Your client information....what if it was stolen? Personnel records of your employees are breached....you could be sued. Your bank accounts are accessed by a cyber-criminal....can you afford that?

These and other crises for small businesses can and do happen daily. But many small business owners think "it won't happen to me" ...until it does. **Protect your business...** learn how by attending this **no-charge workshop** presented by the National Institute of Standards and Technology (NIST) with the support of the FBI and the SBA.

You will learn:

- How to define information security
- Common best practices to protect your data

You will hear:

- Examples of common types of threats
- A basic explanation of current technologies
- About free resources available to you to protect your business

Presented by Richard Kissel of the NIST

Richard writes information security guidelines for Federal agencies and has worked in the information security profession for over 20 years. He is a nationally recognized expert in computer security and is a Senior Information Security Analyst for the National Institute of Standards and Technology in Gaithersburg, MD. Prior to joining NIST in 2001, Richard worked as an Information Security Analyst in the Computer Security Office at the Small Business Administration and holds a B.S. and M.A. in Mathematics from Austin Peay State University. Richard's Information Security certifications include: Certified Information Systems Security Professional (CISSP), Certified Information Security Manager (CISM), and the National Security Agency certification in Infosec Assessment Methodology (IAM). For the past 6 years he has planned and conducted information security workshops for small business owners/operators across the country.

The support given by SBA, NIST and InfraGard to this activity does not constitute an express or implied endorsement of any cosponsor's or participant's opinions, products or services. All SBA, NIST and InfraGard programs are extended to the public on a nondiscriminatory basis. Reasonable arrangements for persons with disabilities will be made if requested at least two weeks in advance. Contact Richard Kissel at rkissel@nist.gov for assistance
