

information to verify the identity of the requester, and (4) any other information that may assist in the rapid identification of the record for which access is being requested.

RECORD ACCESS PROCEDURES:

Same as "Notification procedures" above.

CONTESTING RECORD PROCEDURE:

Same as "Notification procedures" above except that the envelope should be clearly marked "Privacy Act Amendment Request." The request for amendment of a record should: (1) Identify the system of records containing the record for which amendment is requested, (2) specify the portion of that record requested to be amended, and (3) describe the nature of and reasons for each requested amendment.

RECORD SOURCE CATEGORIES:

Information is provided by the individual to whom the record pertains, employees of the Board and the Federal

Reserve System, other government employees, and witnesses and informants.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

Certain portions of this system of records may be exempt from 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H), and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a(k)(5).

By order of the Board of Governors of the Federal Reserve System, April 30, 2008.

Jennifer J. Johnson,

Secretary of the Board.

BILLING CODE 6210-01-P

FEDERAL TRADE COMMISSION

Granting of Request for Early Termination of the Waiting Period Under the Premerger Notification Rules

Section 7A of the Clayton Act, 15 U.S.C. 18a, as added by Title II of the

Hart-Scott-Rodino Antitrust Improvements Act of 1976, requires persons contemplating certain mergers or acquisitions to give the Federal Trade Commission and the Assistant Attorney General advance notice and to wait designated periods before consummation of such plans. Section 7A(b)(2) of the Act permits the agencies, in individual cases, to terminate this waiting period prior to its expiration and requires that notice of this action be published in the **Federal Register**.

The following transactions were granted early termination of the waiting period provided by law and the premerger notification rules. The grants were made by the Federal Trade Commission and the Assistant Attorney General for the Antitrust Division of the Department of Justice. Neither agency intends to take any action with respect to these proposed acquisitions during the applicable waiting period.

BILLING CODE 6750-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

Findings of Scientific Misconduct

AGENCY: Office of the Secretary, HHS.

ACTION: Notice.

SUMMARY: Notice is hereby given that the Office of Research Integrity (ORI) and the Assistant Secretary for Health have taken final action in the following case:

Lois Bartsch, Ph.D., University of Nebraska Medical Center: Based on the report of an investigation conducted by the University of Nebraska Medical Center (UNMC) and additional analysis conducted by the Office of Research Integrity (ORI) during its oversight review, the U.S. Public Health Service (PHS) found that Lois Bartsch, Ph.D., former postdoctoral research trainee, Department of Genetics, Cell Biology, and Anatomy, UNMC, engaged in scientific misconduct in research supported by National Cancer Institute (NCI), National Institutes of Health (NIH), grants P30 CA36727 and R01 CA77876 and National Center for Research Resources (NCRR), NIH, grant P20 RR016469.

Specifically, PHS found that Dr. Bartsch:

- Falsified DNA sequence files by deleting a nucleotide and changing nucleotide designations and reported the altered file as the ACI rat *p16Cdkn2a* sequence with a CpG dinucleotide polymorphism in the upstream region to GenBank, in grant application CA118151, and in the poster presented to Cold Spring Harbor Laboratory (CSHL);

- Fabricated the claim in grant application CA118151 that GenBank entries for the human *p16Cdkn2a* gene had a CpG polymorphism near the transcription start site;

- Falsified the differential methylation of CpG dinucleotides near the transcription start site of *p16Cdkn2a* DNA and reported that tumor tissue was more methylated than normal tissue in ACI rats treated with estrogen and that the ACI allele was more methylated than the BN allele in tumor tissue from (BN × ACI)_{F1} animals treated with estrogen in grant application CA118151.
