This training is conducted within the CONUS, primarily at military training facilities and outside the CONUS by mobile education or training teams and at selected U.S. facilities overseas.
227. P.L. 112-10 appropriated \$1.5 billion, but amounts above \$1.0 billion were contingent on the GOI’s demonstration of sufficient commitment to improving sustainment and logistics capabilities.

  242. A commitment is an administrative reservation of funds based on firm procurement requests, orders, directives, and equivalent instruments. In the case of ISFF-funded purchases, funds are reserved pending formal obligations. OSC-I provided its ISFF commitments to SIGIR Audits in March and July, 2012 as a part of ongoing SIGIR work. The cumulative “obligations and commitments” provide a better view of the ISFF project pipeline than just obligations, and the amounts are higher than the obligations totals provided by OUSD(C) for the quarters ended March 31 and June 30, 2012.
