

General Electric-Hitachi Laser-Based Uranium Enrichment Facility Licensing

**Brian Smith, Chief
Enrichment and Conversion Branch
Office of Nuclear Material Safety and
Safeguards
July 17, 2008**

Who is the NRC?

- **NRC is an independent agency responsible for ensuring protection of public and worker health and safety in use of radioactive materials as well as ensuring adequate security for radioactive materials and sensitive information**
- **NRC is not a promoter of General Electric-Hitachi plant or any other facility**

NRC Mission

- **To regulate the nation's civilian use of byproduct, source, and special nuclear materials to ensure adequate protection of public health and safety, to promote the common defense and security, and to protect the environment**
- **We accomplish this mission through the promulgation of regulations, the licensing of activities, and the inspection of licensees to verify compliance with the regulations**
