

# My Favorite Habitat Project Guide

Name \_\_\_\_\_

## My Tasks

- After your teacher introduces the concept of habitats and models Venn diagrams, research how many habitats are located in the national sites in your state as well as in one of the other states you discussed in class.
- Pick two habitats and compare them on a Venn diagram.
- Create an illustration of one habitat.

## My Worksheets to Complete

\_\_ What Types of Habitats?

## Project Option

Use digital drawing software (if it's available to your class) to create your habitat illustration.
