

Public Notice Submission

Provider Name: Hutchinson Telecommunications Inc

Summary: Hutchinson Telecommunications serves the census tracts which are documented in this filing. These areas are not unserved nor underserved by definition. Awarding stimulus funds in these areas would duplicate facilities already in place. This duplication is not a wise expenditure of public funds. Not only would it diminish any government investment or subsidy already in place, it would diminish the worth of private sector investment as well. This is opposite any goals set forth in the ARRA. The duplication of facilities also jeopardizes the viability of existing service providers, jobs, and sustainable economic stability. Hutchinson Telecommunications has invested funds to provide a high speed network to our customers. This area has more than one established provider.
