

Public Notice Submission

Provider Name: Ritter Cable Corporation

Summary: Ritter Cable Corporation has over 100 Community Anchor Institutions in its service area consisting of public schools, a community college, public libraries, hospitals, nursing homes, human services office, and police stations. All community institutions in the service area have access to broadband and are within 800 feet of fiber. Most institutions are served via coaxial cable, however Ritter Cable does have fiber to the premise for two schools in its cable footprint. Ritter Cable and Ritter Telephone share the following connections to the internet backbone: Level 3 – 1 Gb, AT&T – 155 Mg and XO Communications – 155 Mg. Ritter Cable uses 10 Gb connection between the Head End and transport nodes in the network.
