INTERNATIONAL DONOR ASSISTANCE TO THE GOI

Donor assistance to the GOI includes bilateral and multilateral development assistance in loans and grants. As of December 31, 2010, the Department of State (DoS) reported \$18.02 billion in total donor pledges, including \$5.26 billion in grants

and \$12.77 billion in loans.¹ Donor commitments totaled \$13.01 billion—\$6.51 billion in grants and \$6.50 billion in loans.² This quarter, total commitments increased roughly \$1.00 billion (8%).³ The IMF made an additional \$741 million available for

disbursement.⁴ Also contributing to the increase were the announcement of the European Commission's Iraq assistance budget of \$124 million as well as upward revisions of assistance amounts from both Sweden (\$102 million) and Italy (\$133 million). Iran increased its commitments by \$50 million during the quarter.⁵ For an overview of bilateral and multilateral development assistance, see Figure C.1.

Bilateral Development Assistance

As of December 31, 2010, \$8.60 billion in bilateral assistance had been committed to Iraq.⁶ The largest international (non-U.S.) donors include Japan, which has committed \$4.49 billion through grants and loans, and the European Commission (EC), which has committed \$0.84 billion through grants.⁷

Multilateral Development Assistance

As of December 31, 2010, \$4.42 billion in multilateral assistance has been committed to Iraq. Multilateral development assistance includes loan commitments and pledges from the World Bank, International Monetary Fund (IMF), and Islamic Development Bank (IDB), as well as the International Reconstruction Fund Facility for Iraq (IRFFI) grants funded by donor deposits.⁸

International Reconstruction Fund Facility for Iraq

The IRFFI was launched in 2004 to help donor nations channel their resources and coordinate support for reconstruction and development in Iraq. The facility comprises the World Bank Iraq Trust Fund (WB ITF) and the United Nations Development Group Iraq Trust Fund (UNDG ITF). No new IRFFI projects will begin after the end of 2010; project completions and disbursements are to take place no later than December 31, 2013.⁹ As of

December 31, 2010, 25 IRFFI donors, including the United States, had committed \$1.86 billion for Iraq reconstruction.¹⁰ The largest IRFFI contributors are the European Commission (\$774 million in IRFFI deposits), Japan (\$492 million), and the United Kingdom (\$127 million).¹¹

International Monetary Fund

On October 1, 2010, the IMF completed the first review of Iraq's economic performance under the IMF's 24-month Stand-By Arrangement with Iraq, making an additional \$741 million available for disbursement.¹² As of December 31, 2010, the IMF has made a total of \$1.67 billion available to Iraq.¹³

World Bank

The World Bank funds several programs to support the GOI in addressing reconstruction needs:

- restoring basic services
- supporting private-sector development
- enhancing social safety nets
- improving public-sector governance

This support for Iraq reconstruction is funded primarily through the World Bank Iraq Trust Fund. WB ITF commitments to the IRFFI total \$497 million.¹⁴ The cutoff date for donor's contributions for the WB ITF was December 31, 2008, and donors have agreed to terminate the fund on December 31, 2013. By this deadline, all WB ITF funding must be disbursed, and all projects will be completed.¹⁵ As of November 30, 2010, the WB ITF has financed 24 projects, five of which have been fully implemented and closed. The remaining 19 projects are currently under implementation.¹⁶

The World Bank has provided assistance to Iraq to develop social services through its International Development Association (IDA). Five IDA loans have been approved for Iraq, totaling \$508.5 million.¹⁷ For the status of these projects, see Table C.1.

United Nations

UNDG ITF commitments to the IRFFI total \$1.36 billion.¹⁸ The UNDG ITF has approved 201

PROJECT NAME	PROJECT AMOUNT	APPROVAL DATE	IMPLEMENTING AGENCY	DESCRIPTION	STATUS
Third Emergency Education	\$100.0	11/2005	Ministry of Education	Assists the Ministry of Electricity through reducing school overcrowding and strengthening its capacity to improve the quality of teaching and curricula.	The Bank's Board approved project restructuring in June 2009. The project will now support educational infrastructure (school construction), institutional strengthening (teacher training and curricula development), and project management.
Emergency Road Reconstruction	\$135.0	6/2006	Ministry of Construction & Housing	Assists in the rehabilitation of highways and village access roads in central, northern, and southern Iraq. Three floating bridges will also be replaced with permanent structures.	The pace of implementation in the central and southern provinces is expected to improve once the Umm Qasr–al-Zubair highway contract is awarded. Components in the northern provinces are open to traffic.
Dokan and Derbandikhan Hydropower	\$40.0	12/2006	KRG Ministry of Electricity	The plan aims to upgrade electricity supply in the Kurdistan region and the national grid. The project will directly impact an estimated 490,000 households and benefit industrial consumers.	\$37 million has been obligated and \$9.5 million has been disbursed. The credit was extended through September 2012, and additional financing will be required.
Emergency Electricity	\$124.0	3/2007	Ministry of Electricity	Aims to restore the base-load generating capacity of the Hartha power plant and build capacity at the Ministry of Electricity.	A contract to rehabilitate the Hartha power plant was signed in April 2009. The main contract commits the entire IDA credit. The World Bank has extended the closing date for this credit to June 2014.
Emergency Water Supply	\$109.5	6/2008	Ministry of Municipalities and Public Works	Intends to improve the quantity and quality of water availability in four high-priority provinces. Assists the GOI on developing a sustainable policy for the water sector.	Roughly \$75 million has been committed while three more works packages and two consultancy services are yet to be tendered. These additional services would commit another \$32 million.

projects.¹⁹ The cutoff date for donor contributions for the UNDG ITF was June 30, 2009; any funds that were not committed to a specific project by December 31, 2010, would be returned.²⁰ To meet this requirement, the UN agreed that no new projects would be approved after June 30, 2010.²¹ The remaining UN funds were deposited in the UN's general Multilateral Donor Trust Fund and will go to support activities overseen by the UN Assistance Mission for Iraq (UNAMI).²²

Sources for International Donor Information

SIGIR continues to note the challenges in reporting on international contributions to Iraq reconstruction. As Iraq shifts to normalized relations with the international community, the United States is less able to track international funding. Efforts by

international donors now focus on helping Iraq sustain its progress. While some donors continue to support Iraq with technical assistance, economic development projects, and project financing, others are focusing on building relationships based on conventional trade and investment.²³ The Department of State's Bureau of Near Eastern Affairs-Iraq (NEA-I) does not expect substantial additional increases in donor commitments for Iraq reconstruction.²⁴

Department of State

NEA-I provides SIGIR with quarterly updates on international pledge and commitment figures from donor countries and international organizations.

of Planning. The system is a comprehensive, web-based application that manages government and donor-funded development projects in Iraq. The IDMS system now hosts the Development Assistance Database (DAD).²⁵

The Development Assistance Database (DAD) was established to serve as a reliable and credible source of information on donor contributions for the reconstruction, economic recovery, and socio-economic development of Iraq.²⁶ However, there is no standard reporting requirement for donors to provide data and no set time frame for updates to the DAD to be completed. Thus, comparing DoS donor pledge figures to data available in the DAD does not provide an accurate or complete picture of the status of donor support.

As of January 16, 2011, the DAD reported total commitments of \$6.03 billion and disbursements of \$3.02 billion.²⁷ For an overview of Iraqi donor spending reported in the DAD, see Table C.2 and Table C.3.

DETAILED SUMMARY OF OTHER AGENCY OVERSIGHT

This appendix provides summaries of the audits listed in Section 6. All information provided is current, as of December 31, 2010.

Defense Contract Audit Agency

The services of the Defense Contract Audit Agency (DCAA) include professional advice to acquisition officials on accounting and financial matters to assist them in the negotiation, award, administration, and settlement of contracts.

In addition to DCAA's involvement in the negotiation and award of contracts, significant resources are also dedicated to overseeing the allowability,

allocability, and reasonableness of incurred and billed costs. Procedures that govern the costs incurred in-country are also tested through reviews of contractor timekeeping, subcontract management, and cash management/disbursement. Finally, to ensure that adequate internal controls are in place regarding the contractor's policies and procedures, DCAA performs audits associated with critical internal control systems, with an emphasis on estimating, subcontract management, and billing systems.

DCAA plans and performs work on a fiscal year basis. Table F.1 shows both the Iraq-related audits closed during FY 2010 and the audits closed and still open in FY 2011 (as of December 31, 2010).

Defense Criminal Investigative Service

DCIS continues to conduct criminal investigations in support of DoD Overseas Contingency Operation efforts through investigative resources in Southwest Asia; Wiesbaden, Germany; and continental U.S. task force investigations focusing on public corruption and fraud in the Southwest Asia theater. In conjunction with DoD OIG's renewed emphasis on oversight of spending related to Iraqi development, DCIS has continued to deploy special agents to Iraq, Kuwait, and Afghanistan to conduct criminal investigations in support of DoD operations. Six-month rotational details to Iraq and Kuwait commenced in September 2006. Six-month rotations to Afghanistan commenced in 2008. As of January 3, 2011, DCIS has deployed 6 special agents and one administrative staff member to Iraq, 1 special agent to Kuwait, and 8 special agents to Afghanistan.

Open Cases

DCIS currently has 46 open investigations being worked jointly with SIGIR, including four projects. Five cases were closed during this period.

Department of Defense Office of Inspector General

DoD continues to face many challenges in executing its Overseas Contingency Operations (OCO). The Department of Defense Office of Inspector General (DoD OIG) has identified priorities based on those challenges and high-risks and has

responded by expanding coverage of OCO operations and its presence in Southwest Asia. As the Department continues its OCO, such as Operations New Dawn and Enduring Freedom, DoD OIG plans to stay focused on issues important to accomplish the mission and ensure that the Department makes efficient use of its resources to support the warfighter.

The DoD OIG-led Southwest Asia Joint Planning Group coordinates and deconflicts federal and DoD OCO-related oversight activities. The Group held its fifteenth meeting in November 2010.

Completed Oversight Reports

Contract Oversight of the Broad Area Maritime Surveillance Contract Needs Improvement

(D-2011-028, ISSUED DECEMBER 23, 2010)

The Navy and Defense Contract Management Agency (DCMA) officials need to improve the management and administration of the Broad Area Maritime Surveillance (BAMS) contract. Specifically, BAMS contracting officials did not review 39 contractor bills or validate whether the BAMS contractor was entitled to \$329.3 million in payments, create or maintain a complete government-furnished property listing, or properly plan to share more than 5,000 specialized tools and testing equipment, worth more than \$150 million, with the Air Force Global Hawk program. These conditions occurred because BAMS contracting officials did not properly perform all of their assigned duties, comply with federal and DoD policies, or complete necessary training requirements. As a result, the BAMS program is at risk for

increased costs, schedule delays, and not meeting the needs of the warfighter. Based on DoD OIG's inquiries, Northrop Grumman reduced costs on the BAMS contract by \$206,000 for unallowable travel expenses.

DCMA officials did not develop a complete quality assurance surveillance plan, perform any contractor inspections to validate the contractor's performance or the \$329.3 million paid, re-validate outdated and previously acquired Earned Value Management (EVM) systems from 1975 and 1978, or perform the necessary surveillance of the BAMS subcontractors' EVM systems. These conditions occurred because DCMA officials did not complete their assigned duties or comply with EVM guidance. As a result, contract quality requirements may not be met and Navy and Office of the Secretary of Defense acquisition officials made decisions based on contractor EVM systems that may not be fully reliable.

Live Fire Testing of Light Tactical Wheeled Vehicles was Effective for the Portions Completed

(D-2011-019, ISSUED NOVEMBER 24, 2010)

The U.S. Army Test and Evaluation Command's (ATEC) live fire testing of the up-armored HMMWV was effective for the portions completed. Specifically, ATEC planned a live fire test strategy for the HMMWV program that identified required documents needed to determine system and crew survivability. ATEC provided the required live fire planning documents to the Office of the Director, Operational Test and Evaluation, for approval and ATEC executed tests in accordance with the approved live fire test plans. ATEC has not yet completed the up-armored HMMWV live fire test and evaluation report but will provide it, upon completion, for the Director, Operational Test and Evaluation's evaluation of the up-armored HMMWV live fire test and evaluation.

In addition, the Office of the Director, Operational Test and Evaluation's live fire test and evaluation oversight of the Army's up-armored

HMMWV was effective for the portions of the oversight process completed. Specifically, the Director, Operational Test and Evaluation, placed the up-armored HMMWV on the Office of the Secretary of Defense Test and Evaluation Oversight List in 2006 for live fire oversight and has reviewed, as required, the Army's up-armored HMMWV live fire test planning documents.

Assessment of U.S. Government Efforts to Develop the Logistics Sustainment Capability of the Iraq Security Forces

(SPO-2011-001, ISSUED NOVEMBER 17, 2010)

DoD OIG issued its ninth in a series of reports published by the Office of Inspector General's Special Plans and Operations Directorate that focus on the train and equip missions in Iraq, Afghanistan, and Pakistan. DoD OIG found that considerable progress has been made since its previous report that addressed this requirement, issued on December 19, 2008. Nonetheless, there remains a significant gap between the Minimum Essential Capabilities that USF-I has defined as constituting the crucial foundation of a sustainable Iraq Security Forces logistical system and its current capability. To close this capability shortfall in the relatively brief time remaining to USF-I will require an intensified effort that would appear to be beyond USF-I's on-the-ground forces' resource capability. Additional subject matter expertise support from DoD and its supporting logistics organizations probably will be required to accomplish the mission with respect to building Iraq Security Forces logistical capacity. This requirement could be accentuated if DoD does not receive the additional Iraq Security Forces Funds requested for FY 2010 and FY 2011, fiscal resources identified in a previous report as important to USF-I in order for it to provide the required training, mentoring and equipping assistance.

Weaknesses in Awarding Fees for the Broad Area Maritime Surveillance Contract

(D-2011-014, ISSUED NOVEMBER 2, 2010)

Broad Area Maritime Surveillance (BAMS) program officials did not create a proper award fee plan, or justify \$4.1 million in fees paid and the use of about \$1 million in rollover fees. Further, the BAMS contracting officer did not justify the use of a cost-plus-award-fee contract. These conditions occurred because the BAMS contracting officer did not perform his duties, and program officials were unaware of cost-plus-award-fee contract criteria and did not follow the award fee plan or applicable award fee guidance. As a result, the BAMS contracting officer and fee determining official may have erroneously paid up to \$4.1 million in fees to the contractor. By improving the award fee process, BAMS officials can mitigate the risk of erroneously paying as much as \$87.3 million for future award fees.

the body armor contracts. DoD OIG issued Report D-2010-029 on December 21, 2009, discussing the contract award of DoD body armor contracts. DoD OIG plans to issue additional reports related to this project.

Internal Controls and Data Reliability in the Deployable Disbursing System

(PROJECT NO. D2007-D000FL-0252.000, INITIATED AUGUST 31, 2007)

The overall objective is to determine whether the internal controls over transactions processed through the Deployable Disbursing System are adequate to ensure the reliability of the data processed. The audit series plans to include financial information processed by disbursing stations supporting the Global War on Terror and plans to also follow up on "Internal Controls Over Out-of-Country Payments," (Project No. D2006-D000FL-0208.000). The first report, D-2009-054, addresses U.S. Marine Corps (USMC) processed disbursement transactions that contain classified information into unclassified DoD systems. The second report, D-2010-037, addresses USMC commercial and miscellaneous payments processed through the Deployable Disbursing System. The third report, D-2010-038, addresses the identification of classified information in an unclassified DoD system and an unsecured DoD facility.

Displaced Iraqis: Integrated International Strategy Needed to Reintegrate Iraq's Internally Displaced and Returning Refugees

(GAO-11-1204, ISSUED DECEMBER 2, 2010)

The estimated number of Iraqis who have been internally displaced since February 2006 is about 1.6 million, and numerous Iraqis are in neighboring countries. Several issues impede the return and reintegration of displaced Iraqis. Although the overall security situation in Iraq has improved since 2006, the actual and perceived threat across governorates and neighborhoods continues to impede Iraqi returns and reintegration. Problems in securing property restitution or compensation and shelter have made it difficult to return and reintegrate. The international community has taken action to address the impediments that displaced Iraqis face, but the extent to which these efforts will result in reintegration of displaced Iraqis is uncertain. The Iraqi government has initiated efforts to encourage returns and reintegration. However, progress in this area has been limited due to insufficient commitment and capacity, according to international and U.S. officials. Iraq, the United States, and other members of the international community do not have an integrated international strategy for the reintegration of displaced Iraqis. GAO recommends that the Secretary of State and the USAID Administrator assist Iraq in developing an effective integrated international strategy for reintegrating displaced Iraqis.

DoD Should Improve Adherence to Its Guidance on Open Pit Burning and Solid Waste Management

(GAO-11-63, ISSUED OCTOBER 15, 2010)

From the start of military operations in Afghanistan and Iraq, the U.S. military and its contractors

have burned solid waste in open burn pits on or near military bases. The military and operators of burn pits have not always followed relevant guidance to protect servicemembers from exposure to harmful emissions. According to DoD, U.S. military operations in Afghanistan and Iraq generate about 10 pounds of solid waste per soldier each day. The military has relied on open pit burning to dispose of this waste mainly because of its expedience. In August 2010, CENTCOM estimated there were 251 burn pits in Afghanistan and 22 in Iraq. CENTCOM officials said the number of burn pits is increasing in Afghanistan and decreasing in Iraq, which reflects U.S. troop reallocations and efforts to install waste incinerators. Despite its reliance on burn pits, CENTCOM did not issue comprehensive burn pit guidance until 2009. Furthermore, to varying degrees, operators of burn pits at four bases GAO visited in Iraq were not complying with key elements of this guidance, such as restrictions on the burning of items, including plastic, that produce harmful emissions. DoD and VA have commissioned studies to enhance their understanding of burn pit emissions, but the lack of data on emissions specific to burn pits and related exposures limit efforts to characterize potential health impacts on service personnel, contractors, and host-country nationals. Among other things, GAO recommends that the Secretary of Defense improve DoD's adherence to relevant guidance on burn pit operations and waste management, and analyze alternatives to its current practices.

Iraq and Afghanistan: DoD, State, and USAID Face Continued Challenges in Tracking Contracts, Assistance Instruments, and Associated Personnel

(GAO-11-1, ISSUED OCTOBER 1, 2010)

DoD, State, and USAID have relied extensively on contracts, grants, and cooperative agreements for a wide range of services in Afghanistan and Iraq. However, as GAO previously reported, the agencies have faced challenges in obtaining sufficient information to manage these contracts and

assistance instruments. While the three agencies designated SPOT as their system for tracking statutorily required information in July 2008, SPOT still cannot reliably track information on contracts, assistance instruments, and associated personnel in Iraq or Afghanistan. The agencies' implementation of SPOT has been affected by some practical and technical issues, but their efforts also were undermined by a lack of agreement on how to proceed, particularly on how to track local nationals working under contracts or assistance instruments. In 2009, GAO reported on many of these issues and recommended that the agencies jointly develop a plan to improve SPOT's implementation. While DoD and State did not comment on the draft report, USAID commented on the challenges of implementing SPOT and provided revised personnel data that GAO reviewed and included in the report. In response to GAO's 2009 report, DoD, State, and USAID did not agree with the recommendation to develop a plan for implementing SPOT because they felt ongoing coordination efforts were sufficient. GAO continues to believe a plan is needed to correct SPOT's shortcomings and is not making any new recommendations.

Ongoing Oversight Activities

Marine Corps Equipping Strategies to Reset Equipment Returning from Iraq and Afghanistan

(PROJECT NO. 351552,

INITIATED OCTOBER 21, 2010)

GAO will review the extent to which:

- The Marine Corps has a strategy in place to manage the reset of ground and aviation equipment returning from Iraq and Afghanistan.
- The Marine Corps strategy for resetting equipment is aligned with the Marine Corps plan for force modernization.
- The Marine Corps is able to determine the total reset costs for equipment used in operations in Iraq and Afghanistan.

- The Marine Corps budget request from FY 2009–2012 for equipment reset is consistent with budget guidance.

Army's Strategies to Reset Non-Standard Equipment Returning from Iraq

(PROJECT NO. 351559,
INITIATED OCTOBER 8, 2010)

GAO's key questions are:

- To what extent does the Army have processes and procedures for disposal, reuse, or reset of non-standard equipment returning from the theater?
- To what extent are the depots to which this equipment is returned receiving timely and accurate information on the amount and condition of equipment returning from the theater in order to plan and prepare for the expected workload?

DoD Task Force on Business

(PROJECT NO. 351525,
INITIATED AUGUST 2, 2010)

The Task Force for Business and Stability Operations (TFBSO) mission is to reduce violence, enhance stability, and restore economic normalcy in areas where unrest and insurgency have created an environment of economic hardship and violence. This review focuses on four key questions:

- To what extent has the mission of the Task Force changed since 2006, and has DoD developed plans to institutionalize the Task Force's mission and expand its scope to other countries?
- To what extent has DoD evaluated the Task Force's activities, including establishing goals and metrics to measure outcomes?
- To what extent does the Task Force coordinate its activities with other programs?
- To what extent are the task force's activities similar or dissimilar to other programs, and do opportunities exist to achieve greater efficiencies among programs?

Army Advise and Assist Brigades

(PROJECT NO. 351514, INITIATED JUNE 14, 2010)

The Army is augmenting certain brigade combat teams with additional leaders to advise and assist Iraqi and Afghan security forces. Previously, the Army had created teams of individual leaders, operating separately from brigade combat teams, for this mission. GAO's key questions are:

- To what extent has the Army defined the roles and missions of augmented brigade combat teams?
- To what extent has the Army defined the training and resourcing requirements for augmented brigade combat teams, and to what extent have the Army and DoD assessed their use for security force assistance?
- To what extent has the Army been able to fill the requirements for augmented brigade combat teams, and what impacts, if any, is this having on reported Army readiness?

DoD Iraq Drawdown Planning

(PROJECT NO. 351476, INITIATED APRIL 2010)

This review focuses on four key questions:

- To what extent have DoD's retrograde processes and IT systems ensured the accountability, visibility, and timely disposition of equipment?
- To what extent has DoD planned for and begun to execute the tasks necessary to draw down the remaining U.S. military personnel and equipment from Iraq between September 1, 2010, and December 31, 2011?
- To what extent has DoD met its goal of increasing the proportion of local national contractors performing work in Iraq and ensured adequate oversight?
- What other factors may impact DoD's ability to effectively and efficiently complete the withdrawal of forces and equipment, and what contingency plans does the department have in place?

Army's Equipping Strategies to Reset Equipment Returning from Iraq

(PROJECT NO. 351431, INITIATED JANUARY 7, 2010)

GAO's key questions are:

- To what extent does the Army prioritize equipment for reset?
- To what extent are the annual depot reset requirements consistent with budget requests?

U.S. Strategy and Joint Campaign Plan for Iraq

(PROJECT NO. 320734, INITIATED NOVEMBER 2009)

GAO's key questions are:

- To what extent does the 2010 Joint Campaign Plan for Iraq include key planning elements called for by military doctrine for campaign planning as defined by Joint Publication 5-0?
- What are the current conditions and projected needs for the security situation in Iraq and the capability of the Iraqi Security Forces?
- To what extent have the Departments of Defense and State developed plans to address risks to the campaign?

DoD Medical Wartime Personnel Requirements

(PROJECT NO. 351393, INITIATED AUGUST 2009)

DoD's military health care professionals are needed to support combat contingency operations to treat injured military personnel and save lives. This review will focus on three key questions:

- To what extent have DoD and the services identified their wartime health care personnel requirements?
- What challenges, if any, are DoD and the services encountering in meeting their wartime health care personnel requirements?
- To what extent do DoD and the services have or use the tools they need to meet their wartime health care personnel requirements?

Close-out of Iraq Contracts

(PROJECT NO. 120931, INITIATED JULY 2009)

Since 2003, DoD awarded more than 80,000 contracts worth tens of billions of dollars to support post-conflict reconstruction and stability efforts.

GAO's key questions are:

- What is the number and value of contracts to be closed-out in Iraq, and to what extent does DoD have the resources to close-out these contracts in a timely manner?
- To what extent has the Department established procedures to ensure that the contractors' costs are allowable, allocable, and reasonable?
- To what extent has DoD established a process to identify and disseminate lessons learned during the contract close-out process to help improve further acquisition efforts?

U.S. Army Audit Agency

As of December 31, 2010, USAAA had 7 auditors deployed to Southwest Asia, all located in Afghanistan. By early January 2011, USAAA anticipates 29 deployed auditors: 5 in Iraq, 16 in Afghanistan, and 8 in Kuwait.

Completed Oversight Reports

Container Management in Iraq—Condition and Contents

(A-2011-0047-ALL, ISSUED DECEMBER 22, 2010)

USAAA performed the audit at the request of the Multi-National Corps-Iraq, now the United States Forces-Iraq. The audit addressed the effectiveness of container management operations and procedures in support of the U.S. forces draw-down in Iraq and was done as part of an overall review of container management operations in Iraq. Although command established policies and procedures to identify, inspect, and repair containers in Iraq, responsible personnel sometimes did not comply with inspection policies or update the

container's serviceability status in the database. At four bases in Iraq, 50 percent of the serviceability or damage status codes were not accurately recorded in the database. This could hinder command's ability to make informed decisions in determining the number of seaworthy containers needed to support the drawdown. Deploying units had sufficient procedures in place to pack containers containing unit organizational equipment. However, personnel responsible for packing containers with excess retrograde sometimes did not follow procedures and often made little to no attempt to block or brace the contents to prevent shifting and damage during transit. Consequently, containers frequently arrived at their destination with contents in complete disarray. As a result, contents in serviceable or repairable condition shipped from Iraq may become damaged or destroyed during transit, causing a financial loss to the Army. The Office of the Deputy Chief of Staff, G-4 provided the official Army position and agreed with the report and the recommendations.

Excalibur Accountability Gap

*(A-2011-0048-ALL,
ISSUED DECEMBER 17, 2010)*

This report is protectively marked For Official Use Only (FOUO). USAAA performed this audit at the request of the Program Executive Officer–Ammunition. The audit addressed the disposition of several missing Excalibur ammunition rounds in Iraq and processes and procedures established for accountability for Excalibur rounds. One missing Excalibur round was located in Kuwait. The final disposition of the other rounds remained unknown because there was no audit trail, as activities were required to maintain records for only 24 months. During the audit U.S. Central Command, Army Central Command and the Army's Deputy Chief of Staff, G-4 took actions to strengthen accountability for Excalibur rounds. Despite these positive actions, several accountability issues remained unaddressed. Insufficient controls over drawing ammunition and inaccurate coding resulted in the 1st

Brigade Combat Team, 3rd Infantry Division in Iraq recording only 51 percent of its ammunition in its property books and not recording serial numbers for Excalibur rounds. In addition, one ammunition supply point lost accountability for ammunition, including Excalibur, because it did not have effective internal controls over its processes. Command activities agreed with the key recommendations. The Deputy Chief of Staff, G-4 provided the official Army position and agreed with the recommendations, comments and proposed actions.

Management and Visibility of Government Property Provided to the Contractor Performing Base Support Operations in Kuwait

(A-2011-0030-ALL, ISSUED DECEMBER 1, 2010)

This report is protectively marked For Official Use Only (FOUO). USAAA performed this audit at the request of the Office of the Deputy Chief of Staff, G-4; Commander, 408th Contracting Support Brigade; and Commander, Area Support Group–Kuwait. USAAA reported that the contractor did not properly account for and manage the approximate \$616 million of government property it was responsible for under the contract. This occurred because the government did not properly manage the contract to ensure the contractor maintained accurate accountability for the property it was responsible for managing. As a result, the Army was not aware of the total amount of property provided to the contractor and there was no assurance the contractor properly managed the property. In addition, the Army did not have sufficient oversight of the property provided to the contractor because the Army property book officer and property administrator did not establish a fiduciary account in the theater property book which is used to identify all property provided to contractors in support of Operation Enduring Freedom and Operation Iraqi Freedom.

Commander's Emergency Response Program (CERP), U.S. Forces-Afghanistan (USFOR-A)

*(A-2011-0020-ALL,
ISSUED NOVEMBER 16, 2010)*

This report is protectively marked For Official Use Only (FOUO). The Deputy Commanding General, USFOR-A, requested the audit. USAAA reported USFOR-A inherited a program without performance measures or a system to show positive or negative relationships between CERP-funded projects and stability operations, and external studies indicated some projects may not fully assist in accomplishing counterinsurgency (COIN) goals. USAAA also reported CERP funding was sufficient for commander's requirements. USFOR-A returned \$190 million of FY 2009 funds as part of its efforts to attain control over about \$1.04 billion in projects with limited status information due to the prior command's emphasis on obligating dollars to projects without tracking them. Headquarters, DA and USFOR-A had ongoing actions to address skill-set and training shortfalls resulting in incomplete projects files and projects funded that may not be permissible CERP projects. USAAA concluded aligning CERP projects towards factors to help Afghanistan achieve stability, and developing a systematic process to gauge if those projects affect stability was key to the program's success if USFOR-A wants to use CERP as a COIN tool. USFOR-A agreed with the report's conclusions and recommendations and took action or was in the process of taking action on the recommendations. The Assistant Secretary of the Army (Financial Management and Comptroller) provided the official Army position and agreed with the report's finding and recommendations.

Fuel Farm Operations, Camp Buehring, Kuwait

*(A-2011-0010-ALL,
ISSUED NOVEMBER 16, 2010)*

This report is protectively marked For Official Use Only (FOUO). The Regional Director of

Investigations, Southwest Asia, Defense Criminal Investigative Service, requested this audit. USAAA reported management controls in place did not provide reasonable assurance that reported fuel inventories were accurate and that access to the fuel farm was limited to authorized personnel. This occurred due to weaknesses in the application of oversight on these contracted operations. DoD investigators had not initiated formal suspension and debarment correspondence on foreign nationals previously involved with fuel theft. As a result, the fuel farm reported recurring out-of-tolerance losses, the potential for undetected fuel theft existed, unauthorized personnel gained access to the fuel farm, and the potential of a force protection issue existed and will remain if the conditions are not corrected. USAAA identified about \$8.9 million in monetary benefits by facilitating the application of existing measures to volume-correct bulk fuel to a standard 60 degrees Fahrenheit. The Office of the Deputy Chief of Staff, G-4 provided the official Army position and agreed with the report's findings, recommendations, and command comments.

Review of USAID/Iraq's Contractors' Compliance With the Trafficking Victims Protection Reauthorization Act of 2008

(E-267-11-002-S, ISSUED DECEMBER 12, 2010)

The William Wilberforce Trafficking Victims Protection Reauthorization Act of 2008 (the Wilberforce Act), Public Law 110-457, requires the Office of Inspector General of USAID to investigate contracts and subcontracts under which there is a high risk that the contractor may engage in acts related to trafficking in persons. The Wilberforce Act requires a review each fiscal year from 2010 until 2012. The review determined that USAID/Iraq had

established internal controls to manage the risk of trafficking in persons on its compound. In addition, there was no indication that contractors and subcontractors on the two USAID/Iraq contracts that employ low-skilled, low-wage third-country nationals engaged in trafficking in persons.

Survey of Incidents Reported by Private Security Contractors of USAID/Iraq's Contractors and Grantees

(E-267-11-001-S, ISSUED NOVEMBER 29, 2010)

Private security contractors (PSCs) operating in Iraq provide security services that include the protection of individuals, life support, office facilities, and nonmilitary transport movements. USAID/Iraq does not maintain any direct contracts with PSCs. Security services were procured by the mission's implementing partners (contractors and grantees), who have primary oversight responsibilities for their security providers.

The purpose of this survey was (1) to determine the number of serious security incidents that occurred between July 1, 2007, and June 30, 2009, and (2) to follow up on the effectiveness of the mission's and implementing partners' actions in implementing recommendations from a prior audit report ("Audit of USAID/Iraq's Oversight of Private Security Contractors in Iraq," E-267-09-002-P, issued March 4, 2009). The survey found that:

- During the 2 years from July 2007 to June 2009, 94 serious security incidents were documented and reported by USAID/Iraq implementing partners and their PSCs.
- USAID/Iraq's implementing partners did not establish procedures to monitor reporting of serious security incidents and did not consistently report incidents as required by USAID OIG's two prior audit recommendations.
- USAID/Iraq had implemented numerous actions (1) to implement USAID OIG's two prior audit recommendations from March 2009 and (2) to provide oversight and direction of the use of private security contractors (PSCs) by its contractors and grantees. Nevertheless, contractor

and subcontractor implementation had not been fully effective.

- Embassy Baghdad had not issued instructions to incorporate the statutory and regulatory requirements for PSC oversight.

The report included five recommendations for USAID/Iraq to require its implementing partners to establish procedures to monitor the reporting of security incidents, provide training for implementing partners to reinforce their responsibilities, require implementing partners to establish and maintain records of reported serious security incidents, provide training for its agreement/contracting officer's technical representatives for their roles, and request Embassy Baghdad to issue instructions for private security contractors in accordance with CFR regulations.

Audit of USAID/Iraq's Payroll Payments to Foreign Service Nationals, Third Country Nationals, and U.S. Personal Services Contractors

(E-267-11-001-P, ISSUED NOVEMBER 22, 2010)

In calendar year 2009, USAID/Iraq paid about \$8.2 million in payroll, benefits, and allowances to third-country nationals, U.S. personal services contractors, and Foreign Service Nationals (locally hired Iraqi staff). The objective of the audit was to determine whether USAID/Iraq had properly calculated and disbursed payroll payments to its Foreign Service Nationals, third-country nationals, and U.S. personal services contractors in accordance with established regulations, policies, and procedures. To answer the audit objective, USAID OIG selected statistically projectable samples (from the 90 percent to the 100 percent confidence level) from the universes of payments, and USAID OIG verified whether individual payroll transactions had been properly computed.

The audit found that payroll and allowances to third-country nationals and U.S. personal services contractors totaling about \$7.1 million were generally accurate. Inaccurate payments and

systemic errors were found for payroll and benefits for local Iraqi staff totaling \$1.1 million. The report included 8 recommendations to improve controls for overtime approvals, improve controls to detect potential errors, and to either collect or pay for over or under payments.
