One-on-One Consulting

- » At The Success Team we understand that the best way to learn is to have someone teach you. Our personalized training program allows you to work at your own pace with a coach who will customize every step to suit your capabilities and maximize your success. Your coach is a business-development professional with years of experience and education who will mentor you as you set goals, plan your business, build your website, find suppliers, and set your e-business in motion. As you communicate with your coach regularly in phone sessions, you can ask questions, request additional tutoring, and brainstorm ideas together. Our coaches are not only experienced businesspeople themselves, but also proficient teachers who have helped hundreds of people find success in their own e-commerce ventures.

FLS Web Builder

- » The **FLS Web Builder** is a tool that allows our clients to build their own website, saving them thousands of dollars in web design and website maintenance. The Builder is simple to use; anyone who can type and letter and click a mouse can build their own custom website. You choose from over 1,600 templates, and with the help of your coach, customize your website to market your products in the most attractive and effective way possible. You also receive 5 email accounts, your own domain name, and a library with thousands of images, besides access to full-time technical support and the video learning center. The ability to add additional websites, combined with unlimited bandwidth and 50 MB of disk space, ensures that as your business grows, your websites can too.

WebinarPro (Daily Web Conferences)

- » WebinarPro is a system of live, online tutorials. They are totally interactive, allowing the customer to speak and type messages to the presenter throughout the tutorial. In essence, the webinars are a virtual classroom, using live-polling, question and answer sessions, screen-sharing, and live-browsing to allow full participation between audience and presenter. Each presenter is uniquely qualified in his/her area of presentation, possessing credentials as lawyers, accountants, MBAs, successful entrepreneurs, and so forth. You can choose your webinars from a dozens of dates and times each month, the tutorials varying from 45-60 minutes long to fit your schedule. Each WebinarPro presentation is recorded and stored in the web-conference platform so you can access any classes you miss at your convenience.
-

Virtual Learning Center

- » As part of their training, we give our clients access to the Virtual Learning Center. This center can be accessed 24 hours a day, 7 days a week, from anywhere in the world. The Virtual Learning Center includes a variety of training programs: web-conferences, training videos, articles, business resources, and much more. The Virtual Learning Center materials are updated regularly with the latest industry news and e-business developments. Full and convenient access aids our clients in customizing their own education program, learning at their own pace, and reviewing any and all topics on which they need additional assistance.
-

eBay Tools

- » The Success Team's eBay tools allow clients to research eBay listings quickly and easily. Selling on eBay is an art and a science: while the Virtual Learning Center instructs you on choosing your products and formatting your posts, the eBay tools provide the science of how and when to sell. The tools tell you how much a particular product is selling for, what the best day and time to post is, and the optimum duration of your listing. With this precise information, you are able to sell products for the most amount of money in the least amount of time. The tools take the guesswork out of eBay.
-

Product Suppliers

- » One of the most difficult parts of selling products online is finding reliable suppliers who will provide products at low prices. Without a sufficient profit margin, it doesn't matter how many products you sell, your business won't be successful. The Success Team has access to over 1,200 of the best dropshippers and wholesalers in the business, suppliers we have worked with for years, who will dropship products sold on your website. We provide you direct access to these suppliers so you can build relationships and negotiate the best rates. With no middleman standing between you and the supplier, you can get your products at the cheapest price and sell them for the greatest profit.

"You can really have it all. I was quickly able to build a fully functional commercial web site using the easy-to-use templates with Slide Shows, Image Maps, Fully Functional Search Engine, Pay Pal Shopping Cart and more! Highly Recommended. Tremendous Value. Superb, Knowledgeable Technical Support."

Kevin Lawrence
Business Success Coach

"Great Service, Great Product, Great People, Great Price. You guys are more than a service, you're a part of my team!"

Chris Alwell
New Website Owner

"Just wanted to tell you that I am VERY happy with the way my site is coming along. Everyone who's seen it just raves about how great it is compared to other, weak and bland personal webpages. Your builder allows me (the biggest computer idiot) to do all kinds of fun stuff with it

and it's all really easy to figure out b/c of your clear and helpful instructions! You guys are wonderful and I just wanted to say how happy I am that I went with you!"

Fran Greicius
Plant / Garden Site

"Your customer service delivers timely, accurate responses with a cheerful, friendly tone. No techno-babble here - just answers in real English! What a dynamite adjunct to your extremely powerful and user- friendly web site builder. "

Benjamin Mokey
Informed Buyer

"I would like to say thanks to you and all of your staff for helping people like me that don't have any idea about creating a website. The tools are amazing,easy to use and most importantly they are easy to understand. Also the help your technical support offer are the best because they are about what you need not about making you trying to find things on your own .I have never created a website before, I've tried tons of other website promoters out there and none of them make it this easy , you guys rock big time."

Connie McClure

"Hello, I would like to say that I am VERY IMPRESSED with your company. I am a complete newbie when it comes to anything about creating websites, but needed one for my art business. Your company's format made it incredibly easy for even me - to put together a very nice site, that I've had many great comments on. I would especially like to thank your "support staff" - as I had to contact them at least 10 times for answers to things that I just didn't understand (being a newbie). They got back to me almost immediately and solved all my problems cheerfully - without making me feel stupid. I will most certainly recommend your site to everyone that I know that is interested in putting together a professional website without any hassles. Thank you for making it so easy. Feel free to give out my website address to anyone who would like any further information and I would be very happy to talk to them. Thanks again."

Kevin Lake
Entrepreneur

"After 6 months and \$1,500 working with a Major Bank Ecommerce solution. I did better myself within a weekend @ a savings of 80% a year! I am now working on 2 more sites!!"

Richard Hawkes
WebMaster

"I have spent 3 evenings checking out web builders. Yours is the top of the line. It is concise and clear, I love the bordered text, etc. Thanks again and i am anxious to get on with it. Thanx again. Rich."

David Chalk
TV Computer Expert
Chalk TV

"Enables you to make your own website and there's no need for you to know any programming what so ever."

"One of the most powerful ways to create a professional looking website "

"A powerful site like this can help your business grow and be more profitable "

"With a click of a button you can add great features to give your site a professional look"

Gerod Floyd
Contractor

"My staff laughed when I told them I was going to make our company website myself, but you should have seen their faces when it was done!"

Janet Nixon
Accountant

"The websites are Idiot Proof. I just entered my text, picked my features and my site was magically done. No Problem!"

Garfield McCormick
Website Usability Expert

"I don't know why everyone does not do it this way, these websites are great and very effective!"

Robert Jacobson
Online Sales

"I just want to tell you how great your website builder is. Yours is the most logical and easiest to use. Then I get the message from you offering more help. I must be in heaven!"

Penny
WebMaster

"Great stuff:
Your staff could teach some of these other guys a thing or two about customer service! Thanks again."

Bev
Non Programmer

"I am a new client and I have really appreciated all the extra TLC (No programming knowledge here either) on helping me get my website up and running. I started out with another provider and I was having to try and learn HTML etc. The other provider was very inexpensive and I had no problems with their up time. I just needed cheap and easy website startup. I have found that your builder is more than helpful in trying to assist their clients individual website needs."

Robert
Electronics Retailer

"I have been using and getting great service with you. The uptime is great, and my company email service is superb. Never once have I lost any message. Which is very important with my business operation. The best thing about your builder is how easy it is for a normal person without any HTML training to control, modify, upload, and change as required. It makes you look good, but better yet, your web page presentation looks good too.

I had my company web page hosted by some other company and I was always having problems with them. Since I moved it to your builder, never once. They had made a few upgrades to the system and implemented new features that makes me a happier customer."

Rev. Cathy Shackelford
Church Site

"Thank you so much for helping our Ministries. I appreciate you and just wanted to say thank you and may the Lord Jesus Christ bless you abundantly. Thank You Again."

Penny I.
Ecommerce Marketing
Center

"You have exceeded my expectations with your templates and the point and click technology. We were up and on the Internet in no time at all. Much easier than Front Page 2000, which was expensive and difficult to read and comprehend. Front Page was written by Computer Science grads for Computer Science grads. Your builder was designed for the rest of us.

Karen Colasinski
Head of a \$5M
Food & Beverage
Department

"I only want to tell you how VERY IMPRESSED and THANKFUL I am for your support network!
Your customer service attitude online is better than many, many service providers of any kind I've encountered in

their actual presence!

Keep up the good work! I will most certainly be recommending you at every opportunity!"

Darren Strudwick

"I just have to say that you guys are brilliant. Everytime I ask a question you reply straight away. I think the service you provide is very good keep it up!"

"Your builder is by far the best website building service I have come across. Not only do you offer every feature for a website that anyone could ever need but your service is so easy to use and even if your customers can't get to grips with it, the technical support is excellent. I have got several websites and I know if I was to have gone elsewhere to get them built the cost would have been too high. So if YOU want to save a fortune by designing your own website yourself but you don't know how to go about it then you've got to give this a try!"

Terry Hibdon
Allstar Stores

"I would like to thank you for the great new added features you have added and all the complete support, that I have personally received in setting up my web pages. I know you all work very hard and it shows. I have and will advertise and recommend your company to everyone who may want a web site hosting company. You offer the best personal support of any company that I know of. Again THANK YOU ALL and God Bless each and everyone."

Dale Franz

"I have worked with other 'free-lance' web designers when putting together previous websites, and was apprehensive to use someone that I wasn't familiar with. To my delight, you created a unique and imaginative website for my cosmetics business. This was the easiest way to get identity on the web."
