${ }^{1}$ Of the 9,221 public libraries, 7,469 were single outlet libraries and 1,752 were multiple outlet libraries. Single outlet libraries are a central library, bookmobile, or books by mail only outlet. Multiple outlet libraries have to or more direct service outlets including some combination of single outlet libraries. ${ }^{2}$ Per capita rate and per 1,000 population based on total unduplicated population of legal service area given by the state library agency of each state. ${ }^{3}$ The average per stationary outlet was calculated by dividing the total number of public use Internet computers in central and branch outlets by the total number of such outlets.

June 2010. See also [http://harvester.census.gov/imls/pubs/pls/index.asp](http://harvester.census.gov/imls/pubs/pls/index.asp).

[^0]:    ${ }^{1}$ The sum of central and branch libraries. The total number of central libraries was 9,042 ; the total of branch libraries was $7,629 .{ }^{2}$ Includes income from the federal government ( $0.4 \%$ ) and other sources ( $8.2 \%$ ), not shown separately. ${ }^{3}$ Full-time equivalents. ${ }^{4}$ Librarians with master's degrees from a graduate library education program accredited by the American Library Association (ALA). Total librarians, including those without ALA-MLS, were $47,926 .{ }^{5}$ The average per stationary outlet was calculated by dividing the total number of public use Internet computers in central and branch outlets by the total number of such outlets.
