

DIRECTOR'S GUIDANCE 2013

DEFENSE LOGISTICS AGENCY

Fiscal Year 2013 Director's Guidance

Mark Harnitchek

Vice Admiral, SC, USN
Director, DLA

At the Defense Logistics Agency, 2013 is the year of Big Idea execution. In 2012, we identified strategic focus areas to achieve significant savings. In 2013, our ideas become actions that lay the groundwork for FY14 savings.

By focusing on excellence in our daily operations and driving additional transformational change, we are driving warfighters' success. We are building our future on a rock solid foundation of past accomplishments and getting out in front of warfighter and fiscal challenges.

This Director's Guidance is our road map to significantly improve support to the warfighter and dramatically reduce cost. And as we face an uncertain future fraught with significant fiscal and strategic challenges, we must remain resolute and lead the way in innovation and transformation.

DLA's highly skilled, diverse and agile workforce is the keystone to our success. I'm counting on you to continue to do a superb job and make a difference each and every day. We must meet or exceed our basic business performance and pursue our strategies to meet the future. Every DLA employee has a role and responsibility to implement this guidance. Acting together, with enthusiasm, optimism and focus, we WILL achieve great things. Seize the opportunity; don't wait; and make things happen. What you do makes a difference!

*"Significantly improve performance
while dramatically reducing cost"*

There are several emergent themes for DLA in 2013:

Afghanistan: Win the current fight and pivot to retrograde and transition:

Our approach is to utilize a regional approach through partnering with maximum early disposal, retrograde and lines of communication usage.

Contingencies and Humanitarian Assistance & Disaster Relief Support:

Our approach is to get ahead of requirements and have the right material based forward with contingency contracts in place to provide immediate support. Remember that responsiveness is the coin of the realm, so act with a sense of urgency. Our fellow citizens are counting on you.

Industrial & Platform Support:

Get ahead of logistics support for F-35, Littoral Combat Ship and Inventory Management and Stock Positioning at Fleet Readiness Centers, while supporting Strategic Network Optimization, Peak Policy and Next Generation forecasting and inventory reductions.

2013 Director's Guidance

DIRECTOR'S 2013 PRINCIPLES

We are living in historic times ... doing things we've never done before ... make some history yourself.

Push for smart things to do ... don't wait for the requirement ... or for folks to ask.

No one knows this stuff better than us ... act like it.

I trust you ... prioritize, do it your own way but get it done or ensure it gets done.

This is your time ... do big things and make it better. If not you, who? If not now, when?

Relationships are key ... build them and use them.

Take care of one another.

Keep promises.
