

Public Notice Submission

Provider Name: HickoryTech Corporation

Summary: Hickorytech Corporation (dba HickoryTech and Enventis) is a leading integrated communications provider in the markets it serves. With headquarters in Mankato, Minn., the corporation has a regional fiber network with facilities-based operations in Minnesota and Iowa. Enventis serves businesses of all sizes across a five-state region with IP-based voice, data and network solutions. HickoryTech provides bundled residential and business services including high-speed internet, DigitalTV and voice services. The company provides communication solutions to business and residential customers in southern Minnesota, and northwestern and central Iowa. The Coverage and Subscription Data Tab reflects the business coverage area of our Sonet and Ethernet services, shown as 1000 Mbps, and our residential services shown as 6 Mbps.
