEN the approval authority for CCC-185 shall be...
a State, Federal, or non-Federal County Office employee, including CED's	*--STC, STC-delegated SED, or STC-designated DD.
COC member	
a relative to County Office employees or COC members	Note: If total FSFL amount is over \$250,000, only STC or STC-delegated SED is authorized to approve CCC-185.
Note: See Exhibit 2.	
DD	STC or STC-delegated SED.
STC member	
SED	STC.
a relative to DD or STC member	STC or STC-delegated SED.

2 **FSFLP Information (Continued)**

F FSFL Approval Authority (Continued)

To protect CCC’s financial interests, approval authority for FSFL’s is as follows.

IF the total FSFL principal <u>1/</u> amount is...	THEN the approval authority is...
\$100,000 or less	COC.
\$100,000.01 to \$250,000	COC approval after DD review. <u>2/</u>
\$250,000.01 to \$500,000	STC. <u>3/</u>

1/ For FSFL’s with partial and final disbursements, the two FSFL amounts are combined.

2/ DD’s **must** review **all** CCC-185’s with a total principal amount between \$100,000.01 and \$250,000. FSFL approval date will be the date COC approves FSFL **after** DD review.

3/ STC may redelegate CCC-185 approval authority to SED only.

Exception: STC is the approval authority for **all** renewable biomass CCC-185’s.

Note: All increases to the original approved FSFL amounts must be referred to the original approval authority or a higher authority, if required, for the total FSFL principal amount. See subparagraph 133 C.

***--G CCC-185 Approval Authority Under Special Conditions**

When STC or COC meetings are conducted by conference calls, e-mail, or polling process for CCC-185 approvals, the following actions are **required**:

- record approval/disapproval of CCC-185 in the STC or COC meeting minutes
- document the date and method of approval in CCC-185, item 18
- STC or COC chairperson **must** sign CCC-185 at the next opportunity.

Note: After CCC-185 is approved by conference call, e-mail, or polling process, the CCC-185 loan approval date shall be recorded in APSS and uploaded for funding.

If a polling process is used, document in the STC or COC meeting minutes the names of the committee members that were polled, date of the polls, and the determinations.

Continue to follow FSFL approval authority policy in subparagraph F. This new policy **only** applies to CCC-185 approvals for specific situations as specified in subparagraph 11 A.--*

H Approved FSFL Supplies or Vendors

FSFL regulations do **not** provide for creating a list of approved FSFL equipment suppliers or vendors. Potential conflict of interest cases shall be handled according to 3-PM and 22-PM.

3-9 (Reserved)

Part 2 Basic FSFL-Making Policies

10 FSFL Availability

A Signup

[7 CFR 1436.4] County Offices shall accept CCC-185's and supporting documents:

- anytime during normal office hours
- from producers in person, **not** by FAX
- at least 15 calendar days before the COC meeting at which CCC-185 will be acted.

B Where to Apply

CCC-185's from eligible borrowers for FSFL's for all commodities, **except** FSFL's for renewable biomass and cold storage facilities for FAV's, shall be submitted to the administrative County Office that maintains the applicant's farm records of the farm or farms to which CCC-185 applies.

For renewable biomass storage facilities and cold storage facilities, CCC-185's must also be submitted to the administrative County Office that maintains the applicant's farm records. If some or all of the land from which renewable biomass is harvested and FAV's are produced does **not** have farm records established, CCC-185's must be submitted to the County Office that services the county where the facility will be located.

C Documentation

Upon request, the applicant shall provide information and documents as STC or COC determines reasonably necessary to support CCC-185. The following are examples of information and documentation:

- CCC-901's and CCC-902's
- drawings
- financial statements
- invoices
- legal description of parcel where facility will be placed
- plats or aerial photograph with structure location marked
- purchase orders
- receipted bills
- specifications
- written authorization of access to the proposed storage site.

***--Note:** The storage facility **must** be a stand-alone structure. An example of a structure that would be ineligible for FSFL and **not** be considered a stand-alone structure is when 2 structures are built, and the structures share common components, such as, but **not** limited to, access door, wall, or roof.--*

10 FSFL Availability (Continued)

C Documentation (Continued)

For CCC-185's not supported by existing farm records, the applicant must provide all the documentation required to the County Office for the applicant to be determined an actively engaged and eligible borrower.

COC is responsible for taking appropriate action on CCC-185.

D Producer Action Before CCC-185 Approval

Submitting CCC-185's does **not** ensure approval nor does it create any liability on CCC's behalf.

FSFL applicants, who authorize delivery, site preparation, or construction actions without an approved CCC-185, do so at their own risk and **without** creating any liability on CCC's behalf.

11 CCC-185 Approval Authorities for Specific Situations

A COC Authorized Approval Authority

CCC-185 approval should be obtained **before** any action is taken by the applicant to install the facility.

COC's, according to subparagraph 2 F and paragraph 115, have the authority to approve CCC-185's for FSFL's:

- \$100,000 or less
- \$100,000.01 to \$250,000, **after** DD review.

11 CCC-185 Approval Authorities for Specific Situations (Continued)

A COC Authorized Approval Authority (Continued)

COC's have the authority to approve CCC-185's for FSFL's for \$100,000 or less or \$250,000 or less **after** DD review, **with** STC concurrence in cases where the applicants began specific actions before CCC-185 approval. The applicable actions include the following:

- accepted delivery of equipment or materials
- site preparation in previously disturbed areas
- foundation construction.

***--Note:** Although producers will be proceeding at their own risk, COC can issue an--* approval conditional on STC concurrence if 1 of the 3 actions in this subparagraph is applicable, and use the initial COC approval date and interest rate, if **all** of the following apply:

- CCC-185 was completed and signed by the applicant before starting any of the 3 actions in this subparagraph
- FSFL is \$100,000 or less or between \$100,000.01 to \$250,000 with DD review
- COC is FSFL approval authority
- all applicant eligibility requirements were met when COC issued conditional approval
- concurrence request is received in the State Office within 10 workdays of COC conditional approval.

Example: The producer completes CCC-185 in the County Office on August 20, 2009. On September 4, 2009, a representative from the County Office visits the site to complete FSA-850. It is determined that the producer has completed the site preparation and the forms for the foundation are in place. FSA-850 can still be completed and no adverse impacts are identified based on FSA-850. The producer explains that he or she thought CCC-185 had been approved and construction needed to start so the bin would be completed in time to store the 2009 harvest. COC is the approving authority and determines the actions completed before CCC-185 approval do **not** adversely affect FSFL operation. COC may issue a conditional approval, with STC concurrence, **without** requesting a DAFP waiver, if construction of the facility itself is **not** started until after CCC-185 approval.

--The producer can start construction based on COC's conditional approval but the COC approval date for the funding should not be entered into the system until STC has concurred.--

11 CCC-185 Approval Authorities for Specific Situations (Continued)

A COC Authorized Approval Authority (Continued)

The following must be on file in the County Office **before** COC can approve FSFL:

- CCC-185 completed and signed by the applicant
- \$100 application fee per borrower was received and deposited, as applicable

Note: See paragraph 30.

- the financial analysis for all borrowers and entities was completed
- FSA-850 completed with **no** significant adverse impacts identified.

B STC Authorized Approval Authority

STC's may approve CCC-185's on which construction of the facility was started before approval, provided **all** of the following were on file in the County Office **before starting** construction of the facility itself:

- CCC-185 was completed and signed by the applicant
- \$100 application fee per borrower was received and deposited, as applicable

Note: See paragraph 30.

- all required documentation for financial analysis for all borrowers and entities were submitted and received by the County Office
- FSA-850 has been completed with **no** significant adverse impacts identified.

Note: In these cases:

D DAFP CCC-185 Approval Required

For CCC-185's where the specific situation is **not** covered under subparagraphs A through C, and COC determines CCC-185 would have otherwise been approved, the following actions shall be taken:

- document in COC and STC minutes the reasons why CCC-185 applicant completed the actions **before** receiving FSFL approval
- determine that all other applicant eligibility, FSA-850's, equipment eligibility, and collateral security requirements can be met, and CCC-185 would have been approved had the actions not been taken

11 CCC-185 Approval Authorities for Specific Situations (Continued)**D DAFP CCC-185 Approval Required (Continued)**

- request DAFP waiver through STC according to subparagraphs 2 E and 301 A.

Example: The producer submits CCC-185 in the County Office on September 1, 2009. The producer is instructed by the County Office to provide supporting documentation to complete a financial analysis. On March 1, 2010, the producer provides the supporting documentation to the County Office. At that time, the final bills for the construction of the bin are also presented, and the producer informs the County Office that the bin has been completed. The bills indicate construction was completed on October 31, 2009.

County Offices shall submit copies of the following to the State Office for forwarding to DAFP for approval requests:

- CCC-185

15 Determining Storage Need (Continued)

B Basic Formula

Applicants shall demonstrate a need for storage capacity as determined by the following formula.

Step	Action
1	Determine the borrowing entity and applicable farm operation from CCC-902.
2	<p>Determine up to a 3-year average acreage for each FSFL commodity that requires storage at the proposed location, from the producer’s share of up to the 3 most recent FSA-578’s.</p> <p>When a farming operation reorganizes and the same individuals or entities continue to operate the farm, the cropping history applicable to the previous operation may be used.</p> <p>A reasonable 1-year acreage and yield projection may be used instead of an average for 1 of the following:</p> <ul style="list-style-type: none"> • newly acquired farms • FSFL crops being grown for the first time • cases where prevented planting or disasters adversely affect the average production • cases where crop rotations adversely affect the acreage production. <p>Notes: County Offices must use FSA-578’s for determining the average acreage of each eligible commodity.</p> <p>*--Late-filed FSA-578’s must be filed according to 2-CP and a late fee must be paid for each crop year the acreage report was filed late; however, County Offices may request DAFP waiver according to subparagraph 2 E when late-filed FSA-578’s do not meet the requirements in 2-CP, paragraph 21.--*</p> <p>For FSFL’s for structures to store silage, use the average acreage harvested as silage.</p> <p>For FSFL’s for structures for hay, use only the hay acreage from established farms.</p>

15 Determining Storage Need (Continued)

B Basic Formula (Continued)

Step	Action	
3	Multiply each average acreage times the applicable crop yield determined to be reasonable by COC, total the results, and multiply the result times: <ul style="list-style-type: none"> • 1 for FAV • 2 for all other commodities. <p>Note: Use the same unit of measure for yields for each commodity.</p>	
4	Deduct existing storage capacity, owned by the applicant, for the applicable crops.	
5	IF result from step 4 is...	THEN...
	greater than zero	the producer is eligible for the needed capacity, not to exceed the producer’s proposed capacity or capacity to be upgraded.
	less than zero	notify the producer that he or she is ineligible. Provide appeal rights according to 1-APP.
	greater than zero, but less than proposed storage capacity	see subparagraph 25 F.

16 Aids for Determining Storage Need for Hay and Biomass

A Determining Storage Need

Applicants must show a need for hay or renewable biomass storage as determined by the formula in paragraph 15 and the information in this paragraph.

Before STC can approve an application for a renewable biomass FSFL, the applicants must provide a contract or letter of commitment with the company or facility that will purchase the applicant’s biomass commodity.

B Hay and Biomass Yields

If State and County Offices are unable to determine an annual yield for any of the hay or renewable biomass commodities with the assistance of NIFA, land-grant universities, or available ARS publications, contact PSD.

The unit of measure for hay and renewable biomass commodities will be in tons.

16 Aids for Determining Storage Need for Hay and Biomass (Continued)**C Determining Needed Storage**

An applicant's needed storage can be determined with NIFA and land-grant university assistance or with the worksheet in Exhibit 6.

Applicable laws, regulations, construction codes, and zoning restrictions may also affect the size of a facility and where it can be located.

The applicant shall provide the County Office with either of the following:

- dimensions of the facility to convert into cubic feet of available space
- capacity of the proposed structure in pounds or tons from the contractor constructing the storage facility.

COC's shall use either of the following conversion factors and the worksheet in Exhibit 6 to determine the capacity of a proposed facility:

- 1 pound of hay requires 0.125 cubic feet of space
- 1 short ton of hay requires 250 cubic feet of space.

Note: These factors shall be used to determine the storage capacity of a structure unless the applicant supplies the County Office with detailed documentation of a higher yield.

D Determining Proposed Structure Capacity

The following publications may also assist State and County Offices in determining the capacity of a proposed structure:

- Oklahoma State University publication BAE-1716, titled "Round Bale Hay Storage", available at <http://osufacts.okstate.edu/docushare/dsweb/Get/Document-1772/BAE-1716web.pdf>
- Ohio State University publication, titled "Worksheet for Sizing Hay Storage Pads and Calculating FGD Needs", available at <http://ohioline.osu.edu/aex-fact/pdf/0332.pdf>.

17 Aids for Determining Storage Need for FAV's

A Determining Storage Need

Applicants must show a need for cold storage capacity as determined by the formula in paragraph 15 and the information in this paragraph.

The cold storage need will be determined based on production from 1 year.

FAV's are perishable commodities and their quality can only be maintained for a limited period of time. Cold storage facilities can extend this period of time, but in **no** case will a cold storage facility maintain the quality of FAV's for longer than 1 year. Although some FAV's can be stored for up to 8 months, the quality for many FAV's in cold storage can only be maintained for 7 to 10 calendar days.

See Exhibit 7 for a worksheet that can be used to compute the storage need requirement and capacity of a proposed structure for FAV's.

B Determining Reasonable Commodity Yield

COC's:

- **must** determine a reasonable yield for each FAV included on CCC-185 for a cold storage facility
- shall use the following resources in determining a reasonable yield:
 - ARS publications
 - detailed producer records
 - Internet
 - land-grant university located in the State or neighboring State
 - NIFA in the State.

Note: State Offices can contact PSD for assistance if they are unable to find a yield needed for a specific eligible fruit or vegetable.

Agriculture Departments in each State have identified specific units of measure for FAV's sold in their State. To see what unit of measure is applicable to the commodity in a particular State, contact the applicable State Department of Agriculture or check FSA's NAP web site at <https://arcticocean.sc.egov.usda.gov/NCT/NCTMainMenu.jsp> for a specific State and commodity.

17 Aids for Determining Storage Need for FAV's (Continued)**B Determining Reasonable Commodity Yield (Continued)**

County Offices can access FSA's NAP web site from the FSA Intranet as follows:

- go to FSA Intranet at <http://fsaintranet.sc.egov.usda.gov/fsa>
- CLICK "FSA Applications"
- under "Production Adjustment & Disaster Programs", CLICK "NCT - National Crop Table (2001 - 2008)" or "NCT - National Crop Table (2009-2011)".

C Determining Needed Cold Storage

An applicant's needed storage can be determined with the assistance of NIFA and land-grant universities.

Applicable laws, regulations, construction codes, and zoning restrictions can also affect the size of a facility and where it can be located.

The following **must** be determined **before** defining the size of refrigerated storage needed:

- volume of product to store
- produce containers (pallet bins, boxes, bulk)
- volume required per container
- aisle space needed (mechanical or manual operation)
- lateral and head space
- available site space.

Kansas State University, Cooperative Extension Service publication MF-1039, titled "Storage Construction, Fruits & Vegetables", may assist County Offices in determining the cold storage needed by an applicant. As this publication is no longer available online, State Offices may request a copy from PSD.

D Determining Capacity of Proposed Structure

Capacity of the proposed structure can be obtained from the contractor constructing the cold storage facility. The applicant should provide this information to the County Office.

If necessary, County Offices may determine the volume of storage capacity by using the information in Kansas State University's MF-1039 referenced in subparagraph C.

18 Facility Purpose and Useful Life

A Facility Purpose

The intent of FSFLP is to provide on-farm storage to producers to store the eligible facility loan commodities they produce. FSFL collateral **must** be used for the purpose for which the *--storage facility was constructed for the **entire** FSFL term and must be a stand-alone structure.--*

FSFLP does **not** have the resources to provide financing for commercial storage facilities.

B Using FSFL Structure That Once Stored FSFL Commodities Now Marketed

After the stored commodity has been marketed, the facility may, with **prior** approval, be used by the borrower to **temporarily** store their other agricultural-related items until the next harvest season.

An FSFL borrower must:

- submit a written request to the County Office for approval to store anything other than an eligible FSFL commodity in the structure
- have written approval from CED **before** storing anything other than an eligible FSFL commodity in the structure
- notify the County Office servicing FSFL within 5 workdays when the FSFL commodity has been removed and another agricultural-related item is stored in the FSFL structure.

COC's shall closely monitor FSFL structures temporarily storing other agricultural-related items to ensure that the structure is used for the purpose for which it was constructed for a good portion of every year during the FSFL term. If it is discovered that a borrower consistently fails to obtain approval from the County Office before storing another agricultural-related item in an FSFL structure, the State Office shall contact PSD for guidance.

C Facility Useful Life

CCC has determined that the useful life of a facility must be at least 15 years to ensure that FSFL will be adequately secured throughout the FSFL term.

- if \$100,000 or less, 7-year FSFL term
- if \$100,000.01 to \$250,000, 7- or 10-year FSFL term
- if \$250,000.01 to \$500,000, 7-, 10-, or 12-year FSFL term.

B Extensions

No FSFL term extensions are authorized.

24 Security for FSFL's

A Secured by CCC-186's

[7 CFR 1436.8] All FSFL's shall be secured by CCC-186 covering the farm storage facility. CCC-186 shall:

- grant CCC a security interest in the collateral
- be executed as required by State law where the collateral is located.

B Prior Liens on Real Estate

CCC's security interest in the **collateral**, such as the actual storage structure, shall constitute the sole security interest in collateral. If prior liens on the underlying real estate attach to the collateral, County Offices shall:

- unless waived by regional OGC, obtain CCC-297 from each prior or superior lienholder and each person, including the borrower, having an interest in the real estate on which the collateral is located **before** FSFL closing and disbursement and **before** the partial disbursement, if applicable

Notes: CCC-297 shall be filed with the appropriate county real estate records **before** FSFL closing.

See paragraph 130 and Exhibit 10 for more details.

- **not** allow any additional liens or encumbrances to be placed on the storage facility after FSFL is approved unless CCC approves otherwise in writing.

24 Security for FSFL's (Continued)

C Additional Security Requirements

Additional security is required if any of the following apply:

- *--FSFL amount exceeds \$100,000

Note: The new additional security policy increase from \$50,000 to \$100,000 also applies to FSFL's **approved** before August 28, 2012. FSFL's must be re-reviewed and approved by the approving official. The approving official **must** document the approval on CCC-185, item 18.

- the aggregate outstanding FSFL balance exceeds \$100,000

Notes: The aggregate outstanding FSFL balance is the sum of the outstanding balances of **all** FSFL's disbursed to borrowers signing CCC-186.

STC's may set a more restrictive Statewide policy for determining if additional security is required for FSFL's exceeding \$50,000.

Examples: The producer has an outstanding FSFL for \$75,000 and requests a new FSFL for \$40,000. Additional security is only required to secure the new or \$40,000 FSFL.

A 2-person partnership requests FSFL for \$105,000. FSFL is made to the partnership because the partnership is the farming entity. Additional security is needed as **FSFL** exceeds \$100,000.

- COC determines, as a result of financial analysis, that additional security is required
- FSFL where the total FSFL principal is equal or less than \$100,000 and COC--* determines that the structure has no resale value.

Note: COC shall determine resale collateral value based on local market conditions.

A lien on the real estate that includes the land where FSFL will be located is the preferred additional security.

FSFL's will be adequately secured when the real estate security for FSFL is at least equal to the FSFL amount.

For FSFL amounts secured by real estate, CCC's interest in the real estate shall be superior to all other lienholders. If the real estate is covered by a prior lien, a lien subordination may be obtained by a form approved for use in the State by the regional attorney.

Exception: If FSA holds a superior lien on applicable real estate through an FLP loan, subordination is **not** required. However, a junior real estate lien is **required**.

24 Security for FSFL's (Continued)**C Additional Security Requirements (Continued)**

If prior lienholders will **not** subordinate to CCC, COC may approve alternative forms of security, such as the following:

- second lien position only if **both** of the following apply:
 - CCC is adequately secure
 - FSA-2319 or a similar agreement is executed by the prior lienholder, following requirements specified by the regional attorney, **not** to extend additional liens on the property

***--Exception:** CCC will **not** require such an agreement from any agency of USDA.--*

- first lien on different realty
- letter of credit.

Note: Items, such as livestock, machinery, vehicles, and other equipment, are **not** authorized to be used as additional collateral for FSFL.

D Form of Real Estate Lien

Real estate liens shall be in the form of a real estate mortgage, deed of trust, or other security instrument approved by CCC and according to applicable State laws.

E Real Estate Lien Guidelines

The lien should cover specific acreage, including the entire parcel of real estate underlying the collateral that is:

- sufficient in size and value in the approving committee's opinion to ensure FSFL repayment
- a **salable unit** in the event of foreclosure.

24 Security for FSFL's (Continued)

F Land Separate From the Collateral

Real estate liens may cover acreage separate from the collateral if an adequate lien on the underlying real estate is not feasible and if all of the following apply:

- borrower owns the separate acreage that is not subject to any other liens or mortgages that would be superior to CCC's lien interest
- acreage of the entire parcel is adequate in size and value, in the approving committee's opinion, to adequately secure and insure FSFL repayment.

Notes: Document why a lien on the underlying real estate was **not** feasible.

*--See subparagraph M and Exhibit 12 when applying value to the FSFL structure separate from real estate.

CCC-297 is required from the land owner when the land separate from the collateral is not owned by the borrower. CCC must have first lien on the land securing FSFL.

Exception: If FSA holds a first lien on the applicable real estate through an FLP loan, a subordination agreement is **not** required; however, a second lien on the real estate is **required**.--*

G Other Forms of Security

Other forms of security may be considered to be acceptable by the approving committee, such as irrevocable letters of credit, bonds, or similar CCC-approved instruments.

An irrevocable letter of credit **must** be:

- from a financial institution and provided by the applicant
- *--for the total of FSFL principal plus interest for the first year plus 60 calendar days--*

* * *

- written to allow partial draws if the annual installment payment is **not** received by the due date
- written in a manner sufficient to protect CCC's security interest in the collateral

Note: PSD has an example of an acceptable letter of credit that will be sent to State Offices upon request.

24 Security for FSFL’s (Continued)

G Other Forms of Security (Continued)

- used in each State, under guidance of the regional OGC, to comply with laws specific to that State
- used by each financial institution and reviewed and approved by the regional OGC each FY

Note: Any variances to FSFL requirements when letters of credit are used must be specified, in writing, from the regional OGC.

- stored in a locked, fireproof file and not released until 30 calendar days after the date of the final repayment.

State Offices must check with their respective regional OGC to ensure that laws specific to their State are included in the irrevocable letter of credit.

The irrevocable letter of credit is considered sufficient security for FSFL when all ~~requirements~~ are met according to this paragraph and a financial analysis is not required, unless a more restrictive policy has been set by STC.

Note: At this time, an irrevocable letter of credit **cannot** be used along with other methods.

* * *

H Renovated Structures

If an existing structure is remodeled and an addition becomes an attached, integral part of the existing storage structure, CCC’s security shall include the existing storage structure.

I Fees for Filing and Recording UCC’s, Instruments, and Other Transactions

Filing and recording fees shall be paid according to the following.

IF the transaction is for...	THEN the fee is paid by...
a collateral lien search	CCC.
a credit report	
fees charged by a local or State municipality for expenses associated with a real estate lien search for CCC-297 purposes	
filing UCC-1	
filing UCC-1 as a fixture filing	

24 Security for FSFL’s (Continued)

I Fees for Filing and Recording UCC’s, Instruments, and Other Transactions (Continued)

IF the transaction is for...	THEN the fee is paid by...
all other instrument filing and recording transactions related to a lien on real estate used to secure FSFL	borrower.
attorney fees related to a lien on real estate used to secure FSFL	
fees charged by superior lienholders to subordinate or release collateral to CCC	
filing a discharge of CCC-297	
filing a release or discharge of a real estate lien, such as a mortgage	
filing and recording a subordination agreement related to a lien on real estate used to secure FSFL	
real estate lien, deed, or title search related to a lien on real estate used to secure FSFL	
recording CCC-297	
terminating UCC-1 using UCC-3	

J Adequate Security and Appraisals of Real Estate

FSFL’s are considered to be adequately secured when the value of real estate security for FSFL, before installing the requested FSFL structure, is at least equal to FSFL’s amount. For FSFL’s where the value of real estate and previous improvements offered as collateral is in doubt, approving committees may request an appraisal, at the FSFL applicant’s expense, from a list of FLP-approved appraisers. The applicant must agree to the request for an appraisal.

Notes: To ensure consistency in determining the value of FSFL real estate security within a State, STC’s may set specific procedure to be followed. It is the responsibility of STC to ensure that all FSFL’s in their State are adequately secure.--*

If an appraisal was made on the real estate within the last year by a bank or for FLP, and the real estate values have remained consistent, that appraisal may be used to determine value, **if** the appraiser conducting the appraisal is on the list of FLP-approved appraisers.

K Security on Leased Land

For an applicant proposing to put FSFL structure on leased land or land that is **not** owned by the applicant, COC shall require a written agreement from the landowner to the FSFL applicant. The agreement should allow the borrower access to the structure for at least the entire length of FSFL.

24 Security for FSFL's (Continued)

L Partial and Final FSFL Closings Using Real Estate as Additional Security

* * *When real estate is used for the required additional security for the:

- partial disbursement, security applicable to the partial disbursement amount will be required **before** the partial disbursement FSFL closing
- final disbursement, security applicable to the total FSFL amount will be required **before** FSFL closing.

Examples: The following is an example of FSFL with both partial and final disbursements and the security required for each.

*--FSFL is approved for \$105,000. Half the facility is constructed and a partial disbursement is requested for \$52,500. UCC-1 has been filed on the structure, but additional security is **not** required when the \$52,500 partial disbursement is closed. When the final FSFL disbursement is made, additional security for both FSFL's totaling \$105,000 is **required**.

The following is an example of FSFL with both partial and final disbursements where additional security is required.

FSFL is approved for \$200,000. Half the facility is constructed and a partial disbursement is requested for \$100,000. Additional security is required for the \$100,000 partial disbursement and for the \$100,000--* final disbursement. The following options are available to the borrower:

- present 2 separate real estate mortgages, 1 for the partial disbursement and another for the final disbursement
- present 1 real estate mortgage to secure both the partial and final disbursement at the time of the partial disbursement, if possible according to the laws in the State. Check with the regional OGC to ensure that this is possible.

24 Security for FSFL's (Continued)

***--M Applying Value to FSFL Structure Separate From Real Estate**

When FSFL real estate security is separate from FSFL collateral, the County Office may apply a value of no more than **20** percent of the loan amount to the structure if **all** of the following apply:

- CCC-297 is obtained from the owners of the real estate on which FSFL structure is located severing the FSFL structure from the real estate

Note: Unless State law, as determined by the regional OGC, makes using CCC-297 unnecessary, **and** CCC is adequately protected without CCC-297.

- UCC-1 is filed on FSFL structure giving CCC first lien position
- FSFL structure **must** have resale collateral value according to subparagraphs C and N.

See Exhibit 12 to determine the value of real estate security separate from the FSFL facility.

N Resale Collateral Value

County Offices, with assistance from an FLP loan approval official, when necessary, shall determine resale collateral value based on local market conditions and depreciation factors.

Note: Resale collateral value is collateral that can be sold and moved to a new location for which compensation equal to the outstanding loan value can be expected.

In most cases, the resale collateral value will **not** equal the outstanding loan value if the collateral is moved or sold and will be less than its fair market value. The resale collateral value **must** be a reasonable price that CCC can expect to receive if the loan has to be liquidated. A reasonable valuation will provide security for both the borrower and CCC.

Resale collateral values provided by a qualified expert, such as an FSA employee delegated chattel appraisal authority according to 1-FLP.

O Determining Security Values for Existing Structures

No security value can be given to existing structures unless the value of the property is included in an appraisal or the tax assessment statement. STC's, COC's, and/or FLP employees shall **not** assign a value to an existing structure based on common knowledge obtained from others in the community.--*

24 Security for FSFL's (Continued)

***--P Real Estate Appraisal**

To ensure that CCC is adequately secured and prevent potential losses to the Government, the real estate value on FSFL appraisals shall be at least **100** percent of the loan amount and security that is offered for FSFL's **must** be in salable units. The required 100 percent gives CCC the needed collateral support for FSFL.

FSFL applicants may request a real estate appraisal completed by an FLP-approved appraiser at the applicant's expense. Under this option, if the appraisal is on the real estate where the structure is located, the value of the FSFL structure is included in the appraisal. If the structure is **not** on the land being offered for collateral, the value of the structure is **not** considered in the appraisal.

During the appraisal process, the appraiser is provided information from the bids the applicant has received for the structure to determine the value the structure will add to the real estate.

The appraisal **must** be:

- completed before loan approval
- considered when the financial analysis is completed.

After the appraisal is completed, if it is determined adequate security collateral is not available, FSFL shall **not** be approved.

Third party appraisals are acceptable. The appraisal must be made on the real estate within the last 12 months of CCC-185 request by a bank or for FLP.

Note: The third party appraisal shall be at 100 percent of the loan amount and security that is offered for FSFL must be in salable units.

State Offices shall request and complete the required paperwork for appraisals according to Exhibit 13, but the entire cost of appraisals is at the applicant's expense.

Applicants may authorize the County Office to add the cost of the appraisal to the eligible net cost. If the applicant has paid for the appraisal in full before the final disbursement, the cost for the appraisal may be included in applicants required downpayment.

In **all** cases, follow Exhibit 13 to establish a receivable for the appraisal cost. The established receivable for the appraisal cost will be paid when FSFL is disbursed, if not previously paid.--*

24 Security for FSFL's (Continued)

***--P Real Estate Appraisal (Continued)**

If an applicant requests an appraisal, the County Office shall:

- enter in CCC-185, item 18, "I request an appraisal to determine the value of the real estate and my FSFL structure to use for the required real estate security. I understand that I am responsible for the entire cost of the appraisal."
- obtain the applicants signature and date **before** requesting the appraisal.

Note: See Exhibit 13 for detailed instructions on requesting FSFL appraisal.

Example 1: CCC-185 submitted for a \$200,000 FSFL that requires additional security. An appraisal determined the value of the 60 acres, including FSFL, to be \$277,500.

\$277,500 - Appraised value including the structure.

\$200,000 loan **X** 100 percent required security value = \$200,000.

Appraised value of 60 acres, including the structure, is adequate to secure FSFL.

Example 2: CCC-185 submitted for a \$200,000 FSFL that requires additional security. An appraisal determined the value of the 80 acres, including FSFL, to be \$370,000. Local bank has a \$120,000 mortgage on the ground where the facility is located and they will **not** subordinate.

\$370,000 – Appraised value including the structure.

- 120,000 – Bank mortgage will not subordinate but **must** sign FSA-2319.

\$250,000 – Remaining value for CCC.

\$200,000 loan **X** 100 percent required security value = \$200,000.

Appraised value is adequate to secure FSFL.

A conditional FSFL approval may be issued dependent on the appraisal. The conditional FSFL approval must be documented in CCC-185, item 18. It must be conveyed to the applicant that CCC is **not** liable for the loan if the determined security value is not sufficient.--*

24 Security for FSFL’s (Continued)

***--Q County Tax Assessed Value**

Tax assessed values differ from State to State and county to county.

FSFL applicant may use the assessed property value from the current county tax bill for a specified parcel or parcels to determine the value of real estate used for FSFL security.

If a State uses TAV on the county tax bills, that percent can be applied if the exact percent is annually documented.

TAV reflects the State and county tax equalization process. The market value on the county tax bill represents the market value of the real estate.

If the market value is **not** included on the county tax bill, the exact percent used to determine the market value must be annually documented by the County Assessor. This documentation shall be:

- attached to a copy of the applicable tax bills
- retained in FSFL folder.

The following shows various examples that may be used to compute the market value of real estate if a percent is obtained.

IF TAV or comparable percent is...	THEN to determine the market value of the real estate, multiply the assessed value times...
40	2.5000
50	2.0000
60	1.6667
65	1.5385
75	1.3334
100	1.0000

--*

24 Security for FSFL's (Continued)

***--Q County Tax Assessed Value (Continued)**

Under this option, and if authorized by STC, COC may determine the value of FSFL structure to equal **up to**, but **not** exceed, **50** percent of loan amount **if** the facility is located on the property to be mortgaged.

Example: CCC-185 submitted for a \$250,000 FSFL that requires additional security. STC has approved COC's to allow the value of the FSFL structure to equal 50 percent of the loan amount, or in this case, \$125,000. Real estate security without any value given to the FSFL structure must equal \$125,000. Current county tax bill shows the assessed value of an 80 acre parcel to be \$62,500. The County Assessor provides CCC written documentation that indicates TAV is 50 percent. (\$62,500 X 2 = \$125,000)

\$250,000 - FSFL amount.
 - \$125,000 - Value of structure STC authorizes COC to use.
 \$125,000 - Real estate security needed.

\$125,000 - Real estate security value (TAV must equal \$125,000).

In this example, CCC has first lien on the 80 acre parcel. With the structure and first lien on the 80 acres, CCC is secure.

R Additional Authorized Methods

To ensure that FSFL's are adequately secured, County Offices must use the most practicable method and be conservative in judgment when determining the value of FSFL security.

If the following methods are available by county or regional areas, it is recommended that County Offices primarily use that method. County Offices, with the assistance of an FLP loan approval official, when necessary, are authorized to use the following methods when determining value of FSFL security:

- NASS Land Values and Cash Rents Summary published annually in August

Note: The NASS Land Values and Cash Rents 2010 Summary can be obtained at <http://usda.mannlib.cornell.edu/MannUsda/viewDocumentInfo.do?documentID=1446>. The NASS publications may also be available for individual States by county or regional areas.

Example: The NASS Land Values and Cash Rents 2010 Summary was used to determine the value of crop land for 2011 for FSFL No# 2011-00002. The South Carolina 2010 Cropland Value was valued at \$2,520 per acre and is determined to be conservatively reasonable. Therefore, 120 acres of cropland times \$2,520 equals \$302,400. NASS Land Values and Cash Rents 2010 Summary, page 6 is filed in the producer's FSFL folder for reference.--*

24 Security for FSFL's (Continued)

***--R Additional Authorized Methods (Continued)**

- Market Value Estimate from an FLP loan approval official

Note: Must be documented and cannot use appraisals from other producers.

- NIFA Farm Land Value Surveys
- Land Grant University Published Reports
- State or county published Agricultural Sales and Median Ratio Report.

Example: 2010 Farmland Value Survey Iowa State University at
www.extension.IAstate.edu/agdm/wholefarm/html/c2-70.html.

Important: The authorized method selected must be maintained in FSFL folder or a referenced folder and include the methodology used to determine the security value for FSFL.

If any of the authorized methods in this subparagraph are used, and if authorized by STC, COC may assign a value to the structure of no more than **50 percent** of the **loan** amount **if** the structure is located on the property to be mortgaged.

The value of the structure and real estate must equal at least 125 percent of the loan.

State and County Offices **must** request a formal DAFP waiver according to paragraph 301 for authorization **before** using a method **not** listed in this subparagraph when determining FSFL security.--*

24 Security for FSFL’s (Continued)

*--S Value of FSFL Security Approval Authority

Concurrence of determined value of FSFL security must be made according to the following.

IF loan amount is...	THEN concurrence of determined value of FSFL security must be made by...
\$100,000 or less	COC.
\$100,001 to \$250,000	COC after DD review.
\$250,001 to \$500,000	STC (STC can delegate approval to SED only).

Note: See first table in subparagraph 2 F for exceptions applicable to FSA employees and their relatives.

A conditional loan approval may be issued dependent on an appraisal or other authorized method for determining adequate real estate security. The conditional loan approval must be documented in CCC-185, item 18. It must be conveyed to the applicant that CCC is **not** liable for the loan if the determined security value is not sufficient.

STC’s may set a more restrictive Statewide policy for determining FSFL real estate security values if it is determined that the economic conditions in the State and in agriculture, in general, require such action to protect CCC’s interests.--*

25 FSFL Amount**A Maximum Amount**

The maximum amount of any FSFL shall **not** exceed \$500,000.

Note: Only one FSFL is allowed on a stand alone structure.

B Determining FSFL Amount and Number of Borrowers

The principal amount of any FSFL shall be 85 percent or less of the net cost of the applicant's needed storage or handling equipment, **not** to exceed \$500,000 for each FSFL.

Note: Each borrower signing CCC-186 is jointly liable for the entire FSFL amount.

C Net Cost

[7 CFR 1436.9] The cost on which FSFL shall be based is the net cost of the following:

- accessories
- eligible facility
- services to the applicant after discounts and rebates.

Note: STC may establish a maximum per bushel or per unit of measure for net cost.

D Net Cost Items

The net cost for storage and handling equipment may include the following:

- delivery charges
- fees, such as attorney, archaeological study, or title insurance fees
- installation costs
- material and labor for concrete pads
- material and labor for electrical wiring and electrical motors
- new on-farm material approved by COC
- off-farm paid labor

25 FSFL Amount (Continued)

D Net Cost Items (Continued)

- on-farm equipment cost not to exceed commercial rates approved by COC
- purchase price
- sales tax
- shipping charges
- site preparation costs.

Notes: The net cost shall **not** include the following:

- on-farm labor
- secondhand material
- travel expenses of the vendors.

Grants and loans from any Government Agency shall be subtracted from the FSFL amount before disbursement. See paragraph 32.

E Larger Capacity Than Needed

When a storage structure has a larger capacity than the applicant’s needed capacity, the net cost shall be prorated and the maximum FSFL amount computed as follows.

Step	Action
1	Divide the eligible net cost by the bushels of capacity.
2	Multiply the per bushel cost times the bushels of capacity for which the applicant is eligible.
3	Multiply the result times .85.

Example: Applicant proposes to build a 60,000 bushel storage bin. Net cost is \$75,000. Eligible storage need is 50,000 bushels. Net cost per bushel is \$1.25 (\$75,000 divided by 60,000 bushels). Eligible net cost is \$62,500 (\$1.25 times 50,000 bushels). Maximum FSFL amount is \$53,125 (\$62,500 times .85).

F Ineligible Space in a Flat Storage Structure

When a flat storage structure has space that is not used primarily for eligible commodity storage, such as office or marketing space, compute the maximum FSFL amount as follows.

Step	Action
1	Determine a factor for eligible space by dividing the square footage that is primarily used for eligible commodity storage by total square footage of the building.
2	Determine the total net cost of the building.
3	Multiply the result from step 2 times .85 and multiply that result times the factor from step 1.

Example: Applicant proposes to build a 75,000 square foot flat storage building. Net cost is \$75,000. Eligible storage space is 74,000 square feet. Factor for eligible space is .99 (74,000 divided by 75,000). The maximum FSFL amount is \$63,112.50 (\$75,000 times .85 times .99).

26 **FSFL Approvals**

A Approval Expiration

*--FSFL approvals expire 6 months after the approval date, unless extended in writing for up to an additional 6 months by the applicable approving authority identified in subparagraph 2 F.

A second 6-month extension, for a total of 12 months from the original approval date, may be approved according to the following.

IF the FSFL amount is...	THEN approval authority is...
less than or equal to \$250,000	COC after DD review.
greater than \$250,000	STC or delegated authority to SED only .

The delegation of authority **must** be recorded in the STC minutes.

STC's only are authorized to grant extensions of FSFL approvals beyond 12 months, not to exceed 18 months from the date of approval.

Notes: See paragraph 135 for further details of extension of approvals.

FSFL must **not** be disbursed with an expired approval date.

Until the FSFL software is released to change the initial 4-month FSFL approval period to 6 months, a manual entry of the 6-month FSFL approval expiration date with initials is required in CCC-185, item 14 C.--*

B Term Options

Borrowers may select the term of their FSFL depending on the amount borrowed.

Total principal amount term options are as follows:

- for \$100,000 or less, 7 years **only**
- for \$100,000.01 through \$250,000, the borrower may select 7 or 10 years
- for \$250,000.01 through \$500,000, the borrower may select 7, 10, or 12 years.

26 FSFL Approvals (Continued)

B Term Options (Continued)

For FSFL's over \$100,000, the applicant has an option in the term. The requested term **must** be specified when CCC-185 is submitted, because the required financial analysis **must** take into account the annual installment payment amount.

To support the requested FSFL amount and term, the applicant **must** provide the following information to the County Office when completing CCC-185:

- purchase order or contract
- written cost estimates.

Note: Because the term is based on total FSFL amount (85 percent of the total eligible costs), County Offices **must** keep copies of **all** documentation presented by the applicant, with CCC-185, on file to support the 10- and 12-year FSFL terms.

27 Downpayment

A Minimum Downpayment

[7 CFR 1436.10] A minimum downpayment shall be:

- 15 percent of the eligible net costs
- difference between the net cost of the storage facility and the amount of FSFL determined by paragraph 25
- made by the FSFL applicant to the supplier or contractor before the final FSFL disbursement.

***--Examples:** The net cost of the storage facility is \$95,000. The producer only wants FSFL for \$50,000. The downpayment will equal \$45,000. In this example, evidence must be provided that \$45,000 downpayment has been paid before the final FSFL can be disbursed.

The producer constructs a \$75,000 storage bin with a capacity of 60,000 bushels although only eligible for a 50,000-bushel structure. Net cost per bushel is \$1.25 (\$75,000 divided by 60,000 bushels). Eligible net cost is \$62,500 (\$1.25 times 50,000 bushels). Maximum FSFL amount is \$53,125 (\$62,500 times .85). In this example, evidence must be provided that \$21,875 downpayment has been paid before the final FSFL can be disbursed.

B Allowances

The downpayment must be in cash. The cash may be the result of a loan from another nongovernment source. County Offices shall ensure that downpayments obtained from--* these loans are accounted for when determining the borrower's capability of repaying FSFL.

27 Downpayment (Continued)

C Exclusions

The downpayment shall **not** include any of the following:

- credit
- deferred payment
- discount
- *--grant or loan proceeds from any Government Agency (paragraph 32)--*
- post-dated check
- promissory note to the supplier or contractor
- rebate
- trade-in value.

28 Disbursements

A FSFL Disbursement Policy

So the borrowers can facilitate purchasing and constructing a facility, 1 partial and 1 final principal disbursement are available. * * * A partial disbursement is **not** required. Borrowers may request only a final disbursement when the facility has been completed.

B Partial Disbursements

One partial disbursement:

- may be requested by the borrower when a portion of the construction has been completed
- will be commensurate with the amount of construction completed
- can be disbursed at the maximum amount of 50 percent of the projected and approved total FSFL amount, **not** to exceed \$250,000.

Notes: Interest on the partial disbursement begins on disbursement.

COC will inspect the structure before the partial disbursement to determine the portion of construction completed to use in determining the amount of the partial disbursement.

28 Disbursements (Continued)

B Partial Disbursements (Continued)

To receive the partial disbursement, the following are required **before** CCC-186 is prepared:

- acceptable documentation providing the cost of the completed portion
- security required for the principal amount **before** the partial disbursement is closed
- CCC-191's from contractors submitting bills for completed construction.

***-Example:** The following example explains the maximum amount of the partial--* disbursement allowed.

FSFL is approved for \$125,000. The applicant completes the site preparation, foundation, and the outer shell of the steel bin. Bills are presented to the County Office for \$100,000. The bills presented are over half of the approved total FSFL amount. The maximum partial disbursement the borrower can

-receive on this FSFL is \$62,500. Although additional security is required for \$125,000 before the final FSFL disbursement, only one UCC-1 filing is required for the \$62,500 partial disbursement.--

* * *

If the applicant requests the partial disbursement:

- there will be two FSFL's with 2 installment payments due each year
- a separate CCC-186 will be required for each FSFL
- only 1 **manual** CCC-185 will be required for the partial and final FSFL amounts.

28 Disbursements (Continued)

B Partial Disbursements (Continued)

County Offices shall:

- assist producers with completing 1 manual CCC-185 for the total FSFL amount requested
- enter 2 separate FSFL's into the FSFL software following instructions in paragraph 353

Notes: Currently, to process partial and final FSFL disbursements, 2 separate FSFL's are required in FSFL software. One FSFL for 50 percent of the requested FSFL total will be initially entered into the FSFL software for the partial disbursement, and another FSFL for the other 50 percent of the requested FSFL amount will be entered into the FSFL software for the final disbursement.

Because the exact amount of the partial and final FSFL disbursements cannot be determined before the structure is completed, it may be necessary to increase or decrease the approved and obligated amounts for each FSFL when the total for each disbursement has been determined.

- enter the approval date and amount for each FSFL when the requested facility has been approved by COC or STC
- see paragraph 24 for FSFL security requirements for FSFL's with partial and final disbursements
- see paragraph 30 for application fees for FSFL's with partial and final disbursements
- *--complete an FSFL disbursement calculator, according to subparagraph F, before disbursing the partial disbursement. The FSFL disbursement calculator must be filed in the producer's FSFL folder.--*

C Final Disbursements

CCC will disburse FSFL or make the final disbursement when:

- the **entire** facility has been:
 - assembled
 - constructed
 - installed
 - inspected and approved by COC representative
 - determined to be free of liens other than CCC's by a final lien search
- all security requirements have been met.

28 Disbursements (Continued)

C Final Disbursements (Continued)

The borrower may change the FSFL term before the final FSFL disbursement **if**:

- the principal amount qualifies for a different FSFL term
- a new financial analysis indicates the annual payments will be manageable.

The final FSFL disbursement must subtract all grants and loans on the same structure from any Government Agency.

--An FSFL disbursement calculator must be completed, according to subparagraph F, before disbursing the final disbursement. The FSFL disbursement calculator must be filed in the producer's FSFL folder.--

Example: RD grants and loans.

If a partial disbursement has been issued, the FSFL term on the amount disbursed **cannot** be adjusted because CCC-186 establishing the interest rate and FSFL term has already been completed and the lien perfected.

Note: If a partial disbursement has been issued, and the final disbursement amount indicates that FSFL was approved at a longer term than should have been allowed, the final disbursement will be allowed to be made at the term originally determined if documentation is on file supporting the original FSFL term in the form of the following:

- written estimates from **all** suppliers
- purchase order or contract.

Example: The following example explains when a longer FSFL term then is authorized is allowed.

Documentation presented by the applicant indicates that the entire facility will cost \$120,000. The amount eligible for FSFL is 85 percent or \$102,000. This principal amount qualifies for the FSFL term of 7 or 10 years. The applicant requested, when CCC-185 was submitted, a 10-year FSFL term. When the final costs are presented, the total cost of the facility is \$116,000 of which 85 percent is \$98,600. The FSFL term for this amount is only 7 years. Because the original FSFL term was based on **written** estimates from all suppliers, the 10-year FSFL term is allowed.

Note: COC **must** document, on a case-by-case basis, approval for using the longer FSFL term in both the FSFL folder and COC minutes. Documentation supporting initial approval of the longer FSFL term **must** be maintained in the FSFL folder.

28 Disbursements (Continued)

***--D FSFL Disbursement Calculator**

The FSFL disbursement calculator was created to assist State and County Offices in calculating the final FSFL project costs and downpayment needed for FSFL.

When all final bills are received, County Offices **must** access the FSFL disbursement calculator, according to subparagraph E, and enter the appropriate information to document and calculate the final FSFL project costs and FSFL downpayment.

County Offices **must** complete and:

- attach a printout of the completed FSFL disbursement calculator to CCC-197
- file an FSFL disbursement calculator printout in the producer's FSFL file folder **before** a partial or final FSFL is disbursed.

E Accessing the FSFL Disbursement Calculator

The FSFL disbursement calculator:

- must be accessed and completed on a computer running Microsoft Excel 2007 software
- is available from the PSD web site located at <http://www.fsa.usda.gov/FSA/webapp?area=home&subject=prsu&topic=flp-fp>. Under "Hot Links", CLICK "Disbursement Worksheet".

Manual calculation must **only** be used when the FSFL disbursement calculator is unavailable. A second party review according to subparagraph G applies.

F Using the FSFL Disbursement Calculator

County Offices must enter the following required data in the applicable fields:

- applicant's name
- FSFL number
- estimated FSFL amount
- type of disbursement (partial/final)--*

28 Disbursements (Continued)

***--F Using the FSFL Disbursement Calculator (Continued)**

- eligible receipts for this FSFL that include the following:
 - vendor/contractor name
 - if vendor/contractor was paid in full (yes/no)
 - total amount of bill
 - payment method (check/money order/credit card/cash)
- comments, if applicable. Ineligible items may be listed in the comments.

Notes: The project cost, 85 percent final disbursement amount, 15 percent minimum downpayment, or required downpayment if \$500,000 loan amount, will be automatically calculated. The producer may provide funds to the County Office to lower the 85 percent final disbursement amount. The County Office must manually enter into the disbursement calculator the funds received from a Federal grant or loan, or additional downpayment from the producer. If funds were received from a Federal grant or loan, the funds should be captured in CCC-197, Part D according to subparagraph 134.5 E.

If the final loan amount exceeds the FSFL estimated and obligated amount, the County Office **must** review FSFL to determine whether a new financial analysis is needed. Additional funding may be required.

G Secondary Review

All data entered into the FSFL disbursement calculator shall be reviewed and verified by a second person to ensure data accuracy. The preparer and secondary reviewer shall enter their initials and the date the data was prepared and reviewed on CCC-195, item 16D. All discrepancies discovered during the review **must** be corrected **before** closing FSFL.--*

28 Disbursements (Continued)**I Inspection and Approval**

[7 CFR 1436.11] CCC shall disburse the final FSFL disbursement when:

- the farm storage facility has been:
 - assembled
 - constructed
 - delivered
 - installed
 - inspected, approved by COC representative, and documented on CCC-295A
 - determined to be free of liens other than CCC's by a final lien search
- all security requirements have been met.

J Evidence of Total Cost

The final disbursement will be made **only** if the borrower provides satisfactory evidence of the following:

- total cost of the facility
- payment of all debts on the facility in excess of FSFL amount
- required downpayment
- completed and signed CCC-191's from all contractors.

K Joint Disbursements

Disbursements shall be made jointly to the borrower and the contractor or supplier.

Exception: Disbursement may be made to the borrower if the County Office determines the borrower has paid the contractor or supplier all amounts that are due and owing with respect to the facility.

29 Interest Rate

A FSFL Interest Rate

--[7 CFR 1436.12] The interest rate for FSFL shall be the rate:--

- equivalent to Treasury securities of a comparable term in effect during the month of the initial FSFL approval
- in effect for the FSFL term
- *--the same for a partial and final disbursement.--*

B Monthly Announcements

Interest rates may be different for the 7-, 10-, or 12-year terms and will be:

- updated monthly
- published on FSA's Internet web site
- posted in County Offices
- automatically downloaded to the FSFL interest rate table in the County Office software.

30 Application Fees

A County Office Action

County Offices shall:

- charge FSFL applicants a nonrefundable application fee of \$100 per borrower per FSFL
- collect the application fee when CCC-185 is submitted.

Notes: The application fee is necessary to cover the cost to CCC of making FSFL's. These fees include the following:

- UCC-1 filings
- lien searches
- credit reports.

If the producer elects the partial and final disbursement option, only 1 application fee is required even though there are 2 separate FSFL's.

A spouse is **not** required to pay a separate FSFL application fee if required by State law to sign the FSFL security documents, and is **not** an eligible producer on a farm whose production is used to determine FSFL eligibility.

The application fee for assumptions must be collected and is the fee in effect at the time the assumption is requested.

See subparagraph 312 B for the correct program code when an application is accepted in one FY but the loan is not approved until the next FY.

30 Application Fees (Continued)**B Multiple Borrowers**

A husband and wife would be considered 2 borrowers and each charged an application fee if both are receiving farm program payments on the farm whose production is used to determine FSFL eligibility.

Note: If a spouse does **not** receive a share of the farm program payment and is only signing CCC-186 because of a State or STC requirement, only 1 fee is required.

Farming entities, excluding joint ventures that are paid under one TIN, will be considered 1 applicant and charged 1 application fee.

A borrower who is requesting a partial disbursement shall be charged 1 application fee even though CCC is disbursing two FSFL's.

31 FSFL Signature Authority Documentation Requirements**A FSFL Signature Authority for Individuals**

The FSFL Program shall follow FSA signature authority requirements for individuals according to 1-CM.

B Entity Signature Authority for FSFL's

The signature authority for **all** forms and documents for FSFL's for corporations, limited partnerships, limited liability companies, and other similar entities is a copy of any of the following applicable documents:

- the corporate charter, bylaws, articles of organization, operating agreement, or partnership papers executed according to State law, that designates officers, members, or managers as authorized signatories
- resolution by the corporation's board of directors signed by the corporation's secretary, or an officer, other than the signatory being extended signature authority

31 FSFL Signature Authority Documentation Requirements (Continued)

B Entity Signature Authority for FSFL's (Continued)

- corporate minutes signed by the corporation's secretary, or an officer, other than the signatory being extended signature authority.

Notes: A copy of the required documentation **must** be obtained and kept on file in the County Office.

The entire document presented does **not** have to be maintained. However, all applicable pages that identify the entity, pertinent authority, and any limitations, etc., **must** be maintained.

If the intent of the resolution is to extend signature authority to all officers of a corporation, then all officers must sign the resolution.

Exception: For a **1-person corporation**, that person is authorized to sign for the corporation by default if documentation, such as a corporate charter, is on file in the County Office that does **both** of the following:

- identifies the "1 person"
- validates that 100 percent of the corporation's shares are held by that "1 person".

It is the respective entity's responsibility to:

- inform County Offices of all changes in signature authority
- ensure that current documentation is provided accordingly with respect to FSFLP requirements.

31 FSFL Signature Authority Documentation Requirements (Continued)

B Entity Signature Authority for FSFL’s (Continued)

The identification or list of officers and/or shareholders of a corporation does **not**, by itself, provide sufficient evidence of who has authority to act on behalf of the corporation.

Certain properly executed and completed affidavits, on file in a County Office before July 20, 2004, have been used as evidence of signature authority. These affidavits shall continue to be honored as evidence of signature authority by State and County Offices. In addition, all affidavits filed after July 18, 2001, must be witnessed by an FSA employee, or notarized, to be considered acceptable.

County Offices shall review CCC-902E, Part C to ensure that members and their respective shares have **not** changed if FSA-211 or an affidavit executed before July 20, 2004, is used as evidence of signature authority.

An agent may:

- redelegate the authority to sign FSFL forms and documents for a corporation, limited partnership, limited liability company, or other similar entity
- grant this authority according to the following table.

IF the entity documents...	THEN the...
allow for re delegation of signature authority	<p>person authorized to sign for the entity according to subparagraph A may redelegate their authority to an agent on FSA-211.</p> <p>Important: The person authorized to sign for the entity according to this subparagraph shall not redelegate this authority if the entity documents do not allow for re delegation of signature authority.</p> <p>Example 1: The XYZ Corporation charter designates Mary Brown as the corporate officer with signature authority for the corporation. The corporate charter provides that the authority to sign for XYZ Corporation may be redelegated. Mary Brown may redelegate her signature authority for XYZ Corporation to an agent by completing FSA-211.</p> <p>Example 2: The ABC Corporation charter designates Mike Jones as the corporate officer with signature authority for the corporation. The corporate charter does not indicate that the authority to sign for ABC Corporation may be redelegated. Mike Jones shall not redelegate his signature authority for ABC Corporation.</p>

31 FSFL Signature Authority Documentation Requirements (Continued)

B Entity Signature Authority for FSFL's (Continued)

IF the entity documents...	THEN the...
do not allow for redelegation of signature authority	<p>following may be used to authorize an agent to sign for the entity for:</p> <ul style="list-style-type: none"> • corporations, either of the following: <ul style="list-style-type: none"> • FSA-211 signed by all officers • resolution of the board of directors, signed by an officer of the corporation, providing name of agent authorized to sign for the corporation • limited partnerships and other similar entities, FSA-211 signed by all members of the entity • limited liability companies, FSA-211 signed by all members or authorized managers. <p>Notes: Certain properly executed and completed affidavits, on file in a County Office before July 20, 2004, have been used as evidence of signature authority. These affidavits shall continue to be honored by State and County Offices. In addition, all affidavits filed after July 18, 2001, must be witnessed by an FSA employee, or notarized, to be considered acceptable.</p> <p>County Offices shall review CCC-902E, Part C to ensure that members and their respective shares have not changed if FSA-211 or an affidavit executed before July 20, 2004, is used as evidence of signature authority.</p> <p>Example: The ABC Corporation charter designates Mike Jones as the corporate officer with signature authority for the corporation. The corporate charter does not indicate that the authority to sign for ABC Corporation may be redelegated. Mike Jones shall not redelegate his signature to sign for ABC Corporation. However, an agent may be authorized to sign for ABC Corporation if all officers of ABC Corporation sign FSA-211.</p>

31 FSFL Signature Authority Documentation Requirements (Continued)**C Joint Venture Signature Authority for All FSFL's**

Members of a joint venture may appoint an individual on FSA-211 to **request** FSFL on CCC-185. **All** members of the joint venture must sign FSA-211. Members of the joint venture are appointing an attorney-in-fact to act on behalf of the joint venture.

Note: If an attorney-in-fact has **not** been appointed on FSA-211 to act on behalf of the joint venture, all members must sign CCC-185.

All members of a joint venture, including spouses if required by State law, are required to sign the following FSFL security documents:

- CCC-186
- CCC-186-1
- CCC-193
- CCC-193-D
- CCC-298
- CCC-400
- all other real estate lien forms approved for use by a State regional attorney
- UCC-1, if signatures required.

Note: FSA-211 for the joint venture does **not** authorize the appointed person to sign for individual members on FSFL security documents.

County Offices shall review CCC-902E, Part C or CCC-901, Part A for joint ventures for member names to ensure that all members have signed FSA-211 and all applicable FSFL security documents.

31 FSFL Signature Authority Documentation Requirements (Continued)

C Joint Venture Signature Authority for All FSFL’s (Continued)

Determine acceptable evidence of signature authority for a joint venture as an entity according to the following table.

IF the individual signing for the joint venture is...	THEN acceptable evidence of authority is a valid FSA-211 signed by...
a member of the joint venture	<p>all members of the joint venture for CCC-185 only.</p> <p>Note: Certain properly executed and completed affidavits, on file in a County Office before July 20, 2004, have been used as evidence of signature authority. These affidavits shall continue to be honored by State and County Offices if the members and their respective shares are unchanged. In addition, all affidavits filed after July 18, 2001, must be witnessed by an FSA employee, or notarized, to be considered acceptable.</p>
an agent	all members of the joint venture.

The following are examples of FSFL signature requirements for joint ventures.

Example 1: ABC Joint Venture has a permanent TIN and is comprised of Jane Black, Bob Green, and Mike Brown.

ABC Joint Venture is the owner and operator of a farm and submits CCC-185. FSA-211 is on file in the County Office authorizing Mike Brown to sign for ABC Joint Venture. For CCC-186 and all applicable security documents listed in this subparagraph, all 3 members, including spouses if required by State law, will be required to sign. FSFL disbursement will be issued to ABC Joint Venture using their permanent TIN.

Example 2: DEF Joint Venture does **not** have a permanent TIN and is composed of Mike Smith and Tom Williams.

DEF Joint Venture is the operator of a farm and submits CCC-185. Because DEF Joint Venture does **not** have a permanent TIN, CCC-185 must be submitted in the names of the 2 members with Mike Smith designated as the contact borrower. Both members shall be listed as co-applicants on all FSFL documents. Both members, including spouses if required by State law, will be required to sign CCC-186 and all applicable security documents listed in this subparagraph. FSFL disbursement will be issued under Mike Smith’s TIN as the contact borrower.

31 FSFL Signature Authority Documentation Requirements (Continued)

D General Partnership Signature Authority for FSFL's

For all FSFL's issued to general partnerships, the partnership must provide the Articles of Partnership. If no Articles of Partnership are available, IRS documents, such as Form 1065 (Schedule K-1), showing members and their respective shares may be used. A written statement identifying all members and shares of the partnership and signed by all members of the partnership may be used as acceptable documentation the first year the partnership is in effect or if the membership of the partnership has changed and the partnership has **not** filed any IRS forms.

Notes: Certain properly executed and completed affidavits, on file in a County Office before July 20, 2004, have been used as evidence of signature authority. These affidavits shall continue to be honored by State and County Offices. In addition, all affidavits filed after July 18, 2001, must be witnessed by an FSA employee, or notarized, to be considered acceptable.

Before November 20, 2006, general partnerships that did **not** have an individual authorized to act on behalf of the general partnership could execute FSA-211 to appoint an attorney-in-fact to act on behalf of the general partnership and bind all members. FSA-211's executed before November 20, 2006, according to these instructions, shall continue to be honored as acceptable evidence of signature authority by State and County Offices. The general partnership will be required to provide additional documentation only if the structure and/or membership of the general partnership changes.

County Offices shall review CCC-902E, Part E to ensure that members and their respective shares have **not** changed if FSA-211 executed before November 20, 2006, or an affidavit executed before July 20, 2004, is used as evidence of signature authority.

Any member of a general partnership may:

- sign for the general partnership
- bind all members unless the Articles of Partnership are more restrictive.

Note: This policy is adopted by FSA because the majority of States have laws that provide for this; however, this is **not** the case for any other business enterprise.

A member of a general partnership may:

- execute FSA-211 to appoint an attorney-in-fact to act on behalf of the general partnership
- bind all members, unless the Articles of Partnership restrict member's authority.

31 FSFL Signature Authority Documentation Requirements (Continued)**E Estate, Trust, Conservatorship, or Guardianship Signature Authority for FSFL's**

For an individual to sign FSFL forms and documents as administrator, executor, trustee, guardian, receiver, or conservator, evidence of authority consisting of 1 of the following documents that was executed according to State law is required:

F Charitable and Tax-Exempt Organization Signatory Authority for FSFL's

Either of the following documents will authorize an individual to sign on behalf of a charitable organization, church, society, or fraternal organization on all FSFL forms and documents:

- letter of authorization signed by either of the following:
 - legal head of the church or organization
 - head of the local church body, if applicable
- FSA-211 on which individuals authorized in this subparagraph may redelegate authority to an agent.

31 FSFL Signature Authority Documentation Requirements (Continued)**G Indian Tribe Signatory Authority for FSFL's**

On all FSFL forms and documents for an Indian tribe, a copy of tribal bylaws designating members authorized to sign and bind other members of the venture will be required to authorize a member to sign and obligate other members of the Indian tribal venture.

Note: Certain properly executed and completed affidavits, on file in a County Office before July 20, 2004, have been used as evidence of signature authority. These affidavits shall continue to be honored by State and County Offices. In addition, all affidavits filed after July 18, 2001, must be witnessed by an FSA employee or notarized to be considered acceptable.

H Spouse and Attorney-in-Fact Signatory Authority for Entities and Joint Operations

For any of the following entities and joint operations: corporations, limited partnerships, limited liability companies, joint ventures, general partnerships, estates, trusts, conservatorships, guardianships, charitable/tax exempt organization, Indian tribes, or sole proprietorships:

- spouses shall **not** sign on behalf of each other as an authorized signatory
- individuals who are appointed an attorney-in-fact for another individual shall **not** sign for that individuals as an authorize signatory.

Example: Joe Blue is a member of B Inc. The charter for B Inc. authorizes Joe Blue to sign for the corporation. Joe Blue's spouse shall **not** sign for Joe Blue as the authorized signatory for B Inc. Joe Blue appointed Mary Smith as his **personal** attorney-in-fact on FSA-211. Mary Smith shall **not** sign for Joe Blue as the authorized signature for B Inc.

31 FSFL Signature Authority Documentation Requirements (Continued)**H Spouse and Attorney-in-Fact Signatory Authority for Entities and Joint Operations (Continued)**

Spouses may sign on behalf of each other's **individual** interest in a corporation, limited partnership, limited liability company, joint venture, or other similar entity; unless a written notification denying a spouse this authority is provided to the County Office. Individuals who are appointed as an attorney-in-fact for another individual may sign for that **individual's** interest in a corporation, limited partnership, limited liability company, joint venture, or other similar entity.

Examples: Jane Brown is a member of JBB Inc. The corporate charter for JBB Inc. requires all members to sign documents for the corporation. Jane Brown's spouse may sign for Jane Brown's individual member interest in the corporation. Jane Brown appointed Mike Black as her personal attorney-in-fact on FSA-211. Mike Black may sign for Jane Brown's individual member interest in the corporation.

Jack Green is a member of JJJ Joint Venture. All members of JJJ Joint Venture signed FSA-211 appointing Jack Green attorney-in-fact for the joint venture. Jack Green's spouse shall **not** sign for Jack Green as the authorized signatory for JJJ Joint Venture. Jack Green appointed Bill Brown as his personal attorney-in-fact on FSA-211. Bill Brown shall **not** sign for Jack Green as the authorized signatory for JJJ Joint Venture.

Jill White is a member of EE Joint Venture. No member of EE Joint Venture is authorized to sign for the joint venture and bind all members; therefore, all members must sign documents for the joint venture. Jill White's spouse may sign for Jill White's individual interest in the joint venture. Jill White appointed Mike Jones as her personal attorney-in-fact on FSA-211. Mike Jones may sign for Jill White's individual interest in the joint venture.

I Sole Proprietorship Signatory Authority

A sole proprietorship is a business operation conducted by an individual under a name other than the name of the individual. This individual may sign all FSFL forms and documents for the business operation if a signed CCC-902E, Part C lists only this 1 individual as a member of the proprietorship.

32 FSFL Policy on Other Grants and Loans

A Duplication and Reporting of Benefits

In general, and subject to program regulations and statutory authority, programs administered by FSA do **not** allow for duplicating benefits.

All financial assistance from all sources must be identified before the final disbursement, so FSA can ensure that there is no possible duplication of benefits.

B FSFL's

In general, and subject to program regulations and statutory authority, programs administered by FSA do **not** allow for the duplication of benefits.

All financial assistance from all sources must be identified to FSA before the final loan disbursement.

IF the County Office is ready to make the final FSFL disbursement and the borrower...	THEN the...
has been approved for or received a grant or loan from another Government agency for the same building or structure, for the same or overlapping time period	amount of the grant or loan must be subtracted from the total eligible cost of FSFL before disbursement. Note: If the grant or loan was included in the FSFL amount, this would be a duplication of benefits and not allowed under FSA programs.
uses a non-Government loan for the required downpayment for FSFL	County Office shall ensure that the loan was accounted for when determining the borrower's ability to repay FSFL.

Note: If there is a possible duplication of benefits on a previously disbursed FSFL, County Offices shall:

- follow subparagraph 158 F for the applicable procedure for notification and demand letters
- prepare and send all FSFL notification and demand letters. The National Receipts and Receivables System does **not** prepare notification and demand letters for FSFL until the loan collateral has been liquidated.

32 FSFL Policy on Other Grants and Loans (Continued)

B FSFL's (Continued)

Example: The total cost of an FSFL structure is \$100,000. The producer receives a USDA RD REAP grant for \$25,000 for the same structure for the same or overlapping time period. The REAP grant is subtracted from the total cost of the structure. The producer is required to contribute at least 15 percent, or in this example \$11,250, of their own money to the project. The maximum amount the producer can receive for FSFL shall be \$63,750 as follows.

\$100,000	Total cost of structure
<u>- \$25,000</u>	REAP grant received for the same structure
\$ 75,000	Maximum FSFL amount before required downpayment
<u>- \$11,250</u>	Required 15 percent downpayment
\$ 63,750	Total eligible amount allowable for FSFL

C Applicable Grant and Loan Amounts

There may be costs associated with securing a Government grant or loan. The following are examples of eligible costs, with documentation, that may be subtracted from the grant or loan amount to be applied to FSFL.

- **Grant writer fee** – Grant writers are being hired to write grant proposals for many Government grants. The fee charged by the grant writer is either a flat fee or a percentage of the final grant.
- **Energy audits** – REAP grants and loan applicants may be required to provide and pay for an energy audit for their proposed project. If a REAP grant or loan is approved, the cost of the energy audit may be subtracted from FSFL.

Example: An approved FSFL applicant has hired a grant writer to prepare the grant proposal for a \$250,000 grain storage facility. The fee charged by the grant writer is 10 percent of the final grant award. The REAP grant is awarded for \$62,500. The grant recipient owes the grant writer \$6,250. The applicable grant amount for FSFL purposes is \$56,250. This amount must be subtracted from the total cost of the structure, as follows.

\$250,000.00	Total cost of structure
<u>- \$56,250.00</u>	REAP grant received less the grant writer fee
\$193,750.00	Maximum FSFL amount before required downpayment
<u>- \$29,062.50</u>	Required 15 percent downpayment
\$164,687.50	Total eligible amount allowable for FSFL

***--33 Lobbying Activity Provisions**

A Applicability

Lobbying disclosure requirements apply to applicants and recipients of FSFL proceeds exceeding \$150,000.

B Filing Forms

FSFL recipients **must** file the form specified in this table for **each** FSFL exceeding \$150,000.

IF monies received have...	THEN complete...
not or will not be used to lobby or otherwise influence the actions of a Federal official about a particular FSFL	CCC-674 (subparagraph C).
or will be used to lobby or otherwise influence the actions of a Federal official about a particular FSFL	SF-LLL (subparagraph D). Note: File SF-LLL-A if applicable (subparagraph E).

***--34 Asphalt Flooring for FSFL Structures With Commodities Harvested as Other Than Whole Grain**

A Asphalt Flooring

Documentation from a number of land-grant universities, in certain regions, has concluded that asphalt flooring:

- is acceptable for use in storage pads for agricultural commodities

FSFL applicants requesting to use asphalt flooring in structures to store corn, oats, wheat, barley, and grain sorghum harvested as other than whole grain, shall be:

- advised by the County Office that asphalt flooring must be constructed according to specific specifications in subparagraph B

Note: If not constructed according to the specific specifications, approval and/or FSFL disbursement is not authorized.

- informed that the STC or STC designated SED are the approval authority for FSFL's with asphalt flooring
- notified that additional security equal to the loan amount is required for all FSFL's with asphalt flooring used to store CCC Charter Act Commodities harvested as other than whole grain.

B Specifications for Asphalt Flooring

The following specifications must be followed for asphalt flooring for hay, renewable biomass structures and STC or STC designated SED approval of FSFL flooring for corn, oats, wheat, barley, and grain sorghum harvested as other than whole grain:

- 6- to 12-inch well-packed crushed gravel base with drainage both inside and outside the footing to prevent water from getting under the asphalt
- 4 to 6 inches of high-grade asphalt, including 3 to 5 inches of fine material and 1 inch of very fine material--*

***--34 Asphalt Flooring for FSFL Structures With Commodities Harvested as Other Than Whole Grain (Continued)**

 - first with a vibrating roller
 - second with a finishing roller to remove ripples
- sealed with an asphalt sealer.

Note: COC’s or their designee will be responsible for monitoring construction to ensure that the asphalt flooring is constructed according to **all** the specifications in this subparagraph. STC will determine the number of field visits the county shall make to monitor construction.

C Required FSFL Spot Checks of Asphalt Flooring

County Offices are required to periodically conduct collateral checks of all outstanding FSFL’s according to 1-FSFL, subparagraph 163 A.

To ensure that asphalt flooring is being properly maintained, County Offices must make a field visit and conduct a collateral check of all FSFL’s using asphalt flooring:

- at least once every other year
- and complete CCC-295B to document the field visit.

Note: In addition, County Offices shall annually verify:

- structural and flood insurance
- multi-peril crop insurance.

D STC Action

B Determining Honey Storage Need

Applicants must show a need for the honey storage capacity as determined by the following formula.

Step	Action
1	Determine the average of the applicant's share of honey production for the most recent 3 years of honey requiring storage at the proposed location.
2	COC shall determine whether the average annual production is reasonable. See subparagraph C.
3	Determine honey storage space needed to store 1 year's honey crop with the assistance of NIFA, land-grant university, or ARS publications. See subparagraphs C and D.
4	Determine capacity of proposed structure using the worksheet in Exhibit 8 or other verifiable documentation. All documentation used must be verifiable and kept in the loan folder. See subparagraph E.
5	Compare capacity of proposed honey facility with storage needed to determine whether applicant is eligible for additional storage.

Note: The honey storage need requirement will be determined based on previous production for 1 year, and the honey storage need will be determined to allow the storage of 1 year's honey production.

C Determining Reasonable Commodity Production/Yield

COC's must determine whether the applicant's production/yield for honey from subparagraph B, step 1 is reasonable.

COC's shall use the following resources in determining a reasonable yield:

- NIFA in the State
- land-grant university located in the State or neighboring State
- ARS publications
- NASS reports
- detailed producer records for past 3 years.

Notes: If the honey producer participated with NAP, documentation may be provided to assist with the producer's honey production.

County Offices may review the NASS Honey Annual Report, which contains the number of colonies producing honey, yield per colony, honey production, average price, price by color class, and value by State in the United States.

County Offices can review the latest NASS Honey Annual Report at http://usda.mannlib.cornell.edu/MannUsda/viewDocumentInfo.do?documentID=1191.--*

--35 FSFL's for Honey (Continued)*D Determining Honey Storage Needed**

An applicant's needed honey storage can be determined with the assistance of NIFA, land-grant universities, ARS publications, and NASS reports.

The following must be determined before defining the size of honey storage needed:

- volume of product to store
- honey containers
- volume required per container
- aisle space needed
- lateral and head space
- available site space.

Note: Honey stored in jars (processed) is considered ineligible for FSFL storage.

FSFL eligible storage structures for honey must be:

- built of such quality that the structure can be insured
- built to protect the honey from sunlight and rain

CCC-195 was developed to assist State and County Offices to avoid the types of errors that have been found by COR reviews. See subparagraph D for an example of CCC-195.

CCC-195 is required to be completed for **all** FSFL's. It is **not** the intent of CCC-195 to ***--supersede or replace procedure. County Offices are **required** to use CCC-195 as a--*** reminder of the most frequently "erred" determinations when completing FSFL.

State Offices shall:

- only as necessary to incorporate individual State laws, modify CCC-195 for State use by using the blank lines provided on CCC-195 or by further editing the document in Microsoft Word

Note: The current version of CCC-195 is available on the FFAS Employee Forms/Publications Online Website.

- e-mail State CCC-195's that differ from the national CCC-195 to Toni Williams at **toni.williams@wdc.usda.gov** for National Office approval
- issue only National Office-approved CCC-195's to County Offices.

County Offices shall:

- prepare CCC-195 received from the State Office for each FSFL that was **not** disbursed as of the date of receiving CCC-195
- maintain CCC-195 in each FSFL folder
- check, initial, and date the appropriate box for each item as it is performed
- for items that are **not** applicable, CHECK (✓) "N/A", initial, and date
- ensure that all required signatures are in CCC-195, item 21 at FSFL disbursement
- obtain signature and date of CED on CCC-195, items 22B and 22C at loan disbursement.

Note: For FSFL's **not** disbursed at the time the most current revision of CCC-195 is posted, attach a copy of the most current CCC-195 to the partially completed CCC-195. Obtain signatures on CCC-195, item 21 at FSFL disbursement.

E STC or Designee CCC-195 Concurrence

STC or designee shall:

- review **before** disbursement the first 3 FSFL's received each FY at an administrative County Office regardless of the amounts requested

Notes: Additional reviews, including reviews following FSFL disbursement, may be conducted if determined necessary by STC.

FY's begin on October 1 each year. STC or designee shall review the first 3 FSFL's received and before disbursed each FY beginning on October 1.

- document review in the FSFL folder on CCC-185, item 18 and CCC-195, item 23

Note: In CCC-195, item 23, indicate that this review was required according to this subparagraph.

- indicate corrective action where necessary.

53 Financial Planning

A Obtaining Balance Sheets and Cash Flow Statements

Use FSA-2037 and FSA-2038 or similar forms, prepared by either the borrower or a financial institution within 90 calendar days of submission, to determine the following:

- that the applicant has the financial ability to make the downpayment
- that the applicant has the financial ability to timely repay FSFL
- whether COC should approve or disapprove FSFL
- the level of collateral security needed.

B Acceptable Balance Sheets and Cash Flow Statements

Use 1 of the following to make the determinations in subparagraph A:

- FSA-2037 and FSA-2038 available at the FSA eForms web site at <http://forms.sc.egov.usda.gov/eForms/welcomeAction.do?Home>
- balance sheet and cash flow statement approved for use in the State
- balance sheet and cash flow statement that provides all the information necessary to make the determinations in subparagraph A.

Note: Existing plans used for FLP may be used, but **must** be revised to plan for FSFLP debt. FLP staff **must** be consulted before any revisions to existing plans take place.

C Situation Where a Cash Flow Statement Is Not Necessary

Employees performing financial analysis may waive analysis of cash flow and accept only a balance sheet meeting the requirements of subparagraphs A and B from FSFL applicants when both of the following conditions apply:

- *--aggregate outstanding total of all FSFL's, including the new loan, will be \$10,000 or less
- review of the balance sheet indicates that the applicant has met all of the following:
 - debt to asset ratio of 40 percent or less
 - net worth of 3 times the requested loan amount or greater
 - working capital of 3 times the required down payment or greater
 - be current on all payments to all creditors, including FSA and CCC.--*

53 Financial Planning (Continued)**D Planning for Downpayment**

Prepare or obtain a plan for the applicant's current FY:

- using actual expenses, if available
- showing enough cash available to make the required downpayment.

E Planning for Future Installments

Prepare a projected plan for the applicant's FY in which the first FSFL installment is due showing the:

- total cost of the storage facility
- approximate amount of FSFL
- projected installment amount for FSFL.

The employee performing the financial analysis will determine whether the applicant has a feasible plan.

F Obtaining Verification of Debts and Assets

County Offices shall:

- verify debts and assets only when debt and asset information provided by the applicant is different than that shown on the credit report or through a lien search
- if applicable, prepare FSA-2015 for each applicant's creditor according to the instructions on FSA-2015
- before requesting information on FSA-2015 from the applicant's creditors, have the applicant sign FSA-2004 to give FSA the authority to verify their debts and assets.

Note: FSA-2004 shall be filed in the FSFL folder.

53 Financial Planning (Continued)

G Financial Analysis

The financial analysis of an FSFL applicant shall be performed by either an FLP or County Office employee with FLP loan approval authority. A detailed written recommendation for approval or disapproval, based on the applicant's credit history and financial information, shall be provided to COC. This written recommendation must be signed and dated by the individual providing the financial analysis.

Example: "Based on FSFL applicant John W. Banks' credit history and financial information, I recommend approval of the FSFL in the amount of \$_____. The information reviewed provides that Mr. Banks has a satisfactory financial position and demonstrates the ability to timely repay the FSFL."

A financial analysis is required for the members of the entity with the greatest share and a credit report must be obtained for the members.

Examples: If there is a:

- 4-member partnership, each sharing 25 percent, a financial analysis and credit report is required for all members of the partnership
- 2-member partnership, 60 percent for 1 member and 40 percent for the other member, a financial analysis and credit report is required for the member with the 60 percent share.

STC may determine whether a financial analysis and credit report is required for all members.

*--If an irrevocable letter of credit is used as security for FSFL, a financial analysis is **not--*** required.

If additional information is necessary to evaluate an applicant's ability to repay FSFL, FSA-2002 and FSA-2003 may be requested.

Note: Use:

- FSA-2002 for 3 years financial history
- FSA-2003 for 3 years production history.

54 Credit History and Credit Reports

A Obtaining Credit Reports

State or County Offices shall:

- request credit reports for all FSFL applicants only from the credit reporting agency under contract with CCC
- obtain a current report of the FSFL applicant's credit history
- ensure that **only** FSFL credit reports are requested from the Agency under contract to supply CCC with FSFL credit reports
- **not** collect the cost of the report from the applicant
- request credit reports before the required financial analysis is completed
- ensure that reports requested for another County Office are processed timely and immediately sent to the requesting office.

Note: FLP Farm Business Plan shall **not** be used to obtain FSFL credit reports. However, if an FLP credit report is available, that report may be used for FSFL purposes if generated within 90 calendar days of both CCC-185 and submission of information required for the financial analysis.

B Analyzing Credit History Reports

The authorized individual performing the financial analysis shall:

- analyze credit reports to detect:
 - patterns of late payments or nonpayments

- 2-member partnership, 60 percent for 1 member and 40 percent for the other member, a financial analysis and credit report is required for the member with the 60 percent share.--*

Unless State Offices have been notified in writing by their regional OGC, use the “**Joint**” search option if husbands and wives on the same CCC-185 are searched.

Section 2 Other Requirements

69 Insurance Requirements

A Multi-Peril Crop Insurance or NAP Requirement

To enhance a borrower's repayment ability, multi-peril crop insurance or NAP is **required** on both of the following:

- commodities stored in the FSFL-funded facility, whether economically significant or **not**
- insurable FSFL commodities of economic significance on all farms operated by the borrower in the county where the storage facility is located.

Notes: Crop of economic significance is defined as any insurable FSFL commodity that contributes 10 percent or more of the total expected value of all crops grown by the FSFL applicant.

--All crops of economic significance, used in the borrower's cash flow, included in the documentation for their financial analysis, and used to determine eligibility-- require crop insurance.

County Offices shall:

- require the producer to provide proof of multi-peril crop insurance and/or verify NAP coverage before disbursement, except if subparagraph D applies
- annually obtain proof of multi-peril crop insurance for each crop year applicable to the entire FSFL term, except for sugar beets because sugar beets are **not** an FSFL commodity.

Note: If multi-peril crop insurance or NAP is **not** available for some of the renewable biomass commodities, then COC minutes must document the unavailability of multi-peril crop insurance or NAP for each FSFL to which this applies.

B Acceptable Forms of Insurance

Acceptable forms of crop insurance are any level of coverage of multi-peril crop insurance, including the catastrophic level, group coverage, and crop revenue coverage offered under the Federal Crop Insurance Program.

69 Insurance Requirements (Continued)

C Acceptable Proof of Insurance

County Offices shall accept proof of insurance, such as the following:

- statements of coverage for the applicable crop year
- applications for insurance for the applicable crop year signed by the agent
- other forms of proof acceptable to CED.

Note: Evidence of insurance or a copy of CCC-471 shall be maintained in the FSFL folder.

D Crop Insurance Waiver

County Offices shall:

- waive the crop insurance requirement if it is too late for the producer to obtain multi-peril crop insurance for the crop year

Note: The waiver will apply to the current crop year only.

- enter the following statement on CCC-185, item 18:

“I agree to purchase multi-peril crop insurance for facility loan commodities during the next available sales period. I understand that my failure to meet this requirement will be construed as a program violation.”

- ensure that producers initial and date the statement on CCC-185 to signify that the statement will be complied with and is understood.

*--If the aggregate total of FSFL's is less than \$50,000, STC's may authorize COC's to determine if multi-peril crop insurance is required for all commodities produced by the producer. Also, if it is determined that multi-peril crop insurance is not required for commodities not being stored in the structure, COC is **not** authorized to allow the producer to store the uninsured commodity in the storage structure during the FSFL term.

If approved by COC, the County Office must have the applicant initial and date the statement, “I understand that I am not authorized to store my [*enter commodity*] production in the structure during the FSFL term.”, in CCC-185, item 18.

Example: The producer receives FSFL to store corn and the aggregate total of the producer's FSFL's are less than \$50,000. The producer produces corn and barley. STC provides COC with authorization to determine if multi-peril crop insurance is needed for all of the producer's commodities. COC determines that the producer does not need to obtain crop insurance on his/her crop of barley. Because the crop of barley is uninsured, barley **cannot** temporarily be stored in the storage structure during the FSFL term.--*

69 Insurance Requirements (Continued)**E Failure to Obtain Crop Insurance or NAP Coverage**

County Offices shall:

- monitor the borrower's crop insurance or NAP status
- consider a lack of insurance or NAP to be an FSFL violation
- take action to call FSFL's when borrowers do **not** maintain insurance or NAP coverage.

Note: Before calling FSFL's, COC's may request a waiver for the specified year only, according to subparagraph 2 E.

F All-Peril Structural Insurance

To protect CCC's interest in collateral, County Offices shall:

- require borrowers to obtain all-peril structural insurance on all storage structures receiving FSFL financing
- ensure that amount of coverage shall always equal or exceed outstanding FSFL balance
- annually obtain proof of all-peril structural insurance that lists CCC as a loss payee as soon as it is available
- review proof of all-peril structural insurance provided to CCC periodically by insurance companies or borrowers
- take action to call FSFL's when borrowers do **not** maintain insurance

Note: Before calling FSFL for lapse of insurance, COC's, according to subparagraph 2 E, may request a waiver for failure to fully comply with FSFL requirements, if borrowers obtain insurance before the waiver is requested.

- ensure that CCC is listed on the all-peril structural insurance policy as a loss payee.

G Flood Insurance

To protect CCC's interest in collateral, County Offices shall:

- determine whether proposed storage facility sites are located in flood hazard areas by viewing national flood insurance program maps
- *--document the review on FSA-850
- ensure that FSA-850, item 3 B is completed--*

69 Insurance Requirements (Continued)

G Flood Insurance (Continued)

- *--document in FSA-850, item 16 that flood insurance coverage is required, if “Yes” is checked (✓) for any of the questions listed in item 3 B
- attach to FSA-850, any supporting documentation (such as flood maps, etc.) for evidence that flood insurance coverage is needed, if applicable
- see 1-EQ, subparagraph 23 B for additional guidance on properly completing FSA-850
- require the FSFL applicant to obtain flood insurance if the review documented on FSA-850 indicates that flood insurance is required--*
- **not** approve FSFL’s if flood insurance is required and **not** obtained or **not** available
- review proof of insurance provided by insurance companies to ensure that insurance is maintained for the life of FSFL
- take action to call FSFL’s when borrowers do **not** maintain insurance
- ensure that CCC is listed on the flood insurance policy as loss payee.

70 Local Land Use and State and County Building Code Requirements

A County Office Action on Local Land Use

To avoid conflicts with local land use laws, County Offices shall:

- determine whether local land use laws are applicable at the proposed storage facility location by contacting local code enforcement officers

Note: The information obtained from the contact shall be documented in the file.

- obtain, from producers, copies of applicable:
 - building permits
 - zoning variances
 - site plans
 - environmental evaluations and assessments
 - construction permits for flood hazard areas
- use information obtained for FSA eligibility purposes and environmental evaluations
- **not** approve FSFL’s where applicants are **not** in compliance with applicable local land use laws.

70 Local Land Use and State and County Building Code Requirements (Continued)

B State and County Building Code Requirements

All FSFL's must comply with any applicable State and county building code requirements. These may include, but are not limited to, the following:

- electrical permits and inspections
- construction permits and inspections.

71-80 (Reserved)

Section 3 Environmental Review

81 Overview

A Background

For FSFLP participation, FSA-850 is used to determine whether the proposed action could potentially affect protected resources. See 1-EQ, Part 5.

Individual farm participation in FSA programs does **not** normally require EA preparation. However, for certain practices, FSA-850 must still be completed to verify that no protected resources would be affected. If through completing FSA-850 it is determined that there is no potential for the FSFL-proposed action to impact the environment, FSA-850 serves as FSA's documentation of compliance with NEPA, as well as the requirements of other environmental laws, regulations, and Executive Orders.

Note: NEPA regulations require that agencies complete the NEPA process **before** approving the proposed action, which includes coordination/consultation on protected resources with regulatory agencies and entities responsible for managing protected resources, such as surface water quality, threatened and endangered species, and cultural resources.

B Objectives

The primary objectives of this section are for FSA to make better decisions by:

- taking into account potential environmental impacts of proposed projects
- working with FSA applicants, other Federal agencies, Indian tribes, State and local governments, and interested citizens and organizations to formulate actions that advance FSFL goals in a manner that will protect, enhance, and restore environmental quality.

82 Evaluating Potential Environmental Effects

A Preparing Evaluations

All requests for FSFL's to construct or renovate farm storage facilities or for drying or handling equipment, will be evaluated by completing FSA-850 according to 1-EQ. If indicated by FSA-850, EA may be necessary. Contact SEC for further guidance if EA is necessary.

Notes: See 1-EQ, subparagraph 23 B for guidance on completing FSA-850.

Producers may request completing FSA-850 before submitting CCC-185 by:

- visiting the County Office
- marking an aerial photograph of the proposed location of the structure
- indicating what type of structure they propose to construct.

NRCS-CPA-052 can be accepted instead of FSA-850.

A site visit is required to complete FSA-850.

--FSA-850 must be completed and no adverse environmental impacts must be determined before CCC-185 can be approved.--

All FSFL's secured by real estate will also be evaluated by completing FSA-851, on the real estate offered as collateral, according to 2-EQ.

Note: See 2-EQ, Exhibit 5 for instructions on completing FSA-851.

B Applicant Responsibilities

FSA expects applicants to:

- consider the potential environmental impacts of their requests at the earliest planning stages and to develop proposals that minimize the potential to adversely impact the quality of the human environment
- contact County Offices to determine FSA's environmental requirements as soon as possible after they decide to apply for FSFL
- provide information necessary to evaluate their proposal's potential environmental impacts and alternatives to them.

Example: The applicant will be required to provide a complete description of the project elements and the proposed site or sites to include location maps, topographic maps, and photographs when needed.

83 Other Actions

A EA's

If after completing FSA-850 or EA the preparer determines there will be potential impacts to important resources listed and no alternatives or mitigation measures exist, the County Office shall do either of the following:

- deny the applicant's request for FSFL
- contact SEC for further guidance.

B Monitoring

FSA staff, who normally have responsibility for the post-approval inspection and monitoring of approved projects, shall ensure that any mitigation measures identified in the approval stage and required to reduce adverse environmental impacts are effectively implemented and documented as such.

Whenever noncompliance with an environmental special condition is detected by FSA, SEC will be immediately informed who will then take appropriate steps, in consultation with the responsible program office, to bring the action into compliance.

C Environmental Risk Management

The release or presence of a hazardous substance, hazardous waste, or leaking underground storage tank on a property could affect the value of the property that is offered as security for FSFL. Therefore, due diligence will be performed for all new FSFL's involving real estate as security, including real estate offered as additional security according to 2-EQ.

Part 5 (Reserved)

95-114 (Reserved)

Part 6 Approving COC CCC-185 Reviews**115 CCC-185 Reviews****A Responsibility**

The approving authority shall determine:

- whether the applicant meets all eligibility requirements
- whether the proposed facility or renovation is eligible and needed
- whether the estimated yields and acreages to calculate needs are reasonable
- whether the environmental conditions of the site would place CCC at risk
- *--if FSFL is less than \$100,000, whether the structure has resale value

Notes: STC's may set a more restrictive Statewide policy for determining if additional security is required for FSFL's exceeding \$50,000.

If the value is less than the FSFL amount, additional security is required.--*

- the type of security to be required
- the conditions of approval.

Note: Conditions of approval will include actions that must be taken or documents that must be provided **before** disbursement and shall **not** include eligibility determinations required by COC or other approving authority.

Note: After corrections have been made, DD or State Office designee shall again review the file.

- is acceptable, a statement similar to the following shall be entered on CCC-185, item 18:

127 Finalizing FSFL’s (Continued)

B Finalizing FSFL’s Secured by Real Estate

County Offices shall take the following steps, not necessarily in this order, when finalizing FSFL’s where FSFL is secured by real estate.

Step	Action
1	If FSFL funding was approved, ensure that transmission requesting funding has taken place and return funding transmission has been received.
2	After return funding transmission is received in the County Office, notify the applicant of FSFL approval and funding. See the example letter in subparagraph 128 A.

Upon returning the documents to the County Office, CED shall:

- review documents to ensure that all items have been completed and returned
- sign and date the statement at the end of the letter to document the review.

130 CCC-297

A When CCC-297 Is Required

To sever FSFL storage structure collateral from real estate, County Offices shall obtain CCC-297 from:

- prior or superior lienholders, including FSA
- the borrower if the borrower has interest in the real estate
- the lienholder of the property, where the facility is located, if constructed on leased or rented land
- all landowners on the real estate where the facility is located.

*--CCC-297 is required for:

- **all** FSFL assumptions
- FSFL's where the security is owned by someone other than the borrower.--*

B When CCC-297 Is Not Required

CCC-297 is **not** required if any of the following apply:

- collateral is considered a nonfixture
- an FSFL is secured by a first lien on the underlying real estate
- the regional attorney waives the requirement for CCC-297 because State law makes using such an agreement unnecessary
- the borrower agrees to do either of the following:

130 CCC-297 (Continued)

B When CCC-297 Is Not Required (Continued)

- increase the downpayment on the storage facility from 15 percent to 20 percent
- *--FSFL is \$100,000 or less--*
- provide another form of security acceptable to the Secretary.

Notes: If the borrower increases the downpayment from 15 percent to 20 percent, CCC-297's will **not** be required. The applicant **must** be informed of and request this option when CCC-185 is submitted.

If the applicant requests to use this option, notate in CCC-185, item 18, and have the applicant sign and date. At final closing, proof that the entire 20 percent downpayment was made is required, or the loan cannot be closed until either CCC-297 is provided or additional documentation showing that the 20 percent downpayment has been made is received by the County Office.

--This option only applies to FSFL's of \$100,000 or less because all other-- FSFL's already require additional security and, in most instances when CCC has a mortgage on the underlying real estate, the facility is **not** severed from the real estate.

C State Office Action

State Offices shall:

- request changes and instructions to CCC-297 from the regional attorney
- make CCC-297 a State form
- provide a copy to PSD.

D County Office Action

County Offices shall:

- for FSFL's where a real estate lien is:
 - required, have the attorney obtain the properly completed and signed CCC-297

Notes: The attorney should perform all lien searches.

If the County Office knows the real estate lienholders, they may obtain properly completed CCC-297's before FSFL closing.

130 CCC-297 (Continued)

D County Office Action (Continued)

- **not** required, conduct a real estate lien search to identify holders of liens on real estate underlying the intended storage facility and obtain properly executed CCC-297's

Note: See Exhibit 10.

- file CCC-297 before FSFL closing in the appropriate county real estate records unless the regional attorney waives the filing requirement.

Notes: If COC initially approves CCC-185 before receiving the necessary CCC-297's, then ENTER "The receipt of required CCC-297's" on CCC-185, item 18, as a condition of approval.

*--If County Offices are unable to obtain the required real estate lien searches from their County Recorder, the County Office shall use either of the following:

- local title company with moderate fees
- farm loan personnel trained to perform real estate lien searches.--*

E STC Action

STC's may enter into blanket CCC-297's with lenders if CCC-297's are approved by the regional attorney.

131 **Real Estate Lien Instruments****A Security Instruments**

State Offices shall develop a real estate lien instrument in consultation with their regional attorney. The security instrument may be a real estate mortgage, deed of trust, or other type of instrument. The security instrument must be used for all FSFL's to be secured with real estate. CCC-193 is a real estate mortgage available for FSFLP. CCC-193-D is a deed of trust available for FSFLP.

B Signatures

For a lien on real estate, **all** of the following shall sign the real estate lien instrument:

- the borrower, **only** if the borrower has an ownership interest in the land
- all persons or entities having an ownership interest in the applicable real estate
- the borrower's spouse shall also sign the instrument in States where spousal signatures are required by statute.

131 Real Estate Lien Instruments (Continued)

C Closing Agent Action

The closing agent shall:

- obtain all necessary signatures on the instrument
- file or record the original document according to State law.

D County Office Action

County Offices shall:

- prepare the instruments and provide to the closing attorney
- file a copy of the instrument in the FSFL folder
- provide a copy of the instrument to the borrower
- record the filing date, place, book, and page number on the County Office copy.

E Land Already Encumbered

If CCC requires a first lien and the land is already encumbered or subject to a prior lien, the County Office shall advise the closing agent that a subordination agreement shall be recorded making CCC's lien a first lien on the real estate where the facility is to be located.

Exception: See subparagraph 24 C.

CCC-194 is a subordination agreement that may be used for FSFL purposes. See Exhibit 23.

State Offices may develop their own subordination agreement in consultation with their regional attorney.

131 Real Estate Lien Instruments (Continued)

F Lien Provisions

The lien on the site on which the facility is to be located must:

- contain an exact legal description of the site
- grant CCC access rights to the property.

G Fees

The borrower shall pay all title fees, applicable lien search fees, and the cost of filing or recording real estate liens before or at FSFL closing.

132 (Reserved)

133 Final Review of Cost Documents

A Acceptable Cost Documents

County Offices shall review:

- final evidence of total cost
- proof of downpayment

***--Note:** CCC-191's, signed and dated by the contractor or seller with the amount of the downpayment listed in items 3(a) **and** 3(b), are considered proof of downpayment.

- payment of amounts in excess of FSFL.

Note: Evidence **must** be signed and dated by the contractor or seller if evidence is **not** on the original letterhead or stamped with the company's seal.--*

B Examples of Acceptable Evidence

The following are examples of acceptable evidence of cost documents:

- a sales document or receipt * * *
- a certification * * *
- a receipt * * *
- *--copies or facsimiles of documents with the contractor's or seller's original signature and date
- a canceled check, which is supported by a signed and dated sales document.

Notes: All acceptable evidence **must** be signed and dated by the contractor or seller **if** evidence is **not** on the original letterhead or stamped with the company's seal.

When a signature and date are required, initials are **not** acceptable.

Important: The amount of the final invoice or bill must **not** be included in the FSFL amount and FSFL shall **not** be disbursed if CCC-191 is **not**:

- properly completed
- signed and dated, if applicable
- supported with acceptable evidence.

Releasing liability exceptions policy according to subparagraph F applies.--*

133 Final Review of Cost Documents (Continued)

C County Office Action

County Offices shall:

- date-stamp the original evidence, make a copy for the FSFL folder, and return the original evidence to the borrower
- request the applicant to provide any additional information or documentation considered necessary to support costs or downpayment
- *--verify evidence with the contractor or seller, if necessary--*
- obtain reconsideration of financial analysis by either an FLP or County Office employee with FLP loan approval authority and by the applicable approving authority identified in subparagraph 2 F if final review indicates that:
 - final costs exceed costs on which original approval was based
 - final documentation includes items **not** in the original approval

Example: FSFL for \$95,000 was originally approved by COC. Final costs indicate that the new FSFL amount will be \$101,000. DD review is required before COC can approve the additional FSFL amount.

- if the approving authority determines the borrower eligible for the increased FSFL amount:
 - document this in the COC or STC minutes
- *--in CCC-185, item 18, ENTER “STC or COC approved the FSFL increase totaling--*
[*new loan amount*] on [*date*]”
- request additional funding according to paragraph 355

Note: The interest rate does **not** change.

- ensure that all necessary actions and forms have been completed
- calculate the amount to be disbursed according to paragraphs 25 and 27.

133 Final Review of Cost Documents (Continued)

D Trade in Allowances

County Offices shall **not** allow trade in allowances.

Example: The borrower has an old grain dryer valued at \$1,000 to:

- trade in to the storage bin distributor
- use towards the downpayment.

The value of the old grain dryer **cannot** be used towards the downpayment for FSFL.

E Release of Liability

County Offices shall obtain CCC-191 for storage and handling facility construction projects from the following:

- the primary contractor who either constructs or subcontracts all aspects of the facility construction and presents 1 bill to the borrower for the entire FSFL project
- all contractors and suppliers providing separate bills for supplies, work, or services performed in the construction of FSFL, whether their part of the project is included in the final amount of FSFL.

Notes: CCC-191 will **not** be required for a supplier of goods if the total cost is less than \$100 **and** the cost is **not** included in the final FSFL amount. See subparagraph F for additional exceptions.

Only one CCC-191 is required from each contractor supplying goods or performing services for each FSFL disbursement. CCC-191 on file does **not** have to reflect that the total amount of the bill has been paid. CCC-191 can show a partial payment has been made. A new CCC-191 is required from the contractor if the contractor has presented bills for both the partial and final disbursement.

Examples: The borrower has paid the cement contractor the required 15 percent of his or her total cement bill as reflected in his or her total/final bill. The 15 percent is entered in CCC-191, items 3(a) and 3(b). As the cement contractor has **not** been totally paid, FSFL disbursement was made to the borrower and cement contractor. A new CCC-191, following disbursement with the contractor's name on the check, is **not** required from the contractor.

133 Final Review of Cost Documents (Continued)

E Release of Liability (Continued)

The borrower requests both partial and final disbursements. For the:

- partial disbursement:
 - a complete bill and CCC-191 are presented by the cement contractor
 - a partial bill and CCC-191 are presented by the bin contractor for the construction completed
- final disbursement, the final bill and CCC-191 are presented by the bin contractor and electrician.

CCC-191 is necessary to protect CCC and the FSFL applicant from the following:

- mechanics or other liens
- claims arising against the contractor or subcontractors.

F Releasing Liability Exceptions

STC is authorized to approve an exception to current CCC-191 policy, on a case-by-case basis, under specified conditions.

The specified conditions include all of the following:

- waiver request is **only** for supplies from a retail establishment

Note: CCC-191 contains a release of liability and will still be required from anyone performing work on the structure with no exceptions to the cost.

Example: The total bill for the electrician to wire the fans in a grain bin totals \$950. CCC-191 is required because the bill includes services.

- total sales receipt supported amount for FSFL requesting a waiver of the CCC-191 policy is \$1,000 or less

Example: A producer has bills from Lowe's for \$550 and an electrical supply store for \$600. A CCC-191 waiver can only be requested for 1 of these bills because together the total is over \$1,000. A DAFP waiver for the other bill will be required.

133 Final Review of Cost Documents (Continued)

F Releasing Liability Exceptions (Continued)

- dated sales receipt, identifying all items and costs, supported by a cancelled check or credit card statement.

Note: The dated sales receipt, identifying all items and costs, and supported by a canceled check must show that the credit card bill has been paid in full.

CCC-191 identifies if a supplier has been paid in full to determine whether joint payment is required. If supplier has **not** been paid in full, CCC-191 is required.

Note: STC can only delegate this approval to SED.

135 Extension of Approvals

A Extensions That May Be Granted

FSFL approvals expire 6 months after the date of approval. State and County Offices must follow this table for approval authority when granting an additional 6-month loan approval extension, not to exceed a total of 12 months.

IF the FSFL amount is...	THEN approval authority is...
less than or equal to \$250,000	COC after DD review.
greater than \$250,000	STC or delegated authority to SED only . The delegation of authority must be recorded in the STC meeting minutes.

Notes: An individual acting for SED does **not** have FSFL extension approval authority.

See the first table in subparagraph 2 F for exceptions applicable to FSA employees and their relatives.

Extensions become necessary only if the applicant has **not** completed construction or has **not** submitted all documentation required to disburse FSFL. Delays in disbursing FSFL within the control of CCC, such as funds obligation and the need for additional lien waivers discovered during the lien search 5 workdays before closing, do **not** require a request for extension from the applicant.

*--FSFL must **not** be disbursed with an expired approval date. If all documentation to disburse FSFL is received in the County Office and date-stamped before the FSFL expiration date, FSFL may be disbursed.--*

STC's (or delegated SED) or COC's shall:

- grant extensions only if the applicant:
 - submits a written request for an extension within 7 calendar days of notification by the County Office or the FSFL approval period expiration date, whichever is later

Notes: County Offices shall notify borrowers by telephone, e-mail, or letter, 14 workdays before the expiration date that, if necessary, they must request an extension in writing.

Extensions may be approved after the FSFL approval period expiration date if the request for the extension was made in a timely manner.

- provides evidence that CCC-185 was made in good faith
- provides evidence that lack of completion is because of reasons beyond his or her control

Examples: The following are examples of reasons beyond the borrower's control:

- delays in the delivery of parts
- bad weather conditions
- lack of necessary skilled labor
- legal delays involving real estate liens.

135 Extension of Approvals (Continued)**A Extensions That May Be Granted (Continued)**

- grant extensions only for the time necessary to complete the installation
- **not** grant automatic extensions
- ensure that extensions can also be granted if the:
 - site preparation and foundation are both completed by the original FSFL approval period extension date
 - applicant provides a binding contract, signed by the applicant and supplier, proving there is a purchase commitment
- *--notate a new expiration date on CCC-185, item 14C.--*

B Requests for Extensions Beyond 12 Months

STC's **only** are authorized to grant extensions of FSFL approvals beyond 12 months, not to exceed 18 months from the date of the original approval. This authority may **not** be redelegated.

STC's must use discretion when approving extensions beyond 12 months, not to exceed 18 months of the original loan approval date. Based on the date the FSFL obligation appears in the system, CCC starts paying interest to Treasury on the obligated funds.

A DAFP waiver is required for extensions beyond 18 months of the original loan approval date.

State Offices must e-mail the following details about FSFL to Toni Williams at **toni.williams@wdc.usda.gov** when FSFL extensions are granted by STC beyond 12 months:

- FSFL number
- FSFL amount
- reason for extension beyond 12 months
- date STC approved the loan approval extension
- loan approval extension expiration date.

Part 9 Basic Servicing Policies

158 Collecting Installments

A Installment Payments

[7 CFR 1436.13] FSFL shall be repayable in equal annual installments of principal and interest amortized over the FSFL term.

Installments are due and payable no later than the last day of each 12 months of the FSFL period until the principal plus accrued interest has been paid in full.

Note: County Offices shall process installment repayments according to Part 20.

B Method of Payment

The payment of each installment may be by any of the following:

- cash
- money order
- personal, certified, or cashier's check
- setoff, when applicable.

Note: Repayment shall be applied first to accrued interest and then to principal.

158 Collecting Installments (Continued)

C Reminder and Notification Letter

The following letter will be generated at SOD the first workday that is 45 calendar days from the installment due date of FSFL. If an installment due letter should be prepared on a nonworkday, the system will generate the letter the first workday after the 45 calendar days. Other letters, such as demand letters, call letters, or liquidation letters, must be prepared by the County Office as needed. See subparagraph 159 D when sending this notification letter.

12/18/2009	\$4,451.24	\$960.04	\$3491.20	\$2.62

If payment is not received on or before the due date, the amount due will be recorded for offset from any FSA or CCC payment due you. Additionally, the CCC can declare the entire indebtedness immediately due and payable. If your loan is called, foreclosure proceedings can be initiated. 158 Collecting Installments (Continued)

C Reminder and Notification Letter (Continued)

County Offices are reminded **not** to change the amount that prints on the reminder and notification letter. Although these amounts may differ from the amounts on the amortization schedule printed at FSFL disbursement, the amounts on these letters are correct. Differences in the amounts are usually because of the annual installment payment being made on a date other than the actual due date. See subparagraph 380 C for the repayment date to enter on Screen VDA11005.

The **final** FSFL installment payment shall include interest to the date payment is received in the County Office. The table in subparagraph 380 C does **not** apply to the final FSFL payment. The following note shall be attached to the reminder and notification letter for the **final installment payment**:

“The **final** installment payment on your FSFL is due soon. The installment due date is listed in the first column of the table in the attached letter. The installment amount due is the total amount owed if the final loan payment is received in the FSA County Office on the installment due date. If payment is received on another day, the amount due will be different. Please contact the FSA County Office for the total amount due, if the installment will be received on a day different than the installment due date. Any collateral security on this loan will **not** be released to the borrower until the entire principal has been repaid.”

D Failure to Pay Installments Policy

[7 CFR 1436.13] If installments are **not** paid by the due date, County Offices shall:

- consider FSFL’s delinquent for FSFL purposes and eligible for offset from any payments due the borrower on the next day after the due date, when the installment principal balance remaining after payment exceeds \$25
- prepare and mail a first demand letter to the contact borrower and all co-borrowers on the day after the due date describing actions that may be taken against the debtor if the installment is **not** paid within 30 calendar days of the date of the letter
- on the day after the due date, set the “Other Agency Debt” flag in the borrower’s customer profile through FSA-FS
- in addition to the first demand letter, prepare and mail 2 subsequent demand letters at 30-calendar-day intervals if the installment is **not** paid
- collect additional interest to date of the repayment
- initiate collection action against a debtor’s pro rata share of payments due any entity that the borrower participates in, either directly or indirectly

158 Collecting Installments (Continued)

D Failure to Pay Installments Policy (Continued)

- initiate collection action against related persons or entities, irrespective of the debtors share when CCC determines that the debtor has established an entity or reorganized, transferred ownership, or changed their operation for the purpose of avoiding payment of the debt
- cease collection activity until any appeal activity by the borrower is complete, but withhold any FSA or CCC payments to the borrower for later offset

Note: Delinquent installments **cannot** be moved out of FSFL and a receivable established in NRRS. This is because a portion of the outstanding principal is **not** due and because collateral that could be foreclosed upon exists.

- initiate foreclosure actions only after all efforts to collect the installment have been exhausted under delinquency policy.

Delinquent FSFL's will be referred to TOP 120 calendar days after the installment due date. PSD will initiate the referral.

E Later Payment of an Installment

FSA recognizes that installment due dates may **not** always coincide with dates by which crops are harvested and income is available. Debtors who cannot pay on the due date may request up to an additional 120 calendar days to pay an installment if they submit both of the following:

- a request in writing for COC consideration within 60 calendar days before or after the installment due date
- a current cash flow statement demonstrating that the installment can be paid within 120 calendar days after the due date.

Payment after the installment due date:

- does **not** change the system-calculated due date in APSS
- does **not** change the due date of the next installment
- allows debtors more time to pay an installment and allows the County Office to cease further collection action except for offset opportunities
- ***--**may be requested 1 time only for each installment during the FSFL term**--***
- requires collection of additional interest through the date of repayment of the installment.

158 Collecting Installments (Continued)

E Later Payment of an Installment (Continued)

County Offices shall:

- notify debtors of this option in the first demand letter sent the day after an installment is unpaid and subsequent letters sent within 60 calendar days of the due date
- process requests for COC approval or disapproval by obtaining:
 - the debtor's request in writing, including a reason why the installment cannot be paid on time
 - a recommendation about the debtor's ability to repay at a later date from an FSA employee with FLP loan approval authority
- notify debtors of COC decisions in writing
- resume collection activity according to subparagraph D if the installment is **not** paid by the COC-determined date
- **continue** to collect payment of the installment due plus additional interest by administrative offset of any CCC payments due the borrower.

F Demand Letters

If the installment is **not** paid, County Offices shall:

- prepare and mail the demand letter in this subparagraph to contact borrowers and all co-borrowers on the day after the due date
- in addition to the first demand letter, prepare and mail 2 subsequent demand letters at 30-calendar-day intervals if the installment is **not** paid
- calculate a new amount due for 30 calendar days from the date of the letter.

Note: Demand letters for delinquent FSFL installment payments will **not** be processed through NRRS. FSFL demand letters are prepared in and by the County Office.

158 Collecting Installments (Continued)

F Demand Letters (Continued)

The following is an example of the demand letter.

(Letter Date)

(Borrower Name)
 (Borrower Address line 1)
 (Borrower Address line 2)

Dear (Borrower Name),

Please be advised that according to the regulations at 7 CFR 1436.13 and the terms of CCC-186, Promissory Note and Security Agreement, an installment payment was due and payable for the Farm Storage Facility Loan Program on the date shown below. The installment has not been paid.

Please send your check payable to the Commodity Credit Corporation immediately for the new amount due (shown below) because of additional interest. Send your payment to the following address:

Commodity Credit Corporation
 (insert office street address)
 (insert City, State, and ZIP Code).

Loan Number	Date of Note and Security Agreement	Unpaid Installment Amount	Original Due Date	Amount Due 30 Days From Date of This Letter
		\$		\$

The amount due has been recorded for offset from any Farm Service Agency or Commodity Credit Corporation payment due you. Additionally, the Commodity Credit Corporation may declare the entire indebtedness immediately due and payable. If your loan is called, foreclosure proceedings may be initiated. Under foreclosure proceedings, the collateral securing the loan may be sold and the proceeds of the sale will be applied to the outstanding amount of the loan.

Feel free to give us a call if you have any questions. If for some reason, you cannot pay the amount due, contact our office immediately to discuss this situation.

(Insert as applicable according to subparagraph E.) Subject to COC approval, you may request up to 120 more calendar days after the due date to pay the installment. The request must be in writing, stating why you cannot pay the installment on time, and must be submitted with a current cash flow statement by no later than 60 calendar days after the installment due date. If approval for a later payment date is approved, CCC will continue to collect payment towards the installment due plus additional interest by administrative offset of CCC payments due you.

If you believe that you have been sent this notice in error, that the determination is in error, or that the amount due is incorrect, you have 30 calendar days from the date of this letter to request reconsideration, mediation, or an appeal. (Insert rights for reconsideration, mediation, and appeal according to 1-APP.)

You may also contact the County Office to receive a copy of the documents related to this determination.

County Executive Director
 For the (County Name) FSA County Committee

158 Collecting Installments (Continued)**G FSFL Acceleration**

CCC may:

- declare the entire indebtedness immediately due and payable if the borrower:
 - violated any of the terms and conditions of the application
 - breaches any of the terms and conditions of any of the instruments executed in connection with FSFL
- call FSFL if the collateral is used in connection with any commercial operation, including but not limited to, elevators, warehouses, dryers, or processing plants during the life of FSFL.

Note: FSFL may be paid in full or in part at any time before maturity without penalty.

H Releasing Security

Upon payment of FSFL in full, County Offices shall:

- release or obtain the release of security documents, as required by State law, upon request by the borrower

Note: If final FSFL payment is made by cash, certified check, or money order, the borrower may request an accelerated release of security documents from SED. Included with the request, the County Office will send a copy of the final FSFL repayment receipt showing FSFL has been paid in full, and a copy of CCC-257 showing the remittance has been deposited. SED, after reviewing the documents, may advise the County Office in writing to proceed with releasing the security documents. The authority for this release may **not** be redelegated.

- require the borrower to pay all release fees
- mark the original CCC-186 “paid” and forward to the borrower after 30 calendar days from the date of repayment.

158 Collecting Installments (Continued)**I Updating Flags for Delinquent FSFL Borrowers**

On the day after the installment due date, County Offices shall set the other “Agency Claim Flag” in FSA-FS on all borrowers listed on the delinquent FSFL as follows:

- CLICK:
 - “FSA Applications” under “Links”
 - “Financial Application” under “Financial Services”
 - “FSA Financial Services”
 - “I Agree” after the warning
- enter a valid eAuthentication user ID and password, and CLICK “Login” to continue
- CLICK “Select Customer” from the menu on the left side

- CLICK “Customer Profile” to change the flag setting for “Other Agency Debt”
- click the radio button under “Other Agency Debt” according to the following:
 - “Yes” to set the flag

- CLICK:
 - “Update Profile” to record the flag setting
 - “Logoff” at the top right of the screen to exit FSA-FS.

159 Small FSFL Installment Principal Balances

A Why Small Balances Exist

Small installment principal balances result when installments are **not** paid on the due date and the County Office processes the repayment using the receipt date as the date of repayment; therefore, additional interest is calculated to the date of receipt. See subparagraph 380 C about the repayment date.

Note: Interest is from the date disbursed to the date payment is made or from 1 repayment date to the next repayment date. Additional interest accrues and is owed if over 365 calendar days.

B How to Detect Existing Small Principal Balances

For FSFL's where installments have been paid, County Offices shall:

- review the FSFL repayment receipt printed when the last repayment was applied, according to subparagraph 380 G

Note: The message, "The principal balance after this payment is current", is printed on the repayment receipt and correct as of that day. As FSFL is current until after the anniversary date or due date, any additional amount due will **not** be printed on the receipt or the Repayment Status Report until after the due date.

- identify FSFL's with small installment principal balances that require further collection action.

Note: County Offices are:

- encouraged to periodically run the FSFL Repayment Status Report, according to subparagraph 414 H, to identify FSFL's on which principal balances exist
- to take collection action according to subparagraph C.

159 Small FSFL Installment Principal Balances (Continued)

C Collection Actions

For FSFL installments that are **not** fully satisfied and small installment principal balances exist, County Offices shall:

- if the producer has made a full installment payment and is behind the scheduled principal balance, do **not** pursue collection action

Note: Notify the borrower that additional interest has accrued on FSFL because of the timing of repayments. This amount will be collected with the next installment, unless the borrower voluntarily provides payments.

- pursue collection of the installment principal balance, according to subparagraph 158 D, except use the demand letter in subparagraph E

Exception: To minimize collection costs for installment principal balances of \$25 and less, except for the final installment payment, County Offices shall **not** pursue collection until the subsequent installment is due and payable.

- continue collection action, according to subparagraph 158 D, if installment principal balances remain unpaid after 2 consecutive monthly installment principal balance demand letters.

Note: The County Office shall prepare and send out the demand letter in subparagraph E. If **not** paid within 30 calendar days, prepare and send the second demand letter each time asking for repayment of the installment principal balance only. If received within the 60 calendar days, the repayment should be entered as being made on the date of the last installment. If paid after the 60 calendar days, also collect additional interest to date of repayment.

D Minimizing the Creation of Small Principal Balances

To minimize creating small installment principal balances, County Offices shall calculate the current correct amount due if the repayment is **not** made within the 15-calendar-day grace period, according to subparagraph 380 C.

E Demand Letter for Installment Principal Balances

The following is an example of a demand letter for installment principal balances.

(Letter Date)

(Borrower Name)
 (Borrower Address line 1)
 (Borrower Address line 2)

Dear (Borrower Name),

Please be advised that according to the regulations at 7 CFR Part 1436.13, and the terms of CCC-186, Promissory Note and Security Agreement, your Farm Storage Facility Loan is considered delinquent because, although a partial installment payment was made, an installment principal balance exists.

Please send your check payable to the Commodity Credit Corporation immediately for amount due (shown below). Send your payment to the following address: (insert office street address), (insert City, State, and ZIP Code).

Loan Number	Date of Note and Security Agreement	Unpaid Installment Principal Amount Due
		\$

The amount due has been recorded for offset from any FSA or CCC payment due you. Additionally, CCC may declare the entire indebtedness immediately due and payable. If your loan is called, foreclosure proceedings may be initiated. Under foreclosure proceedings, the collateral securing the loan may be sold and the proceeds of the sale will be applied to the outstanding amount of the loan.

If, for some reason, you cannot pay the amount due, contact our office immediately to discuss this situation or if you have additional questions. If you believe that you have been sent this notice in error, that the determination is in error, or that the amount due is incorrect, you have 30 calendar days from the date of this letter to request reconsideration, mediation, or an appeal. (Insert rights for reconsideration, mediation, and appeal according to 1-APP.)

You may also contact the County Office to receive a copy of the documents related to this determination.

160 Delinquent FSFL's

A STC Review of Repayment Status

STC or representative shall:

- at least quarterly, review the Repayment Status Report

Note: See subparagraphs 414 A and H.

 - sending the required demand letter the day after the installment due date
 - sending other required demand letters timely
 - following correct procedure for collecting any delinquent payments.

B Delinquent FSFL's for DCIA Purposes

County Offices shall consider FSFL's delinquent for DCIA purposes when either of the following occurs:

- a due and payable FSFL installment is **not** paid in full within 90 calendar days after the due date
- the installment principal balance, after a due and payable installment is applied, exceeds \$25 within 90 calendar days after the due date.

Note: When FSFL's are over 90 calendar days delinquent, County Offices shall set the delinquent flag on the web-based Eligibility Screen according to 3-PL (Rev. 1), paragraph 34.

161 FSFL's Paid in Full

A Releasing FSFL Security

Upon payment of FSFL in full, County Offices shall:

- release or obtain the release of security documents, as required by State law, upon request by the borrower

Note: If final FSFL payment is made by cash, certified check, or money order, the borrower may request an accelerated release of security documents from SED. Included with the request, the County Office will send a copy of the final FSFL repayment receipt showing FSFL has been paid in full, and a copy of CCC-257 showing the remittance has been deposited. SED, after reviewing the documents, may advise the County Office in writing to proceed with releasing the security documents. The authority for this release may **not** be redelegated.

- require the borrower to pay all release fees
- mark the original CCC-186 “paid” and forward to the borrower after 30 calendar days from the date of repayment.

162 Real Estate Taxes

A Borrower's Responsibility

[7 CFR 1436.14] On FSFL's where real estate is used as security, the borrower must:

- pay all real and personal property taxes that may affect CCC's security interest in all collateral securing the note
- provide proof of payment of taxes, applicable to collateral securing FSFL, to the County Office annually.

B Unpaid Taxes

County Offices shall:

- **not** disburse FSFL's secured by real estate when real estate taxes are **not** current
- monitor the real estate tax status applicable to collateral securing FSFL
- pay any unpaid taxes with respect to the collateral securing FSFL when it appears CCC's security interest is in jeopardy

Note: See subparagraph 227 B.

162 Real Estate Taxes (Continued)

B Unpaid Taxes (Continued)

- bill the borrowers for the amount of the tax paid

Note: See paragraph 314 for depositing borrower reimbursement of CCC-paid taxes.

- begin proper servicing action, such as calling FSFL.

163 Maintenance and Liability

A Maintenance

[7 CFR 1436.15] The borrower must maintain the FSFL collateral in a condition suitable for the storage of 1 or more FSFL commodities.

County Offices shall perform collateral checks:

- at least once every other year for all FSFL’s using asphalt flooring, according to subparagraph 34 C
- for the following terms:
 - 7-year term – fourth year of FSFL
 - 10-year term – fourth and eighth year of FSFL
 - 12-year term – fourth and ninth year of FSFL

•*--where the full annual installment payment is **not** made within 15 calendar days after--* the installment due date.

Example: Producer Berry has an FY 2009 FSFL with a 7-year term and the annual installment repayment is due on May 1. The following table is a schedule of when collateral checks are required based on the date the annual installment repayment is received in the County Office.

Note: The future dates of annual installment repayments are used for this example only.

FSFL Term	Date Annual Installment Payment Received in the County Office	Collateral Check Required
Year 1	April 30, 2010	No
Year 2	May 1, 2011	No
Year 3	*--May 19, 2012--*	Yes
Year 4	April 30, 2013	Yes
Year 5	April 29, 2014	No
Year 6	*--May 22, 2015--*	Yes
Year 7	May 1, 2016	No

Important: If there is reason to believe CCC’s collateral is at risk, STC or COC may authorize the County Office to perform a collateral check at any time.

163 Maintenance and Liability (Continued)**A Maintenance (Continued)**

- if possible, conduct checks in conjunction with other FSA loan program collateral checks
- document results of check on CCC-295B

Note: See Exhibit 25 for an example of CCC-295B.

- annually verify structural and flood insurance policies by:
 - ensuring that CCC is listed as a loss payee
 - reviewing proof of insurance provided to FSA by insurance companies

Note: Structures must be insured against all perils and against flooding if the structure is located in a flood plain.

- annually obtain proof of multi-peril crop insurance or NAP insurance for each applicable crop year for the entire FSFL term
- have rights of access where the facility is located according to a term in CCC-186 whether or not there is a real estate mortgage.

B Liability

Until FSFL has been repaid, the borrower shall be liable for all damages to or destruction of the collateral. CCC shall **not** assume any loss of the FSFL collateral.

164 Changes to a Farming Operation**A Farming Operation Changes**

FSFL's are approved and disbursed to a farming operation that is an eligible entity or eligible producer at the time of approval.

B Borrower Action

If any changes are made to a farming operation with an outstanding FSFL, the borrower **must** do 1 of the following:

- find an eligible borrower or entity to assume FSFL according to paragraph 177
- repay FSFL
- undergo new financial analysis to ensure that CCC's interests are protected and that the current borrower is in a position to continue making the scheduled FSFL payments.

Notes: The only way TIN can be changed on an outstanding FSFL is through the FSFL assumption process. If an individual borrower changes his or her farming operation to a corporation, the corporation **must** assume FSFL for IRS-1098 to report the interest paid to the new TIN. All the steps for FSFL assumption **must** be completed for the corporation.

The facility is still prohibited from being used as a commercial facility or operation as long as FSFL is outstanding.

165 Sale or Conveyance and Assumptions

A Sale of Collateral

[7 CFR 1436.16] The collateral securing FSFL shall be sold by CCC whenever:

- CCC has called FSFL and it has **not** been repaid
- the borrower voluntarily conveys the collateral to CCC before repaying FSFL
- the borrower desires to convey other property securing FSFL without repaying FSFL.

Notes: Before a borrower sells or conveys the facilities or other property securing FSFL without repaying FSFL in full, the borrower shall obtain approval for sale or conveyance from COC.

--The County Office shall not release any documents to release any liens, security, or allow removal of the FSFL structure until the full payment has been received according to subparagraph 161 A.--

B Assumptions

An assumption of FSFL may be approved by CCC. The approval authority for FSFL assumption is the same as for a regular FSFL. See subparagraph 2 F.

166 Appeals, Misaction, and Misinformation

A Adverse Determinations

Approving authorities making adverse determinations against FSFL applicants and borrowers shall:

- provide mediation, reconsideration, and appeal rights according to 1-APP
- follow procedure in 1-APP to process and act upon appeals.

B Misaction and Misinformation

When there is misaction, misinformation, or a situation involving the finality rule, follow procedure in 7-CP.

Part 11 Bankruptcy

186 Bankruptcy Actions

A Notification

After notification by a bankruptcy court that a borrower is filing for bankruptcy, County Offices shall:

- send a copy of the notice of filing to the State Office for forwarding to the Regional OGC
- **not** take any action:
 - to possess or sell the collateral
 - prohibited by the Bankruptcy Code
- obtain advice from OGC through the State Office before taking any action against the person or property filing a petition for bankruptcy.

- CCC-186
- UCC-1's and amendments
- CCC-295A
- equipment lists
- CCC-297.

Form B10 can be found at

http://www.uscourts.gov/rules/BK_Forms_Pending_2008/B_010_1208v4.pdf.

- maintain FSFL in FSFL status
- accept repayments according to the reorganization plan
- refer the claim to OGC for legal action if a borrower defaults on the payment schedule or any provision of the court-approved plan.

Note: If the terms and conditions of CCC-186 and supplemental documents are changed by court order, the County Office, through the State Office, shall contact PSD as to the correct and up-to-date procedures to follow to revise FSFL terms.

C Selling Collateral

 - prepared according to paragraph 210
 - revised with OGC advice
- sell FSFL collateral according to Part 13
- apply sales proceeds to the outstanding FSFL amount
- if sales proceeds exceed the amount due CCC, refund the excess amount to the producer
- transfer the unpaid FSFL balance to claims if:

COC shall:

- follow subparagraph A when considering calling FSFL's to protect CCC's interests

B FY's

For credit reform reporting purposes, the "Fiscal Year" entered on Screen VCA11000 according to subparagraph 338 B, step 1, must be the FY during which FSFL is "Approved Pending Funding" or "Disapproved" by COC.

Example: If CCC-185 is filed in FY 2009, but it **cannot** or **will not** be "Approved Pending Funding" by COC until after October 1, 2009, then the "Fiscal Year" entered on Screen VCA11000 shall be "2010".

FY used for the application number and FY in the application fee deposit code **must be** the same.

C FSFL Facility Types

The FSFL facility type codes have been modified to include the new eligible commodities. Ensure that the correct facility type code is being used when entering the FSFL application into the software.

The following FSFL facility type numbers are allowable entries on Screen VFA10500 according to subparagraph 338 B, step 4, when entering CCC-185 data:

- “7” for all structures to store **Hay**
- “A” for all structures to store **Renewable Biomass**
- “B” for all cold storage structures to store **Fruits and Vegetables**.

Note: The only way PSD has to monitor the number of FSFL's of the new eligible commodities is through these codes.

Example: For a hay structure, enter **only** facility type code “7”.

327 Additional Eligible Commodities**A Eligible Commodities**

Screen VFA11000 has been modified to allow for the following additional commodities:

- Hay

354 Changing CCC-185's After Funding

A Changes After Funding

After being funded, CCC-185 can be re-accessed to make changes that **do not** affect eligibility or the FSFL-funded amount, according to paragraph 339, without having:

- COC reconsideration
- to repeat the funding process.

FSFL-funded amounts are based on estimates, so when final documented expenses are:

- **less** than the FSFL-funded amount:
 - County Offices shall **decrease** the FSFL amount according to subparagraph 355 A
 - excess funds become available for national redistribution
- **more** than the FSFL-funded amount:
 - COC must determine eligibility and approve pending funding for an FSFL amount **increase**
 - County Offices shall **increase** the FSFL amount according to subparagraph 355 B. The additional funding must be obligated before County Offices can access the loan.

B Decrease or Increase to Funding

County Offices shall decrease or increase FSFL amounts according to the following changes and paragraph 355.

- The “Requested Loan Amount” producer needs for FSFL can **only** be changed on an approved FSFL only after FSFL has been **obligated**.
- When the FSFL request from the producer changes (decreases or increases), County Offices must:
 - **first** go to **application** processing and **decrease or increase** the “Requested Loan Amount” on **Screen VFA10000**
 - then go through the **approval** process again to change the obligation and ensure that CCC-185, items 3A and 14A are the same.

354 Changing CCC-185’s After Funding (Continued)

B Decrease or Increase to Funding (Continued)

Software will **not** allow increases in FSFL amounts if:

- FSFL is approved but **not** obligated
- the user has printed CCC-186
- a treasury check has been requested.

Note: After verifying the amount in CCC-186 or requesting a check through the disbursement option, the only option available to the user is to make a payment request.

Section 5 Processing CCC-186's and Disbursements

366 FSFL Disbursements With Check Centralization

A FSFL Disbursement Options

The following 2 options are available for disbursing FSFL's:

- closing then immediately requesting FSFL disbursement with FSFL proceeds made out to the contact borrower **only** (disbursement option 1)
- submitting the request for a check and closing FSFL once the check is received in the County Office (disbursement option 2).

The entire FSFL disbursement **must** be made by:

- EFT or check to the contact borrower (disbursement option 1)
- check or checks to the borrowers and/or other payees (disbursement option 2).

Notes: These are the **only** 2 options available for FSFL disbursements and FSFL closing. **No other disbursement options are authorized.**

County Offices must follow the instructions in paragraphs 367 and 368 for the disbursement process to work correctly.

B Closing FSFL's Followed by FSFL Disbursement - Disbursement Option 1

Closing FSFL's then immediately requesting FSFL disbursement is used when disbursement proceeds will be made **only** to the contact borrower. County Offices will transmit the payment request to NPS. NPS will issue FSFL transaction statements. See paragraph 367 for instructions.

IF the...	THEN NPS will...
FSFL disbursement will be by direct deposit	deposit FSFL proceeds in the borrower's account within the specified time period.
borrower does not have direct deposit	send a request to Treasury to disburse a check. The check will be mailed to the borrower.

C Submitting Payment Requests Before FSFL Closing - Disbursement Option 2

If the disbursement **must** be made to multiple parties, including lienholders or contractors, County Offices can request Treasury checks **before** closing FSFL. The checks will be mailed to the County Office where CCC-186 will be prepared and FSFL closed. The County Office will enter the FSFL closing date, and the interest on FSFL will start on that date. The checks will be given to the borrower at FSFL closing. See paragraph 368 for instructions.

367 Disbursement Option 1 - Closing FSFL’s Followed by Submitting Payment Requests

A Sequence of Steps To Be Followed

Disbursement option 1 is for FSFL’s that will be closed and followed **immediately** by the payment request. The option for adding an additional payee or modifying the mailing address is **not** currently available.

If there are **no** alternate payees, that is vendors are all paid, County Offices **must** take the following steps, **in sequence**, from Menu VCA005:

- “2”, “Note and Security Agreement Processing”, to close FSFL (subparagraph B)
- “3”, “Payment Requests”, to initiate payment requests (subparagraph C)
- access NPS to certify and sign payment requests (subparagraph D).

Notes: The contact borrower will receive the entire disbursement either by automated clearing house or check mailed from Treasury directly to the borrower’s address in SCIMS.

The interest start date (date FSFL closed) is software controlled.

B Closing FSFL’s and CCC-186 Processing

On Menu VCA005, option 2 is to be taken if FSFL will be closed **immediately** after CCC-186 is printed. Therefore, the County Office **must** close and disburse FSFL on the **same day**.

Note: Using this option allows the interest start date on both the amortization schedule and CCC-186 to be calculated by the software, and will automatically **allow 2 workdays** before interest begins on FSFL. This allows time for FSFL proceeds to be disbursed directly into the contact borrower’s account, or to mail the check and FSFL transaction statement directly to the contact borrower, if **no** automated clearing house account. County Offices should review and verify this date with the borrower.

The FSFL amortization schedule and CCC-186 closing processes are prepared on System 36 according to the following table.

368 Disbursement Option 2 - Submitting Payment Requests Before Closing FSFL's

Disbursement option 2 will be used when a check is made out to the program participant and contractors or vendors. This option will be used to initiate special processing for payment requests where checks are to be prepared **before** closing FSFL and checks are mailed to the County Office address. This process is triggered by a forced check indicator in the FSFL software. In addition, a process titled "Alternate Payee Indicator" is:

- incorporated into the FSFL software
- triggered when checks **must** be made out to other payees in addition to the customer (borrower) who earned the payment.

If there are alternate or joint payees, such as vendors **not** all paid, County Offices **must** take the following steps, **in sequence**, from Menu VCA005:

WHEN YOU COMPLETE THE CLOSING, FSFL WILL NO LONGER APPEAR ON THIS LIST.			

Note: The example Report VFB405-R001 includes FSFL that has passed the 21-calendar-day timeframe for closing. This FSFL is designated by 0(NN*) in the “Days Left to Close” column. The “Days Left to Close” column displays the actual number of days remaining since the payment request was certified and signed in NPS, with the number of days over the 21-calendar-day timeframe in parenthesis.

If checks and FSFL transaction statements are **not** received by the County Office in a timely manner, County Offices **must** contact their State Office to determine whether checks were lost in transit. State Offices shall follow current FMD procedure for handling these situations. County Offices **must** be pro-active in tracking these FSFL’s to ensure that checks and FSFL transaction statements are received timely and closings are completed within the 21-calendar-day timeframe.

For FSFL’s where the checks were received by the County Office, but the borrower has decided **not** to proceed with FSFL, the County Office **must** take action to cancel FSFL. See subparagraph 439 B for instructions on canceling FSFL’s after checks have been written.

Definitions of Terms Used in This Handbook

*--Aggregate Outstanding FSFL Balance

Aggregate outstanding FSFL balance means the sum of the outstanding balances of all FSFL's--* disbursed to each borrower signing CCC-186.

Assumption

Assumption means the act or agreement by which 1 borrower takes over or assumes the mortgage debt of another borrower.

CCC Charter Act Commodities

CCC Charter Act commodities are commodities originally authorized for FSFL under the CCC Charter Act and include the following:

- rice
- soybeans
- sunflower seed
- canola
- rapeseed
- safflower
- flaxseed
- mustard seed
- other oilseeds as determined and announced by CCC
- dry peas
- lentils
- small chickpeas, harvested as whole grain and including peanuts.

Note: Corn, grain sorghum, oats, wheat, or barley shall be included whether harvested as whole grain or other than whole grain.

Cold Storage Facility

Cold storage facility is defined as a facility, or rooms within a facility, that are specifically designed and constructed for the cold temperature storage of perishable commodities. The temperature and humidity in these facilities must be able to be regulated to specified conditions required for the commodity requiring storage.

Collateral

Collateral means the storage structure, drying equipment, or handling equipment securing FSFL.

Definitions of Terms Used in This Handbook (Continued)

Commercial Purpose

Commercial purpose is defined as the storage and handling of grain, whether paid or unpaid, for persons other than the FSFL applicant, except for family members and tenants or landlords sharing in the crop requiring storage. Any facility that is in working proximity to any commercial storage operation shall be considered to be part of a commercial storage operation.

Compromise

Compromise means CCC's consideration of the borrower's offer to settle FSFL by lump sum repayment or rescheduling FSFL for an amount that may be less than the sum of the outstanding principal plus interest. Prior written approval must be obtained from DAFP before any compromise can be negotiated with the borrower.

Construction of FSFL

Construction of FSFL means:

- erecting or building the sides and/or roof of a bin or silo
- framing the flat storage structure or building
- installing any equipment component or part for:
 - handling
 - drying
 - maintenance.

Crop of Economic Significance

Crop of economic significance means any insurable FSFL commodity that contributes 10 percent or more of the total expected value of all crops grown by the FSFL applicant, except if the expected liability under the catastrophic level of crop insurance for a crop is equal to or less than the administrative fee for the crop, that crop shall **not** be economically significant.

Direct Impact

A direct impact is an impact caused by the action and that occurs at the same time and place.

Execution Date

Execution date is the date the party signs the contract with the proper formalities; for example, witnesses, if required.

Definitions of Terms Used in This Handbook (Continued)**Existing Storage**

Existing storage is FSFL commodity storage at the proposed storage location, owned by the applicant, that has **not** deteriorated to the point where it is no longer functional for storage purposes.

FAV's

FAV's for FSFL purposes are fruits and vegetables grown on cultivated farmland.

Financing Statement

A financing statement is a document that gives legal notice of a lien on chattel property when properly filed or recorded.

Flood Plains

Flood plains are lowland and relatively flat areas adjoining inland and coastal waters, including flood-prone areas of offshore islands. At a minimum, flood plains consist of those areas subject to a 1 percent or greater chance of flooding in any given year. The term flood plain will be taken to mean the base flood plain, unless the action involves a critical action, in which case the critical action flood plain is the minimum flood plain of concern.

- Base flood plain (or 100-year flood plain) is the area subject to inundation from a flood of a magnitude that occurs once every 100 years on the average, the flood having a 1 percent chance of being equaled or exceeded in any given year.
- Critical action flood plain (or 500-year flood plain) is the area subject to inundation from a flood of a magnitude that occurs once every 500 years on the average, the flood having a 0.2 percent chance of being equaled or exceeded in any given year.

Grain Legumes for Hay

Grain legumes for hay mean hay where the entire plant, including the seeds, is harvested at maturity and used for animal feed.

Hay

Hay is a grass or legume that has been cut and stored. This may include crop residues if baled and used as feed, such as wheat straw.

Definitions of Terms Used in This Handbook (Continued)**Indirect Impacts**

Indirect impacts are those reasonably foreseeable environmental impacts that result from the additional facility, residential, commercial, or industrial development or growth that a Federally financed project may cause, induce, or accommodate. Consequently, indirect impacts often occur later in time than the construction of the Federal project and can be removed in distance from the construction site. Those indirect impacts that deserve the greatest consideration include the following:

- changes in the patterns of land use
- population density or growth rate
- corresponding changes to air and water quality and other natural systems.

Mediation

Mediation means CCC's consideration of the borrower's offer because of either of the following:

- mediation carried out through FSFL mediation to settle FSFL by lump sum repayment
- rescheduling FSFL for an amount that CCC regards as being reasonable compared with other offers that other creditors have accepted considering the priority of security interest that all creditors have held.

Note: Prior written approval must be obtained from DAFP before any mediation or rescheduling can be negotiated with the borrower.

Mitigation Measures

Mitigation measures are measures included in a project or application for the purpose of avoiding, minimizing, reducing, or rectifying identified, adverse environmental impacts. Examples of these measures include the following:

- the deletion, relocation, redesign, or other modification of the project's elements
- the dedication to open space of environmentally sensitive areas of the project site, which would otherwise be adversely affected by the action or its indirect impacts
- soil erosion and sedimentation plans to control runoff during land-disturbing activities

Definitions of Terms Used in This Handbook (Continued)**Mitigation Measures (Continued)**

- the establishment of vegetative buffer zones between project sites and adjacent land uses
- protective measures recommended by environmental and conservation agencies having jurisdiction or special expertise about the project's impacts
- storm water management plans to control potential downstream flooding effects that would result from a project
- zoning
- reusing existing facilities as opposed to new construction.

No-Action Alternative

A no-action alternative is the alternative of **not** approving an application for financial assistance.

Nonmovable or Nonsalable Collateral

Nonmovable or nonsalable collateral means either of the following:

- collateral COC determines cannot be sold and moved to a new location because of the type of construction
- collateral that has deteriorated to the point that it has no sale recovery value.

Old Growth Timber

Old growth timber is forest materials that would otherwise be used for either of the following:

- a higher-value product, such as timber, lumber, or wood pulp
- any other finished wood products, such as mulch or paper.

Note: See Healthy Forest Restoration Act of 2003, Subsection 102e, paragraphs 2 through 4.

Person

Person means any individual, group of individuals, partnership, corporation, estate, trust, association, cooperative, tribal venture, or other business enterprise, or other legal entity who is, or whose members are, a citizen or citizens of the United States, or a legal resident alien.

Definitions of Terms Used in This Handbook (Continued)

Practicable Alternative

A practicable alternative is an alternative that is capable of attainment within the confines of relevant constraints. The test of practicability, therefore, depends upon the particulars of the situation under consideration and those constraints imposed by environmental, economic, legal, social, and technological parameters. This test, however, is **not** limited by the temporary unavailability of sufficient financial resources to implement an alternative. That is, alternatives cannot be rejected solely on the basis of moderately increased costs. The range of alternatives that must be analyzed to determine whether a practicable alternative exists includes the following categories of alternatives:

- alternative project sites or designs
- alternative projects with similar benefits as the proposed action
- the no-action alternative.

Preparer of Environmental Review Documents

The preparer of environmental review documents is the FSA official who is responsible for:

- reviewing the potential environmental impacts of the proposed action
- completing the appropriate level of environmental review.

Relative

A relative, as defined in 3-PM, Exhibit 2, is an individual who is related to the employee, as father, mother, son, daughter, brother, sister, uncle, aunt, great-uncle, great-aunt, first cousin, nephew, niece, husband, wife, grandfather, grandmother, grandson, granddaughter, father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, sister-in-law, stepfather, stepmother, stepson, stepdaughter, stepbrother, stepsister, half-brother, half-sister, or who is the grandfather or grandmother of the spouse of the employee, or who is the fiancé or fiancée of the employee.

Renewable Biomass Commodity

Renewable biomass commodity is any organic matter that is available on a renewable or recurring basis used for producing energy in the form of heat, electricity, and liquid solid or gaseous fuels.

*--Resale Collateral Value

Resale collateral value is collateral that can be sold and moved to a new location for which compensation equal to the outstanding loan value can be expected.--*

Satisfactory Credit History

Satisfactory credit history means a history of repaying debts as they came due unless the failure to repay or tardiness in payment was because of circumstances beyond the applicant's control as determined by CCC upon proof submitted by the applicant.

Definitions of Terms Used in This Handbook (Continued)

Stand-Alone Structures

Stand-alone structures are structures that are **not** dependent on anything else and can function independently.

Uniform Commercial Code

Uniform commercial code means the system of laws adopted in all States about commercial transactions, such as sales, negotiable instruments, and secured transactions.

Used or Pre-Owned Structure

A used or pre-owned structure is a structure that was previously owned by someone other than the manufacturer or dealer, and the buyer cannot obtain the original manufacturer's warranty.

***--Authorized Methods for Determining the Value of FSFL Real Estate Security**

A Acceptable Methods for Determining the Value of FSFL Real Estate Security

The following are acceptable methods for determining the value of FSFL real estate security.

IF the acceptable method is the...	THEN the real estate...

2001	“01FSFL”.
2002	“02FSFL”.
2003	“03FSFL”.
2004	“04FSFL”.

The 3 workdays do **not** include the time the checks are in the mail. Loan transaction statements will be mailed directly to the County Office. Once checks and loan transaction statements are received by the County Office, the County Office shall schedule a closing within 21 calendar days of certifying and signing in NPS. See paragraph 415.

(Y or N)”, with “N” and PRESS “Enter”.

**Disbursement Option 2 – Screen VFC10010 to Request Payments Before FSFL Closings
(Continued)**

Payables will be provided to NPS as listed. The user **must** access NPS **before** the 3 p.m. c.t. cutoff that same day to complete free-form entries for alternate payees where on Screen VFC10010, the joint payment indicator was set to “**Y**”. Joint payment indicator setting “**N**” will automatically make the check payable to the borrower **only**, and the County Office will **not** be given the opportunity to make any changes to the payee or address.

Note: Payments with more than 1 payee listed in:

- FSFL system are referred to as “joint payments”
- NPS are referred to as “alternate payees”.

When free-form entries are completed for each alternate payee, the County Office **must** then complete the certification and signing process. See subparagraph 368 D. Data will be provided to Treasury. Checks and loan transaction statements will normally be mailed to the County Office within 3 workdays. The 3 workdays do **not** include the time the checks are in the mail.
