

American Driver and Traffic Safety Education Association

1434 Trim Tree Road • Indiana • PA 15701

877-485-7172

The ADTSEA Executive Committee approves the following resolution:

ADTSEA strongly encourages NHTSA to develop and implement a Driver Education/Training Assessment that will use the National Standards as a basis for evaluating state driver education programs.

We support the Stakeholders Association working in cooperation with NHTSA to better define and enhance the Association's and the individual stakeholder's role in two specific areas:

1. The development of a cadre of qualified individuals from our membership who can serve on assessment teams.
2. The development of the assessment tools, written guidelines and other materials that will be necessary to conduct useful and effective assessments.
