<sup>1</sup> Includes other races, not shown separately. <sup>2</sup> Data reflect implementation of Census 2000-based population controls and a 28,000 household sample expansion to 78,000 households. <sup>3</sup> Beginning with the 2003 Current Population Survey (CPS), the questionnaire allowed respondents to choose more than one race. For 2002 and later, data represent persons who selected this race group only and exclude persons reporting more than one race. The CPS in prior years allowed respondents to report only one race group. See also comments on race in the text for Section 1. <sup>4</sup> Data represent White alone, which refers to people who reported White and did not report any other race category. <sup>5</sup> Data represent Black alone, which refers to people who reported Black and did not report any other race category. <sup>6</sup> Data represent Asian alone, which refers to people who reported Asian and did not report any other race category. <sup>7</sup> People of Hispanic origin may be any race.
