

Public Notice Submission

Provider Name: Inter-Community Telephone Co., LLC

Summary: We are completing the BTOP Response form because we feel that the granting of monies applied for by XO Communications would be a duplication of service and a terrible waste of taxpayer funds. As a part owner of Dakota Carrier Network (DCN) we find that we have all the bandwidth we need to provide rural North Dakota with reliable and affordable highspeed broadband. DCN is the premier middle mile carrier in North Dakota and is able to fulfill all the broadband needs of its owner companies along with other large customers in the state.
