

Emergency Preparedness Response Course (EPRC) Courses

Emergency Preparedness Response Course (EPRC) for CBRNE Basic/Awareness Course

This course provides an overview of the different types of Chemical, Biological, Radiological, Nuclear, or high-yield explosives (CBRN) threats, information on how to prepare for and recognize a CBRNE threat, and instructions on the protective measures. It also explains disaster management and the actions it take to prepare for, respond to and recover from an all-hazards incident. The course is presented in accordance of the Tri-Service CBRNE Medical Training Program and meets training requirements for DoD Civilians non-medical/non-security civilian employees and contractors within the Military Healthcare System (MHS) to include but not limited to housekeepers, office workers and facility workers.

2 hours

Emergency Preparedness Response Course (EPRC) for CBRNE Short Course

Refresher/Sustainment course is designed to prepare personnel to effectively respond to an all-hazards incident including those emanating from chemical, biological, radiological, nuclear, or high-yield explosives (CBRNE) sources. This course also explains the current global threat of CBRNE use, the characteristics and effects of threat agents, principles of personal protection, agent detection, recognition and emergency treatment of agent exposure, and the principles of triage and decontamination of CBRNE agent casualties. The course is presented in accordance of the Tri-Service CBRNE Medical Training Program and meets sustainment training requirements for medical DoD civilian and military personnel assigned to medical units, both fixed and operational.

1 day

Emergency Preparedness Response Course (EPRC) for CBRNE Executive Commander Course

This is provides an overview of the National Incident Command System, National Response Framework, and the response from at the local, State, and National levels during an all-hazards incident. It describes how DSCA fits into the missions of homeland security (HLS) and homeland Defense (HLD) and describes how DoD supports HLS and HLD missions to provide civil support. The course is presented in accordance of the Tri-Service CBRNE Medical Training Program and meets training requirements for military executives and commanders working within the Military Healthcare System (MHS).
