

## **Public Notice Submission**

**Provider Name:** Project Telephone Company

**Summary:** Project Telephone Company, Inc. dba Nemont only serves a small part of the census tracts identified in this response (28%). In all areas Nemont offers at least 1.5 Mbs ADSL and in some areas Nemont offers up to 10 Mbs. Nemont offers competitively priced services to all residents, businesses and to Critical Community Entities (often at reduced prices). Nemont participates in the several government programs aimed at making affordable broadband access available (e-rate) to schools and libraries. Nemont works closely with Tribal entities on the Crow Indian Reservation in supporting their communication needs. Nemont has submitted two applications through the BIP program; one for middle mile and the other for last mile, covering a lot of the census areas listed in these census tracts.
