

Public Notice Submission

Provider Name: Totel CSI

Summary: Totel CSI, a wholly owned subsidiary of Totah Communications Inc., is a broadband internet service provider delivering broadband internet service in the regulated telephone exchanges of Totah Communications Inc. Totel CSI provides broadband internet access over ADSL2+ technology in rural, sparsely populated areas located in Northeast Oklahoma and Southeast Kansas. In addition to the service Totel CSI provides, households in the Tyro exchange (Census Tract 20125950700) have access to a wireless internet service provider and cable modem service for broadband internet access. Households in the Elk City, Havana, and Liberty exchanges of Totah Communications Inc. (All census tracts in the Coverage and Subscription Data) also have access to wireless internet service from another provider. Totel CSI has been a long standing provider of broadband internet service to households and anchor institutions in these rural areas and is committed to providing affordable broadband internet service and promoting broadband internet service adoption in its service area.
