

## **Public Notice Submission**

**Provider Name:** Partner Communications Cooperative

**Summary:** Partner Communications Cooperative provides access to Broadband service to 87% of our access lines in 6 exchanges. We offer three Broadband plans throughout our service area with download speeds ranging from 1 Mbps up to 5 Mbps. We are beginning a FTTH project that will result in much higher speeds. On the tab for Cover and Subscription Data, we did not complete the column labeled "Number of Households". We do serve only portions of the Census Tracts within our exchanges.
